**Re: Scrip Symbol: CENTUM/ Scrip Code: 517544**

Dear Sir/Madam,

**Sub: Intimation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 - Centum Electronics Limited enters into a Strategic Teaming Agreement with Indra Air Traffic Inc.**

Centum Electronics Limited (“the Company”) is pleased to inform that the Company has entered into a teaming agreement with Indra Air Traffic Inc, a global leader in defence, air traffic and space technologies, to jointly develop and manufacture advanced air navigation systems for the Indian naval forces.

This strategic partnership represents a significant milestone in advancing indigenous capability in defence systems and aligns with the Government of India’s Aatmanirbhar Bharat initiative.

Under the agreement, Centum and Indra will collaborate to manufacture state-of-the-art air navigation systems in India, leveraging Centum’s strong engineering, R&D, and high-reliability manufacturing capabilities together with Indra’s global expertise and advanced technology solutions. The partnership is expected to strengthen operational readiness and provide mission-critical, cutting-edge systems to India’s armed forces.

This partnership underscores the Company’s continued commitment to innovation and strengthening India’s defence manufacturing ecosystem.

The above information is being submitted pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

In this regard, the copy of the press release is enclosed as Annexure - I.

**PRESS RELEASE**

**Centum Electronics and Indra Air Traffic Forge Strategic Partnership to Introduce Cutting-Edge Navigation Technology for Indian Naval Forces**

Bengaluru, 11 December, 2025: Centum Electronics Limited, a trailblazer in Indian Electronics Systems Design and Manufacturing (ESDM), proudly announces a transformative teaming agreement with Indra Air Traffic Inc, a global leader in defence, air traffic, and space innovation. This strategic alliance marks a pivotal moment in India's journey toward technological self-reliance and defence modernization.

Under this agreement, Centum and Indra will collaborate to manufacture state-of-the-art air navigation systems in India, tailored for the Indian Navy. This partnership not only brings world-class technology and deep engineering expertise to the forefront but also reinforces the shared commitment to the Government of India's Aatmanirbhar Bharat initiative.

By combining Centum's relentless drive for innovation, investment in R&D, and high-reliability manufacturing with Indra's global vision and advanced solutions, the collaboration sets a new benchmark for indigenous manufacturing and operational superiority. Together, the companies commit to empowering India's armed forces with cutting-edge, mission-ready systems that ensure safety, connectivity, and strategic advantage.

“Our partnership with Indra Air Traffic is a testament to Centum’s unwavering commitment to innovation and excellence,” said Nikhil Mallavarapu, Joint Managing Director of Centum. “By joining forces, we are not only advancing India’s defence capabilities but also championing the spirit of Aatmanirbhar Bharat. Together, we are shaping a future where India stands at the forefront of technological leadership and operational readiness”, he further added.

“I am pleased to announce the signing of the Teaming Agreement with our esteemed partner Centum for the joint development and ToT of the Advanced Air navigation system. This partnership represents a significant step towards strengthening indigenous capabilities and advancing our contribution to Aatmanirbhar Bharat” said Kenneth Cleveland, Vice President – Sales & Marketing of Indra.

Centum remains committed to driving innovation and excellence, ensuring that India’s defence sector continues to rise as a beacon of technological prowess on the world stage.

#### **About Centum Electronics Limited:**

Founded in 1994 and headquartered in Bengaluru, Centum Electronics Limited is a trusted Indian partner for design, development, and manufacturing of complex electronic systems used in Defence, Aerospace, Space, Industrial, and Medical applications. Centum has built a strong global reputation for reliability, innovation, and high-technology engineering excellence, serving both Indian and international customers across mission-critical domains.

#### **About Indra Air Traffic Inc:**

Indra Air Traffic is one of the main global defense, air traffic and space companies within the Indra Group promoting a safer and more connected future through its innovative solutions, trusted relationships, and the best talent. During the financial year 2024, Indra Group had revenues of 4,843 million euros, more than 60,000 employees, local presence in over 50 countries and commercial operations in more than 140 countries.
