EXECUTIVE CHAIRMAN'S LETTER

Dear Shareholders, Partners, and Stakeholders,

As I reflect on FY 2025–26, I do so with a sense of confidence shaped not merely by the progress we have made, but by the resilience and discipline with which we have navigated an increasingly dynamic global environment. Despite persistent volatility in commodity prices, evolving consumer preferences, and geopolitical uncertainties, CCL Products (India) Limited (CCL) has remained steadfast in its commitment to creating long-term value through operational excellence, prudent financial management, and strategic execution.

The past year reaffirmed an important belief that has guided us throughout our journey—that enduring success is built not by reacting to short-term market movements, but by consistently strengthening the fundamentals of the business. Our focus has remained on improving operational efficiencies, investing in capabilities, nurturing customer relationships, and preparing the organisation for sustained growth in the years ahead.

Building Strength Through Disciplined Execution

The coffee industry continued to experience significant fluctuations during the year, driven by elevated green coffee prices, supply-side disruptions, inflationary pressures, and changing global trade dynamics. These conditions demanded agility, thoughtful decision-making, and disciplined execution across every aspect of our operations.

Our teams responded with remarkable focus, ensuring uninterrupted service to customers while safeguarding operational efficiency and maintaining financial discipline. Rather than pursuing growth at any cost, we remained committed to profitable and sustainable expansion, supported by a healthy balance sheet, prudent capital allocation and a long-term strategic perspective. This disciplined approach has further strengthened the resilience of our business and reinforced the trust that customers, partners, and investors continue to place in CCL.

Financial Performance

Against the backdrop of a dynamic operating environment, CCL delivered another year of strong financial performance, reflecting the resilience of our business model and the disciplined execution of our long-term strategy. On a consolidated basis, the Company recorded revenue from operations of ₹ 4,457.37 crore, compared to ₹ 3,105.75 crore in the previous year, representing a robust growth of approximately 43.5%.

The Company's operating performance remained equally encouraging, with EBITDA increasing to ₹741.37 crore from ₹563.54 crore in FY 2024–25. Consolidated Profit After Tax stood at ₹ 388.11 crore, as against ₹ 310.34 crore in the previous year, reflecting a growth of approximately 25.1%. This performance was supported by improved operational efficiencies, a favourable product mix, disciplined cost management, and sustained demand across both domestic and international markets.

Our continued focus on efficient capital deployment also resulted in a significant improvement in Return on Capital Employed (ROCE), which increased to 22.15% from 18.21% in the previous financial year. These results underscore the Company's ability to create sustainable value while maintaining financial discipline in an evolving business environment.

The year's performance reflects not only the strength of our business model but also the dedication of our employees, the confidence of our customers, and the continued trust of our shareholders. As we look ahead, we remain committed to building on this momentum through disciplined execution,

“Our continued focus on efficient capital deployment also resulted in a significant improvement in Return on Capital Employed (ROCE), which increased to 22.15% from 18.21% in the previous financial year.”

strategic investments, and a long-term focus on sustainable and profitable growth.

Enhancing Capabilities for the Future

One of the defining aspects of the year was our continued focus on strengthening the capabilities that will shape CCL's next phase of growth. As the facility becomes fully integrated into our operations, it further strengthens our supply chain resilience while expanding our ability to address growing demand across international markets.

Alongside capacity enhancement, we continued investing in process innovation to improve product quality and operational performance. The commissioning of an advanced cryogenic grinding system marks another important step in our pursuit of manufacturing excellence, enabling superior product consistency, improved blending capabilities, and enhanced production efficiency while supporting environmentally responsible operations.

These initiatives reflect our belief that long-term competitiveness is built through continuous investment in technology, innovation, and operational excellence.

Sustainability as a Business Responsibility

Sustainability continues to evolve from an operational priority into a strategic business imperative. Throughout the year, we strengthened our efforts to reduce environmental impact by implementing initiatives focused on energy efficiency, renewable energy adoption and responsible resource utilisation.

The commissioning of an advanced vapour compression refrigeration system has substantially reduced steam consumption and carbon emissions, while our continued investments in solar energy and renewable power reinforce our commitment to building a cleaner and more energy-efficient manufacturing ecosystem. Equally important is our focus on circularity, where the productive utilisation of spent coffee waste demonstrates how environmental responsibility and operational efficiency can go hand in hand.

These initiatives are part of our broader vision of creating a business that grows responsibly while contributing meaningfully to the communities and environments in which we operate.

Preparing for the Next Phase of Growth

Looking ahead, the opportunities before us remain compelling. Global coffee consumption continues to evolve, with increasing

demand for premium products, customised private-label solutions, and branded offerings across both established and emerging markets. These trends align well with CCL's long-term strategy and reinforce our confidence in the future.

In the coming years, our priorities will remain centred on expanding our premium portfolio, strengthening our branded business, deepening relationships with global customers, enhancing operational productivity through greater automation and digitalisation, and continuing to embed sustainability across every aspect of our value chain. At the same time, we are exploring new growth opportunities, including ready-to-drink coffee solutions, customised offerings for international retail partners, and the expansion of our consumer brands into new categories.

While external uncertainties are likely to persist, we believe our diversified business model, strong manufacturing capabilities, disciplined financial approach, and customer-centric philosophy position us well to capture long-term opportunities and create enduring value.

A Note of Gratitude

None of our achievements would have been possible without the dedication and commitment of our people. I extend my sincere appreciation to every member of the CCL family, whose resilience, professionalism, and collaborative spirit continue to drive our progress. Their ability to adapt, innovate, and deliver excellence, even during periods of uncertainty remains one of our greatest strengths.

I also wish to thank our customers and business partners for their continued trust and confidence. Your enduring relationships inspire us to continually raise our standards and pursue excellence in everything we do.

Finally, I express my heartfelt gratitude to our shareholders for your unwavering support and belief in our long-term vision. As we look ahead, we remain committed to building a stronger, more agile, and more sustainable organisation that consistently delivers value while upholding the highest standards of governance and integrity. With a clear strategy, a resilient foundation, and an unwavering commitment to excellence, I am confident that CCL is well positioned to shape an even stronger future.

Thanks & Regards

Our Manufacturing Footprints

At CCL Products, our global manufacturing capabilities are a reflection of our long-term vision to deliver consistent, high-quality coffee products to markets across the world. With state-of-the-art facilities located strategically in India, Vietnam, and Switzerland, we have built a highly integrated and agile manufacturing ecosystem. Each facility is designed to meet diverse market requirements through advanced technology, efficient processes, and a strong focus on quality, traceability, and customization.

Duggirala

Andhra Pradesh, India

Our flagship facility in Duggirala, Guntur District, is home to India's first Freeze-Dried Instant Coffee unit, established in 2005. It has since evolved into a multi-format production hub, manufacturing Spray-Dried, Agglomerated, and Freeze-Dried coffee for bulk and private-label exports to over 90 countries. The plant meets stringent global quality and food safety standards.

Kuvvakolli

Andhra Pradesh, India

To cater to rising demand for premium instant coffee, our Kuvvakolli facility focuses exclusively on Freeze-Dried production. The unit enhances capacity while ensuring superior aroma retention and granule consistency for discerning global markets.

Dak Lak

Vietnam

Our Vietnam plant, operated by Ngon Coffee Company, is strategically located in the heart of a major coffee-growing region. It produces both Spray-Dried and Freeze-Dried coffee with a focus on efficiency, customization, and sustainability. Its location enables streamlined sourcing and agile distribution across East and Southeast Asia, and Latin America.

Les Verrières

Switzerland

Continental Coffee S.A. specializes in Agglomerated and Granulated Instant Coffee, with additional capabilities in sourcing and customizing Spray-Dried and Freeze-Dried variants. Leveraging Europe's quality standards, the unit serves premium private-label clients across the continent with tailored, value-added solutions.

A dynamic composition of coffee beans in mid-air, creating a splash of liquid coffee. The beans are dark brown and glossy, with some showing the characteristic crack. The splash is a lighter brown color, with droplets of coffee frozen in time. The background is a clean, light beige with subtle, thin, curved lines that sweep across the upper left quadrant. The overall aesthetic is modern and sophisticated, with a focus on the textures and movement of coffee.

Communication in this regard has been sent to all physical holders whose folios are not KYC compliant at the latest available address/email-id. Members are once again requested to update their KYC details by submitting the Investor Service Request (ISR) Forms, viz. ISR-1, ISR-2, ISR-3/SH-13, as applicable, duly complete and signed by the registered holder(s) to the Company's RTA, on or before Saturday, August 29, 2026, so that the KYC details can be updated in the folios before the cut-off date of Tuesday, September 01, 2026. ISR Forms can be accessed from our RTA's website at www.vccipl.com.

Note: To mitigate unintended challenges on account of freezing of folios, SEBI vide its Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2023/181 dated November 17, 2023, has done away with the provision regarding freezing of folios not having PAN, KYC, and Nomination details

8. TDS related information

Members may note that as per the Income Tax Act, 1961, as amended by the Finance Act, 2020 and as re-enacted under the Income Tax Act, 2025 (Income Tax Act), dividend income is taxable in the hands of the Members and the Company is required to deduct tax at source (TDS) from the dividend paid to the Members at the rates prescribed in the Income Tax Act. In order to enable the Company to determine the appropriate TDS rate as applicable, Members are requested to submit the documents in accordance with the provisions of the Income Tax Act and Rules thereunder:

i. For Resident Members:

Tax shall be deducted at source under Section 393(1), Table Sr. No. 7 of the Income Tax Act at 10% on the amount of dividend declared and paid by the Company during FY 2026-27, subject to PAN details registered/ updated by the Member. If PAN is not registered/ updated in the demat account/ folio as on the cut-off date, TDS would be deducted @ 20% as per Section 397 of the Income Tax Act.

No tax at source is required to be deducted, if aggregate dividend paid or likely to be paid during the financial year to individual member does not exceed ₹ 10,000/- (Rupees Ten Thousand Only).

In case of individual shareholders, who are mandatorily required to have their PAN-Aadhaar linked and have not done so, their PAN would be

considered as inoperative. Such inoperative PANs would be considered as invalid and a higher TDS rate as per Section 397 of the Income Tax Act would be applied. The Company will rely on the reports downloaded from the reporting portal of the income tax department for checking the validity of PANs / inoperative PANs under Section 397 of the Income Tax Act. Further, in cases where the Shareholder provides declaration in Form 121 (applicable to an Individual above the age of 60 years or any person other than a Company or a Firm), provided that the eligibility conditions are being met, no tax at source shall be deducted subject to the PAN of the member not having an 'In operative' status as per the provisions of Section 262 of the Income Tax Act.

In case PAN of any Member falls under the category of 'Inoperative', the Company shall deduct TDS @ 20% as per Section 262 read with section 397 of the Income Tax Act.

Further, in case of resident member having Order under Section 395 of the Income Tax Act, TDS will be deducted at the rate mentioned in the Order; provided the Member submits copy of the Order obtained from the income-tax authorities.

ii. For Non-resident Members:

Tax at source shall be deducted under Section 393 of the Income Tax Act at the applicable rates. As per the relevant provisions of the Income Tax Act, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) on the amount of dividend payable to Non-resident Members.

Further, in case of Foreign Institutional Investors and Foreign Portfolio Investors, tax shall be deducted at source @ 20% (plus applicable surcharge and cess) under Section 393 (2) of the Income Tax Act.

As per Section 159 of the Income Tax Act, Non-resident Members may be entitled to avail lower TDS rate as per Double Taxation Avoidance Agreement (hereinafter referred to as 'DTAA' or 'Tax Treaty'). To avail the Tax Treaty benefits, the Non-resident Member will have to provide the following:

- Copy of self-declaration in Form 41 filed electronically on the Income Tax portal for FY 2026-27 as per Rule 75 read with Rule 332 of Income Tax Rules, 2026 (along with copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country, of which the shareholder is resident, to be attached as a mandatory online filing requirement) if all the details required in this form are not mentioned in the TRC,

- Copy of valid TRC (for FY 2026-27 or calendar year 2026)
- Self-attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income Tax authorities
- Self-declaration in the format, certifying the following points
 - i) Shareholder is and will continue to remain a tax resident of the country of its residence during the FY 2026-27;
 - ii) Shareholder has no reason to believe that his/her claim for the benefits of the DTAA is impaired in any manner;
 - iii) Shareholder is the ultimate beneficial owner of his/her shareholding in the Company and dividend receivable from the Company; and
 - iv) Shareholder does not have a taxable presence or a permanent establishment in India during the FY 2026-27.

iii. For all Members:

In the event of any income tax demand (including interest, penalty, etc.) arising from any misrepresentation, inaccuracy or omission of information provided / to be provided by the Member(s), such Member(s) will be responsible to indemnify the Company and also provide the Company with all information / documents and co-operation in any proceedings.

Members holding shares under multiple accounts under different status / category and single PAN, may note that, higher of the tax as applicable to the status in which shares are held under a PAN will be considered on their entire holding in different accounts.

In case of any discrepancy in documents submitted by the Member, the Company will deduct tax at higher rate as applicable, without any further communication in this regard.

In case of joint Members, the member named first in the Register of Member is required to furnish the requisite documents for claiming any applicable beneficial tax rate.

- iv.** The Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction/ withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness

and satisfactory review by the Company, of the documents submitted by the Non-resident Member.

- v.** In order to enable the Company to determine the appropriate TDS/ withholding tax rate applicable, Members are requested to provide the aforesaid details and documents on or before Saturday, August 29, 2026, to the Company's RTA. No communication on the tax determination/ deduction shall be entertained post Saturday, August 29, 2026. Members may note that in case the tax on said dividend is deducted at a higher rate due to non-receipt of the aforementioned details/ documents, there would still be an option available to the Member to file the return of income and claim an appropriate refund, if eligible.
 - vi.** In accordance with the provisions of the Income Tax Act, TDS certificates can be made available to the Members at their registered E-mail ID after filing of the quarterly TDS Returns of the Company, post payment of the said Dividend.
 - vii.** The Company will be sending a separate E-mail communication informing the Members regarding the relevant procedure to be adopted by the Members to avail the applicable tax rate as per the Income Tax Act.

The said Resolution / Authorization shall be sent to the Scrutinizer by e-mail to csmbsunil@gmail.com with a copy marked to investors@continental.coffee. Institutional Members/ Corporate Members can also upload their Board Resolution/Power of Attorney/ Authority Letter, by clicking on "Upload Board Resolution/ Authority letter", etc., displayed under 'e-Voting' tab in their Login.
16. Only registered Members of the Company may attend and vote at the AGM through VC/OAVM facility.
17. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company as on Tuesday, September 01, 2026, (cut-off date) will be entitled to vote during the AGM.
18. Members attending the AGM through VC/OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
19. As per the provisions of Section 72 of the Act and SEBI Circular, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. If a Member desires to opt out or cancel the earlier nomination and record a fresh nomination, he/she may submit the same in ISR-3 or SH-14 as the case may be. The said forms can be downloaded from the website of the RTA at www.vccipl.com. Members are requested to submit the said details to their DPs in case the shares are held by them in dematerialized form and to the Company's RTA in case the shares are held by them in physical form, quoting their folio number.
20. SEBI has vide its Master Circular No. HO/38/13/(4)2026-MIRSDPOD/I/4298/2026 dated February 6, 2026, issued a Standard Operating Procedure ("SOP") for dispute resolution under the Stock Exchange Arbitration Mechanism for disputes between a listed company and/or RTA and its shareholder(s)/investor(s). The circular streamlines and strengthens the dispute resolution mechanism in the Indian securities market and enhances the degree of regulatory supervision by SEBI over such disputes. Further, the Online Dispute Resolution ("ODR") mechanism prescribed therein provides that the arbitral order shall be binding on all parties to the dispute.

Pursuant to above-mentioned circulars, the aggrieved party can initiate the mechanism through the ODR portal, after exercising the primary options to resolve the issue directly with the Company and through the SCORES platform.
21. Transfer of Unclaimed/Unpaid amounts to the Investor Education and Protection Fund (IEPF):

Members are requested to note that dividends not encashed or remaining unclaimed for a period of 7 (seven) years from the date of transfer to the Company's Unpaid Dividend Account, shall be transferred to the Investor Education and Protection Fund ("IEPF") established by the Central Government. Further, pursuant to the provisions of Section 124 of the Act read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ('IEPF Rules') as amended from time to time, all shares on which dividend has not been paid or claimed for seven consecutive years or more shall be transferred to IEPF Authority as

notified by the Ministry of Corporate Affairs. In view of this, Members are requested to claim their dividend from the Company, within the stipulated timeline.

The Members/Claimants whose shares and/or unclaimed dividend have been transferred to IEPF may claim the shares or apply for refund by making an application to IEPF Authority in Form IEPF 5 which is available on www.iepf.gov.in and on the website of the Company www.cclproducts.com along with requisite fee as decided by it from time to time.

It may be noted that once the unclaimed dividend is transferred to IEPF as above, no claim shall rest with the Company in respect of such amount. It may also be noted that the unclaimed dividend amount which was lying with the Company upto and in respect of the year ended on March 31, 2018 (Final Dividend) and Interim Dividend for the FY 2018-19 have already been transferred to the IEPF. The details of the unclaimed dividends are available on the Company's website at www.cclproducts.com and on the website of Ministry of Corporate Affairs at www.mca.gov.in. Members are requested to contact the Company's Registrar and Share Transfer Agent or the Company to claim the unclaimed/unpaid dividends.

30. Retirement of Directors by rotation: Smt. Challa Shantha Prasad, Non-Executive Director and Sri B. Mohan Krishna, Executive Director of the Company, retire by rotation at the ensuing Annual General Meeting and, being eligible, offer themselves for re-appointment. The Board of directors recommend their re-appointment.

INSTRUCTIONS FOR SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

- (i) The voting period (remote e-voting) begins on Saturday, September 05, 2026, at 09:00 A.M. and ends on Monday, September 07, 2026, at 05:00 P.M. During this period shareholders of the Company holding shares either in physical form or in dematerialized form, as on the **cut-off date i.e., Tuesday, September 01, 2026**, may cast their vote electronically. The Remote e-voting module shall be disabled by CDSL for voting thereafter. However, the e-voting module shall be enabled for voting by the members during the AGM which shall continue till 15 minutes upon conclusion of the Meeting.
- (ii) The Board of Directors has appointed Mr. M.B. Suneel, Practising Company Secretary, to act as Scrutinizer to conduct and scrutinize the electronic voting process in connection with the ensuing Annual General Meeting in a fair and transparent manner. The members desiring to vote through electronic mode may refer to the detailed procedure on e-voting given hereunder.
- (iii) Shareholders who have already voted prior to the meeting date would not be entitled to vote during the AGM.
- (iv) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of the Listing Regulations, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

DIRECTORS' REPORT FOR THE FINANCIAL YEAR 2025-26

The Board of Directors is pleased to present your Company's report on business and operations along with audited financial statements (standalone and consolidated) for the financial year ended March 31, 2026.

Financial Highlights & State of Affairs

- a. The financial highlights of your Company for the year ended March 31, 2026, on Standalone and Consolidated basis are summarized below:

i) **Standalone basis**

(₹ in Lakhs)

Particulars	FY 2025-2026	FY 2024-2025
Revenue from operations	2,21,605	1,71,800
Profit for the year (before Interest, Depreciation & Tax)	47,407	24,796
Less:		
Interest	6,900	6,881
Depreciation	5,595	4,870
Provision for Taxation (including deferred tax)	6,193	3,815
Net Profit	28,719	9,230

ii) **Consolidated basis**

(₹ in Lakhs)

Particulars	2025-2026	2024-2025
Revenue from operations	4,45,737	3,10,575
Profit for the year (before Interest, Depreciation & Tax)	74,137	56,355
Less:		
Interest	12,875	11,283
Depreciation	15,193	9,846
Provision for Taxation (including deferred tax)	7,259	4,192
Net Profit	38,810	31,034

As evident from the tables above, your Company recorded another year of remarkable success. Whether in terms of operational revenue or in terms of profitability, your Company has logged historical increase over its previous year's figures.

If analysed on a Standalone basis, your Company recorded a turnover of ₹ 2,21,605 Lakhs for the FY 2025-26, thus registering a growth of approx. 30% vis a vis the previous years turnover of ₹ 1,71,800 Lakhs. The Net profit for the FY 2025-26 registered a growth of more than 200% over its previous year's figures, supported by a dividend income of ₹ 16,284.02 Lakhs received from M/s. Ngon Coffee Company Limited during the year.

At a consolidated level, the turnover stood at ₹ 4,45,737 Lakhs and the net profit stood at ₹ 38,810 Lakhs. The turnover registered a growth of more than 43% and the Net Profit increased by 25% over the respective figures for the FY 2024-25.

b. **Capex**

Your Company has spent an amount of ₹ 34.75 Crores towards its capital expenditure requirements.

c. **Business Review :**

FY 2025-26 continued to be a year of dynamic operating environment, characterised by continued volatility in green coffee prices, evolving supply conditions, competitive pressures and geopolitical uncertainties. Despite these challenges, your Company demonstrated strong operational resilience, sustaining its growth momentum and profitability. Capacity expansions completed in the previous year are now strengthening the Company's ability to meet growing customer demand and support its next phase of growth.

During the year, the Company continued to strengthen its product mix and value proposition, with increased focus on value-added coffee formats, product innovation and differentiated offerings across markets. This approach enabled the Company to address diverse consumer and customer requirements while strengthening its market position across its global portfolio.

d. **Global Coffee Scenario**

FY 2025-26 witnessed continued volatility in the global coffee market, with prices remaining elevated despite signs of improving supply conditions and some moderation from the exceptionally high levels seen in the first 3 quarters. Global coffee trade remained resilient, supported by sustained underlying demand, although weather-related risks, geopolitical developments and supply-chain disruptions continued to create uncertainty.

Looking ahead, global coffee demand is expected to remain resilient, supported by evolving consumption patterns, increasing penetration of instant and convenient coffee formats, product innovation and growth across

emerging markets. At the same time, climate change and supply-side constraints remain important structural considerations for the industry. These dynamics continue to create opportunities for companies with strong sourcing capabilities, manufacturing flexibility, global scale and the ability to address diverse consumer and customer requirements.

