Tata AutoComp Posts $2-Billion Revenue in FY23, its Highest Ever

Strong results come after Tata co has transformed itself from commodity business model to tech-focused firm

Kala.Vijayraghavan
@timesgroup.com

Mumbai: Tata AutoComp Systems is estimated to have posted revenue of close to $2 billion in fiscal year 2023, its highest on record, on the back of a transformation from a commodity-driven business model to a technology-focused one.

The market leadership achieved recently by its anchor customer, Tata Motors, in electric vehicles (EVs) boosted its fortunes as a significant component supplier offering end-to-end solutions for EVs, chairman Arvind Goel said. The company has localised components for almost 80% of EV manufacturing except cells for the battery pack and magnets for the motors, Goel told ET. "This year, we have invested in creating our own portfolio of vehicle and power electronics," he said.

The Tata Group company makes automotive components and systems like engine cooling solutions, automotive batteries, EV chargers and electronic solutions for passenger and commercial vehicles as well as suspensions for heavy commercial vehicles.

"Our transformation journey began in 2018 after our group chairman N Chandrasekaran suggested that we look at financial fitness and focus on building technology. That turned the thinking of the company from a commodity-driven to a technology-driven company. We developed our strategy keeping in mind the emerging mega trends around CASE (connected vehicles, autonomous driving, electrification shared mobility) as well as the ESG (environmental, social and governance) guidelines impacting the auto industry. Among these, we selected to work on electrification as besides being the fastest emerging trend, it also met the ESG compliance," Goel said.

"We have made significant investments over the last two years in innovation and technology. Our organisational transformation is not only restricted to products and technology, but the way we operate," he said.

Tata AutoComp formed new joint ventures with Gotion Hi-Tech to bring in battery packs and BMS and with Prestolite Electric for electric motors and drivetrain. It also signed a memorandum of understanding with Tellus to market EV chargers in India.

The company strengthened its existing portfolio to launch products and solutions to meet emerging requirements.

Parliamentary Panel Calls for 'Reasonable' Cap on Air Fares

Jatin.Takkar
@timesgroup.com

New Delhi: The civil aviation ministry should introduce "reasonable upper fare caps" on all airlines to promote accessibility of air transport to the common man, a parliamentary panel recommended in its report tabled in Parliament on Thursday.

The ministry should also devise a mechanism to encourage all airlines to implement the 'price lock' option wherein customers can reserve their booking with or without paying a nominal fee, the Parliamentary Standing Committee on Transport, Tourism and Culture said in its report tabled on Thursday. This would help customers make better travel decisions by allowing them to book tickets by reserving seats without paying for the actual price of the ticket upfront.

To promote "accessibility of air transport to the common man", the panel, led by YSRCP MP V Vijaysai Reddy, in its report said, "the Union Civil Aviation Ministry should introduce reasonable upper fare caps on all airlines, taking into account all relevant factors including the cost of operation, characteristics of service, reasonable profit and the generally prevailing tariff..."

It is essential to maintain a pricing discipline to protect the interests of both airlines and the public, the 31-member committee has stated.