In the Indian domestic market, the branded business maintained healthy growth, supported by increasing consumer engagement across e-commerce and direct-to-consumer (D2C) channels. These developments, together with continued investments in quality, innovation and brand building, provide a strong foundation for sustainable long-term growth.

Dividend

As you are aware, an interim dividend of ₹ 2.75/- per equity share of nominal value ₹ 2/- each was paid during the FY 2025-26.

Further, your Board of Directors has recommended a final dividend of ₹ 3/- per equity share, i.e., 150% of nominal value ₹ 2/- per share, in its meeting held on May 07, 2026, subject to the approval of the members in the forthcoming Annual General Meeting. If approved, the cash outflow on account of dividend for the said year will be ₹ 76,77,85,540. For the FY 2024-25, your Company paid ₹ 5/- per equity share, whereas for the FY 2025-26, the total dividend (i.e., interim dividend of ₹ 2.75/- per equity share and a final Dividend of dividend of ₹ 3/- per equity share) aggregates to ₹ 5.75/- per equity share, thus an increase of 15% in terms of per share dividend.

The record date for the purpose of payment of final dividend for the financial year ended March 31, 2026, has been fixed as September 1, 2026. The dividend will be disbursed subject to deduction of Income tax at applicable rates as per provisions of the Income Tax Act.

As per Regulation 43A of the Listing Regulations, your Company has framed a Dividend Distribution Policy, which may be accessed at <https://www.cclproducts.com/wp-content/uploads/2025/04/Dividend-Distribution-Policy.pdf>

Transfer of amount to General Reserves

No amount has been transferred to reserves during the year except ₹54.27 lakhs (FY ₹90.69 lakhs) to ESOPs outstanding account.

Material Changes and Commitments

Save and except as discussed and stated in this Report, there are no material changes and commitments affecting the financial position of your Company that have occurred between the end of the Financial Year 2025-26 and the date of this report.

Share Capital

The paid-up Equity Share Capital of your Company as on March 31, 2026, stood at ₹ 2,670.56 Lakhs, comprising of 13,35,27,920 equity shares of face value of ₹ 2/- each (inclusive of 5,00,000 equity shares issued to CCL Employees Trust). During the year under review, there was no change in the paid-up share capital of your Company. Further, your Company has neither issued any shares with differential voting rights nor sweat equity, during the year under review.

Employee Stock Options

As you are aware, with an intent to promote the culture of employee ownership, create long term wealth in the hands of employees and to motivate and in turn to retain them in the competitive environment, your Company adopted a Scheme under the name and style "CCL Employee Stock Option Scheme – 2022" (the CCL Scheme 2022/ the Scheme) for the benefit of its employees and the employees of its subsidiaries. The said Scheme is in force.

Further, as you are aware, consequent to the implementation of the Scheme of Arrangement between Continental Coffee Private Limited, Demerged Company and CCL Products (India) Limited, Resulting Company, the CCL ESOP Scheme has a pool of 5,00,000 options. Out of the said pool, a total of 6000 options have been granted during the FY 2025-26 and 4,74,310 options have been granted till the date of this Report. After taking into consideration the lapsed / forfeited options, a total of 1,64,922 are available to be granted.

Further, as you are also aware, the Company had allotted 5,00,000 (Five Lakh) equity shares of ₹ 2/- each at a price of ₹ 2/- to M/s "CCL Employees Trust", in FY2022-23 to be eventually transferred to the employees pursuant to the said ESOP Plan. Out of the said shares, the Trust has transferred 21,632 equity shares to its employees upon exercise of options, during the FY 2025-26 and 1,70,436 equity shares till March 31, 2026.

Further, information pursuant to Section 62 of the Companies Act, 2013 read with Rules made thereunder and details of the Scheme as specified in Part F of Schedule – I of SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 are provided as **Annexure I** to this Report and also available on Company's website and may be accessed at <https://www.cclproducts.com/wp-content/uploads/2026/08/Disclosure-on-ESOPs-2025-26.pdf>

It is confirmed that the Scheme is in compliance with the SEBI (Share Base Employee Benefits and Sweat Equity) Regulations, 2021 and during the year under review no material changes were made to the Scheme.

Certificate has been obtained from M/s. P. S. Rao & Associates, Company Secretaries, confirming that the Scheme has been implemented in accordance with the SEBI Regulations and it will be available for inspection by the members during the ensuing Annual General Meeting.

Policy on Director's Appointment, Remuneration and other matters

(a) Procedure for Nomination and Appointment of Directors:

The Nomination and Remuneration Committee has been formed in compliance with Regulation 19 of the Listing Regulations and pursuant to Section 178 of the Act. The main object of this Committee is to identify persons who may be inducted on the Board and who may be appointed in senior management of your Company, recommend to the Board their appointment and removal. The Committee shall carry out evaluation of every Director's performance, recommend the remuneration package of both the Executive and the Non-Executive Directors on the Board and also the remuneration of Senior Management, one level below the Board. The Committee reviews the remuneration package of the Executive Director(s), makes appropriate recommendations to the Board and acts in accordance with the terms of reference prescribed by the Board from time to time.

On the recommendation of the Nomination and Remuneration Committee, the Board has adopted and framed a Remuneration Policy for the Directors, Key Managerial Personnel and other Employees pursuant to the provisions of the Act and the Listing Regulations which is enclosed as **Annexure V** and the same is available on the website of your Company which may be accessed at <https://www.cclproducts.com/wp-content/uploads/2025/04/Nomination-and-Remuneration-Policy.pdf>.

The remuneration of Executive/Non-Executive Directors is based on the recommendation of the Nomination and Remuneration Committee and approval of the Board of Directors. The Non-Executive Directors are compensated by way of Commission as approved by the shareholders and it is within the limits laid down by the Companies Act, 2013. The Non-Executive Directors are entitled to sitting fees for attending meetings of the Board and the Committees. The remuneration paid to Directors, Key Managerial Personnel and all other employees is in accordance with the Remuneration Policy of your Company.

The Managing Director and Executive Director of your Company being directors of Ngon Coffee Company Limited, Vietnam, wholly owned subsidiary, are eligible for profit based commission of 3% and 2.5% respectively for the FY 2025-26, which is permissible under Section 197(14) of the Act.

Except as mentioned above, neither the Managing Director nor any Whole Time Director of your Company received any remuneration or commission from any other Subsidiaries.

Brief terms of Nomination and Remuneration Policy and other matters provided in Section 178(3) of the Act and Regulation 19 of the Listing Regulations have been disclosed in the Corporate Governance Report, which forms part of this Report.

(b) Familiarization/ Orientation program for Independent Directors:

In terms of SEBI Regulations, formal familiarization programs were conducted by the Company for its Independent Directors.

The objective of these programs is to familiarize Independent Directors with the business of your Company, the industry in which your Company operates, business model, challenges etc. through various means such as interaction with subject matter experts, meetings with business leads and functional heads on a regular basis. It is the general practice of your Company to notify the changes in all the applicable laws to the Board of Directors, from time to time.

The details of such familiarization programs for Independent Directors are posted on the website of your Company and web link is <https://www.cclproducts.com/wp-content/uploads/2026/04/Details-of-Familiarization-programmes-imparted-to-Independent-Directors.pdf>

Annual Evaluation of Board Performance and Performance of its Committees and Individual Directors

Pursuant to the provisions of the Act and the Listing Regulations, the Board has carried out the annual performance evaluation of its own performance, the Directors individually as well as the evaluation of the working of its Audit Committee, Nomination and Remuneration Committee and all other Committees.

A structured questionnaire was prepared after taking into consideration, the inputs received from the Directors, covering various aspects of the Board's functioning such as adequacy of the composition of the Board and its Committees, Board culture, execution and performance of specific duties, obligations and governance.

A separate exercise was carried out to evaluate the performance of individual Directors including the Chairman of the Board, who were evaluated on parameters such as level of engagement and contribution, independence of judgment, safeguarding the interest of your Company and its minority shareholders etc. The performance evaluation of the Independent Directors was carried out by the entire Board, excluding the Independent Director being evaluated.

The Nomination and Remuneration Committee reviewed the performance of individual directors on the basis of criteria such as, contribution of the individual director to the Board and Committee meetings, preparedness on the issues to be discussed, meaningful and constructive contribution and inputs in meetings, etc.

In a separate meeting of Independent Directors, performance of Non-Independent Directors, the Board as a whole and the Chairman of your Company was evaluated, taking into account the views of the Executive Director and Non-Executive Directors who also reviewed the performance of the Secretarial Department.

Further, performance evaluation criteria for the independent directors is disclosed in the Report on Corporate Governance forming part of this Annual Report.

The Directors have expressed their satisfaction with the evaluation process.

Nomination and Remuneration Policy

1. Introduction

CCL Products (India) Limited (CCL), believes that an enlightened Board consciously creates a culture of leadership to provide a long-term vision and policy approach to improve the quality of governance.

Towards this, CCL ensures the constitution of a Board of Directors with an appropriate composition, size, diversified expertise and experience and commitment to discharge their responsibilities and duties effectively. CCL recognizes the importance of Independent Directors in achieving the effectiveness of the Board. CCL aims to have an optimum combination of Executive, Non-Executive and Independent Directors.

CCL also recognizes the importance of aligning business objectives with specific and measurable individual objectives and targets. The Company has therefore formulated the remuneration policy for its directors, key managerial personnel and other employees keeping in view the following objectives:

- a) Ensuring that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate, to run the company successfully.
- b) Ensuring that relationship of remuneration to performance is clear and meets the performance benchmarks.
- c) Ensuring that remuneration involves a balance between fixed and incentive pay reflecting short-term and long-term performance objectives appropriate to the working of the company and its goals.

2. Scope:

This Policy sets out the guiding principles for the Nomination and Remuneration Committee for identifying people who are qualified to become Directors and to determine the independence of Directors, in case of their appointment as independent directors of the Company and also for recommending to the Board the remuneration of the directors, key managerial personnel and other employees of the Company.

3. Terms and References:

In this Policy, the following terms shall have the following meanings:

- 3.1 "Director"** means a director appointed to the Board of a Company.

Management Discussion & Analysis (MD&A)

Business Review

FY 2025–26 was marked by a dynamic business environment characterised by resilient global demand, evolving consumer preferences, and continued volatility in commodity markets. Despite external uncertainties, your Company delivered another year of strong operational and financial performance, supported by disciplined execution, a diversified manufacturing network, and sustained focus on operational excellence.

On a consolidated basis, revenue from operations increased to ₹ 4,457.37 crore in FY 2025–26 from ₹ 3,105.75 crore in the previous year, while Profit After Tax rose to ₹ 388.11 crore from ₹ 310.34 crore. EBITDA improved to ₹ 741.37 crore from ₹ 563.54 crore, supported by higher business volumes, an improved product mix, and operational efficiencies. Return on Capital Employed (ROCE) strengthened to 22.15%, reflecting efficient capital deployment and disciplined execution.

During the year, the Company further strengthened its position as a trusted global coffee solutions provider by leveraging its integrated global operations, supported by long-standing customer relationships and a diversified product portfolio. Continued investments in manufacturing excellence, process optimisation, and product innovation enhanced operational efficiency while enabling it to respond effectively to evolving customer requirements.

The domestic-branded business maintained healthy momentum through an expanding retail footprint, growing consumer acceptance, and an increased presence across general trade, modern trade, e-commerce, and direct-to-consumer channels. Export operations also remained resilient, supported by diversified global customers, customised product offerings, and its ability to consistently deliver high-quality coffee solutions across international markets.

Sustainability remained an integral part of the long-term growth strategy. Investments in renewable energy, energy-efficient systems, responsible resource utilisation, and circular economy practices further strengthened operational resilience while reinforcing commitment to environmentally responsible production.

Backed by a resilient business model, prudent financial management, diversified manufacturing capabilities, and a customer-centric approach, your Company remains well positioned to capitalise on emerging opportunities across domestic and international markets while continuing to create sustainable long-term value for all stakeholders.

Global Economic Overview

FY 2025–26 was characterised by a complex global economic environment shaped by geopolitical tensions, evolving trade policies, and persistent uncertainty across major markets. While inflation moderated across several advanced economies

compared to the previous year, global growth remained uneven, with the United States demonstrating resilience, Europe witnessing subdued economic activity, and China continuing to face challenges arising from weaker domestic demand and structural adjustments.

International trade and supply chains remained influenced by geopolitical developments, regional conflicts, fluctuations in freight and logistics costs, and changing trade regulations. Central banks across major economies adopted a cautious monetary policy stance, balancing inflation control with the need to support economic growth. Currency movements, evolving trade dynamics, and regulatory developments continued to influence global business sentiment during the year.

Against this backdrop, the coffee industry experienced elevated commodity price volatility, driven by weather-related supply disruptions in key producing regions and continued strength in global demand. While these conditions increased procurement and inventory management complexities across the value chain, manufacturers with diversified sourcing capabilities, integrated production networks, and strong customer partnerships were better positioned to navigate market volatility.

Demand for instant coffee and value-added coffee products remained resilient across both developed and emerging markets. Consumers continued to favour premium offerings, convenience-oriented products, customised formulations, and sustainably sourced coffee solutions, while private-label coffee maintained healthy momentum across major retail markets.

Your Company continued to manage procurement, production planning, and customer servicing efficiently despite the evolving external environment. Its operational flexibility and integrated operational network strengthened supply chain resilience and reinforced its competitive positioning across international markets.

Although geopolitical and macroeconomic uncertainties may continue to influence near-term business conditions, the long-term outlook for the global coffee industry remains favourable, supported by rising coffee consumption, premiumisation, and sustained demand for differentiated and customised coffee solutions.

Indian Economic Overview

India continued to demonstrate remarkable economic resilience during FY 2025–26, reinforcing its position as one of the world's fastest-growing major economies. Strong domestic demand, sustained public infrastructure investments, favourable policy reforms, and continued momentum in operations and services supported broad-based economic growth despite an uncertain global environment.

Government initiatives aimed at strengthening competitiveness, improving logistics infrastructure, promoting exports, encouraging value-added production, and enhancing ease of doing business continued to improve the nation's attractiveness as a global manufacturing and investment destination. Increased formalisation of the economy, digital transformation, and rising consumer spending further strengthened the country's long-term economic fundamentals.

The food processing and FMCG sectors continued to benefit from changing consumer preferences, increasing urbanisation, rising disposable incomes, and deeper penetration of organised retail and digital commerce. These structural trends created favourable conditions for premium packaged food and beverage categories, including coffee, which continues to witness increasing acceptance across both urban and emerging markets.

India's coffee consumption continued to evolve steadily, supported by changing lifestyles, growing café culture, growing awareness of premium coffee experiences, and increasing preference for convenient beverage solutions. The continued expansion of modern retail, e-commerce, and direct-to-consumer channels further improved consumer access to branded coffee products across the country.

Building on these favourable macroeconomic and consumption trends, your Company continued to strengthen its domestic presence through sustained investments in its branded business, product innovation, distribution expansion, and consumer engagement initiatives. Supported by a resilient business model and strong supply-network capabilities, the Company remains well positioned to capitalise on the long-term growth opportunities offered by the Indian economy and the evolving coffee consumption landscape.

Industry Overview

The global coffee industry continued to demonstrate resilience during FY 2025–26 despite supply-side disruptions, commodity price volatility, geopolitical uncertainties, and changing trade dynamics. Coffee consumption remained healthy across major international markets, supported by increasing premiumisation, evolving consumer preferences, and sustained demand for instant coffee across both developed and emerging economies.

One of the defining features of the year was the significant volatility in green coffee prices. Adverse weather conditions in key coffee-producing countries, lower crop estimates, supply constraints, and changing global inventory levels contributed to elevated raw material prices across the industry. These developments reinforced the importance of diversified sourcing, supply chain resilience, disciplined inventory management, and operational agility for coffee manufacturers worldwide.

The instant coffee segment continues to remain among the fastest-growing categories within the global coffee industry. Consumers increasingly seek products that combine convenience with premium quality, driving demand for freeze-dried coffee, specialty blends, customised formulations, functional coffee products, and other value-added offerings. Retailers across global markets also continue to expand their private-label portfolios, creating attractive opportunities for manufacturers capable of delivering consistent quality, innovation, and customised product solutions at scale.

The Indian coffee market continues to offer significant long-term growth potential. Rising urbanisation, changing lifestyles, increasing preference for premium coffee products, and growing awareness of branded packaged beverages are contributing to higher domestic consumption. The rapid growth of organised retail, e-commerce, and direct-to-consumer channels is further supporting market expansion while creating new opportunities for branded coffee businesses.

Against this industry backdrop, your Company continues to support the global operation network, diversified product portfolio, strong customer partnerships, global sourcing network, and focus on continuous innovation to strengthen its competitive position across domestic and international markets. Its ability to deliver high-quality, customised coffee solutions while maintaining operational flexibility and production capabilities continues to support the Company's long-term growth strategy.

Strategic Milestones

FY 2025–26 was a defining year for your Company, marked by disciplined execution, operational resilience, and strategic progress despite one of the most challenging operating environments for the global coffee industry. While unprecedented volatility in coffee prices, geopolitical developments, and evolving global trade policies created significant market uncertainty, the Company successfully expanded its global presence, customer-centric approach, and agile business model to deliver sustained growth.

Key strategic milestones achieved during the year include:

Expanded Presence Across Emerging Markets

The business accelerated its presence across high-growth international markets, particularly Africa and China, while simultaneously strengthening relationships in existing global markets. This expansion further diversified its revenue base and reinforced its long-term international growth strategy.

Successfully Navigated Global Tariff and Trade Disruptions

Rapid changes in international trade policies, particularly those affecting the United States, created considerable uncertainty across global supply chains. Leveraging Vietnam

as a fungible second manufacturing base, supported by agile sourcing, proactive customer engagement, and commercial interventions, ensured minimal disruption to customer operations while protecting its market position.

Strengthened Global Customer Partnerships

Despite a challenging operating environment, the Company maintained uninterrupted customer service, resilient supply chains, and consistent execution, further strengthening strategic partnerships with leading global retailers and coffee brands while reinforcing its reputation as a trusted partner.

Enhanced Global Market Leadership

Today, CCL products reach customers across more than 110 countries, supported by one of the industry's most diversified platforms. Continued emphasis on value-added products, disciplined portfolio management, and operational excellence contributed to stronger profitability while reinforcing leadership in private label instant coffee.

Continued Investments in Innovation and Manufacturing Excellence

The focus was also on strengthening its integrated manufacturing platform across Vietnam, Switzerland, and India through process optimisation, quality enhancement, product innovation, and operational efficiencies, enabling it to respond effectively to changing customer requirements across international markets.

Advancing Sustainability

The business remained focused on integrating sustainability into its business strategy through renewable energy adoption, resource optimisation, environmentally responsible practices, and responsible sourcing initiatives, thereby strengthening long-term operational resilience and supporting stakeholder expectations.

These milestones reinforce its ability to create sustainable long-term value while strengthening its position as one of the world's leading instant coffee manufacturers.

Growth Drivers & Strategic Priorities

Your Company's growth strategy is anchored in strengthening manufacturing capabilities, fostering innovation, building customer relationships, and maintaining operational agility. Backed by its global production network and a strong focus on customer needs, the Company continues to strengthen its position in the instant coffee industry through the following strategic priorities.

Manufacturing Excellence

Backed by its production facilities across India, Vietnam, and Switzerland, the Company has enhanced production flexibility,

improved capacity utilisation, and strengthened supply chain resilience. Ongoing investments in automation, process improvements, and quality systems have improved operational efficiency while ensuring consistent product quality and timely response to evolving customer needs.

Innovation and Product Development

Innovation remains central to the growth strategy. Continuous investment in research and development has enabled the expansion of premium, freeze-dried, customised, and value-added coffee solutions, allowing the Company to cater to changing consumer preferences across global markets.

Strategic Customer Partnerships

Long-standing relationships with leading retailers, coffee brands, and foodservice customers continue to provide a strong competitive advantage. By delivering consistent quality, customised solutions, and reliable supply, the Company continues to deepen customer engagement while bringing opportunities across existing and new markets.

Distribution and Brand Development

The Company continues to strengthen its branded coffee business through wider distribution, improved retail visibility, and expanding presence across modern trade, general trade, e-commerce, and direct-to-consumer channels. These initiatives complement its leadership in private-label manufacturing while creating additional avenues for long-term growth.

Operational Discipline

Disciplined procurement, prudent capital allocation, efficient capacity utilisation, and continuous cost optimisation remain integral to the strategy, supporting sustainable profitability and long-term shareholder value.

Opportunities

The global coffee industry continues to evolve, presenting attractive long-term opportunities for companies with diversified manufacturing capabilities, innovation-driven product portfolios, and strong customer relationships. Your Company is well positioned to capitalise on the following market opportunities:

1. Expansion Across Emerging Markets

Coffee consumption is steadily increasing across emerging economies, particularly in Africa, China, and other developing regions, supported by rising disposable incomes, urbanisation, and changing lifestyles. The Company's growing presence in these markets provides a strong platform for future expansion.

2. Rising Demand for Premium Coffee

Consumers are increasingly seeking premium coffee experiences, specialty blends, freeze-dried coffee, and customised formulations. This evolving preference is expected to drive sustained demand for higher-value products and strengthen growth in premium categories.

3. Growth in Global Private Label

Retailers worldwide continue to expand their private-label portfolios while seeking reliable partners capable of delivering quality, innovation, and supply consistency. As one of the world's leading private-label instant coffee manufacturers, CCL is well positioned to benefit from this trend.

4. Supply Chain Diversification

Global customers are increasingly diversifying sourcing strategies to mitigate geopolitical and supply chain risks.

5. Sustainability-led Demand

Growing emphasis on responsible sourcing, traceability, renewable energy, and environmentally responsible manufacturing continues to influence purchasing decisions across global markets.

Risk Management

Your Company operates in a dynamic global business environment where effective risk management remains integral to sustainable growth and long-term value creation. The Risk Management Committee periodically reviews the risk framework to identify emerging risks, evaluate their potential impact, and strengthen mitigation measures. Supported by robust governance practices, diversified operations, disciplined financial management, and continuous monitoring, it remains well positioned to address business uncertainties.

1. Commodity Price Risk

The coffee industry remains exposed to fluctuations in green coffee prices arising from weather-related disruptions, crop yields, geopolitical developments, currency movements, and global supply-demand dynamics. Sustained volatility in raw material prices may impact procurement costs and operating margins.

Mitigation Strategy

The Company follows a diversified sourcing strategy supported by long-standing supplier relationships across multiple geographies. Continuous monitoring of commodity markets, prudent inventory management, strategic procurement planning, and effective customer engagement enable the Company to manage raw material price volatility while maintaining business continuity and protecting profitability.

2. Foreign Exchange Risk

A significant portion of revenues is generated through exports, making its financial performance sensitive to fluctuations in foreign exchange rates.

Mitigation Strategy

Foreign exchange exposures are managed through a well-defined treasury framework comprising natural hedges, forward contracts, continuous monitoring of currency movements, and prudent risk management practices. These measures help minimise the impact of exchange rate volatility on business performance.

3. Supply Chain Risk

Global supply chains continue to face disruptions arising from geopolitical uncertainties, logistics constraints, transportation challenges, and evolving trade regulations, which may affect procurement and timely deliveries.

Mitigation Strategy

The business's varied production presence across India, Vietnam, and Switzerland, combined with a geographically diversified supplier base, strengthens supply chain resilience. Long-term customer relationships, integrated production planning, and proactive logistics management further enhance operational continuity.

4. Market Competition

The global coffee industry remains highly competitive, with increasing emphasis on product innovation, quality, sustainability, and customer responsiveness.

Mitigation Strategy

The business remains focus to strengthen its competitive position through continuous product innovation, customised solutions, superior quality standards, operational excellence, and long-standing customer partnerships. Investments in branded products and value-added offerings further diversify growth opportunities.

5. Regulatory and Compliance Risk

Operating across multiple international markets requires continuous compliance with changing regulatory, environmental, food safety, and trade requirements.

Mitigation Strategy

A comprehensive governance framework, supported by dedicated compliance teams, periodic internal reviews, external certifications, and regular monitoring of regulatory developments, enables the Company to maintain high standards of compliance across all operations.

6. Climate Risk

Climate change, changing environmental regulations, and increasing stakeholder expectations continue to influence the global coffee value chain.

Mitigation Strategy

The brand remains committed to responsible manufacturing through renewable energy adoption, resource conservation, efficient water management, waste reduction initiatives, and environmentally responsible business practices.

Financial Performance

Despite operating in one of the most challenging years for the global coffee industry, marked by unprecedented coffee price volatility, evolving global trade policies, and geopolitical uncertainties, your Company delivered another year of strong financial performance through disciplined execution, operational excellence, and a resilient global business model.

The details of significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios, along with detailed explanation are as follows:

Standalone Ratios

Financial Ratios	2025-26	2024-25	Change (%)	Reason for Change
Debt Equity Ratio	0.45	0.72	-37.20%	The change in the ratio is primarily attributable to reduction in debt levels and improved profitability during the period.
Return on Net Worth	22.39%	8.02%	179.26%	The change in ratio is primarily attributable to higher sales leading to higher profitability and also dividend income from subsidiary
Net Profit Margin Ratio	12.96%	5.37%	141.22%	The change in ratio is primarily attributable to higher sales leading to higher profitability and also dividend income from subsidiary

Consolidated Ratios

Financial Ratios	2025-26	2024-25	Change (%)	Reason for Change
Debt Equity Ratio	0.56	0.92	-38.77%	The change in the ratio is primarily attributable to reduction in debt levels and improved profitability during the period.
Inventory Turnover Ratio	2.77	2.00	38.51%	The improvement in the ratio is primarily attributable to higher consumption/sales during the period coupled with more efficient inventory management, resulting in better inventory utilization.

On a consolidated basis, Revenue from Operations increased to ₹4,457.37 crore during FY 2025-26 from ₹3,105.75 crore in the previous year, registering a growth of 43.52%. The increase was primarily driven by higher coffee prices, sustained export demand, improved product mix, continued momentum in value-added products, and healthy performance across key international markets.

Profit Before Tax increased to ₹450.70 crore from ₹362.26 crore in the previous year, while Profit After Tax attributable to shareholders increased to ₹388.11 crore, representing a growth of approximately 25.06% over FY 2024-25. The improvement reflects the Company's ability to effectively navigate commodity price volatility through disciplined procurement, dynamic pricing strategies, operational efficiencies, and prudent cost management.

On a standalone basis, Revenue from Operations increased to ₹2,216.05 crore compared with ₹1,717.99 crore in FY 2024-25, while Profit Before Tax grew to ₹349.12 crore from ₹130.45 crore, reflecting strong operating performance across the standalone business.

The Company continued to maintain a healthy financial position during the year. Total equity on a consolidated basis increased to ₹2,344.55 crore as at 31 March 2026 from ₹1,967.23 crore in the previous year, supported by improved profitability and retained earnings. At the same time, total borrowings reduced significantly through prudent capital allocation and healthy operating cash flows, further strengthening the balance sheet.

Healthy cash generation from operations, disciplined working capital management, and continued focus on capital efficiency enabled to support capacity enhancement, product innovation, strategic investments, and shareholder returns while maintaining financial flexibility for future growth.

Balance Sheet Strengthening and Deleveraging

An area of specific focus and strategic priority for us this year has been "Balance Sheet Strengthening".

In FY 2025-26 we focused on ensuring that the operational performance and results get translated to a tangible Balance Sheet strength. To achieve this, we executed a refined finance strategy centered on working capital optimisation and Cash Flow centrality prioritizing liquidity and deleveraging.

These targeted initiatives yielded us exceptional results.

Surge in Operational Cashflows: Operating cash flows surged to ₹ 858 crores in FY26, up from ₹ 290 crores in FY 25 and ₹ 55 crores in FY 24.

Free Cash Flows turned positive after Long Capex cycle: Free cashflows have turned positive after an extended capex cycle, fuelled by strong operational cashflows and disciplined capital allocation.

Enhanced Working Capital efficiency: By accelerating inventory turnover, optimizing receivables, and managing payables more prudently, we transformed our working capital efficiency significantly and enhanced our operational cash flow generation

The working capital days have come down from 246 days in FY 25 to 166 days in FY 26, unlocking liquidity trapped in working capital.

The unlocked trapped liquidity, has been directed towards debt reduction, derisking our balance sheet.

Balance Sheet Deleveraging Progress

Gross Debt ₹ 1813 Crores as at March 31, 2025, has been substantially reduced to ₹ 1291 Crores as at March 31, 2026.

Net Debt ₹ 1716 Crores as at March 31, 2025, has been substantially reduced to ₹ 1073 Crores as at March 31, 2026.

The Leverage ratios, post the deleveraging in FY 26, have improved significantly, reflecting a strengthened balance sheet.

Gross Debt to Equity ratio has improved from 0.92 in FY 25 to 0.55 in FY 25-26

Net Debt to EBITDA has improved from 3.05 in FY 25 to 1.45 in FY 26.

As we enter the next fiscal year, the structural transformation of our balance sheet has fundamentally altered our growth trajectory. Today, our financial position is demonstrably healthier, characterized by lower leverage and robust cash flows. This transformed balance sheet strength provides us with the financial flexibility and strategic resilience needed to aggressively pursue sustainable growth opportunities and deliver long-term stakeholder value.

Dividend

During FY 2025–26, the Company declared an interim dividend of ₹ 2.75 per equity share (137.50%) of face value ₹2 each. Further, your Board of Directors have recommended a final dividend of ₹ 3/- per equity share, i.e., 150% of nominal value ₹ 2/- per share, in its meeting held on May 07, 2026, subject to the approval of the members in the forthcoming Annual General Meeting.

Earnings Per Share

The Company's profitability continued to improve during FY 2025–26, resulting in higher earnings for shareholders.

Particulars	FY26	FY25
Basic EPS (₹)	29.22	23.35
Diluted EPS (₹)	29.22	23.35

The improvement in earnings per share reflects its continued focus on profitable growth, operational excellence, disciplined capital allocation, and sustained value creation for shareholders.

Segment-wise performance

Pursuant to the requirements of Indian Accounting Standard (Ind AS) 108 – Operating Segments, the Company has assessed its organisational structure, internal reporting framework, and the manner in which business performance is reviewed by the Chief Operating Decision Maker (CODM).

The business is principally engaged in the manufacture and sale of coffee and coffee-related products. Based on the nature of products, risks and returns, production processes, customer profile, and the internal management reporting structure, the business continues to be operated and reviewed as a single reportable segment, namely Coffee.

Accordingly, Coffee remains the only reportable operating segment under Ind AS 108. The production network across India, Vietnam, and Switzerland operates as an integrated production network serving domestic and international markets, and business performance is evaluated on a consolidated basis for strategic decision-making and resource allocation.

Operational Excellence

Operational excellence remains a cornerstone of the business strategy, enabling consistent product quality, efficiency, and reliable customer service across global markets.

During FY 2025–26, the Company continued to optimise its integrated network across various countries to improve production flexibility, strengthen capacity utilisation, and ensure uninterrupted customer deliveries despite global supply chain challenges. Vietnam further reinforced its strategic role as an alternate manufacturing base, providing greater sourcing flexibility and operational resilience in response to changing global trade dynamics.

Continuous investments in automation, digitalisation, quality assurance systems, and process improvement enhanced efficiency while maintaining high standards of product quality and food safety. These initiatives enabled the business to respond effectively to changing customer requirements while improving productivity and cost efficiency.

The Company continued to strengthen resource efficiency through renewable energy adoption, responsible sourcing, efficient water management, waste reduction initiatives, and environmentally responsible manufacturing practices, supporting both operational resilience and long-term business stability.

Supported by a culture of continuous improvement and disciplined execution, the Company remains well positioned to deliver excellence while supporting future growth across domestic and international markets.

Outlook

The long-term outlook for the global coffee industry remains favourable, supported by increasing coffee consumption, premiumisation, growing private-label opportunities, and rising demand across emerging markets. While short-term uncertainties relating to commodity prices, geopolitical developments, and global trade policies may continue to influence the operating environment, the diversified platform, resilient supply chain, and strong customer relationships provide a solid foundation for sustained growth.

The Company will continue to focus on strengthening its global leadership in private-label instant coffee while selectively expanding its branded business in strategic markets. Continued emphasis on innovation, operational excellence, disciplined capital allocation, and customer-centric solutions will support profitable and sustainable long-term growth.

Forward Priorities

During FY 2026–27, the Company will focus on:

- Strengthening leadership in the global private-label instant coffee business.
- Deepening strategic partnerships with leading retailers and coffee brands.
- Accelerating innovation in premium and value-added coffee products.
- Enhancing production efficiency through automation and process optimisation.
- Strengthening supply chain resilience through diversified sourcing and creation flexibility.
- Continuing investments in renewable energy and responsible manufacturing.

- Expanding the branded coffee business globally while maintaining disciplined capital allocation and profitability.

Internal Control Systems And Their Adequacy

The Company has established a comprehensive internal control framework designed to safeguard assets, ensure the accuracy and reliability of financial reporting, promote operational efficiency, and ensure compliance with applicable laws, regulations, and internal policies.

The internal control systems are commensurate with the size, scale, and complexity of the operations and are regularly reviewed to ensure their continued effectiveness. Standard operating procedures, well-defined authority matrices, documented policies, and periodic management reviews support effective governance across business functions.

An independent Internal Audit function carries out risk-based audits across production platforms, corporate functions, and operational processes. The observations and recommendations arising from these audits are periodically reviewed by the Audit Committee, which monitors the implementation of corrective actions to further strengthen internal controls and risk management practices.

The Audit Committee regularly reviews the adequacy and effectiveness of the internal financial controls, risk management framework, and governance processes, thereby assuring the integrity of financial reporting and operational performance.

The management believes that the existing internal control systems are adequate and continue to operate effectively across all areas of the business.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

[Section 134(3)(m) of The Companies Act, 2013 read with Rule 8(3) of The Companies (Accounts) Rules, 2014]

A. Conservation of Energy

Your Company is making investments to up-grade technology in various utilities equipment in the soluble coffee plant to conserve energy.

We are pleased to inform you about a significant step your company has taken towards reducing its carbon footprint. We had recently invested in a Vapor Compression Refrigeration (VCR) system as a capital investment, supplementing the existing VCR system, thereby replacing the existing steam-driven absorption refrigeration system to minimize our dependency on steam produced through the combustion of biofuels and coal. This technological shift has allowed us to substantially lower our carbon emissions as we plan to power our VCR system with green energy, achieving an estimated reduction of 17,651 kg of CO₂ emissions per annum. Additionally, the Company is actively exploring various avenues for green energy investments, including Public-Private Partnerships (PPP), Capital Expenditure (Capex), and Build-Own-Operate-Transfer (BOOT) models.

The steam boiler continues to be a major energy conserver to the Company, and your Company is continuously striving for sustainability, conservative utilisation of energy available and minimizing the ecological footprint by finding out ways to best utilise the waste generated in the process of manufacturing instant coffee. Coffee is a product where only 50% can be derived from coffee beans for productive usage and the rest 50% is in the form of solid waste. This solid waste generated on drying up has greater calorific value. Building on our proven success, the Company continued to optimize the circular value of spent coffee waste by deploying it in boiler operations for steam generation. This initiative not only minimizes dependence on fossil coal but also diverts organic waste from landfills, embodying our commitment to resource efficiency, circularity, and environmental stewardship.

Additionally, with the objective of delivering a premium-quality product with enhanced characteristics, a cryogenic grinding system has been commissioned to supplement the existing system. This technology ensures a more uniform Particle Size Distribution (PSD) and improved blending ability, as compared to conventional micro grinding methods. The process uses liquid nitrogen to create cryogenic conditions, allowing materials to be ground in an inert, non-thermal environment, which prevents heat buildup, preserving product integrity and volatile components while enabling faster grinding and higher throughput. The inert nature of liquid nitrogen ensures an emission-free, contamination-resistant process, contributing to both environmental sustainability and energy-efficient operations.

i) The steps taken or impact on conservation of energy

The Company continued to implement several energy conservation initiatives across its operations during FY 2025–26. The solid waste, upon drying, possesses good calorific value. Accordingly, in collaboration with our boiler suppliers, i.e., the Original Equipment Manufacturers, we designed the boiler fuel system to enable the use of this dried solid waste as fuel. This initiative has resulted in substantial fuel cost savings and is environmentally friendly due to its minimal ash content. Consequently, this effort has not only served as a substitute for fossil fuels but has also provided an effective and sustainable method for waste utilization. Spent coffee waste constituted 22% of the energy consumed within boilers at the Company's manufacturing facilities during FY 2025–26, leading to the avoidance of approximately 19,568 MT of coal.

During FY 2025–26, electricity generated from the Company's solar power installations helped reduce dependence on grid electricity and avoided approximately 971 tCO₂e of Scope 2 greenhouse gas emissions.

We are also pleased to update on our investment in Variable Frequency Drives (VFD) for all motors above 20Kw. Inclusion of VFD enables us to vary the flow to save power.

ii) Steps taken by the Company for utilising alternate sources of energy

The Company continued to strengthen the utilization of alternate and renewable sources of energy across its operations during FY 2025–26. Rice husk and recycled spent coffee waste were utilized as alternate fuels in the Company's boilers, resulting in reduced dependence on conventional fossil fuels.

The Company further enhanced its renewable energy portfolio through electricity generated from the existing 0.9 MW solar power plant at the Kuvvakolli manufacturing facility and the newly commissioned 100 kW rooftop solar power plant at the Corporate Office in Banjara Hills, Hyderabad. In addition, the Company expanded the procurement of renewable electricity through Renewable Power Purchase Agreements (PPAs) and renewable fuels. The Company has also approved participation in a Group Captive renewable energy project to access approximately 7.9 MW of wind and solar power, which is expected to be commissioned in a subsequent period.

As a result of these initiatives, renewable energy accounted for approximately 80% of the Company's overall energy consumption during FY 2025–26, reinforcing the Company's commitment to sustainable operations and reduction of greenhouse gas emissions.

Sharing an update on our ongoing efforts to enhance sustainability at our facilities in India and Vietnam. As part of our new effluent treatment plants, we've successfully integrated Upflow Anaerobic Sludge Blanket Reactors (UASBR) to generate biogas.

Looking ahead, we are planning to invest in advanced purification and compression systems. These upgrades will enable us to produce methane gas at a rate of up to 15 m³/hr with a purity level reaching 99%. The compressed methane will be utilized in our industrial kitchens and roasters, contributing to more efficient and eco-friendly operations.

We're excited about the potential of this project to further our commitment to sustainable practices.

iii) The capital investment on energy conservation equipments

An amount of ₹ 1.90 Crores was incurred towards capital investment in energy conservation equipment during the year under review

B) Technology Absorption

i) Efforts made towards technology absorption:

The best technology in the world for the manufacturing of quality coffee is being used by your Company and strives continuously to upgrade the technology.

ii) Benefits derived like product improvement, cost reduction, product development or import substitution:

The technology being used has improved the production standards and optimised the operational costs. The Cryogenic grinding technology ensures a more uniform Particle Size Distribution (PSD),

improved blending ability, and faster throughput while preserving volatile components and product integrity. Further, the VCR system transition has led to an estimated reduction of 17,651 kg of tCO₂e emissions per annum.

iii) In case of imported technology (imported during the last 3 years reckoned from the beginning of the financial year), following information may be furnished:

a) Technology imported	No technology imported during the last 3 years
b) Year of Import	NA
c) Has technology been fully absorbed	NA
d) If not fully absorbed, areas where this has not taken place, reasons therefore and future plans of action	NA

iv) Expenditure incurred on Research and Development:

Your Company has a strong Quality and Research & Development (R&D) department that continuously focuses on improving manufacturing processes, enhancing product quality, and developing value-added products, thereby driving operational excellence and innovation. During the financial year under review, the Company invested ₹ 7.28 Crores in Research and Development initiatives, including the deployment of mechanized micro grinders and installation of advanced laboratory equipment.

C) Foreign Exchange Earnings and Outgo:

REPORT ON CORPORATE GOVERNANCE

[Pursuant to Schedule V (C) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations")]

(1) Company's philosophy on Code of Governance

The Company's philosophy on Corporate Governance is founded upon a rich legacy of fair, ethical and transparent governance practices, many of which were in place even before they were mandated by adopting the highest standards of professionalism, honesty, integrity and ethical behaviour. As a global organisation, the Corporate Governance practices followed by the Company and its subsidiaries are compatible with international standards and best practices. Through the Governance mechanism in the Company, the Board along with its committees undertakes its fiduciary responsibilities to all its stakeholders by ensuring transparency, fair play and independence in its decision making. The governance processes and practices embedded into the culture of the Organisation ensures that the interest of all the stakeholders are taken into account in a balanced manner.

The Company also believes that sound Corporate Governance is critical to enhance and retain investor trust. The Company continues to strengthen its governance principles to generate long term value for its stakeholders on sustainable basis thus ensuring ethical and reasonable leadership both at the Board and at the Management level.

Over the years, CCL Products (India) Limited ("CCL") has shown a commitment towards effective corporate governance and has always been at the forefront of benchmarking its internal systems and policies with global practices. CCL believes that it needs to show a greater degree of responsibility and accountability. It is committed to provide fair, transparent and equitable treatment to all its stakeholders.

At CCL we have always sought to be a value driven organisation, where our growth and success is directed by our values.

The Company has adopted the Code of Conduct for the Directors and Senior Management, which encompasses an appropriate mechanism to report any concern pertaining to non-adherence to the said Code, which includes a Code of Conduct for Independent Directors as specified under Schedule IV to the Companies Act, 2013 and Regulation 26(3) of the Listing Regulations. Pursuant to Regulation 26(5) of the Listing Regulations, all members of the Senior Management have confirmed that there are no material, financial and commercial transactions wherein they have a personal interest

that may have a potential conflict with the interest of the Company at large. Pursuant to Regulation 26(3) of the Listing Regulations, all the Directors and Senior Management of the Company as on March 31, 2026, have affirmed compliance with their respective Codes of Conduct. A Declaration to this effect, duly signed by the Chief Executive Officer is enclosed at the end of this Report.

The Company has complied with the norms of governance as provided in Chapter IV and Schedule II of the Listing Regulations during the year under review.

(2) Board of Directors

Suspense Escrow Demat Account (SEDA)

As per the Circular(s) issued by SEBI, after due verification of the investor service requests received from the Shareholders/Claimants, Letter of Confirmations (LOCs) were issued in lieu of physical share certificate(s) by Companies/RTAs. The validity of such LOCs were 120 days from the date of issuance, within which the Shareholder/Claimant was required to make a request to the Depository Participant (DP) for dematerialising the shares covered by the LOC. In case the demat request was not submitted within the aforesaid timeline of 120 days, companies were required to transfer such shares to SEDA opened by companies for this purpose. The shareholders can reclaim these shares from the Company's SEDA on submission of documentation prescribed by SEBI.

The above process was followed till March 31, 2026. Pursuant to SEBI circular No. HO/38/13/(3)2026-MIRSD-POD/1/3763/2026 dated January 30, 2026, the above process has been simplified by dispensing with the requirement of issuance of LOC with effect from April 02, 2026. Accordingly, after processing the investor service requests with necessary due diligence, RTAs/ listed companies shall credit the securities directly to the investor's demat account.

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

Executive Summary

This comprehensive Business Responsibility & Sustainability Report illustrates our adherence to all nine principles of the National Guidelines on Responsible Business Conduct ("NGRBC") throughout our coffee value chain – from sustainable sourcing practices to community engagement to transparent governance. We present tangible impact across environmental protection, social well-being, and governance standards.

Our Company's purpose of enhancing access to superior quality coffee and food ingredients across the globe serves as our commitment to building a healthier, more inclusive food industry for generations to come. Our three-decade heritage reflects our unwavering commitment to three foundational principles: scientific rigor in quality assurance, progressive talent development practices, and transparent corporate governance.

Our continued focus is on value generation for all stakeholders and excellence in serving our clients with superior quality coffee. These BRSR report's disclosures conform to the requirements stipulated in Regulation 34(2)(f) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015, as amended up to July 14, 2026, and consists of three sections:

1. **Section A** - presents a comprehensive snapshot of the enterprise, including its core business activities, geographic and operational reach, workforce composition, stakeholder relationships, social responsibility initiatives, and commitment to corporate transparency.
2. **Section B** - articulates the organizational structures, governance mechanisms, policies, and operational processes established to effectively integrate the nine NGRBC Principles and their core elements into business strategy and execution
3. **Section C** - details measurable performance outcomes and aspirational targets across the nine NGRBC Principles through essential indicators (mandatory disclosure) and leadership indicators (voluntary advancement), demonstrating commitment to responsible business practices

SGS India Private Limited has independently assured our FY 2025-26 BRSR disclosures with:

- Limited assurance over the BRSR Core indicators

The said assurance approach enhances investor confidence in the reliability of our sustainability metrics.

Message to Stakeholders

Dear Stakeholders,

As we reflect on FY 2025-26, CCL Products (India) Limited remains steadfast in its commitment to inclusive growth and the rigorous disclosure standards established by the Securities and Exchange Board of India (SEBI). We are pleased to present our Business Responsibility and Sustainability Report (BRSR) Core for the financial year 2025-26, which articulates our strategic progress across Environmental, Social and Governance (ESG) dimensions, guided by the nine principles of the National Guidelines for Responsible Business Conduct (NGRBC).

During the reporting year, we navigated a dynamic operating environment marked by evolving market dynamics, supply chain complexities, and intensifying competition. Our unwavering focus on operational excellence, strategic value chain partnerships, renewable energy integration, employee development and innovation-led product diversification enabled us to create sustained value for all stakeholders, shareholders, employees, farming communities, supply chain partners and the planet.

We believe coffee has the power to create lasting positive impact. Our goal is to grow it in ways that protect the environment, help farmers earn fair incomes, support local communities and drive innovation that serves people. We achieve this through good science, fair treatment of employees and honest business practices. This year's report shows what we delivered on these commitments.

How We Made a Difference in the year 2025-26:

Circular Economy Integration

Building on our proven success, the Company continued to optimize the circular value of spent coffee waste by deploying it in boiler operations for steam generation. This initiative not only minimizes dependence on fossil coal but also diverts organic waste from landfills, embodying our commitment to resource efficiency. We continue to explore innovative avenues to extract wealth from waste through process optimization and design interventions, recognizing that circularity is integral to long-term business resilience and environmental stewardship.

Renewable Energy Acceleration

Our Company remains committed to increasing the use of renewable energy and reducing its environmental footprint through investments in clean energy initiatives. During FY 2025-26, electricity generated from the existing 0.9 MW solar power plant at the Kuvvakolli manufacturing facility, together with the newly commissioned 100 kW rooftop solar power system at the Corporate Office in Banjara Hills, Hyderabad, helped avoid approximately 971 tCO₂e of Scope 2 greenhouse gas emissions, while renewable electricity procured from external sources accounted for 5.78% of the Company's total electricity consumption. Overall, 80% of the Company's total energy consumption during FY 2025-26 was met through renewable energy sources, comprising renewable power purchase agreements (PPAs) and renewable fuels. The Company also approved an investment under the Group Captive mode through a Special Purpose Vehicle (SPV) to access approximately 7.9 MW of renewable wind and solar power, supporting cost optimization, energy security, and its sustainability objectives.

Sustainable and Responsible Sourcing

During FY 2025-26, suppliers representing 90% of our procurement spend affirmed commitment to our Responsible Sourcing Policy through contractual adherence. The policy emphasizes ESG principles—fair wages, prevention of child/forced labour, ethical practices and environmental stewardship—ensuring responsibility cascades across our value chain.

Human Capital and Employee Well-Being

The Company strengthened employee well-being beyond statutory requirements through educational scholarships, housing loan reimbursement, enhanced HR practices, and comprehensive learning and development programmes. The Company also provided Group Term Life Insurance (GTLI) coverage for employees, a Workmen Compensation Policy for workers, Group Health Insurance coverage for employees and workers, and free annual health check-ups for all worker men. These initiatives enhanced employee well-being, supported talent retention and capability development, and reinforced the Company's commitment to fostering a safe, healthy, and inclusive workplace while investing in its people for long-term success.

Value Chain Community Uplift

We initiated multi-stakeholder partnership programs to strengthen coffee farmer capacity in Andhra Pradesh through knowledge transfer in sustainable agricultural practices. We also deployed post-harvest processing facilities for farmers to access new markets through decentralized, eco-efficient operations—demonstrating our commitment to inclusive value creation and grassroots economic empowerment.

Strategic Outlook - FY 2026-27 and Beyond

As we chart our course forward, we recognize that sustainability is imperative central to business strategy and value creation. Our roadmap for FY 2026-27 and beyond is anchored on the below strategic pillars:

During FY 2025–26, the Company made a strategic investment in a Group Captive hybrid wind-solar project, which is expected to be commissioned in a subsequent period. This investment marks an important milestone in expanding the Company's renewable energy portfolio and advancing its long-term decarbonization and sustainability objectives. The Company remains committed to expanding its renewable energy portfolio through ongoing investments and the evaluation of new opportunities that support its transition to low-carbon operations and long-term decarbonization goals. Our farmer partnerships and community initiatives reflect our belief that inclusive growth is fundamental to sustainable business. We remain committed to strengthening livelihoods through capacity building, market access and eco-efficient infrastructure. ESG integration across all organizational functions, from product design to governance, is essential to creating measurable impact. We extend our gratitude to all stakeholders for their collaboration in advancing our sustainable development journey.

I invite you to explore this comprehensive BRSR report for deeper insights into our strategies, performance metrics and future roadmap. Together, we continue to demonstrate that responsible business practices, social impact and financial prosperity are mutually reinforcing, creating lasting value where life, nature and business converge.

Warm regards,
Challa Srishant

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In Case of Risk, Approach to adapt or mitigate	Financial Implications of the Risk or Opportunity (Indicate Positive or Negative Implications)
1	Energy and GHG Management	Opportunity	As sustainability gains global prominence, companies adopting energy-efficient manufacturing practices can optimize their costs, thereby enhancing their brand, improving margins and strengthening competitiveness. Renewable energy integration and deployment of low carbon technologies help companies to reduce respective carbon footprints and contribute towards India's climate goals. In line with these ideologies, the Company actively pursues avenues around fuel substitution, energy and resource efficiency, and deployment of renewable energy to optimize costs and its broader environmental impact.	Not applicable	Positive - Investing in renewable energy helps reduce operational costs by lowering dependence on grid electricity and fossil fuels. Expanding renewable capacity ensures long-term cost stability, shielding the company from fluctuating energy prices and supply. Enhanced energy efficiency initiatives help to reduce cost of production, thus improving profit margins while supporting sustainability goals.
2	Climate Change	Risk	The World Economic Forum identifies extreme weather events due to climate change as one of the leading short and long-term risks in its 2025 Global Risks Report. The Company aligns with this assessment and acknowledges risks pertaining to business continuity disruptions due to climate change, in its own operations as well as the upstream value chain. Extreme weather events near the Company's manufacturing facilities have a potential to cause asset damage, disrupt logistics and hamper employee movement. Physical climatic hazards in coffee farms may potentially lead to crop damage and supply disruptions, ultimately impacting the Company's production and sales.	While its infrastructure is designed to withstand evolving weather patterns, the Company is continually striving to strengthen other critical aspects associated with its operations. It is actively working to build a more agile logistics network that can better navigate climate-related disruptions and ensure timely and reliable logistics, both inbound and outbound. Concurrently, the Company has commenced the promotion of sustainable farming techniques among its coffee farming communities, helping them adapt to environmental changes, safeguard crop quality, and ensure long-term supply security. Through these ongoing efforts, the Company aims to build a more climate-resilient and dependable value chain, one which mutually benefits itself and the upstream value chain partners.	Negative - Changing weather patterns and extreme weather events may lead to lower yields and more frequent crop failures, driving up the cultivation costs for farmers. These unpredictable conditions have the potential to cause irregular harvests and logistical disruptions for the Company, leading to stock shortages or increased reliance on expensive contingency supply routes. Compounding these challenges, unstable growing environments driven by climate change can affect bean quality, potentially reducing product value and impacting customer satisfaction.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In Case of Risk, Approach to adapt or mitigate	Financial Implications of the Risk or Opportunity (Indicate Positive or Negative Implications)
3	Water and Wastewater Management	Risk and Opportunity	Risk - Given the nature of operations, the Company has a significant reliance on water for its production processes, making itself susceptible to changing rainfall patterns and water shortage due to groundwater depletion. Fluctuations in water availability can impact production and supply schedules, while wet processing methods generate wastewater that must be managed responsibly to prevent environmental damage. Adoption of sustainable water management practices is crucial for long-term stability and sustainability of the Company. Opportunity - The Company sees opportunities to boost its resource efficiency and improvement in margins by investing in water conservation initiatives. Rainwater harvesting and wastewater recycling help to reduce dependence on external sources, cutting costs and ensuring a stable supply. Eco-friendly processing methods limit wastewater generation, enhancing environmental compliance and operational resilience.	The Company looks to mitigate water-related risks through a range of sustainable water management initiatives. Zero Liquid Discharge (ZLD) systems have been deployed at production facilities, thus ensuring internal recycling of wastewater and prevention of local water bodies' contamination. Rainwater harvesting structures have also been built to store and utilize rainwater for production.	Negative - Water shortages due to growing industrialization and human population have the potential to place acute and chronic financial burden on the Company. Cost of water and other related products, services and raw materials are likely to escalate due to limited availability and increasing competition. Supply constraints could disrupt production efficiency, leading to delays and increased expenses for alternative sourcing. Positive - By implementing ZLD systems, the Company reduces wastewater treatment costs, and minimizes regulatory risks and contingent liabilities associated with water discharge. Rainwater harvesting and process efficiency measures help to lower external water requirement, leading to savings in operating costs.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In Case of Risk, Approach to adapt or mitigate	Financial Implications of the Risk or Opportunity (Indicate Positive or Negative Implications)
4	Responsible Procurement	Risk and Opportunity	Risk - The Company identifies responsible procurement as a risk due to its global coffee supply chain, where unethical sourcing practices, such as deforestation or unfair labour practices, could occur. Failure to ensure sustainable and ethical procurement may lead to regulatory penalties, business continuity challenges and reputational damage. Growing customer and investor demand for ESG compliance further heightens the risk, potentially impacting market share and financial performance if not addressed proactively. Opportunity - The Company also views responsible procurement as an opportunity to enhance its brand reputation, market competitiveness and stakeholder partnerships. By sourcing coffee sustainably and ethically, the Company can not only attract eco-conscious customers and investors, but also potentially increase its sales and market share. Assisting suppliers with capability development around pillars of responsible procurement shall also help to foster long-term partnerships, innovation and cost efficiencies.	The Company monitors its suppliers' ESG commitment through a Responsible Sourcing Policy. It has also acquired a number of national and international certifications, affirming its commitment to responsible sourcing. In order to ensure alignment with its ESG goals, the Company looks to actively collaborate with upstream value chain entities through a range of partnership-based initiatives.	Negative - Responsible procurement risks can lead to financial setbacks for the Company. Unethical sourcing practices may incur regulatory fines, loss of operating license, supply chain disruptions and higher compliance costs. Reputational damage could erode customer loyalty, reducing sales and market share. Positive - Responsible procurement can secure a number of long-term financial benefits for the Company. Development of suppliers' ESG capability would lead to reduction in procurement expenses, which would have otherwise been incurred in frequent supplier searches, audits and onboarding, which are costly and time-consuming. Consistent partnerships with compliant suppliers streamline procurement processes, reduce transaction costs and mitigate risks of supply chain disruptions, ultimately lowering overall expenses.
5	Occupational Health and Safety	Risk	Occupational health and safety risks pose a serious challenge by affecting workers and overall productivity. To counter these risks, the Company has implemented strict safety protocols based on applicable regulations and industry benchmarks. Despite the above efforts, the Company recognizes the possibility of health and safety incidents occurring due to human lapses or equipment failures.	Health and safety measures are reinforced through trainings, policies, audits, risk assessments, mock drills and incident investigations. HIRA and Permit to Work systems help detect and resolve workplace hazards, fostering accountability and continuous improvement.	Negative - Workplace accidents and injuries can lead to compensation claims, medical expenses and legal penalties for safety violations. Such instances also cause production downtime and delays in supply to customers.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In Case of Risk, Approach to adapt or mitigate	Financial Implications of the Risk or Opportunity (Indicate Positive or Negative Implications)
6	Human Capital Management	Risk and Opportunity	Risk - The Company is exposed to human capital risks such as talent retention, skill shortages and man cost volatility. High turnover in key roles can disrupt operations and increase recruitment costs, while limited skilled manpower in the coffee industry may hinder the scalability of production. Rising wages in India, driven by economic growth, could lead to fluctuations in labour cost. Opportunity - The Company sees opportunities to enhance operational efficiency by investing in employee well-being, learning and development and workplace culture transformation. Sustainable human resource management practices help to attract and retain top talent, reduce turnover and strengthen brand reputation. A well-managed workforce drives innovation, adapts to industry challenges, and helps to secure long-term business sustainability.	The Company considers its workforce to be its biggest asset. In line with this belief, the Company has formulated comprehensive policies and operational practices around Human Resources, aimed towards mitigation of risks such as manpower shortages, employee turnover and skill gaps. It has made significant upgrades around training of employees, modernization of workplaces and extension of monetary benefits (such as ESOPs), comprehensive medical insurance, personal accidental insurance, and term life insurance coverage to employees. The Company is actively pursuing avenues which would enhance employee morale and talent retention.	Negative - High employee turnover increases recruitment and training expenses, straining operational budgets. Inefficient workforce management can reduce productivity, leading to lower output and increased manpower costs. Positive - Investments in human capital management enhances productivity and reduces operating costs. Strong retention strategies minimize recruitment and training expenses while nurturing a stable and motivated workforce. A well-managed workforce drives innovation and business resilience, ensuring long-term profitability.
7	Economic Performance	Opportunity	The company is leveraging surging global coffee demand driven by rising disposable incomes in emerging markets to expand its footprint. As a leading instant coffee manufacturer, it is well-positioned to supply high-quality, cost-competitive products to growing markets. The rise of premium coffee trends, including specialty instant and ready-to-drink options, aligns with its expertise in customized blends. Strategic investments in innovation and market expansion will enhance profitability and long-term growth.	Not applicable	Positive - Expanding into growing global coffee markets increases revenue potential and strengthens financial stability. Offering premium coffee products enhances profit margins and brand positioning. A broader market presence attracts investors and partnerships, fueling long-term growth.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In Case of Risk, Approach to adapt or mitigate	Financial Implications of the Risk or Opportunity (Indicate Positive or Negative Implications)
8	Data Privacy and Security	Risk	With increasing digitization and reliance on IT systems across value chain, data privacy and security poses significant risks for the Company, in the form of loss of business-critical information through cyberattacks, data breaches and unauthorized access to information. To safeguard its information and digital assets, the Company must continue to invest in advanced security frameworks, employee awareness programs and robust compliance strategies.	The Company has implemented robust cybersecurity measures including access controls, encryption and regular audits. It has also established a comprehensive Cybersecurity and Data Privacy Policy, which lays out the guiding principles to safeguard sensitive information. A designated Grievance Officer has been appointed to address stakeholders' concerns related to data privacy and security.	Negative - Operational disruptions caused by cyber incidents can halt production, resulting in lost revenue and supply delays. Legal costs from information protection related lawsuits or compensation claims by stakeholders can strain the Company's financial resources.
9	Compliance	Risk	The Company identifies potential failure to adhere to Indian / international regulatory and voluntary requirements as a risk. In addition to the statutory and traditional compliance requirements, the Company is expected to demonstrate compliance over a range of ESG issues such as human rights, responsible procurement, climate change and biodiversity, among others, owing primarily to international market requirements. Failure to comply with these requirements in a timely manner is bound to bring about market entry barriers for the Company in the future.	The Company has embedded a strong compliance culture in its operations. Business function heads and senior leadership oversee compliance reporting and audits at regular intervals to maintain transparency and integrity. Updates to existing compliance requirements and applicability of emerging regulations are evaluated by the Company's concerned business functions in a proactive manner.	Negative - non-compliance with regulatory requirements can lead to legal penalties, fines, and restricted market access, thus impacting profitability.
10	Corporate Governance	Risk	Given the nature of operations and complexity of its value chain, the Company associates with a range of internal and external stakeholders to carry out its day-to-day business activities. In doing so, it is exposed to risks related to unethical practices, such as corruption and conflicts of interest, which can lead to legal, financial and reputational damage.	The Company has implemented strong governance structures, policies and management systems to enhance accountability and mitigate risks. By integrating the principles of ethics, integrity, transparency and accountability into its sustainability roadmap, it reinforces its corporate governance framework. The company is actively expanding stakeholder engagement to foster ethical decision-making and protect its reputation.	Negative - Inefficient corporate governance can lead to financial mismanagement, resulting in regulatory fines. Lack of transparency can erode investor confidence, affecting stock value and access to funding. Strengthening governance through ethical policies and accountability frameworks is essential to protect financial stability.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In Case of Risk, Approach to adapt or mitigate	Financial Implications of the Risk or Opportunity (Indicate Positive or Negative Implications)
11	Human Rights	Risk	The Company identifies human rights as a risk not only due to its manpower-heavy manufacturing operations, but also due to its global coffee supply chain which could involve labour-intensive farming in regions prone to human rights abuses such as worker exploitation, child labour or forced labour.	The Company's workplace policies and practices around human resource management and occupational health and safety minimize human rights risks in own operations to a negligible magnitude. However, its upstream value chain comprises of stakeholders such as coffee farmers and trade houses, which are outside its direct sphere of influence and vulnerable to human rights related risks. In order to mitigate these risks, the Company monitors its suppliers' ESG commitment through a Responsible Sourcing Policy. It has also acquired a number of national and international certifications, affirming its commitment to responsible sourcing. In order to ensure alignment with its ESG goals, the Company looks to actively collaborate with upstream value chain entities through a range of partnership-based initiatives.	Negative - As the Company's major share of revenue is attributable to international markets, it is imperative that it keeps up with human rights-related requirements emerging from such countries. Non-compliance with such requirements may lead to reputational damage and market entry barriers, thus affecting the Company's bottom line.
12	Risk Management	Risk	In context of global and domestic coffee industry trends, the Company is exposed to various operational, financial and strategic challenges. Its reliance on key customers and fluctuating coffee bean prices can impact profitability, while regulatory changes and supply chain disruptions add complexity. Trends like increasing competition, environmental hazards and geopolitical instability further complicate risk management, requiring robust strategies to maintain market position.	The Company systematically reviews operating risks in accordance with its Risk Management policy, ensuring proactive identification and mitigation of potential threats. This process, overseen by the Risk Management Committee, includes continuous risk assessments and compliance evaluations.	Negative - Failing to effectively manage operating risks can lead to several financial setbacks for the Company. Unaddressed or inadequately addressed risks may result in unexpected financial burden, regulatory penalties and unforeseen liabilities that could hamper the Company's bottom line.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In Case of Risk, Approach to adapt or mitigate	Financial Implications of the Risk or Opportunity (Indicate Positive or Negative Implications)
13	Customer Relations	Risk and Opportunity	Risk - Customers play a pivotal role in shaping the success and sustainability of coffee-producing companies. Their preferences drive business strategies, innovation, quality and improvements. Negative customer experiences, whether due to inconsistent product quality, ethical concerns in sourcing, or supply chain disruptions, can lead to loss of trust and declining sales. Additionally, fluctuating coffee prices create uncertainty, making it difficult to maintain stable pricing for consumers, which can drive them to competitors. Opportunity - Strengthening engagement with customers shall allow the Company to understand evolving preferences, tailor products and improve quality, thus strengthening its competitive edge. Positive customer experiences shall facilitate widespread promotion, increasing demand and market penetration. Companies that leverage consumer feedback and embrace sustainability can establish long-term growth and industry leadership.	The Company mitigates the risk of customer fallout by ethically sourcing finest ingredients, resources and raw materials, and manufacturing high quality products in line with applicable guidelines and customer requirements. It also strives to capture customer feedback through a range of platforms and works proactively towards resolution of customer issues and queries. The Customer Relations team reviews all the complaints and provides remedial measures based on internal protocols.	Negative - Negative experiences such as inconsistent product quality, unethical sourcing, or supply delays can shrink product demand, resulting in declining revenues. Positive - A loyal customer base ensures consistent demand, leading to predictable revenue streams and reduced impact through market fluctuations. Satisfied customers often advocate for the brand, thus indirectly reducing marketing expenses while increasing organic growth.

SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

This section is aimed at helping businesses demonstrate the structures, policies, and processes put in place towards adopting the NGRBC principles and core elements.

5. Specific commitments, goals, and targets set by the entity

P1	P2	P3	P4	P5	P6	P7	P8	P9
Specific commitments, goals and targets set by entity for FY 2026-27: 1. Science-based target setting - The Company is currently in the process of formulating and setting quantified sustainability targets that are grounded in scientific evidence and aligned with the Science Based Targets initiative (SBTi) methodology. This initiative will establish clear, measurable objectives for reducing greenhouse gas emissions across the Company's operations and value chain. 2. Occupational Health, Safety & Worker Wellbeing - The Company has well-established occupational health and safety practices and is committed to continually enhancing its health and safety management system. Going forward, it will further strengthen risk assessment processes, safety inspections, emergency preparedness, and incident investigations while expanding occupational health, preventive healthcare, and employee wellbeing initiatives, including mental health support programs. 3. Energy Efficiency & GHG Emission Reduction - The Company intends to conduct a comprehensive energy audit and implement energy-efficient technologies in manufacturing processes. LED lighting upgrades, variable frequency drives (VFDs), and equipment optimization shall be prioritized.

Performance of the entity against specific commitments, goals and targets for FY 2025-26:

- The Company continued to undertake periodic evaluations and monitoring of its suppliers to assess their alignment with applicable sustainability standards and regulatory requirements. Supplier engagement and review processes were carried out as part of the Company's ongoing responsible sourcing framework, with efforts focused on promoting compliance and encouraging continuous improvement in sustainability practices across the supply chain.
- The Company strengthened ESG awareness through employee and worker training initiatives covering environmental responsibility, social practices, occupational health and safety, employee welfare, and corporate governance, supporting informed participation in ESG initiatives.
- The Company continued to reduce its dependence on non-renewable energy sources through renewable energy initiatives and resource conservation measures. During FY 2025-26, electricity generated from the existing 0.9 MW solar power plant at the Kuvvakolli manufacturing facility, together with the newly commissioned 100 kW rooftop solar power system at the Corporate Office in Banjara Hills, Hyderabad, helped avoid approximately 971 tCO₂e of Scope 2 greenhouse gas emissions. The Company also expanded the use of renewable electricity across its operations through Renewable Power Purchase Agreements (PPAs) and renewable fuels. The Company has approved a group captive renewable power arrangement to access approximately 7.9 MW of wind and solar energy, which is expected to be commissioned in a subsequent period. These initiatives have strengthened the Company's renewable energy portfolio and reinforced its commitment to reducing its environmental footprint. During the year, renewable energy accounted for approximately 80% of the Company's overall energy consumption through Renewable PPAs and renewable fuels, significantly contributing to the reduction of the Company's greenhouse gas emissions.
- The Company continued to engage with relevant government agencies and industry chambers on pertinent business matters, fostering collaboration, staying aligned with regulatory developments, and contributing to industry discussions.

	FY 2025-26	FY 2024-25
Number of days of accounts payables*	35	32

*Total purchases/cost of goods or services definition is in accordance with Industry Standards on Reporting of BRSR Core. Credit purchase of capital goods included in Trade payables while computing number of days accounts payable.

9. Open-ness of business

Provide details of concentration of purchases and sales with trading houses, dealers, and related parties along-with loans and advances & investments, with related parties, in the following format:

Parameter	Metrics	FY 2025-26	FY 2024-25**
Concentration of Purchases	a. Purchases from trading houses as % of total purchases*	67%	76%
	b. Number of trading houses where purchases are made from	738	790
	c. Purchases from top 10 trading houses as % of total purchases from trading houses	69%	49%
Concentration of Sales	a. Sales to dealers / distributors as % of total sales	18%	14%
	b. Number of dealers / distributors to whom sales are made	493	306
	c. Sales to top 10 dealers / distributors as % of total sales to dealers / distributors	36%	35%
Share of RPTs in	a. Purchases (Purchases with related parties / Total Purchases)	14%	10%
	b. Sales (Sales to related parties / Total Sales)	15%	18%
	c. Loans & advances (Loans & advances given to related parties / Total loans & advances)	84%	72%
	d. Investments (Investments in related parties / Total Investments made)	99%	100%

* Total purchases definition is in accordance with Industry Standards on Reporting of BRSR Core

** The figures reported for FY 2024-25 have been restated to align with the classification methodology adopted for FY 2025-26.

Leadership Indicators

1. Awareness programmes conducted for value chain partners on any of the Principles during the financial year:

Total number of awareness programmes held	Topics / principles covered under the training	%age of value chain partners covered (by value of business done with such partners) under the awareness programmes
The Company has conducted awareness programs for all its suppliers to reinforce its commitment to sustainability and ESG across the value chain partners. The initiatives covered key topics such as sustainability, ESG practices, and BRSR principles, encouraging suppliers to align with responsible and sustainable business practices.		

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same.

Yes, the Company has implemented a 'Code of Conduct for the Directors and Senior Management' (the 'Code'). This Code is accessible on the Company's website at <https://www.cclproducts.com/wp-content/uploads/2025/07/Code-of-Conduct-of-Board-of-Directors-and-Senior-Management.pdf>. The Code stipulates that directors and officers must avoid any activities or associations that create, or appear to create, a conflict between their personal interests and the Company's business interests. This includes situations where the potential for personal gain, whether direct or indirect, might influence or seem to influence their judgment or actions while performing their duties for the Company. Additionally, the Code mandates advancing the Company's interests.

Directors, Key Management Personnel (KMPs), and senior management are required to periodically disclose to the Board any material interests they have, in compliance with the provisions of the Companies Act 2013, directly or indirectly, or on behalf of third parties, in transactions or matters affecting the Company. They must also abstain from discussions and voting on any matters where they have, or may have, a conflict of interest, and share relevant information with other directors as appropriate.

PRINCIPLE 2: Businesses should provide goods and services in a manner that is sustainable and safe**Essential Indicators**

1. **Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.**

	FY 2025-26	FY 2024-25	Details of improvements in environmental and social impacts
R&D	78.85%	100%	Key R&D investments during FY 2025-26 are listed below: With the objective of delivering a premium-quality product with enhanced characteristics, a cryogenic grinding system has been commissioned to supplement the existing system. This technology ensures a more uniform Particle Size Distribution (PSD) and improved blending ability, as compared to conventional micro grinding methods. The process uses liquid nitrogen (LN₂) to create cryogenic conditions, allowing materials to be ground in an inert, non-thermal environment. This prevents heat buildup, preserving product integrity and volatile components while enabling faster grinding and higher throughput. The inert nature of LN₂ ensures an emission-free, contamination-resistant process, contributing to both environmental sustainability and energy-efficient operations.
Capex	7.09%	53.87%	Key Capex investments during FY 2025-26 are listed below: A vapour compression refrigeration (VCR) system was commissioned during FY 2025-26 as a capital investment, supplementing the existing VCR infrastructure and replacing the steam-driven absorption refrigeration system. Unlike the previous system, which relied on thermal energy from steam, the newly commissioned VCR system operates using electrical power to provide mechanical refrigeration. This transition has significantly reduced steam consumption, leading to lower greenhouse gas (GHG) emissions, improved energy efficiency, and enhanced operational reliability of the refrigeration process. Additionally, the Company installed a rooftop solar power system at its Corporate Office as part of its sustainability initiatives. The rooftop solar system enhances the Company's renewable energy capacity and reflects the Company's ongoing commitment to reducing its environmental footprint, improving resource efficiency, and advancing sustainable business practices.

2. a. **Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes, the Company has adopted a Responsible Sourcing Policy that mandates suppliers to comply with regulatory as well as voluntary ESG related requirements. These include prohibiting trafficked and forced labour, ensuring freedom of association and collective bargaining, protecting human rights, providing a safe and hygienic working environment, prohibiting child labour, offering fair wages, adhering to working hours regulations, preventing discrimination, promoting humane treatment, committing to ethical corporate practices, and demonstrating environmental stewardship. Despite the complexity of its global supply chain, which involves sourcing raw materials and services from various parts of the world, the Company has successfully integrated responsible sourcing practices over time. It has overcome socio-economic and cultural constraints across different countries to ensure long-term sustainability. Additionally, the Company has implemented a Sustainability Policy, striving to use sustainably sourced ingredients in products and internationally accepted manufacturing standards in business.

Furthermore, the Company holds various certifications such as the Organic Coffee Certificate (Processing & Trading), Kosher Certification, BRC- Version 9 with A Grade (British Retail Consortium) and IFS - Food Version 8 with Higher Level (International Featured Standards), reinforcing its commitment to responsible sourcing practices.

b. If yes, what percentage of inputs were sourced sustainably?

Inputs representing 90% by procurement spend have been sourced sustainably.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

The Company's products do not result in the generation of any e-waste or hazardous waste at the end of their life cycle. To manage plastic waste, including packaging waste, generated by customers at the end of life, the Company fulfills its Extended Producer Responsibility (EPR) obligations under the Plastic Waste Management Rules, 2016, through the purchase of credits from authorized external waste management agencies.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, as per Plastic Waste Management Rules, 2016 and Amendment dated March 2018, the Company has duly registered under the category of Brand Owner and the company is compliant with EPR requirements.

Leadership Indicators**1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?**

NIC Code	Name of Product / Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective / Assessment was conducted	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No) If yes, provide the web-link.
----------	---------------------------	---------------------------------	--	---	--

While the Company has not conducted Life Cycle Assessments for any of its products, it has subscribed to various global codes, certifications, labels and standards around product safety, quality and sustainability (as seen in section B of this report), which underscore its commitment to optimizing environmental and social impact across its business value chain.

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

Name of Product / Service	Description of the risk / concern	Action Taken
---------------------------	-----------------------------------	--------------

Not Applicable, as the Company has not conducted Life Cycle Assessments for any of its products.

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

Indicate input material	Recycled or re-used input material to total material	
	FY 2025-26	FY 2024-25
Energy consumption (on a GCV basis) in coal-fired boilers through organic spent coffee waste.	22%	26%

4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed.

The Company did not reclaim any product-related end-of-life packaging materials. The Company purposefully does not reuse any packaging materials for incorporation into food-contact packaging and accordingly did not undertake reclamation of such materials. Collection of biodegradable coffee waste from end customers is not considered relevant owing to practical limitations.

5. Reclaimed products and their packaging materials (as percentage of products sold) for each product category.

Indicate product category	Reclaimed products and their packaging materials as % of total products sold in respective category
---------------------------	---

The Company did not physically reclaim its products and packaging materials.

PRINCIPLE 3: Businesses should respect and promote the well-being of all employees, including those in their value chains**Essential Indicators****1. a. Details of measures for the well-being of employees:**

* The increase in ESI coverage during the year was primarily attributable to changes in the wage code definition, which expanded the eligibility of employees under the ESI scheme.

3. Accessibility of workplaces

Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

Yes, the Company's offices are fully accessible to all employees, including those with disabilities. It actively engages with its employees to address and manage their mobility needs, ensuring their input is valued and incorporated into various accessibility initiatives.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

The Company is committed to creating an inclusive and diverse workplace where all employees are respected and valued. Its Equal Opportunity Policy ensures that employment decisions are based on merit, qualifications, and business needs, without discrimination based on race, color, religion, gender, age, disability, or other protected characteristics, in compliance with the Rights of Persons with Disabilities Act, 2016. The Company provides necessary infrastructure and reasonable accommodation for employees with disabilities, overseen by a designated Diversity & Inclusion Council. This policy applies to all employees and job applicants, promoting fairness and equality. Additionally, the Company offers training and resources to help employees understand and adhere to these principles, and has procedures to address any form of discrimination, harassment, or retaliation, fostering a supportive and productive work environment. The said policy is available at: <https://www.cclproducts.com/wp-content/uploads/2025/07/Equal-Opportunity-Policy.pdf>

*Not applicable as the Company does not have provision for paternity leaves.

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief.

	Yes/No (If Yes, then give details of the mechanism in brief)
Permanent Workers	Employees and workers are required to take up issues on a one-to-one basis with relevant officials at the Company within 3 days of encountering grievances. If unresolved, a formal written complaint is required to be submitted within 10-15 days, along with necessary details and evidence. HR acknowledges the complaint within 5 days, followed by an investigation spanning 15-20 days, with resolutions shared in 5-7 days and an appeal process allowing dissatisfied employees to seek a final decision from the CEO soon after. The Company is committed to protecting individuals from retaliation or negative repercussions for raising concerns in good faith and hence grievances and investigations remain strictly confidential, with access limited to those directly involved in the process. Any reports of retaliation are required to be promptly addressed through the grievance resolution procedure.

10. Health and safety management system:

- a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Yes, An Occupational Health and Safety Management system compliant with applicable Indian Standards under the Factories Act has been implemented across all manufacturing facilities, warehouses, and offices. The Company has established a documented health and safety framework with an approved Health and Safety Manual. Hazardous

conditions and practices are systematically identified, documented, and remediated through defined corrective action processes. A structured training program covers critical areas including chemical handling, personal protective equipment usage, hazardous gas management, fire preparedness, and permit-to-work procedures. Incident and accident registers are maintained to record first-aid cases, medical treatments, and reportable incidents. Permit-to-work systems and lockout/tagout procedures are implemented for all non-routine activities to ensure operational safety and risk mitigation.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company has deployed a comprehensive Hazard Identification and Risk Assessment (HIRA) process to systematically identify potential health and safety risks. Workplace activities, equipment and operating environments are continually analyzed to detect hazards such as machinery malfunctions, chemical exposures or ergonomic issues. Risks are then assessed for severity and likelihood, prioritized and mitigated through controls, training or engineering solutions, ensuring a safer workplace for employees and workers, which is compliant with regulations. The Company has also implemented a Permit to Work system in manufacturing operations, which mandates controls, worker authorization and supervision, thus minimizing risks through clear procedures and accountability. Mock safety drills are also conducted on a regular basis to evaluate preparedness against emergency scenarios.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Within production operations, sectional safety in-charges maintain incident registers to record near misses, first-aid cases, lost-time injuries, medical treatment cases and unsafe acts, among others. Employees and workers are required to report such incidents to the respective safety in-charges, and based on the severity and risk involved, the line manager authorizes their removal from the related activity.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes. The employees of the entity have access to non-occupational medical and healthcare services. The organization provides facilities and arrangements that enable workers to seek medical consultation, preventive care, and general health services beyond occupational requirements with free of cost. The Company provides free-of-cost annual health checkups for all employees and workers. Employees & workers are provided with Mediclaim group insurance and those who were not covered under Mediclaim group insurance have access to social security benefits under the Employees' State Insurance Corporation scheme.

The revenue from operations has been adjusted for Purchasing Power Parity (PPP) based on the latest conversion factors published by the International Monetary Fund (IMF) for India. For the financial years ended March 31, 2026, and March 31, 2025, PPP conversion factors applied are 20.34 and 20.66 respectively.

* The energy consumption figures reported for FY 2024-25 have been restated due to reclassification of non-renewable to renewable energy for consistency with FY 2025-26 figures.

Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, SGS India Private Limited has provided limited assurance on data reported under this indicator for the FY 2025-26.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Not applicable, as the Company has not been identified among designated consumers (DCs) under the Perform, Achieve and Trade (PAT) scheme of the Government of India.

3. Provide details of the following disclosures related to water, in the following format:

Water Intensity (optional) – the relevant metric may be selected by the entity (Per employee) (Total water consumed / Total employees in the organization)	628 KL/ total employees	606.21 KL/ total employees

*Water consumption is estimated based on the document by the Central Ground Water Authority (CGWA), which specifies that a water requirement of office employee which is 45 litres per day per head. The document also specifies the breakup of 45 litres per day per head into 20 litres per day per head for flushing and 25 litres per day per head for domestic use. This quantity is recorded as water withdrawn from third party source i.e. local municipalities.

Further the water discharged is considered as aggregate of 80% of the water withdrawn for domestic consumption from source based on Central Pollution Control Board (CPCB) database report dated December 24, 2009 and 20 litres per day per head for flushing. Therefore, water consumption is reported as "Water Withdrawal – Water Discharge = Water Consumption".

** Other water figures of FY 2024–25 has been restated for maintaining consistency with water consumption figures of FY 2025–26.

The revenue from operations has been adjusted for Purchasing Power Parity (PPP) based on the latest conversion factors published by the International Monetary Fund (IMF) for India. Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, SGS India Private Limited has provided limited assurance on data reported under this indicator for the FY 2025-26.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, Zero Liquid Discharge (ZLD) technology has been deployed at the Company's production sites in order to eliminate wastewater generation and discharge outside plant premises during instant coffee production. The equipment at its plants are capable of treating 1390 KL wastewater.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Unit	FY 2025-26	FY 2024-25
NOx	Metric tonnes	34.74	51.53
SOx	Metric tonnes	29.56	34.29
Particulate matter (PM)	Metric tonnes	67.05	57.15
Persistent organic pollutants (POP)	-	-	-
Volatile organic compounds (VOC)	-	-	-
Hazardous air pollutants (HAP)	-	-	-
Others – please specify	-	-	-

The above figures correspond to air emissions from the Company's manufacturing facilities.

Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency:

No Independent assurance has been carried out in the Current Reporting period.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2025-26	FY 2024-25
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	12,227.58	35,668.83*
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	40,118.88	34,533.83
Total Scope 1 and Scope 2 emission intensity per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	Metric tonnes of CO ₂ equivalent / INR revenue	0.00000236	0.000004086
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)** (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP)	Metric tonnes of CO ₂ equivalent / US\$ PPP adjusted revenue	0.00004805	0.0000844
Total Scope 1 and Scope 2 emission intensity in terms of physical output	Metric tonnes of CO ₂ equivalent / MT production	2.90	3.87

In the current year the Biogenic emission for the organisation is 1,21,551.65 MTCO₂e which is not considered in the above information.

*The scope 1 emission figures for FY 2024–25 have been restated due to reclassification of energy consumption figures

** The revenue from operations has been adjusted for Purchasing Power Parity (PPP) based on the latest conversion factors published by the International Monetary Fund (IMF) for India. For the financial years ended March 31, 2026, and March 31, 2025, PPP conversion factors applied are 20.34 and 20.66 respectively.

Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, SGS India Private Limited has provided limited assurance on data reported under this indicator for the FY 2025-26.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

The Company is committed to reducing its dependence on non-renewable resources. It continues to invest in technologies and initiatives that promote resource conservation, energy efficiency, and fuel substitution, with the long-term objective of minimizing its environmental footprint and preserving natural resources for future generations.

With a view to reducing its dependence on grid electricity and the associated Scope 2 greenhouse gas emissions, the Company has already commissioned a 0.9 MW solar power plant at its manufacturing facility in Kuvvakolli, Tirupati District, Andhra Pradesh. Additionally, during FY 2025–26, the Company installed and commissioned a 100 kW rooftop solar power system at its Corporate Office in Banjara Hills, Hyderabad. Electricity generated from the Company's solar power installations was utilized for captive consumption, resulting in the avoidance of approximately 971 tCO₂e of Scope 2 greenhouse gas emissions during FY 2025–26.

During the year, the Company also procured renewable electricity for consumption across its operations. Renewable electricity accounted for 5.78% of the Company's total electricity consumption during the year.

Further, the Company approved availing of power under the group captive mode through a Special Purpose Vehicle (SPV) and will enable the Company to access approximately 7.9 MW of renewable wind and solar energy. The investment is being undertaken in line with regulatory requirements as stated under the applicable Indian Electricity Laws to become a Captive Consumer of Power and also align with the Government's renewable energy policy. This acquisition will result in lower electricity costs and ensure a reliable green power supply, thereby promoting sustainable ESG.

9. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2025-26	FY 2024-25 ***
Total Waste generated (in metric tonnes)

* As per Annual report of CPCB for 21-22, estimated amount waste generation per capita/per day between the range of 98.79 grams/person/day to 123.45 grams/person/day. The company has considered 123.45 grams per person per working day for locations where actual waste generation data is not available.

** The revenue from operations has been adjusted for Purchasing Power Parity (PPP) based on the latest conversion factors published by the International Monetary Fund (IMF) for India. For the financial years ended March 31, 2026, and March 31, 2025, PPP conversion factors applied are 20.34 and 20.66 respectively.

*** Other Non-hazardous waste (majorly consisting of Coffee spent & Boiler Ash) and Plastic waste figures reported for FY 2024-25 have been restated to maintain consistency with figures reported in FY 2025-26.

Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, SGS India Private Limited has provided limited assurance on data reported under this indicator for the FY 2025-26.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such waste.

The Company continuously undertakes measures to improve material and process efficiency across its manufacturing operations with the objective of minimizing waste generation. It has established arrangements with authorized agencies and recycling facilities to ensure that waste generated from its premises is managed and disposed of in a responsible manner. The Company does not use hazardous or toxic chemicals as input materials in its production processes at any of its plants.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S.No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
-------	--------------------------------	--------------------	---

The Company does not have any offices or operational sites in the vicinity of ecologically sensitive areas.

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No Independent assurance has been carried out in the Current Reporting period.

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

The Company is in the process of calculating its Scope 3 GHG emissions. The corresponding disclosures will be included in the Sustainability Report for FY 2025–26 upon completion of the assessment.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not applicable as the Company does not have any offices or operational sites in the vicinity of ecologically sensitive areas.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Substitution of grid electricity with solar energy	With a view to reducing its dependence on grid electricity and the associated Scope 2 greenhouse gas emissions, the Company has established a 0.9 MW solar power plant at its manufacturing facility in Kuvvakolli, Tirupati District, Andhra Pradesh. Additionally, during FY 2025–26, the Company installed and commissioned a 100-kW rooftop solar power system at its Corporate Office in Banjara Hills, Hyderabad.	Electricity generated from the Company's solar power installations was utilized for captive consumption, resulting in the avoidance of approximately 971 tCO ₂ -e of Scope 2 greenhouse gas emissions during FY 2025–26.

S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
2	Substitution of coal used in boilers with organic spent coffee waste.	The Company is committed to reducing its dependence on fossil fuels by promoting the use of renewable and circular fuel sources in its manufacturing operations. As part of this commitment, the boilers at its manufacturing facilities have been optimized to utilize organic spent coffee waste generated during the manufacturing process as an alternative fuel. During FY 2025-26, the Company utilized 20,476 MT of spent coffee waste, contributing to resource efficiency, waste valorization, and the advancement of circular economy practices.	Spent coffee waste constituted 22% of the energy consumed within boilers at the Company's manufacturing facilities during FY 2025-26, leading to the avoidance of approximately 19,568 MT of coal.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

The Company has embedded aspects of business continuity and operational stability in its strategic planning and day-to-day practices. The presence of comprehensive corporate policies and site-level procedures ensures uninterrupted operations and harmonious work environment, while adaptable capacity across manufacturing units allows swift production adjustments to minimize delays. The Company has implemented a well-structured people management strategy, which promotes skill transfer between plants, enhancing workforce adaptability and flexibility. A diversified supplier base spanning 15-20 countries reduces dependency risks, particularly in green coffee supply. High-quality insured machinery has been deployed at the manufacturing plants, which safeguards the Company against physical hazards like fires, earthquakes and cyclones, ensuring operational stability. The Company has also tied up with local fire tenders and hospitals in order to effectively tend to its workforce in the event of exigencies.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Company's Responsible Sourcing policy ensures robust supplier assessment and engagement, mandating compliance with ethical, legal and environmental standards through contractual agreements. The policy requires suppliers to conduct environmental risk assessments, establish management systems for continuous improvement and demonstrate environmental stewardship aligned with local, national and international requirements. Suppliers are also monitored through audits and site visits, in order to ensure transparency and continuous improvement. These measures collectively aim to mitigate any significant adverse environmental impacts caused by value chain partners, ensuring long-term sustainability and alignment with its ethical and operational expectations.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

Suppliers representing 90% of procurement spend have been assessed on environmental parameters.

8. How many Green Credits have been generated or procured by the listed entity?

The Entity did not generate or procure any Green Credits during the financial year under review.

PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**Essential Indicators**

1. a. **Number of affiliations with trade and industry chambers/ associations. - 7**
- b. **List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.**

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/ National)
1	Coffee Board of India	National
2	Export Promotion Council for EOUs and SEZs (EPCES)	National
3	Federation of Indian Export Organization (FIEO)	National
4	The Federation of Telangana Chambers of Commerce and Industry (FTCCI)	National
5	Indo American Chamber of Commerce (IACC)	National
6	Indo German Chamber of Commerce (IGCC)	National
7	National Coffee Association (NCA), USA	International

2. **Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.**

Name of authority	Brief of the case	Corrective action taken
-------------------	-------------------	-------------------------

The Company did not receive any adverse order related to anti-competitive conduct from any of the regulatory authorities during FY 2025-26

Leadership Indicators

1. **Details of public policy positions advocated by the entity:**

--------	-------------------------	-----------------------------------	--	---	------------------------

The Company is affiliated with trade and industry chambers/associations but did not actively advocate for or against any public policy positions.

PRINCIPLE 8: Businesses should promote inclusive growth and equitable development**Essential Indicators**

1. **Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.**

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
-----------------------------------	----------------------	----------------------	---	--	-------------------

The Company did not undertake any projects which required conducting Social Impact Assessments during FY 2025-26.

2. **Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:**

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)
--------	--	-------	----------	---	--------------------------	---

The Company did not undertake any projects which necessitated Rehabilitation and Resettlement of any concerned stakeholders during FY 2025-26.

3. **Describe the mechanisms to receive and redress grievances of the community.**

Community members can send their concerns or grievances to the Company's registered office. The Company has also placed manual registers at each factory, for capturing grievances of community members and ensuring their resolution in a just, fair and timely manner. The grievances are reviewed by various factory managers and the Company Secretary, and remedial measures are undertaken as per internally defined protocols. The above may be located in the company's CSR policy: <https://www.cclproducts.com/wp-content/uploads/2025/07/CSR-Policy.pdf>

4. **Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

	FY 2025-26	FY 2024-25
Directly sourced from MSMEs/ small producers*	17.16 %	21.69%
Directly from within India	51.67%	41.67%

* Total purchases definition is in accordance with Industry Standards on Reporting of BRSR Core

5. **Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost**

Location	FY 2025-26	FY 2024-25*
Rural	0.00%	0.00%
Semi-urban	52.49%	45.79%
Urban	3.60%	6.10%
Metropolitan	43.92%	48.11%

* The figures reported for FY 2024-25 have been restated to align with guidelines issued by the Reserve Bank of India (RBI).

Leadership Indicators

1. **Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):**

The Company did not undertake any projects which required conducting Social Impact Assessments during FY 2025-26.

2. **Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:**

S. No.	State	Aspirational District	Amount spent (In INR)
1	Andhra Pradesh	Alluri Sitharamaraju	5,500,000

3. (a) **Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)**

No. The Company does not have a procurement policy which gives preference to suppliers comprising marginalized / vulnerable groups.

- (b) **From which marginalized /vulnerable groups do you procure?**

The Company has not identified any marginalized / vulnerable suppliers.

- (c) **What percentage of total procurement (by value) does it constitute?**

Not applicable as the Company has not identified any marginalized / vulnerable suppliers.

4. **Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:**

S. No.	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
--------	--	--------------------------	---------------------------	------------------------------------

No intellectual properties, based on traditional knowledge, were owned or acquired by the Company during FY 2025-26.

5. **Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.**

Name of authority	Brief of the Case	Corrective action taken
-------------------	-------------------	-------------------------

The Company was not subject to any intellectual property-related disputes during FY 2025-26, and consequently there are no corrective actions to be reported.

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner**Essential Indicators****1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.**

The Company has instituted robust mechanisms for receiving and addressing customer complaints and feedback. These include accessible and dedicated customer support channels such as helplines, email, online contact forms on the Company's Direct-to-Consumer (D2C) website, and social media platforms, enabling customers to conveniently submit their complaints or share feedback. All complaints received are reviewed by the Customer Relations Officer, and appropriate remedial actions are initiated in accordance with internally established protocols. Regular communication is maintained with customers to ensure they remain informed of the progress and resolution of their complaints. The Company has also put in place a dedicated CRM team so that any complaint from consumers can be addressed fast.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100%
Safe and responsible usage	100%
Recycling and/or safe disposal	100%

3. Number of consumer complaints in respect of the following:

4. Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary recalls	0	-
Forced recalls	0	-

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

The Company has established a comprehensive Cybersecurity and Data Privacy Policy available at <https://www.cclproducts.com/wp-content/uploads/2025/07/Cyber-Security-and-Data-Privacy-Policy.pdf>. The policy provides a robust framework addressing cybersecurity and data privacy risks in alignment with India's Information Technology Act, 2000. It includes proactive measures to protect personal data through regular audits, incident response protocols, and legal compliance, demonstrating commitment to safeguarding sensitive information against breaches and unauthorized access. A Grievance Officer has been appointed to address stakeholder concerns related to data privacy and cybersecurity.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

The Company did not receive any complaints regarding the aforementioned issues during FY 2025-26, and consequently there are no corrective actions to be reported.

7. Provide the following information relating to data breaches:

- Number of instances of data breaches - NIL
- Percentage of data breaches involving personally identifiable information of customers - NIL
- Impact, if any, of the data breaches – Not Applicable

Leadership Indicators

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

The Company complies with regulations and voluntary codes concerning marketing communications, including advertising, promotion and sponsorship. In line with country-specific regulations around product labelling and marketing, the Company ensures that its product packaging provides essential details such as ingredients, expiry date and usage guidelines, among others, to enable safe and responsible consumption. Customer helpline coordinates are also printed on its packaging in order to facilitate feedback and complaints. Additionally, the Company's website also provides information related to products and processes.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

The Company is not engaged in providing essential services. However, it has institutionalized necessary mechanisms to inform consumers in the event of major supply or production related disruptions, including information dissemination through websites, stock exchange disclosures, publications and social media accounts.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/ Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

As part of the Company's focus towards customer satisfaction and compliance, it emphasizes compliance with product information and labelling related norms across countries where it sells its products. The Company also carries out a third-party brand health survey annually in order to evaluate customer awareness and satisfaction around its brand in South India. The survey is based on pillars of customer engagement such as brand awareness, effectiveness of marketing communications, product quality and satisfaction with the product. A key aspect of the survey involves rigorous quantitative evaluation of the reasons for customer fallout. Data collected through the survey enables the Company to take data-driven decisions in order to internalize improvements across various product segments and business functions. The Company has also put in place a dedicated CRM team so that any complaint from consumer can be addressed fast.

INDEPENDENT LIMITED ASSURANCE STATEMENT

Independent Assurance Statement to CCL Products (India) Limited on its BRSR Core Indicators for FY 2025-26

To

**The Board of Directors,
CCL Products (India) Limited,**

Corporate office: 8-2-269/4A, Road No 2, Banjara Hills,
Hyderabad - 500034, Telangana, India.

Nature of the Assurance

SGS India Private Limited (hereinafter referred to as 'SGS India') was engaged by CCL Products (India) Limited (the 'Company') to conduct an independent assurance of the Company's Business Responsibility and Sustainability Reporting (BRSR) (the 'Core Report') for the reporting period of April 01, 2025, to March 31, 2026. SGS India has conducted a Limited level of Assurance for the BRSR core indicators. This assurance engagement was conducted in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised) and ISAE 3410.

Reporting Framework

The Report has been prepared in accordance with the following

1. Master Circular for compliance with the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, by listed entities (Circular No. HO/49/14/14(7)2025-CFD-POD2/I/3762/2026), dated 30 January 2026 circular.
2. Greenhouse Gas Protocol Standard.
3. ISO 14064-1:2018 Standard.

Intended Users of this Assurance Statement

This Assurance Statement is provided with the intention of informing all internal and external Stakeholders of CCL Products (India) Limited.

Responsibilities

The information in the report and its presentation is the responsibility of the management of the Company. SGS India has not been involved in the preparation of any of the material included in the report.

Our responsibility is to express an opinion on the text, data, and statements within the defined scope of assurance, aiming to inform the management of the Company, and in alignment with the agreed terms of reference. We do not accept or assume any responsibility beyond this specific scope. The Statement shall not be used for interpreting the overall performance of the Company, except for the aspects explicitly mentioned within the scope.

Assurance Standard

SGS has conducted a Limited level of Assurance for BRSR core parameters under 9 ESG Attributes, including all essential indicators as specified under BRSR standards and amendments made as on date. This engagement was performed in accordance with the International Standard on Assurance Engagement (ISAE) 3000 (Revised) and ISAE 3410 (Assurance Engagements other than Audits or Reviews of Historical Financial Information). Our evidence-gathering procedures were designed to obtain a 'Limited level of Assurance, which is a Moderate level of assurance in accordance with ISAE 3000 (Revised) standard, but is not absolute certainty. It involves obtaining sufficient appropriate evidence to support the conclusion that the information presented in the report is fairly stated and is free from material misstatements.

Statement of Independence and Competence

The SGS Group of companies is the world leader in inspection, testing, and assurance, operating in more than 140 countries and providing services including management systems and service certification; quality, environmental, social, and ethical auditing and training; and environmental, social, and sustainability report assurance. SGS India affirms our independence from CCL Products (India) Limited being free from bias and conflicts of interest with the organization, its subsidiaries, and stakeholders. The assurance team was assembled based on their knowledge, experience, and qualifications for this assignment, and comprised auditors registered with ISO 26000, ISO 20121, ISO 50001, SA8000, RBA, QMS, EMS, SMS, GPMS, CFP, WFP, GHG Verification, and GHG Validation Lead Auditors, and experience on the SRA Assurance.

Scope of Assurance

The assurance process involved assessing the quality, accuracy, and reliability of BRSR Indicators (KPIs) within the report for the period April 01, 2025, to March 31, 2026. The reporting scope and boundaries include the corporate office, branch office, warehouses and manufacturing facilities located across different states in India.

Assurance Methodology

The assurance comprised a combination of desktop review, interaction with the key personnel engaged in the process of developing the report, and remote verification of data. Specifically, SGS India undertook the following activities:

- Assessment of the suitability of the applicable criteria in terms of their comprehensiveness, reliability, and accuracy.
- Interaction with key personnel responsible for collecting, consolidating, and calculating the BRSR core and

essential indicators, and assessing the internal control mechanisms in place to ensure data quality.

- Application of analytical procedures and verification of documents on a sample basis for the compilation and reporting of the KPIs.
- Assessing the aggregation process of data at the Head Office level.
- Critical review of the report regarding the plausibility and consistency of qualitative and quantitative information related to the KPIs.

Limitations

SGS India did not come across any limitation to the agreed scope of the assurance engagement. SGS India verified data on a sample basis; the responsibility for the authenticity of the data entirely lies with the Company. The assurance scope excluded forward-looking statements, product- or service-related information, external information sources, and expert opinions. SGS India has not been involved in the evaluation or assessment of any financial data/performance of the company. Our opinion on financial indicators is based on the third-party financial reports audited by the Company. SGS India does not take any responsibility for the financial data reported in the audited financial reports of the Company.

The assurance scope excludes:

- Disclosures other than those mentioned in the assurance scope.
- Data reviews outside the operational sites as mentioned in the reporting boundary.
- Validation of any data and information other than those presented in "Findings and Conclusions."
- The assurance engagement considers an uncertainty of $\pm 5\%$ based on the materiality threshold for Assumption/estimation/measurement errors and omissions.
- The Company's statements that describe the expression of opinion, belief, aspiration, expectation, aim to future intention provided by the Company, and assertions related to Intellectual Property Rights and other competitive issues.
- Mapping of the Report with reporting frameworks other than those mentioned in the Reporting Criteria above.

Findings and Conclusions

Based on the procedures we have performed and the evidence we have obtained, we are satisfied that the information presented by the Company in its report (as per the table below) is complete, accurate, reliable, fairly stated in all material respects, and is prepared in line with the BRSR requirements.

The list of BRSR Core Indicators that were verified within this assurance engagement is given below:

Independent Auditor's Report

To the Members of CCL PRODUCTS (INDIA) LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **CCL PRODUCTS (INDIA) LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAS) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report

Key Audit Matter	Auditor's Response
Revenue recognition	Principal Audit Procedures
Revenue from the sale of goods (hereinafter referred to as "Revenue") is recognised when the company performs its obligation to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such revenue recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon delivery.	Our audit procedures in respect of this area included: We evaluated the effectiveness of key controls over the capture and measurement of revenue transactions across all material revenue streams Assessed the company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and tested thereof.
The timing of revenue recognition is relevant to the reported performance of the Company. The management considers revenue as a key measure for evaluation of performance. There is a risk of revenue being recorded before control is transferred.	Evaluated the design, implementation and operating effectiveness of Company's controls in respect of revenue recognition. Tested the effectiveness of such controls over revenue cut off at year-end. On a sample basis, tested supporting documentation for sales transactions recorded during the year which included sales invoices, customer contracts and shipping documents.
The accuracy and of revenue amounts recorded is an inherent industry risk.	Performed an increased level of substantive testing in respect of sales transactions recorded during the period closer to the year end and subsequent to the year end.
Disclosures relating to revenue recognition are in Note 2.J.	Compared revenue with historical trends and where appropriate, conducted further enquiries and testing. Assessed disclosures in financial statements in respect of revenue, as specified in Ind AS 115. We evaluated the adequacy of the disclosures included in Note 2.J.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Directors' Report and Corporate Governance Report but does not include the

consolidated financial statements, standalone financial statements and our auditor's report thereon. The Director's Report and Corporate Governance Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Directors' report and Corporate Governance Report if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with Governance. We have nothing to report in this regard.

Management's Responsibility for the standalone financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the IND AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act based on our audit, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.

- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on 31st March, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to the (standalone) financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure-A".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid or provided by the company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements. Refer Note 2.28 to the Standalone Financial Statements
 - ii. The Company did not have any long-term contracts including derivative contracts for which there are any material foreseeable losses;
 - iii. The Company transferred an amount of ₹ 2.61 Lakhs from unpaid dividend account (Final dividend FY 2017-18) which remained unclaimed for a period of seven years during the financial year 2025-26 to the Investor Education and Protection Fund established by the Central Government pursuant to the provisions of Section 124 (5) of the Companies Act, 2013.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other

- sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement
- v. As stated in Note 2.10 to the standalone financial statements:
- (a) the dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.
- (b) The Board of Directors of the Company have proposed dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
- vi. Based on our examination, which included test checks, performed by us on the Company and its subsidiaries incorporated in India, except for the instances mentioned below, have used accounting software for maintaining their respective books of account for the financial year ended March 31, 2026 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of audit, we have not come across any instance of the audit trail feature being tampered with.
2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company, we report that there are no qualifications or adverse remarks in these CARO reports.

(Referred to in paragraph 1(f) under ‘Report on Other Legal Regulatory Requirements’ section of our report to the Members of the Company of even date)

Report on the Internal Financial Controls Over Financial Reporting with reference to Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting with reference to Standalone Financial Statements of **CCL PRODUCTS (INDIA) LIMITED** (“the Company”) as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds or errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting with reference to these Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Standalone Financial Statements and their operating

effectiveness. Our audit of internal financial controls over financial reporting with reference to these Standalone Financial Statements included obtaining an understanding of internal financial controls over financial reporting with reference to these Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting with reference to these Standalone Financial Statements.

Meaning of Internal Financial Controls over Financial Reporting with reference to these Standalone Financial Statements

A company’s internal financial control over financial reporting with reference to these Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting with reference to these Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Standalone Financial Statements to future periods

are subject to the risk that the internal financial control over financial reporting with reference to these Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to these Standalone Financial Statements and such internal financial controls over financial reporting with reference to these Standalone Financial Statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure “B” to the Independent Auditor’s Report

(Referred to in Paragraph 2 under ‘Report on Other Legal Regulatory Requirements’ section of our report to the Members of CCL Products (India) Limited of even date)

To the best of our information and according to the explanations provided to us by the company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company’s Property, Plant and Equipment and Intangible Assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
 - (b) According to the information and explanations given to us and the records of the company examined by us, the property, plant and equipment have been physically verified by the management in a periodical manner, which in our opinion is reasonable, having regard to the size of the Company and the nature of its business. No material discrepancies were noticed on such physical verification.
 - (c) Based on our examination of registered sale deeds and other documents, the title deeds of all the immovable properties disclosed in the financial statements are held in the name of the Company
 - (d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.
- ii. (a) The inventory has been physically verified by the management during the year. In our opinion, the coverage, frequency and procedure of such verification is reasonable and adequate in relation to the size of the Company and the nature of its business. The discrepancies noticed on verification between the physical stocks and the book records were not exceeding 10% in the aggregate for each class of inventory and have been properly dealt with in the books of account.
- (b) The Company is sanctioned working capital limits in excess of Rs.5 Crore from banks on the basis of security of current assets. Further, the quarterly/monthly returns or statements filed by the Company with such banks are in agreement with the books of account of the Company.
- iii. During the year, the Company has made investments/ loans in a wholly owned subsidiary. Loan to the subsidiary company and the details of which are given as follows:

(a)

S.No.	Particulars	Balance outstanding at the Balance Sheet Date (₹ in Lakhs)	Nature of the Transactions
1	Subsidiary	11,181.23	Loan
2	Subsidiary	32,000.00*	The Company has given the undertaking to ensure that the subsidiary company meets its Outstanding Debt Obligations to the Bank

*The amounts reported are at gross amount, without considering provision made

- (b) In our opinion, and according to the information and explanations given to us, the terms and conditions Investment/ loan are, prima facie, not prejudicial to the interest of the Company. Further, the Company has not provided any guarantee or given any security during the year.
- (c) In respect of loans granted or advances in the nature of loans provided by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are regular as per stipulation.
- (d) According to information and explanations given to us and based on the audit procedures performed, in respect of loans granted and advances in the nature of loans provided by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.

- (e) No loan or advance in the nature of loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdue of existing loans given to the same parties.
- (f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii)(f) is not applicable.
- iv. The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- vi. We have broadly reviewed the cost records maintained by the Company as prescribed under subsection (1) of section 148 of the Act, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. In respect of statutory dues:

- a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2026 for a period of more than six months from the date they became payable.

According to the information and explanations given to us, there are no material dues of income tax or sales tax or service tax or Goods and Services Tax or duty of customs or duty of excise or value added tax which have not been deposited by the company on account of dispute, except for the following:

S No	Name of the Statute	Nature of Dues	Amount in Lakhs	Period	Forum Where dispute is pending
1	The Income Tax Act, 1961	Income Tax	3,365.24 (2,883.28 deposited under protest)	Assessment years from 2006-07 to 2010-11	Telangana High Court
2	The Income Tax Act, 1961	Income Tax	174.24	Assessment years from 2011-12 to 2013-14	AP High Court
3.	The Income Tax Act, 1961	Income Tax	345.01	Assessment years from 2014-15 and 2015-16	Telangana High Court

- b) As per the information and explanations given to us and based on records examined by us there were no undisputed amounts outstanding amounts referred in sub-clause (a) above and hence clause 3(vii)(b) of the order is not applicable.
- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to the banks. The Company has not taken loans from financial institutions and Government.
- b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- c) According to the information and explanations given to us, term loans availed by the company were applied for the purposes for which the loans were obtained.
- d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary.
- f) According to the information and explanations given to us and procedures performed by us, we report that the company has not raised loans during the year on the pledge of securities held in its subsidiary.
- x. a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi. a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- b) No report under sub-section (12) of Section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- c) As represented to us by the management, there are no whistle blower complaints received by the company during the year.
- xii The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. Standalone Statement of Changes in Equity

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

Nature and purpose of reserves

Retained earnings

"The balance in the retained earnings primarily represents the surplus after payment of dividend and transfer to reserves."

General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss.

Re-measurement gains/ (losses) on defined benefit plans

Remeasurements of the net defined benefits plan reserve comprises the cumulative net gains/ (losses) on actuarial valuation of post-employment obligations.

Cash flow hedge reserve

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which The hedged transaction occurs .

Share based payment reserve

Share-based payment reserve is used to recognise the value of equity-settled share-based payments provided to employees as part of their remuneration. The amounts recorded in share-based payment reserve are transferred to securities premium upon exercise of stock options.

Treasury shares

Shares in employee trust (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in the securities premium.

Notes to standalone financial statements

for the year ended 31/03/2026

1. NOTES TO STANDALONE FINANCIAL STATEMENTS

Summary of material accounting policies and other explanatory information

All amounts in ₹ lakhs unless otherwise stated

2. General Information

CCL Products (India) Limited (the Company) is engaged in the production, trading and distribution of Coffee. The Company has business operations mainly in India, Vietnam and Switzerland. The Company is a public limited Company incorporated and domiciled in India and has its registered office at Duggirala, Guntur, Andhra Pradesh. The Company has its primary listings on the BSE Limited and National Stock Exchange of India Limited in India. The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

3. Basis of preparation and presentation

a) Basis of preparation

The financial statements of CCL Products (India) Limited ("CCL" or "the Company") have been prepared and presented in accordance with the and in compliance in all material aspects, with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 (the "Act") read along with the Companies (Indian Accounting Standards) Rules 2015 and presentation requirements of Division II of Schedule III to the Companies Act, 2013, and as amended from time to time together with the comparative period data as at and for the year ended March 31, 2026.

These financial statements have been prepared by the Company as a going concern on the basis of relevant Ind AS that are effective at the Company's annual reporting date, March 31, 2026. These financial statements for the year ended March 31, 2026, were approved by the Company's Board of Directors on May 07, 2026.

b) Basis of Measurement

These financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the balance sheet:

- Derivative financial instruments are measured at fair value.
- Certain financial assets are measured either at fair value or at amortized cost depending on the classification.

c) Employee defined benefit assets/liabilities) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.

d) Long-term borrowings are measured at amortized cost using the effective interest.

e) Rate method and right-of-use of the assets are recognized at the present value of lease payments that are not paid at that date. This amount is adjusted for any lease payments made at or before the commencement date, lease incentives received and initial direct costs incurred, if any.

c) Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, presentation of financial statements.

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle.
- It is held primarily for the purpose of being traded.
- It is expected to be realized within twelve months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current. A liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the Company's normal operating cycle.
- It is held primarily for the purpose of being traded.
- It is due to be settled within twelve months after the reporting date; or

Notes to standalone financial statements

for the year ended 31/03/2026

- d) The Company does not have an unconditional right to defer settlement of liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Company classifies all other liabilities as non-current. Current assets/ liabilities include the current portion of non-current assets/ liabilities respectively. Deferred tax assets and liabilities are always disclosed as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

d) Fair value measurement

The Company measures financial instruments, such as derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured

or disclosed in the Ind AS financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the Ind AS financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for sale in discontinued operations. External valuers are involved, wherever considered necessary. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above. This note summarizes accounting policy for fair value. Other fair value-related disclosures are given in the relevant notes.

e) Functional and presentation currency

These financial statements are presented in Indian rupees, which is also the functional currency of the Company. All the financial information presented in Indian rupees has been rounded to the nearest Lakhs.

f) Significant accounting judgements, estimates and assumption

The preparation of the financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and

Notes to standalone financial statements

for the year ended 31/03/2026

the reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, the areas involving critical estimates or Judgment are:

Property, plant and equipment

The depreciation of property, plant and equipment is derived from determining of an asset's expected useful life and the expected residual value at the end of its life. The residual values of the Company's assets are determined by management at the time of acquisition of asset and is reviewed periodically, including at each financial year end.

Impairment of financial and non-financial assets

Significant management judgement is required to determine the amounts of impairment loss on the financial and non-financial assets. The calculations of impairment loss are sensitive to underlying assumptions.

Tax provisions and contingencies

Significant management judgement is required to determine the amounts of tax provisions and contingencies. Deferred tax assets are recognised for unused tax losses and MAT credit entitlements to the extent it is probable that taxable profit will be available against which these losses and credit entitlements can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Defined benefit plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its

long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using internal valuation techniques. The inputs into these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4. Summary of material accounting policies

Accounting policy information is expected to be material if users of an entity's financial statements would need it to understand other material information in the financial statements.

The Company applied the guidance available under paragraph 117B of Ind AS 1, Presentation of Financial Statements in evaluating the material nature of the accounting policies.

The following are the material accounting policies for the Company:

A) Foreign Currency transactions

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date, the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate, if the average approximates the actual rate at the date of the transaction.

Notes to standalone financial statements

for the year ended 31/03/2026

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the initial transaction.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income ("OCI") or profit or loss are also recognised in OCI or profit or loss, respectively).

B) Property Plant & Equipment Recognition and measurement

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. The cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, duties and taxes applicable and other expenses related to acquisition and installation. The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use. Borrowing costs that are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset.

Directly attributable costs include:

- Cost of Employee Benefits arising directly from Construction or acquisition of PPE.
- Cost of Site Preparation.
- Initial Delivery & Handling costs.
- Professional Fees and
- Costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling any item produced while bringing the asset to that location and condition (such as samples produced when testing equipment).

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within the statement of profit and loss.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part will be de-recognized. The cost of repairs and maintenance are recognized in the statement of profit and loss as incurred.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

Depreciation

Depreciation is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of property, plant and equipment based on the Companies Act, 2013 ("Schedule II"), which prescribes the useful lives for various classes of tangible assets. For assets acquired or disposed of during the year, depreciation is provided on pro rata basis. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Buildings	
i) Main Plant Building	30
ii) Other Building	60
Plant & Machinery	25
Lab Equipment	7.5

Notes to standalone financial statements

for the year ended 31/03/2026

Material Handling	7.5
Fire fighting	7.5
Vehicles	8
Computers	3
Office Equipment	5
Furniture & Fixtures	10

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other non-current assets. The cost of property, plant and equipment not ready to use before such date are disclosed under capital work- in-progress. Assets not ready for use are not depreciated.

The Company assesses at each balance sheet date whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Recoverable amount is higher of the value in use or fair value less cost to sell.

Intangible assets

Acquiring computer software is capitalized on the basis of the costs incurred to acquire and bring to use the specific software. The Intangible assets that are acquired by the Company and that have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

Amortisation

Amortisation is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets or on any other basis that reflects the pattern in which the asset's future economic benefit is expected to be consumed by the entity. Intangible assets that are not available for use are amortized from the date they are available for use. The estimated useful lives are as follows:

Type of Asset	Estimated useful life
Computer Software	3

The amortisation period and the amortisation method for intangible assets with a finite useful life are reviewed at each reporting date.

C) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost.
- Debt instruments at fair value through other comprehensive income (FVTOCI).
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL).
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost, if both of the following conditions are met: (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Notes to standalone financial statements

for the year ended 31/03/2026

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI, if both of the following criteria are met: (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and (ii) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However, the Company recognizes interest income, impairment losses and foreign exchange gain or loss in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity Instruments

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as FVTPL. If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI and there is no subsequent reclassification of these fair value gains and losses to the statement of profit and loss. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred assets and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of Financial Assets

The Company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired.

In accordance with Ind AS 109, the Company uses "Expected Credit Loss" (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date);
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

Notes to standalone financial statements

for the year ended 31/03/2026

The Company uses 12-month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is a significant increase in credit risk full lifetime ECL is used.

b) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depend on their classification.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Financial liabilities are classified as being held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered by the Company that are not designated as hedging instruments

in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading, unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to the statement of profit and loss.

However, the Company may transfer the cumulative gain or loss within equity. All other changes in the fair value of such liability are recognised in the statement of profit and loss.

Loans and borrowings

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

De-recognition

Financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de- recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities. For financial assets, which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the re- classification prospectively from the re-classification date, which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains,

Notes to standalone financial statements

for the year ended 31/03/2026

losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

D) Investment in Subsidiaries, Associates and Joint Ventures

The Company has accounted for its investments in equity shares of Subsidiaries, at cost.

E) Cash & Cash Equivalents

Cash and bank balances comprise of cash balance in hand, in current accounts with banks, demand deposits, short-term deposits, Margin Money deposits and unclaimed dividend accounts. For this purpose, "short-term" means investments having maturity of three months or less from the date of investment. Bank overdrafts that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. The Margin money deposits, balance in dividend accounts which are not due and unclaimed dividend balances shall be disclosed as restricted cash balances.

F) Inventories

Inventories are valued at the lower of cost and net realisable value.

Inventories consist of raw materials, stores and spares, work-in-progress and finished goods and they are measured at the lower of cost and net realizable value.

The cost of all categories of inventories is based on the weighted average method.

Cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Stores and spares, that do not qualify to be recognized as property, plant and equipment, consists of packing

materials, engineering spares (such as machinery spare parts) and consumables which are used in operating machines or consumed as indirect materials in the manufacturing process.

The net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

G) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at March 31.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflow of other assets or groups of assets (the "cash-generating unit").

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to

project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the entity operates, or for the market in which the asset is used.

Notes to standalone financial statements

for the year ended 31/03/2026

An impairment loss is recognized in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

Reversal of Impairment of Assets

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

H) Employee Benefits

Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

The Company's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

Defined benefit plans

The liability in respect of defined benefit plans and other post-employment benefits is calculated using the projected unit credit method consistent with the advice of qualified actuaries. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related defined benefit obligation. In countries where there

is no deep market in such bonds, the market interest rates on government bonds are used. The current service cost of the defined benefit plan, recognised in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognised immediately in the statement of profit and loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for defined benefit obligation and plan assets are recognized in OCI in the period in which they arise. When the benefits under a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. The Company recognises gains or losses on the settlement of a defined benefit plan obligation when the settlement occurs.

Termination benefits

Termination benefits are recognised as an expense in the statement of profit and loss when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense in the statement of profit and loss if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Other long-term employee benefits

The Company's net obligation in respect of other long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognised in the statement of profit and loss in the period in which they arise.

Notes to standalone financial statements

for the year ended 31/03/2026

Compensated absences

The Company's current policies permit certain categories of its employees to accumulate and carry forward a portion of their unutilised compensated absences and utilise them in future periods or receive cash in lieu thereof in accordance with the terms of such policies. The Company measures the expected cost of accumulating compensated absences as the additional amount that the Company incurs as a result of the unused entitlement that has accumulated at the reporting date. Such measurement is based on actuarial valuation as at the reporting date carried out by a qualified actuary.

Share-based payments

Employees of the group receive remuneration in the form of Share-based payments, whereby employees render services as consideration for equity instruments.

Treasury Shares

Own equity instruments that are required (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in the securities premium.

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes valuation model.

That cost is recognized, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The Statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood

of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

I) Provisions, contingent liabilities and contingent assets Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

J) Revenue Recognition

Revenue from contracts with customers

Revenue is recognized when the Company substantially satisfied its performance obligation while transferring a promised good or service to its customers. The Company considers the terms of the contract and its customary business practices to determine the transaction price. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

Notes to standalone financial statements

for the year ended 31/03/2026

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and value added tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives / discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method.

Other Income

Interest

Interest Income mainly comprises of dividend and interest on Margin money deposit with banks relating to bank guarantee. Interest income should be recorded using the effective interest rate (EIR). However, the amount of margin money deposits relating to bank guarantee are purely current in nature, hence effective interest rate has not been applied. Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

Dividend

Dividend income is recognized when the Company's right to receive dividend is established.

K) Government Grants

Government grants are assistance by government in the form of transfers of resources to an entity in return for past or future compliance with certain conditions relating to the operating activities of the entity. They exclude those forms of government assistance which cannot reasonably have a value placed upon them and transactions with government which cannot be distinguished from the normal trading transactions of the entity.

Grants related to assets are government grants whose primary condition is that an entity qualifying for them should purchase, construct or otherwise acquire long- term assets. Subsidiary conditions may also be attached restricting the type or location of the assets or the periods during which they are to be acquired or held.

Grants related to income are government grants other than those related to assets.

A government grant that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the entity with no future related costs shall be recognised in profit or loss of the period in which it becomes receivable.

Export incentives in the form of RoDTEP scheme and power subsidy receivable by the company do not fall under the scope of Ind AS 115 and are accounted for in accordance with the provisions of Ind AS 20 considering such incentives as Government Assistance. Accordingly, government grant relating to Income on account of power subsidy is recognised on accrual basis in Profit and Loss statement and export incentive in the form of RoDTEP scheme will be accounted on cash basis in Profit and Loss statement.

L) Borrowing Costs

Borrowing costs consist of interest, ancillary and other costs that the Company incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing cost also include Exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

M) Tax Expenses

Tax expense consists of current and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions, where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities and assets are recognized for all taxable temporary differences and deductible temporary differences.

Notes to standalone financial statements

for the year ended 31/03/2026

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is (either in OCI or in equity in correlation to the underlying transaction).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the Company will pay normal income tax during the specified year, i.e., the year for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

Goods and Service Tax (GST) paid on acquisition of assets or on incurring expenses

When the tax incurred on purchase of assets or services is not recoverable from the taxation authority, the tax paid is recognised as part of the

cost of acquisition of the asset or as part of the expense item, as applicable. Otherwise, expenses and assets are recognized net of the amount of taxes paid. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

N) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section of Impairment of non-financial assets.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any

Notes to standalone financial statements

for the year ended 31/03/2026

lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Company's lease liabilities are included in Borrowings.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

O) Earnings Per Share

Basic earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation

of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

P) Trade receivables

Trade receivables are initially recognized at fair value and subsequently measured at amortised cost using effective interest method, less provision for impairment, if any.

Q) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are presented as current liabilities unless payment is not due within twelve months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

R) Segment Reporting

The operations of the Company primarily relate to a single business segment - Coffee and Coffee-related products. The Company also has an FMCG Products Division, which encompasses packaged food and beverage items. However, in accordance with the requirements of Indian Accounting Standard (Ind AS) 108 - Operating Segments, the FMCG Products Division does not meet the prescribed quantitative thresholds for separate reporting as a distinct segment. As a result, the segmental reporting is not applicable to the Company and hence the segment-wise financial information has not been presented in the financial statements.

S) Determination of fair values

The Company's accounting policies and disclosures require the determination of fair value, for certain financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following

Notes to standalone financial statements

for the year ended 31/03/2026

methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

i. Property, plant and equipment

Property, plant and equipment, if acquired in a business combination or through an exchange of non-monetary assets, is measured at fair value on the acquisition date. For this purpose, fair value is based on appraised market values and replacement cost.

ii. Intangible assets

The fair value of brands, technology related intangibles, and patents and trademarks acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of these brands, technology related intangibles, patents or trademarks being owned (the "relief of royalty method"). The fair value of customer related, product related and other intangibles acquired in a business combination has been determined using the multi-period excess earnings method after deduction of a fair return on other assets that are part of creating the related cash flows.

iii. Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

iv. Investments in equity and debt securities and units of mutual funds

The fair value of marketable equity and debt securities is determined by reference to their quoted market price at the reporting date. For debt securities where quoted market prices are not available, fair value is determined using pricing techniques such as discounted cash flow analysis.

In respect of investments in mutual funds, the fair values represent net asset value as stated by the issuers of these mutual fund units in the published statements. Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors.

Accordingly, such net asset values are analogous to fair market value with respect to these investments, as transactions of these mutual funds are carried out at such prices between investors and the issuers of these units of mutual funds.

v. Derivatives

The fair value of foreign exchange forward contracts is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate (based on government bonds). The fair value of foreign currency option and swap contracts and interest rate swap contracts is determined based on the appropriate valuation techniques, considering the terms of the contract.

vi. Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases the market rate of interest is determined by reference to similar lease agreements. In respect of the Company's borrowings that have floating rates of interest, their fair value approximates carrying value.

T) New standards adopted by the Company

Ind AS 1 – Presentation of Restated financial information

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its standalone financial statement.

Notes to standalone financial statements

for the year ended 31/03/2026

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company does not expect this amendment to have any significant impact in its standalone financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in Restated financial information to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its standalone financial statements.

U) New Accounting pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2026, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

2.34 Financial risk management objectives and policies

Financial Risk Management Framework

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, market risk and liquidity risk. The Company's risk management policies are established to identify and analyse the risks faced by the Company and seek to, where appropriate, minimize potential impact of the risk and to control and monitor such risks. There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risks.

The following sections provide details regarding the Company's exposure to the financial risks associated with financial instruments held in the ordinary course of business and the objectives, policies and processes for management of these risks.

(i) Credit risk

Financial assets that are neither past due nor impaired

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk arises primarily from financial assets such as trade receivables, balances with banks and loan and other receivables.

Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, cash and bank balances and loans. None of the financial instruments of the Company result in material concentration of credit risk.

Exposure to credit risk

At the end of the reporting period, the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position. No other financial assets carry a significant exposure to credit risk.

None of the Company's cash equivalents, loans and other financial assets were either past due or impaired as at the respective reporting period. The Company has diversified its portfolio of investment in cash and cash equivalents and term deposits with various banks which have secure credit ratings, hence the risk is reduced. Loans given to related parties and others are tested for impairment where there is an indicator and the assessed credit risk associated with such loans is relatively low. Other financial assets represent security deposits given to lessors and other assets. Credit risk associated with such deposits and other assets is relatively low.

Notes to standalone financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

The Company's credit period for trade receivables from its customers generally ranges from 60 - 180 days. The ageing of trade receivables is given below:

Particulars	As at	
	31 March 2026	31 March 2025
Neither past due nor impaired	48,057.27	36,683.69
Past due but not impaired:		
Less than 180 days	3,454.50	5,343.93
More than 180 days	1,016.48	1,186.88
Less: Allowance for credit losses	(935.32)	(895.89)
	51,592.92	42,318.61

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each balance sheet date whether a financial asset or a group of financial assets are impaired. Expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix if they are past due. The provision matrix takes into account historical credit loss experience and is adjusted for forward-looking information.

(ii) Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining cash and cash equivalents and the cash flows generated from operations.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Particulars	Upto 1 year	More than 1 year	Total
As at 31 March 2026

(iii) Market risk:

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(a) Foreign currency risk:

Foreign currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The majority of Company's revenue is generated in foreign currencies (primarily in United States Dollars), while a significant portion of its costs are in Indian rupees. As a result, as the rupee appreciates or depreciates against foreign currencies, the results of the entity's operations are impacted. The Company does not use financial derivatives such as foreign currency forward contracts.

Significant unhedged foreign currency risk exposure relating to financial assets and financial liabilities expressed in ₹ terms are as follows:

Particulars	As at	
	31 March 2026	31 March 2025
USD & EUR		
Trade receivables	47,556.89	41,220.01
Trade payables	4,801.53	515.70
Borrowings	3,553.61	-

Foreign currency sensitivity:

The following table demonstrates the sensitivity to a reasonably possible change in foreign currencies ('FC'), with all other variables held constant:

Particulars	Impact on profit after tax / equity for the year ended			
	Appreciation in FC by 5%		Depreciation in FC by 5%	
	31 March 2026	31 March 2025	31 March 2026	31 March 2025
Foreign currency				
USD & EUR	1,960.09	2,035.22	(1,960.09)	(2,035.22)

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company and the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk relates primarily to the floating interest rate borrowings. The Company's investment in deposits with banks and loans are fixed interest rates and therefore do not expose the Company to significant interest rate risk.

The Company's exposure to changes in interest rates relates primarily to the Company's outstanding floating rate borrowings. The exposure of the Company to variable rate borrowings at the end of the reporting period are as follows:

Particulars	As at	
	31 March 2026	31 March 2025
Variable rate borrowings	59,307.80	85,927.76

Notes to standalone financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

Interest rate sensitivity

The Company noted that any reasonably possible change in interest rates on the variable rate instruments will not have any material impact on the Company's profit after tax and its equity.

(c) Price risk

The fair value of some of the Company's investments measured at fair value through other comprehensive income exposes the Company to equity price risks. These investments are subject to changes in the market price of securities. The Company periodically monitors the sectors it has invested in, performance of the investee companies, measures mark- to- market gains/ losses and reviews the same to manage the price risk.

2.35 Capital risk management

Capital includes equity capital and all reserves attributable to the equity holders of the Company. The primary objective of the capital management is to ensure that it maintain an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder's value. The Company manages its capital structure and make adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Company monitors capital using a debt to capital employed ratio which is debt divided by total capital plus debt. The Company's policy is to keep this ratio at an optimal level.

2.38 The Ministry of Corporate Affairs (MCA) has prescribed a new requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies, which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

The Company, in respect of financial year commencing on 1 April 2023 has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log). Audit trail (edit log) is enabled at the application level, and the Company's users have access to perform transactions only from the application level.

2.39 Employee stock incentive plans

CCL Employee Stock Option Scheme, 2022 (CCL ESOP 2022 Plan):

The Company instituted the CCL ESOP 2022 Plan for eligible employees pursuant to the special resolution approved by the shareholders in the Annual General Meeting held on August 30, 2022. The CCL ESOP 2022 Plan covers eligible employees (excluding promoter directors) of the parent company and its subsidiaries (collectively referred to as "eligible employees").

The Nomination and Remuneration Committee of the Board of the parent company (the "Committee") administers the CCL Employee Stock Option Scheme, 2022 and grants stock options to eligible employees. The Committee determines which eligible employees will receive options, the number of options to be granted, the exercise price, the vesting period and the exercise period. The vesting period is determined for all options issued on the date of grant. The options issued under the CCL ESOP 2022 Plan vest in periods ranging between one and four years subject to a maximum period of five years from the date of grant of such options.

The company has established CCL Employee Stock Option Scheme, 2022 (CCL ESOP 2022 Plan) with 5,00,000 equity shares.

The exercise price of the options is INR 2 per share. The fair value of the share options is estimated at the grant date using a Black-Scholes Method, taking into account the terms and conditions upon which the share options were granted. However, the above performance condition is only considered in determining the number of instruments that will ultimately vest.

The carrying amount of the liability at 31 March 2026 was INR 2,327.46 Lakhs (31 March 2025: INR 2,273.19 Lakhs).

The expense recognised for employee services received during the year is shown in the following table:

Independent Auditor's Report

To the Members of CCL PRODUCTS (INDIA) LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **CCL PRODUCTS (INDIA) LIMITED** (hereinafter referred to as "the Holding Company") and its subsidiaries Jayanti Pte Ltd, Singapore; Continental Coffee SA, Switzerland, Ngon Coffee Company Limited, Vietnam, Continental Coffee Private Limited, India, CCL Food and Beverages Private Limited, India, and its Associate Company Mukkonda Renewables Private Limited, India (the Holding Company, its subsidiaries, in India and abroad and its Associate Entity together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2026, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act"), in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2026, of its consolidated profit (including other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group, in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") and the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significant in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming

our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
Revenue recognition The Revenues of the Company consists primarily of sale of products and is recognized when control of products being sold is transferred to customer and there is no unfulfilled obligation. Revenue from the sale of goods (hereinafter referred to as "Revenue") is recognised when the company performs its obligation to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such revenue recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon delivery. The timing of revenue recognition is relevant to the reported performance of the Group. The management considers revenue as a key measure for evaluation of performance. There is a risk of revenue being recorded before control is transferred. The accuracy and of revenue amounts recorded is an inherent industry risk. Disclosures relating to revenue recognition are in Note 2. K.	Principal Audit Procedures Evaluated the effectiveness of key controls over the capture and measurement of revenue transactions across all material revenue streams Assessed the Group's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and tested thereof. Evaluated the design, implementation and operating effectiveness of Group's controls in respect of revenue recognition. Tested the effectiveness of such controls over revenue cut off at year-end. On a sample basis, tested supporting documentation for sales transactions recorded during the year which included sales invoices, customer contracts and shipping documents. Performed an increased level of substantive testing in respect of sales transactions recorded during the period closer to the year end and subsequent to the year end. Compared revenue with historical trends and where appropriate, conducted further enquiries and testing. Assessed disclosures in financial statements in respect of revenue, as specified in Ind AS 115. We evaluated the adequacy of the disclosures included in Note 2. K.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon. The Director's Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management and Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud

or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Group/Holding Company has adequate internal financial controls with reference to the Consolidated Financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction,

supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other matters

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls with reference to the Consolidated Financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting with reference to the Consolidated Financial statements of CCL Products (India) Limited (“the Holding Company”) and its Subsidiaries and Associate entity, which is incorporated in India and abroad as of March 31, 2026 in conjunction with our audit of the consolidated financial statements of the Holding Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Holding Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Holding Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and/or errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Holding Company’s internal financial controls over financial reporting with reference to these Consolidated Financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Consolidated Financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Consolidated Financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting with reference to these Consolidated Financial statements included obtaining an understanding of

internal financial controls over financial reporting with reference to these Consolidated Financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group’s internal financial controls system over financial reporting with reference to these Consolidated Financial statements.

Meaning of Internal Financial Controls over Financial Reporting with reference to these Consolidated Financial Statements

A Company’s internal financial control over financial reporting with reference to these Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting with reference to these Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Consolidated Financial Statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and

its Subsidiaries and Associate entity, incorporated in India have in all material respects, an adequate internal financial controls system over financial reporting with reference to these Consolidated Financial Statements and such internal financial controls over financial reporting with reference to these Consolidated Financial Statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Holding Company and its Subsidiaries and Associate entity considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to the two subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries.

Consolidated Statement of Changes in Equity

for the year ended 31/03/2026

Nature and purpose of reserves

Retained earnings

The balance in the retained earnings primarily represents the surplus after payment of dividend and transfer to reserves.

General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss.

Re-measurement gains/ (losses) on defined benefit plans

Remeasurements of the net defined benefits plan reserve comprises the cumulative net gains/ (losses) on actuarial valuation of post-employment obligations.

Cash flow hedge reserve

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the hedged transaction occurs .

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Summary of material accounting policies and other explanatory information

All amounts in ₹ lakhs unless otherwise stated

1.1 General Information

CCL Products (India) Limited ("the Holding Company") and its subsidiaries (together "the Group") are engaged in the production, trading and distribution of Coffee and Coffee related products. The Company has business operations mainly in India, Vietnam and Switzerland. The Company is a public limited Company incorporated and domiciled in India and has its registered office at Duggirala, Guntur, Andhra Pradesh. The Company has its primary listings on the BSE Limited and National Stock Exchange of India Limited in India. The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.2 Basis of Preparation and Presentation

a) Statement of compliance

The consolidated financial statements of CCL Products (India) Limited ("CCL" or "the Company") along with its subsidiaries (collectively termed as "group" or "the consolidated entities") have been prepared and presented in accordance with and in compliance, in all material aspects, with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 (the "Act") read along with the Companies (Indian Accounting Standards) Rules, 2015 and presentation requirements of Division II of Schedule III to the Companies Act, 2013, and as amended from time to time together with the comparative period data as at and for the year ended March 31, 2026.

These consolidated financial statements have been prepared by the Company as a going concern on the basis of relevant Ind AS that are effective at the Company's annual reporting date, March 31, 2026. These financial statements for the year ended March 31, 2026, were approved by the Company's Board of Directors on May 07, 2026.

1.3 Basis of Measurement

These Consolidated financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the balance sheet:

- a) Certain financial assets are measured either at fair value or at amortized cost depending on the classification;

- b) Employee defined benefit assets/(liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less Actuarial gains and the present value of the defined benefit obligation; and
- c) Long-term borrowings, except obligations under finance leases, are measured at amortized cost using the effective interest rate method.
- d) All assets and liabilities are classified into current and non-current based on the operating cycle of less than twelve months or based on the criteria of realization / settlement within twelve months period from the balance sheet date.

1.4 Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, presentation of financial statements.

Assets: An asset is classified as current when it satisfies any of the following criteria:

- a) It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) It is held primarily for the purpose of being traded;
- c) It is expected to be realized within twelve months after the reporting date; or
- d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All the other assets are classified as non-current.

Liabilities: A liability is classified as current when it satisfies any of the following criteria:

- a) It is expected to be settled in the Company's normal operating cycle;
- b) It is held primarily for the purpose of being traded;
- c) It is due to be settled within twelve months after the reporting date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

The company classifies all other liabilities as non-current.

Current assets/ liabilities include the current portion of non-current assets/ liabilities respectively. All other assets/ liabilities are classified as non-current. Deferred tax assets and liabilities are always disclosed as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

1.5 Functional and Presentation Currency

These consolidated financial statements are presented in Indian rupees, which is also the functional currency of the Group. All financial information presented in Indian rupees has been rounded to the nearest lakhs.

1.6 Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Ind AS financial statements are categorised within the fair value hierarchy, described as

follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Ind AS financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for sale in discontinued operations.

External valuers are involved, wherever considered necessary. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above. This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

1.7 Significant accounting judgements, estimates, and assumption

The preparation of the financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, the areas involving critical estimates or Judgment are :

Property, plant and equipment

The depreciation of property, plant and equipment is derived on determining of an asset's expected useful life and the expected residual value at the end of its life. The residual values of Company's assets are determined by management at the time of acquisition of asset and is reviewed periodically, including at each financial year end.

Impairment of financial and non-financial assets

Significant management judgement is required to determine the amounts of impairment loss on the financial and non-financial assets. The calculations of impairment loss are sensitive to underlying assumptions.

Tax provisions and contingencies

Significant management judgement is required to determine the amounts of tax provisions and contingencies. Deferred tax assets are recognised for unused tax losses and MAT credit entitlements to the extent it is probable that taxable profit will be available against which these losses and credit entitlements can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Defined benefit plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using internal valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2. Summary of material accounting policies

The following are the material accounting policies for the Company:

A) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and entities controlled by the Company and its subsidiaries as at March 31, 2026.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash

flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income are attributed to the equity holder of the parent of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity

Details of entities controlled by the Company are as under:

- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Recognise that distribution of shares of subsidiary to Group in Group's capacity as owners
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or transferred directly to retained earnings, if required by other Ind ASs as would be required

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective

of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

B) Foreign Currency Transaction

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date, the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate, if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the initial transaction.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

recognised in other comprehensive income ("OCI") or profit or loss are also recognised in OCI or profit or loss, respectively).

C) Property Plant & Equipment Recognition and measurement

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, duties and taxes applicable and other expenses related to acquisition and installation. The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use. Borrowing costs that are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset.

Directly attributable costs include:

- Cost of Employee Benefits arising directly from Construction or acquisition of PPE.
- Cost of Site Preparation.
- Initial Delivery & Handling costs.
- Professional Fees and
- Costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling any item produced while bringing the asset to that location and condition (such as samples produced when testing equipment).

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within the statement of profit and loss.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part will be derecognized. The costs of repairs and maintenance are recognized in the statement of profit and loss as incurred.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

Depreciation

Depreciation is recognized in the statement of profit and loss on a straight line basis over the estimated useful lives of property, plant and equipment based on the Companies Act, 2013 ("Schedule II"), which prescribes the useful lives for various classes of tangible assets. For assets acquired or disposed off during the year, depreciation is provided on pro rata basis. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Buildings	
i) Main Plant Building	30
ii) Other Building	60
Plant & Machinery	25
Coffee vending machines	10
Lab Equipment	7.5
Material Handling	7.5
Vehicles	8
Computers	3
Office Equipment	5
Furniture & Fixtures	10

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other non-current assets. The cost of property, plant and equipment not ready to use before such date are disclosed under capital work- in-progress. Assets not ready for use are not depreciated.

The Company assesses at each balance sheet date, whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

is greater than its estimated recoverable amount. Recoverable amount is higher of the value in use or fair value less cost to sell.

D) Intangible assets

Acquired computer software is capitalised on the basis of the costs incurred to acquire and bring to use the specific software. The Intangible assets that are acquired by the Company and that have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

Amortization

Amortization is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets or on any other basis that reflects the pattern in which the asset's future economic benefit are expected to be consumed by the entity. Intangible assets that are not available for use are amortized from the date they are available for use.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Computer Software	3

The amortization period and the amortization method for intangible assets with a finite useful life are reviewed at each reporting date.

E) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost, if both of the following conditions are met: (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI, if both of the following criteria are met: (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and (ii) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However, the Company recognizes interest income, impairment losses and foreign exchange gain or loss in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity Instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as FVTPL. If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither

transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of Financial Assets

The Company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired.

In accordance with Ind AS 109, the Company uses "Expected Credit Loss" (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL). Expected credit losses are measured through a loss allowance at an amount equal to

- The 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date);
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

The Company follows simplified approach for recognition of impairment loss allowance on trade receivables and under the simplified approach, the company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated.

For other assets, the Company uses 12-month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk, full lifetime ECL is used.

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

b. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification.

Financial liabilities at fair value through profit or loss (FVTPL)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading, unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to the statement of profit and loss.

However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Loans and borrowings

Borrowings is the category most relevant to the Company. After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the re-classification prospectively from the re-classification date, which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

F) Cash & Cash Equivalents

Cash and bank balances comprise of cash balance in hand, in current accounts with banks, demand deposit, short-term deposits, Margin Money deposits and unclaimed dividend accounts. For this purpose, "short-term" means investments having maturity of three months or less from the date of investment. Bank overdrafts that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. The Margin money deposits, balance in dividend accounts which are not due and unclaimed dividend balances shall be disclosed as restricted cash balances.

G) Inventories

Inventories are valued at the lower of cost and net realisable value.

Inventories consist of raw materials, stores and spares, work-in-progress and finished goods, and they are measured at the lower of cost and net realizable value.

The cost of all categories of inventories is based on the weighted average method.

Cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Stores and spares, that do not qualify to be recognized as property, plant and equipment, consists of packing materials, engineering spares (such as machinery spare parts) and consumables which are used in operating machines or consumed as indirect materials in the manufacturing process.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

H) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at March 31.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflow of other assets or groups of assets (the "cash-generating unit").

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the entity operates, or for the market in which the asset is used.

An impairment loss is recognized in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

Reversal of Impairment of Assets

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

I) Employee Benefits

a) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined Contribution Plan

The Company's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

b) Defined Benefit Plans

The liability in respect of defined benefit plans and other post-employment benefits is calculated using the projected unit credit method consistent with the advice of qualified actuaries. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related defined benefit obligation. In countries where there is no deep market in such bonds, the market interest rates on government bonds are used. The current service cost of the defined benefit plan, recognised in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are

recognised immediately in the statement of profit and loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for defined benefit obligation and plan assets are recognized in OCI in the period in which they arise. When the benefits under a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. The group recognises gains or losses on the settlement of a defined benefit plan obligation when the settlement occurs.

c) Termination benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

d) Other long-term employee benefits

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

e) Compensated absences

The Company's current policies permit certain categories of its employees to accumulate and carry forward a portion of their unutilised compensated absences and utilise them in

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

future periods or receive cash in lieu thereof in accordance with the terms of such policies. The Company measures the expected cost of accumulating compensated absences as the additional amount that the Company incurs as a result of the unused entitlement that has accumulated at the reporting date. Such measurement is based on actuarial valuation as at the reporting date carried out by a qualified actuary.

f) Share-based payments

Employees of the group receive remuneration in the form of Share-based payments, whereby employees render services as consideration for equity instruments.

g) Treasury Shares

Own equity instruments that are required (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in the securities premium.

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using Black Scholes valuation model.

That cost is recognized, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The Statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards,

but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

J) Provisions, Contingent Liabilities and Contingent Assets Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

K) Revenue Recognition

Revenue from contracts with customers

Revenue is recognized when the Company substantially satisfied its performance obligation while transferring a promised good or service to its customers. The company considers the terms of the contract and its customary business practices to determine the transaction price. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and value added tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives / discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method.

L) Other Income

Interest Income

Interest Income mainly comprises of dividend and interest on Margin money deposit with banks relating to bank guarantee. Interest income should be recorded using the effective interest rate (EIR). However, the amount of margin money deposits relating to bank guarantee are purely current in nature, hence effective interest rate has not been applied. Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

Dividend

Dividend income is recognized when the Company's right to receive dividend is established.

Government Grants

Government grants are assistance by government in the form of transfers of resources to an entity in return for past or future compliance with certain conditions relating to the operating activities of the entity. They exclude those forms of government assistance which cannot reasonably have a value placed upon them and transactions with government which cannot be distinguished from the normal trading transactions of the entity.

Grants related to assets are government grants whose primary condition is that an entity qualifying for them should purchase, construct or otherwise acquire long- term assets. Subsidiary conditions may also be attached restricting the type or location of the assets or the periods during which they are to be acquired or held.

Grants related to income are government grants other than those related to assets.

A government grant that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the entity with no future related costs shall be recognised in profit or loss of the period in which it becomes receivable.

Export incentives in the form of RoDTEP scheme and power subsidy receivable by the company do not fall under the scope of Ind AS 115 and are accounted for in accordance with the provisions of Ind AS 20 considering such incentives as Government Assistance. Accordingly, government grant relating to Income on account of power subsidy is recognised on accrual basis in Profit and Loss statement and export incentive in the form of RoDTEP scheme will be accounted on cash basis in Profit and Loss statement.

M) Borrowing Costs

Borrowing costs consist of interest, ancillary and other costs that the Company incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing cost also include Exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

N) Tax Expenses

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in Other comprehensive income.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

tax regulations are subject to interpretation and establishes provisions, where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities and assets are recognized for all taxable temporary differences and deductible temporary differences.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the Company will pay normal income tax during the specified year, i.e., the year for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset, it is created by way of credit to the

statement of profit and loss and shown as part of deferred tax asset. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

Goods and Service Tax (GST) paid on acquisition of assets or on incurring expenses When the tax incurred on purchase of assets or services is not recoverable from the taxation authority, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable. Otherwise, expenses and assets are recognized net of the amount of taxes paid. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

O) Leases

The group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The group as a lessee

The group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. If ownership of the leased asset transfers to the group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section of Impairment of non-financial assets.

Lease liabilities

At the commencement date of the lease, the group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in- substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the group and payments of penalties for terminating the lease, if the lease term reflects the Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily, determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The group's lease liabilities are included in Borrowings.

Short-term leases and leases of low-value assets

The group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

P) Earnings Per Share

Basic earnings per share

The Company presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

Diluted earnings per share

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

Q) Trade receivables

Trade receivables are initially recognized at fair value and subsequently measured at amortised cost using effective interest method, less provision for impairment, if any.

R) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are presented as current liabilities unless payment is not due within twelve months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

S) Segment Reporting

The operations of the Company primarily relate to a single business segment - Coffee and Coffee-related products. The Company also has an FMCG Products Division, which encompasses packaged food and beverage items. However, in accordance with the requirements of Indian Accounting Standard (Ind AS) 108 - Operating Segments, the FMCG Products Division does not meet the prescribed quantitative

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

thresholds for separate reporting as a distinct segment. As a result, the segmental reporting is not applicable to the Company and hence the segment-wise financial information has not been presented in the financial statements.

T) Determination of fair values

The Company's accounting policies and disclosures require the determination of fair value, for certain financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

i. Property, plant and equipment

Property, plant and equipment, if acquired in a business combination or through an exchange of non-monetary assets, is measured at fair value on the acquisition date. For this purpose, fair value is based on appraised market values and replacement cost.

ii. Intangible assets

The fair value of brands, technology related intangibles, and patents and trademarks acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of these brands, technology related intangibles, patents or trademarks being owned (the "relief of royalty method"). The fair value of customer related, product related and other intangibles acquired in a business combination has been determined using the multi-period excess earnings method after deduction of a fair return on other assets that are part of creating the related cash flows.

iii. Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of

completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

iv. Investments in equity and debt securities and units of mutual funds

The fair value of marketable equity and debt securities is determined by reference to their quoted market price at the reporting date. For debt securities where quoted market prices are not available, fair value is determined using pricing techniques such as discounted cash flow analysis.

In respect of investments in mutual funds, the fair values represent net asset value as stated by the issuers of these mutual fund units in the published statements. Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors.

Accordingly, such net asset values are analogous to fair market value with respect to these investments, as transactions of these mutual funds are carried out at such prices between investors and the issuers of these units of mutual funds.

v. Derivatives

The fair value of foreign exchange forward contracts is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate (based on government bonds). The fair value of foreign currency option and swap contracts and interest rate swap contracts is determined based on the appropriate valuation techniques, considering the terms of the contract.

vi. Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases the market rate of interest is determined by reference to similar lease agreements. In respect of the Company's borrowings that have floating rates of interest, their fair value approximates carrying value.

(All amounts are in INR Lakhs except share data or unless otherwise stated)

U) New standards adopted by the group

Ind AS 1 – Presentation of Restated financial information

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Group does not expect this amendment to have any significant impact in its Consolidated financial statement.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group does not expect this amendment to have any significant impact in its Consolidated financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in Restated financial information to be measured in a way that involves measurement uncertainty. The Group does not expect this amendment to have any significant impact in its Consolidated financial statements.

V) New Accounting pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2026, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.

Notes to Consolidated financial statements

2.33 Financial risk management objectives and policies

Financial Risk Management Framework

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, market risk and liquidity risk. The Company's risk management policies are established to identify and analyse the risks faced by the Company and seek to, where appropriate, minimize potential impact of the risk and to control and monitor such risks. There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risks.

The following sections provide details regarding the Company's exposure to the financial risks associated with financial instruments held in the ordinary course of business and the objectives, policies and processes for management of these risks.

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

(i) Credit risk

Financial assets that are neither past due nor impaired

None of the Company's cash equivalents, loans and other financial assets were either past due or impaired as at the respective reporting period. The Company has diversified its portfolio of investment in cash and cash equivalents and term deposits with various banks which have secure credit ratings, hence the risk is reduced. Loans given to related parties and others are tested for impairment where there is an indicator and the assessed credit risk associated with such loans is relatively low. Other financial assets represent security deposits given to lessors and other assets. Credit risk associated with such deposits and other assets is relatively low.

The Group's credit period for trade receivables from its customers generally ranges from 60 - 180 days. The ageing of trade receivables is given below:

Particulars	31 March 2026	31 March 2025
Neither past due nor impaired	76,064.86	63,305.93
Past due but not impaired:		
Less than 180 days	5,397.15	5,343.93
More than 180 days	1,163.29	1,186.89
Less: Allowance for credit losses	(935.32)	(808.79)
	81,689.98	69,027.96

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each balance sheet date whether a financial asset or a group of financial assets are impaired. Expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix if they are past due. The provision matrix takes into account historical credit loss experience and is adjusted for forward-looking information.

(ii) Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining cash and cash equivalents and the cash flows generated from operations.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Total	1,57,442.35	55,798.69	2,13,241.04

(iii) Market risk:

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(a) Foreign currency risk:

Foreign currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The majority of Company's revenue is generated in foreign currencies (primarily in United States Dollars), while a significant portion of its costs are in Indian rupees. As a result, as the rupee appreciates or depreciates against foreign currencies, the results of the entity's operations are impacted. The Company does not use financial derivatives such as foreign currency forward contracts.

Significant unhedged foreign currency risk exposure relating to financial assets and financial liabilities expressed in ₹ terms are as follows:

Particulars	31 March 2026	31 March 2025
USD & EUR		
Trade receivables	47,556.89	41,220.01
Trade payables	4,801.53	515.70
Borrowings	3,553.61	-

Foreign currency sensitivity:

The following table demonstrates the sensitivity to a reasonably possible change in foreign currencies ('FC'), with all other variables held constant:

Particulars	Impact on profit after tax / equity for the year ended			
	Appreciation in FC by 5%		Depreciation in FC by 5%	
	31 March 2026	31 March 2025	31 March 2026	31 March 2025
Foreign currency				
USD	1,960.09	2,035.22	(1,960.09)	(2,035.22)

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company and the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk relates primarily to the floating interest rate borrowings. The Company's investment in deposits with banks and loans are fixed interest rates and therefore do not expose the Company to significant interest rate risk.

The Company's exposure to changes in interest rates relates primarily to the Company's outstanding floating rate borrowings. The exposure of the Company to variable rate borrowings at the end of the reporting period are as follows:

Particulars	31 March 2026	31 March 2025
Variable rate borrowings	1,29,074.76	1,81,260.84

Notes to Consolidated financial statements

for the year ended 31/03/2026

(All amounts are in INR Lakhs except share data or unless otherwise stated)

Interest rate sensitivity

The Company noted that any reasonably possible change in interest rates on the variable rate instruments will not have any material impact on the Company's profit after tax and its equity.

(c) Price risk

The fair value of some of the Company's investments measured at fair value through other comprehensive income exposes the Company to equity price risks. These investments are subject to changes in the market price of securities. The Company periodically monitors the sectors it has invested in, performance of the investee companies, measures mark-to-market gains/losses and reviews the same to manage the price risk.

2.34 Capital risk management

Capital includes equity capital and all reserves attributable to the equity holders of the Company. The primary objective of the capital management is to ensure that it maintain an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder's value. The Company manages its capital structure and make adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Company monitors capital using a debt to capital employed ratio which is debt divided by total capital plus debt. The Company's policy is to keep this ratio at an optimal level.

Particulars	31 March 2026	31 March 2025
Debt (includes lease liabilities)	1,32,436.02	1,81,477.95

2.40 Employee stock incentive plans

CCL Employee Stock Option Scheme, 2022 (CCL ESOP 2022 Plan):

The Company instituted the CCL ESOP 2022 Plan for eligible employees pursuant to the special resolution approved by the shareholders in the Annual General Meeting held on August 30, 2022. The CCL ESOP 2022 Plan covers eligible employees (excluding promoter directors) of the parent company and its subsidiaries (collectively referred to as "eligible employees").

The Nomination and Remuneration Committee of the Board of the parent company (the "Committee") administers the CCL Employee Stock Option Scheme, 2022 and grants stock options to eligible employees. The Committee determines which eligible employees will receive options, the number of options to be granted, the exercise price, the vesting period and the exercise period. The vesting period is determined for all options issued on the date of grant. The options issued under the CCL ESOP 2022 Plan vest in periods ranging between one and four years subject to a maximum period of five years from the date of grant of such options.

The company has established CCL Employee Stock Option Scheme, 2022 (CCL ESOP 2022 Plan) with 5,00,000 equity shares.

The exercise price of the options is INR 2 per share. The fair value of the share options is estimated at the grant date using a Black-Scholes Method, taking into account the terms and conditions upon which the share options were granted. However, the above performance condition is only considered in determining the number of instruments that will ultimately vest.

The carrying amount of the liability at 31 March 2026 was INR 2,327.03 lakhs (31 March 2025: INR 2,273.19 lakhs).

The expense recognised for employee services received during the year is shown in the following table:
