  18. All holders of physical securities of the Company are mandatorily required to furnish the KYC documents i.e., PAN (linked with Aadhaar), Contact details (postal address, mobile number and e-mail id), Bank Account details, Specimen Signature and Nomination/Opt-out Nomination, if not available in the records, to the Company's R & T Agent.
  19. Shareholders who are holding shares in physical form are also requested to notify any changes in the KYC information by furnishing the KYC documents.
  20. The shareholders holding the unexchanged share certificates shares in physical forms are requested to exchange with the new share certificate with the Company. Further, the Company pursuant to Regulation 39 read with Schedule VI of the SEBI Listing Regulations will initiate process to send a reminder to the Shareholders to claim unexchanged/undelivered share certificates lying with the Company failing which the unclaimed/unexchanged share certificates lying in physical form shall be transferred in dematerialised form for being held in Unclaimed Suspense Account.
  21. In terms of provisions of Section 72 of the Act, nomination facility is available to individual shareholder. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13 to R & T Agent. If a member desires to opt out or cancel the earlier nomination and record a fresh nomination, he/she may submit the same in Form ISR-3 (Opt-Out Nomination) or SH-14 (Cancellation or Variation of Nomination), as the case may be. The said forms can be downloaded from the Company's website [www.centuryenka.com](http://www.centuryenka.com). Members, who are holding shares in dematerialized form are requested to contact their DP for this purpose.
  22. Members holding shares in physical form, in identical order of names, in more than one folio, are requested to send to the Company or R & T Agent, the details of such folios together with the share certificates along with the requisite KYC documents for consolidating their holdings in one folio. Requests for consolidation of share certificates shall be processed in accordance with SEBI Circular No. SEBI/HO/MIRSD/MIRSD\_RTAMB/P/CIR/2022/8 dated 25<sup>th</sup> January 2022.
  23. In case of joint holders attending the meeting, only such joint holder whose name appears as the first holder in the order of names will be entitled to vote during the AGM.
  24. Members seeking any information with regard to the financial statements or any matter to be placed at the AGM, are requested to write to the Company on or before Friday, 1<sup>st</sup> August 2025 through email on [cel.investor@adityabirla.com](mailto:cel.investor@adityabirla.com). The same will be replied by the Company suitably.
  25. The Register of Directors and Key Managerial Personnel and their shareholding maintained under Section 170 of the Act, the Register of Contracts or Arrangements in which Directors are interested under Section 189 of the Act, the Register of Charges as maintained under Section 85 of the Act and other relevant documents referred to in this Notice will be available electronically for inspection by the members during the 59<sup>th</sup> AGM. Members desirous of inspecting the documents referred to in the Notice or Explanatory Statement may send their requests to [cel.investor@adityabirla.com](mailto:cel.investor@adityabirla.com) from their registered e-mail addresses mentioning their names, folio numbers, DP ID & client Id and Number of shares held during business hours on all working days, up to the date of 59<sup>th</sup> AGM.
  26. It is observed that few members of the Company have still not surrendered their old Share Certificates for Equity Shares of ₹100/- each for exchange with the new Share Certificates for Equity Shares of ₹10/- each. They are once again requested to surrender the old Share Certificates for Equity Shares of ₹100/- each at the Registered Office of the Company so as to enable the Company to do the needful.
  27. Those members who have not encashed dividend warrant for the financial years 2017-18 to 2023-24 may return the time barred dividend warrant or write to R & T Agent, for payment of dividend by furnishing KYC documents including bank details.  
The unclaimed dividend upto financial years 1995-96 have been transferred to the General Revenue Account of the Central Government in terms of the provisions of Section 205A of the Companies Act, 1956. Those shareholders who have so far not claimed their dividend for the financial years upto 1995-96 may claim their dividend from the Registrar of Companies, Pune, Maharashtra by submitting an application in the prescribed form. Pursuant to Section 205A and 205C and other applicable provisions of the Companies Act, 1956, and Section 124 and 125 of the Companies Act, 2013 read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ('IEPF Rules'), effective from 7<sup>th</sup> September 2016, Unclaimed dividend for financial years 1996-97 to 2016-17 have been transferred to Investor Education and protection Fund (IEPF).  
Members who have not encashed dividend warrant for the financial year 2017-18 shall return the time barred dividend warrant before 1<sup>st</sup> August 2025 for payment of dividend as unclaimed dividend for the financial year 2017-18 will be due for transfer to the IEPF on Thursday, 14<sup>th</sup> August 2025.

28. Pursuant to the provisions of Section 124(6) of the Act and the IEPF Rules as amended from time to time, shares in respect of which dividends have not been encashed for seven consecutive years or more are required to be transferred to IEPF. The Company, in compliance with the aforesaid rules, has sent individual notices on 30<sup>th</sup> April 2025 to those members whose shares are liable to be transferred to IEPF intimating them particulars of equity shares due for transfer and has also published a notice in newspaper in English and regional language i.e., Marathi, on 5<sup>th</sup> May 2025. The Company has also uploaded the details of such unclaimed/unpaid dividend and the related shares due for transfer on the website of the Company i.e., [www.centuryenka.com](http://www.centuryenka.com). Concerned shareholders are requested to claim the unpaid/unclaimed dividend by Friday, 1<sup>st</sup> August 2025, well before the due date i.e., Thursday, 14<sup>th</sup> August 2025. If unclaimed dividends are not claimed by the shareholders on or before the date specified above, shares in respect of such unclaimed dividends will be transferred to IEPF. It may be noted that no claim shall lie against the Company in respect of shares so transferred to IEPF. Upon transfer, the shareholders can claim these equity shares only from the IEPF authority as per the procedure prescribed under IEPF Rules, the details of which are available at [www.iepf.gov.in](http://www.iepf.gov.in). The Shareholders are requested to complete their KYC for this purpose. **Appointment of Rotational Director**

Pursuant to the provisions of Sections 149 and 152 of the Companies Act, 2013 ("the Act") read with the Companies (Appointment and Qualification of Directors) Rules, 2014, and other applicable provisions (including any statutory modification(s) or re-enactment(s) thereof for the time being in force), and in accordance with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), as amended from time to time, the Board of Directors, on the Nomination and Remuneration Committee, at its meeting held on 29<sup>th</sup> September 2023 appointed Mr. Jayant Vasant Dhobley as a Non-Executive, Non-Independent Director of the Company, liable to retire by rotation, effective from the same date.

As per Regulation 17(1C) of the Listing Regulations, a listed entity must obtain shareholder approval for the appointment of a director either at the next general meeting or within three months from the date of appointment, whichever is earlier. Accordingly, the Company obtained shareholder approval for Mr. Dhobley's appointment through postal ballot on 26<sup>th</sup> December 2023.

Further, in accordance with Section 152(6) and (7) of the Act, which deals with the retirement of directors by rotation and their eligibility for re-appointment, Mr. Jayant Vasant Dhobley, being liable to retire by rotation at the forthcoming Annual General Meeting, offers himself for re-appointment.

**A brief profile of Mr. Jayant Vasant Dhobley is provided below:**

Mr. Dhobley is the CEO and Business Head of Global Chemicals, Fashion Yarn & Insulators, Aditya Birla Group since 2021. His experience and expertise spans over three decades and have been instrumental in driving P & L, innovation, growth, and sustainability in his various roles. He completed his bachelor's degree in engineering, specializing in Polymer Technology, from MIT, Pune. Over the course of his career, Mr. Dhobley has garnered experience in various facets of the Speciality Material, Polymer and Chemical industry. He has worked in global roles across multiple domains in P & L, operations, mergers and acquisitions, and spearheading greenfield projects. In his career of 30 years, he has worked in Greaves Cotton & Co Ltd, Amcor, and DSM. A notable aspect of his professional journey is the two decades, he spent working in China and Singapore. His experience has equipped him with a deep understanding of the Asia Pacific chemical industry and market dynamics, allowing him to bring unique insights and strategies.

Except for Mr. Jayant Vasant Dhobley, being the appointee, none of the Directors, Key Managerial Personnel, or their relatives are concerned or interested, financially or otherwise, in the resolution set out at Item No.3 of this Notice.

The Board of Directors recommends the Ordinary Resolutions as set out at Item No.3 of this Notice for the approval of the Members of the Company.

**Item No. 4****Re-appointment of Mrs. Krupa R. Gandhi (DIN-00294629) as an Independent Director of the Company**

Mrs. Krupa R. Gandhi (DIN: 00294629) was appointed as an Independent Director of the Company pursuant to the provisions of Sections 149, 150, and 152, and other applicable provisions of the Companies Act, 2013, read with Schedule IV to the Act and the Companies (Appointment and Qualification of Directors) Rules, 2014 (including any amendments, statutory modifications, or re-enactments thereof currently in force), and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (including any statutory modifications or re-enactments thereof currently in force). Her appointment was made on recommendation of Nomination and Remuneration Committee and by a resolution passed by the Board of Directors and was subsequently approved by the shareholders for a first term of five (5) consecutive years, effective from 14<sup>th</sup> August 2020. Accordingly, her first term as an Independent Director will expire on 13<sup>th</sup> August 2025.

The Nomination and Remuneration Committee, at its meeting held on 6<sup>th</sup> May 2025, recommended to the Board that the continued association of Mrs. Krupa R. Gandhi with the Company would be in the best interest of the Company and its shareholders. This recommendation is based on the outcome of her performance evaluation, as well as her qualifications, experience, professional background, and significant contributions during her tenure. The rationale for the proposed reappointment of Mrs. Krupa R. Gandhi is based on several key factors, including:

- Her consistent demonstration of high standards of integrity, independent judgment, and impartiality in decision-making.
- Active and effective participation in Board and Committee

meetings, where she regularly provides strategic guidance, valuable insights, and constructive feedback.

- Extensive experience and domain expertise that are well aligned with the Company's business operations and long-term strategic goals.
- The strong confidence and trust she commands from the Board, management, and stakeholders, attributable to her professionalism, ethical conduct, and unwavering commitment to safeguarding shareholder interests.
- Her continued compliance with all prescribed independence criteria and confirmation of no disqualification under the provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

At its meeting held on 6<sup>th</sup> May 2025, the Board of Directors of the Company, after considering the recommendation of the Nomination and Remuneration Committee, and taking into account Mrs. Krupa R. Gandhi's qualifications, experience, professional background, substantial contributions during her tenure, and the rationale for her reappointment, approved and recommended her reappointment as an Independent Director of the Company for a second term of five (5) consecutive years, commencing from 14<sup>th</sup> August 2025 and ending on 13<sup>th</sup> August 2030.

The decision was supported by a performance evaluation conducted on various parameters, including (but not limited to) her attendance at Board and Committee meetings, expertise and experience, ability to constructively challenge and contribute to discussions, as well as her knowledge of the Company's operations, industry landscape, and awareness of global business trends.

Mrs. Krupa R. Gandhi has consented to her proposed reappointment as an Independent Director of the Company and has confirmed that she is qualified to continue as an Independent Director pursuant to the provisions of Section 164(1) and Section 164(2) of the Companies Act, 2013, and Rule 14(1) of the Companies (Appointment and Qualification of Directors) Rules, 2014 and pursuant to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (including any statutory modifications or re-enactments thereof currently in force). She has further confirmed that she is not debarred from accessing the capital markets or restrained from holding the position of Director in any company by any order issued by the Ministry of Corporate Affairs, the Securities and Exchange Board of India (SEBI), or any other regulatory authority.

Additionally, Mrs. Gandhi has submitted the requisite declarations confirming that she meets the criteria of independence as specified under Section 149(6) of the Companies Act, 2013 and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and that she remains independent of the management. She has also confirmed that she is not aware of any circumstances or situations that exist or can be reasonably anticipated to exist, which could impair her ability to discharge her duties as an Independent Director with objective and independent judgment and without any external influence.

Further, in accordance with the provisions of Section 160 of the Companies Act, 2013, the Company has received a notice in writing

from a Member proposing the candidature of Mrs. Krupa R. Gandhi for appointment to the office of Independent Director of the Company.

Mrs. Krupa R. Gandhi is a Commerce Graduate from Bombay University, a Fellow Member of the Institute of Chartered Accountants of India (ICAI), and holds a Certificate of Practice. She is a Partner at M/s. Bansi S. Mehta & Co., Chartered Accountants, from the past 25 years and specialised in corporate advisory, tax advisory, litigation, due diligence, tax audits, and other areas within the Direct Tax domain.

The Board of Directors recommends the Special Resolutions as set out at Item Nos. 4 of this Notice for the approval of the Members of the Company.

Except for Mrs. Krupa Rajen Gandhi, being the appointee, none of the Directors, Key Managerial Personnel, or their respective relatives are, in any manner, financially or otherwise, concerned or interested in the resolution set out at Item No. 4 of this Notice.

#### **Item No. 5**

#### **Re-appointment of Mr. Suresh Sodani (DIN-08789604) as a Managing Director of the Company**

Pursuant to the provisions of Sections 152, 196, 197, 198, and 203 of the Companies Act, 2013 ("the Act"), read with the Companies (Appointment and Qualification of Directors) Rules, 2014 and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 (including any statutory modifications or re-enactments thereof currently in force), and in accordance with the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the Listing Regulations") and the Articles of Association of the Company, the Board of Directors, based on the recommendation of the Nomination and Remuneration Committee, at its meeting held on 14<sup>th</sup> July 2020, appointed Mr. Suresh Sodani (DIN: 08789604) as a Director of the Company with effect from 1<sup>st</sup> September 2020.

At the same meeting, Mr. Suresh Sodani was also appointed as the Managing Director of the Company for a period of five (5) years, effective from 1<sup>st</sup> September 2020, subject to the approval of the Members of the Company. His current term as Managing Director is set to expire on 31<sup>st</sup> August 2025; however, he will continue to serve as a Director of the Company beyond the completion of his tenure as Managing Director.

The Nomination and Remuneration Committee, at its meeting held on 6<sup>th</sup> May 2025, recommended to the Board that the continued association of Mr. Suresh Sodani with the Company would be in the best interest of the Company and its members. This recommendation is based on the outcome of his performance evaluation, as well as his qualifications, experience, professional background, substantial contributions during his tenure. Further, the rationale for the proposed reappointment of Mr. Suresh Sodani is supported by several key considerations, including:

- Proven strong leadership, strategic foresight, and effective decision-making, which have significantly contributed to the Company's growth, stability, and overall performance.
- Initiatives that have led to enhanced operational efficiency, the maintenance of robust financial health, and a strengthened market presence.

- A strong focus on long-term strategic planning and the pursuit of sustainable growth and value creation.
- A deep and practical understanding of the Company's operations, culture, and industry landscape, enabling effective navigation of current challenges and capitalization on future opportunities.
- The confidence and trust he commands from the Board, shareholders, and key stakeholders, built on a foundation of integrity, commitment, and alignment with the Company's vision and values.
- Ongoing compliance with all applicable regulatory requirements, with all necessary approvals and disclosures to be undertaken in line with statutory norms.

At its meeting held on 6<sup>th</sup> May 2025, the Board of Directors of the Company, after considering the recommendation of the Nomination and Remuneration Committee and taking into account Mr. Suresh Sodani's qualifications, experience, professional background, substantial contributions during his tenure, and the rationale proposed, approved and recommended to the members the reappointment of Mr. Suresh Sodani as Managing Director of the Company for the period from 1<sup>st</sup> September 2025 to 31<sup>st</sup> March 2027, not liable to retire by rotation.

The performance evaluation of Mr. Sodani was conducted based on several criteria, including but not limited to attendance at Board and Committee meetings, skills, experience, knowledge of the Company's business, and understanding of industry and global trends.

Mr. Suresh Sodani has consented to his proposed reappointment as Managing Director and confirmed that he is qualified to continue as a Director of the Company pursuant to Sections 164(1) and 164(2) of the Companies Act, 2013 and Rule 14(1) of the Companies (Appointment and Qualification of Directors) Rules, 2014 and in accordance with the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. He has also confirmed that he is not debarred from accessing the capital markets nor restrained from holding the position of Director in any company by any order issued by the Ministry of Corporate Affairs, the Securities and Exchange Board of India, or any other competent authority.

Further, in accordance with Section 160 of the Companies Act, 2013, the Company has received a written notice from a member proposing Mr. Sodani's candidature for the office of Managing Director of the Company.

#### **Item No. 6**

#### **Appointment of M/s. Sanjay Sangani & Co., Practicing Company Secretaries, as Secretarial Auditors**

This explanatory statement is provided in accordance with Regulation 36(5) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations").

Pursuant to the provisions of Sections 204, read with Rules 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, and other applicable provisions of the Companies Act, 2013 (including any statutory modifications or re-enactments thereof currently in force) ("the Act"), every listed company and certain prescribed categories of companies are required to annex a Secretarial Audit Report, issued by a Practicing Company Secretary, to their Board's Report prepared under Section 134(3) of the Act.

Further, in compliance with recent amendments to Regulation 24A of the Listing Regulations, every listed entity is mandated to conduct a Secretarial Audit and attach the Secretarial Audit Report to its Annual Report. Additionally, the listed entity must appoint a Secretarial Auditor who shall be either an individual Company Secretary in practice or a firm of Company Secretaries in practice holding a valid certificate of peer review issued by the Institute of Company Secretaries of India (ICSI) to conduct the Secretarial Audit.

An individual Secretarial Auditor may be appointed for a maximum term of five consecutive years (one term), whereas a Secretarial Audit firm may be appointed for a maximum of two terms of five consecutive years each, subject to approval by the shareholders at the Annual General Meeting.

Accordingly, the Board of Directors has approved the appointment of M/s. Sanjay Sangani & Co., Practicing Company Secretaries (Membership No. FCS 4090 & Certificate of Practice No. 3847), a proprietary concern, as the Secretarial Auditors of the Company for a term of five years, commencing from 1<sup>st</sup> April 2025 to 31<sup>st</sup> March 2030. This appointment is subject to the approval of the shareholders at the forthcoming Annual General Meeting.

In recommending M/s. Sanjay Sangani & Co. for this appointment, the Board carefully evaluated several important factors, including the firm's capability to conduct the audit, its relevant experience within the Company's business segments, its industry reputation, the clientele it serves, and its technical expertise. Further, the rationale for the proposed appointment is supported by the following key considerations:

1. The firm possesses a comprehensive understanding of the Company's secretarial records, compliance processes, and corporate governance framework, which enables a more effective and insightful audit.
2. The appointment ensures continuity in audit practices and maintains consistency in reporting standards.
3. The firm has demonstrated a high level of diligence, independence, and expertise in conducting secretarial audits, while also providing valuable guidance on regulatory compliance matters.
4. The firm continues to fully comply with the eligibility and independence criteria prescribed under applicable laws.

M/s Sanjay Sangani & Co., Practicing Company Secretaries, is a peer-reviewed proprietary firm of Mr. Sanjay H. Sangani. (Membership No. FCS 4090 & Certificate of Practice No. 3847) is a qualified Company Secretary, Chartered Accountant, and Commerce Graduate. He brings extensive expertise in Company Law, SEBI and Stock Exchange regulations, Finance, Accounts, and Income Tax. With over 36 years of post-qualification experience, Mr. Sangani has worked with various companies for 12 years and has been engaged in secretarial practice for the past 24 years. He is supported by a team of qualified Company Secretaries with diverse experience, along with other support staff. The firm provides services to a wide range of corporate clients, including listed companies, public limited companies, and subsidiaries of foreign companies.

The terms of appointment for M/s Sanjay Sangani & Co. include a tenure of five consecutive years, commencing from FY 2025-26 to FY 2029-30, with proposed annual remuneration of ₹ 1.10 lacs P.A. plus applicable taxes and/or as to be determined by the Board of Directors for each financial year. Additionally, reimbursement of out-of-pocket expenses related to the secretarial audit will be provided.

M/s Sanjay Sangani & Co. has provided their consent to act as the Secretarial Auditors of the Company and has confirmed that, if appointed, their engagement will comply with the provisions of the Companies Act, 2013 and the SEBI Listing Regulations.

Accordingly, the consent of the shareholders is sought for the appointment of M/s Sanjay Sangani & Co. as the Secretarial Auditors of the Company.

The Board of Directors recommends the resolution for approval by the members, as set out in Item No. 6 of the Notice.

None of the Directors, Key Managerial Personnel, or their relatives have any financial or other interest in the proposed resolution.

## Item No. 7

### Ratification of Remuneration of Cost Auditors for the financial year ended 31<sup>st</sup> March 2026

The Board of Directors, based on the recommendation of the Audit Committee, has approved the appointment of M/s. Gopal Keswani & Co., Cost Accountants (Firm Registration No. 100761 and Membership No-19435) as Cost Auditors to conduct the audit of the Company's cost accounts for the financial year ending 31<sup>st</sup> March 2026, at a remuneration of ₹ 3,50,000/- (Rupees Three Lakhs Fifty Thousand only), plus applicable Goods and Services Tax and reimbursement of out-of-pocket expenses.

The Audit Committee, at its meeting held on 6th May 2025, recommended the appointment after carefully evaluating several key factors, including the firm's capability to conduct the audit, its relevant experience in the Company's business segments, the clientele it serves, and its technical expertise. The rationale for the proposed appointment is further supported by the following considerations:

1. A thorough understanding of the Company's cost structures, accounting systems, and industry-specific processes, which enhances audit effectiveness and ensures accurate reporting.
2. Consistency in audit approach, facilitating enhanced compliance and stronger cost control measures.
3. Proven professional competence, punctuality, offering valuable insights into cost management and operational efficiency.

4. Ongoing compliance with the independence and eligibility requirements as mandated by applicable laws.

The brief profile of brief profile of M/s. Gopal Keswani & Co., Cost Accountants is given below:

He has been a practicing Cost Accountant since 1999, with over 25 years of experience in taxation, cost audits, project finance, and providing expert financial guidance and compliance solutions. He has served on the Managing Committee of the Kalyan-Ambarnath Chapter of the Institute of Cost Accountants of India for the past 25 years, including roles as Treasurer and Secretary in previous terms. Currently, he is the Chairperson of the Chapter, actively leading initiatives focused on professional development and industry engagement.

In accordance with the provisions of Section 148 of the Act, read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors must be ratified by the members of the Company. Accordingly, the consent of the Members is sought for the approval of the remuneration payable to the Cost Auditors for the financial year ending 31<sup>st</sup> March 2026.

The Board recommends the approval of the remuneration payable to M/s. Gopal Keswani & Co., Cost Accountants, for conducting the cost audit and the passing of the Ordinary Resolution set out at Item No. 7 of the Notice.

None of the Directors or Key Managerial Personnel of the Company, or their relatives, are concerned or interested, financially or otherwise, in this resolution.

# A Force Woven with Purpose

Century Enka Limited (also referred to as 'Century Enka,' 'CEL' or 'The Company') is delighted to present its 59<sup>th</sup> Annual Report (4<sup>th</sup> Integrated Annual Report) for FY 2025, emphasizing our dedication to purposeful growth and ethical practices. As a "Force Woven with Purpose," CEL strives to positively influence its business trajectory, decision-making processes, workforce, communities, and promote environmental stewardship.

As we approach six decades of existence, we have witnessed great transformation. From our landmark collaboration in 1967, when the House of Birla joined forces with ENKA from AKZO Netherlands leading to the creation of Century Enka and paving our way to become a leading producer of synthetic yarns, our journey has been extraordinary.

We have consistently grown, focusing on innovation and securing our leadership in the industry. Our journey not only focuses on our growth but also highlights the advancements we have achieved in decision-making, our capabilities, our sensitivity to the environment, and our people through the mitigation of various challenges. Through our journey, we have consistently made better decisions that benefit all stakeholders. As our awareness

of how our operations impact the environment and community has grown, we have adopted a more protective business approach. Within the broader regulatory frameworks and evolving social landscape, we now bear the responsibility to create positive societal impacts.

With strong governance mechanisms, effective risk management systems, and solid relationships with key stakeholders, including supply chain partners, customers, employees, and the broader community, we are dedicated to being a positive force. Our goal is to provide innovative, cost-effective, and sustainable solutions while adhering to fair commercial practices through total quality management. We aim to chart a growth trajectory that is sustainable in every aspect.

# About the Report

## Approach to Reporting

We are pleased to present our 59<sup>th</sup> Annual Report (4<sup>th</sup> Integrated Annual Report), FY 2025, focused on the theme, 'A Force Woven with Purpose'.

The Report has been prepared in alignment with the International Integrated Reporting Council (<IR>) Framework and the information provided in the Report is with reference to Global Reporting Initiative (GRI) Standards 2021 and United Nations Sustainable Development Goals (UN SDGs).

It comprehensively highlights our strategic objectives, ESG achievements, financial performance, and value creation across six capitals of the <IR> framework and provides a robust summary of our progress and potential to help readers make informed conclusions about our capacity to create value in the short, medium, and long term, and our journey and progress toward sustainability.

## Reporting Period

We publish our Integrated Report Annual Report since FY 2022. This report covers the performance of CEL for the financial year from 1<sup>st</sup> April 2024 to 31<sup>st</sup> March 2025. Wherever possible for certain key performance indicators, comparative figures for the last two years have been incorporated in this report, to provide a trend and better insights on the performance of the Company.

## Scope and Boundary

In this report, we present our business model, strategy, significant risks, challenges, and opportunities, as well as our overall performance, outcomes, and prospects for the year under review. In addition to financial performance, we have also provided information about our environmental, social and governance (ESG) performance. The Report covers our operational plants in Maharashtra and Gujarat, as well as our marketing offices.

## Restatements

As we are continuously evolving in our journey toward transparent reporting and disclosures, we have revisited

our processes for collating data with respect to various KPIs and may entail restating certain information published in the past. Restated information from the previous Integrated Report(s) has been denoted by (^) in this report.

## External Assurance

Disclosures in this Report are based on the Global Reporting Initiative (GRI) indicators. In this reporting period, we have taken Limited Assurance on BRSR Core from M/s BDO India LLP.

## Materiality

Our material issues significantly impact our ability to create value for stakeholders. An issue is considered material if it can substantially affect our commercial viability, social relevance, and the quality of our stakeholder relationships. Through our Materiality Assessment, we have determined that the material topics identified last year remain highly relevant and should be maintained in this year's report as well. This approach ensures we consistently focus on the most critical areas of our operations.

## Our Capitals

At CEL, the creation of long-term value is interconnected with all the capitals and relies on various factors such as the nature and the quantity of inputs, methods utilized to enhance the value of the inputs, effects on the inputs, and the outcomes generated by the value delivered.

## Statement of Responsibility

Our Board believes that CEL's Integrated Annual Report for FY 2025 thoroughly addresses all key aspects, providing a comprehensive and detailed view of our strategy. It showcases the Company's ability to generate sustainable value. The Board has full oversight of the Report, which has been developed by senior management with valuable insights from various key functional teams.

### Frameworks and Guidelines Followed in This Report:

- ◉ The International Integrated Reporting Council's (IIRC) Integrated Reporting Framework (IR Framework)
- ◉ The Report is developed in reference with the Global Reporting Initiatives (GRI), 2021
- ◉ The National Guidelines on Responsible Business Conduct (NGRBC)
- ◉ The Companies Act, 2013 (and the rules made thereunder)
- ◉ The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015
- ◉ The Indian Accounting Standards
- ◉ The Secretarial Standards issued by the Institute of Company Secretaries of India
- ◉ The United Nations Sustainable Development Goals (UN SDGs)

### Forward-looking Statements

The Report may contain certain 'forward-looking' statements related to our business, which include statements beyond performance highlights and historical facts. These statements pertain to aspects such as market and financial position, business strategy, and objectives for future operations. Stakeholders can generally identify forward-looking statements using terminology such as 'aim', 'anticipate', 'believe', 'expect', 'estimate', 'intend', 'objective', 'plan', 'project', 'may', 'will', 'will continue', 'will pursue', 'contemplate', 'future', 'goal', 'propose', 'will likely result', or other similar words or phrases. These statements are contingent on projections and trends, and reflect our present expectations based on reasonable assumptions. However, actual results may differ from those predicted in forward-looking statements due to risks, uncertainties, and external factors.

# Chairperson's Message

At CEL, we are committed to evolving with global demands while keeping sustainability at our core. As a Force Woven with Purpose, we strive to create lasting societal and environmental value, while contributing meaningfully to the vision of *Viksit Bharat*.

## Dear Stakeholders,

I hope this message finds you in good health and high spirits.

With Force For Good as the overarching theme at the Aditya Birla Group, I write to you with optimism and pride as we reflect on a year marked by resilience, resolve, and responsible growth. Amidst competitive global markets and evolving geopolitical challenges, we made meaningful progress, anchored in the Group's Purpose: "To enrich lives, by building dynamic and responsible businesses and institutions, that inspire trust."

Guided by ethical conduct, sustainability-led decisions, and inclusive social impact, we remain confident that our collective actions today are shaping a stronger and more equitable tomorrow.

## Strengthening CEL's Growth in India

In a world where the global economy is projected to grow at 2.6% in 2025, India stands out as a beacon of opportunity: with its expansive market, youthful population, and increasing consumption. India is expected to remain the fastest-growing major economy in the coming years.

The textile sector continues to be a cornerstone of India's economy, contributing 2.3% to GDP, 13% to industrial production, and over 10%

to exports. However, with domestic capabilities still maturing, the industry is reliant on global supply chains. The Government's 2030 growth vision, with a renewed focus on technical textiles, presents a timely opportunity for a company like ours.

At Century Enka Limited (CEL), we are steadfast in our aspiration to be a reliable leader in tyre reinforcement and synthetic yarns. We aim to be effective collaborators, listening closely to all stakeholder voices and creating value that is both credible and impactful.

Within this evolving landscape, the synthetic yarn market is a niche yet expanding sector, driven by demand from developed countries.

As India's premier manufacturer of Nylon-based synthetic yarns, CEL is well-positioned to capitalise on this growth opportunity and spearhead innovation within the industry.

### Reinforcing CEL's Future

To meet growing market demand, we have scaled our production capacity and continue to engage with our customers: delivering product innovation, assured supply, and future-ready solutions. Our foray into the Polyester Tyre Cord Fabric (PTCF) plant last year is expected to yield desired results in the year ahead, unlocking new growth avenues.

**To meet growing market demand, we have scaled our production capacity and continue to engage with our customers: delivering product innovation, assured supply, and future-ready solutions.**

We also remain committed to offering superior, differentiated synthetic yarn products that are aligned with emerging fashion trends and customer needs.

Despite challenges in FY 2025, ranging from margin pressures to dumping from China, CEL demonstrated resilience. We closed the year with ₹ 2,002 Crs in revenue from operations and a net profit of ₹ 67 Crs. Through strategic oversight and an agile mindset, we are well-positioned to achieve our objectives for FY 2026.

Through innovative, cost-effective and sustainable solutions, backed by

fair commercial practices and total quality management, we aim to chart a growth trajectory that is sustainable at every level.

### A Firm Commitment to Our Stakeholders

With strong governance, prudent risk management, and deep stakeholder trust, we remain committed to being a Force for Good. At CEL, our mission transcends business as we strive to create enduring societal and environmental value while contributing to a stronger, more resilient economy.

I extend my heartfelt gratitude to our leadership, employees, partners, and stakeholders for your commitment and trust. You inspire us to continue our journey with dignity, excellence, and purpose.

Warm regards,

**Rajashree Birla**  
Chairperson

# Managing Director's Message

As world economies adjust and responds to evolving geopolitical challenges, CEL continues to focus on innovative and cost-effective solutions for a sustainable future.

With 'service to society' at the core of our operations, our nearly six-decade journey has been steered by ethical conduct, sustainable decision-making, and diverse social impact.

The pages ahead reflect our enduring dedication to customer-centricity, innovation, and customisation. This commitment drives us to continually develop new products and build a legacy that balances robust business growth with long-term sustainability.

By actively listening to our stakeholders, we strive to enhance the value we offer across our business ecosystem. This approach drives us to evolve, strengthen our capabilities, and deliver on the needs of both our customers and our people, year after year.

## Driving Business with Passion

Our Company operates two state-of-the-art manufacturing facilities in Maharashtra and Gujarat, with a combined production capacity of approximately 92,000 MTPA. We are proud to be recognised as the leading producer of Nylon Filament Yarn (NFY) and Nylon Tyre Cord Fabric (NTCF) in India. Last year, we made a strategic entry into the Polyester Tyre Cord Fabric (PTCF) segment to meet the growing demand for passenger car tyres.

Despite challenges such as erratic domestic NTCF demand, volatile raw material prices, and dumping from China, leading to margin pressures, Century Enka Limited (CEL) recorded its highest-ever sales volume in FY 2025. We reported revenue of ₹ 2,002 Crs and a net profit of ₹ 67 Crs, a testament to our resilience and cost-reduction strategies.

Our strategic priorities remain focused on cost optimisation, a balanced product mix, and market alignment to drive sustained growth. We continue to closely monitor

changing geopolitical developments that could impact our business.

## Reinforcements - NTCF & PTCF

In the Nylon Tyre Cord Fabric (NTCF) segment, we are closely aligned with leading tyre companies to meet their varied demands efficiently. Our expanded capacity helped meet customer demand in the first half of the year. While demand from the truck and bus segment, NTCF's largest consumer, remained subdued, it was partially offset by growth in two-wheeler, three-wheeler, and farm segments.

Increased imports and tariff uncertainties toward the year's end impacted domestic demand. However, promising monsoon projections and higher farm incomes offer a positive outlook in the coming year. Demand for NTCF in FY 2026 will depend on Indian GDP trajectory and the global trade environment.

Meanwhile, Polyester Tyre Cord Fabric (PTCF) approvals are underway with multiple customers, with commercial supplies expected by the end of FY 2026. This product is poised to meet the growing needs of the passenger car tyre segment, particularly with the rise of Electric Vehicles (EVs) in the automotive sector.

## Nylon Filament Yarn (NFY)

Nylon Filament Yarn caters to a broad range of applications, including sports apparel, activewear, sarees, lingerie, and dress materials. Our strategy remains focused on increasing the share of

value-added products in our portfolio while optimising costs.

Our new investments in Mother Yarn capacity expansion contributed significantly to overall performance. We also began catering to the high-end activewear market through our premium Draw Textured Yarns.

Unfortunately, a fire occurred at our Bharuch plant in February, which impacted certain products and sales volumes. We are diligently working to restore the affected facility and expect it to be fully operational by the end of June 2025. We have adequate insurance coverage, and the claim process is currently underway.

## Force Woven with Sustainability

We are committed to building a future-ready, sustainable business, one that delivers value to customers and stakeholders without compromising environmental responsibility.

Our efforts span a wide range: transitioning to green packaging materials, reducing waste, minimising non-renewable resources, and preserving biodiversity. We are also deeply invested in community well-being – focusing on mental health, physical safety, education, and inclusion as part of our ESG and CSR mandates.

Technical textiles remain a priority, with continued investment in the automotive sector and growing exploration of opportunities in industrial applications—a burgeoning field with great potential.

## Force Woven with Culture

We believe that a strong culture begins with our people. In FY 2025, we launched a talent management initiative aimed at reducing attrition and building a workplace grounded in respect, opportunity, and active listening. This initiative aims to foster a growth-oriented environment, addresses workplace challenges proactively, and reinforces CEL's position as a responsible employer.

CEL is committed to enhancing the well-being of underprivileged communities through active participation in various development initiatives. Our Corporate Social Responsibility (CSR) programs span education, healthcare, access to safe drinking water, disaster management, and rural infrastructure development. Through these programs, we strive to foster holistic growth and make a meaningful difference in the lives of the communities we serve.

Guided by the Aditya Birla Group's values, our governance framework remains strong. The Board provides steadfast leadership, helping us make balanced decisions that enhance accountability to all our stakeholders.

As we move forward with optimism, we remain committed to unlocking new value for all stakeholders, igniting purpose-led progress, and delivering truly positive outcomes.

Warm regards,

**Suresh Sodani**

# Our Products

## Synthetic Yarn

Nylon filament yarn is a continuous fiber widely used in textiles, including sarees, draperies, upholstery, sportswear, mosquito nets, and embroidery. CEL's advanced engineering ensures its durability, softness, and efficient moisture control, making it ideal for modern intimate fabrics and garments.

## Reinforcement Fabric

CEL manufactures reinforcement fabrics designed for reinforcing tyres bias/ cross-ply tyres used in trucks, buses, two and three-wheelers, and off-the-road (OTR) vehicles used for mining, forestry, farming, and heavy earth moving, among others. These fabrics provide essential tyre structure and help bear the vehicle's weight effectively.

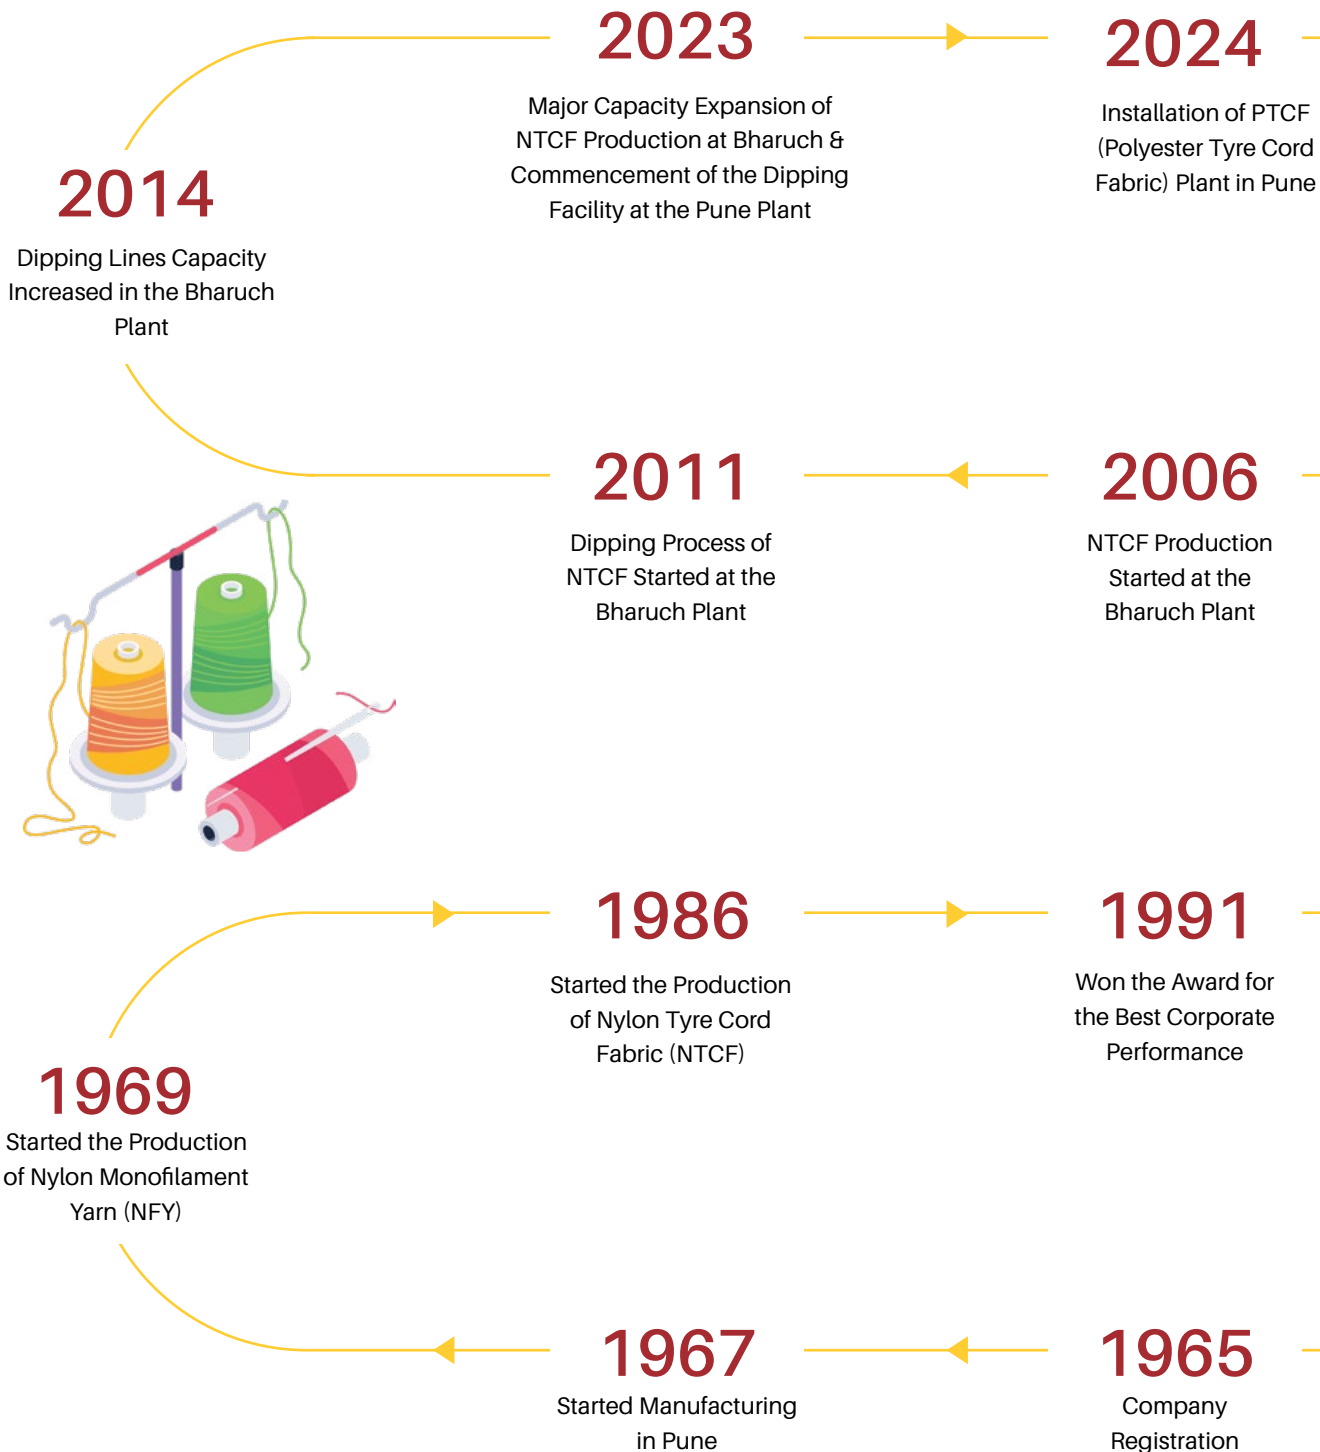

## Major Industry Associations

To strengthen our sustainability activities and work together to promote sustainable business practices, we have associated with several trade associations, chambers, and organizations. Major organizations that we collaborate with are:

- Association of Synthetic Fiber Industry (ASFI)
- Indian Technical Textile Association (ITTA)
- The Synthetic & Rayon Textiles Export Promotion Council
- Maharashtra Chamber of Commerce Industries and Agriculture, Pune (MCCIA)
- Nylon Spinners Association
- Federation of Gujarat Industries
- Jhagadia Industries Association
- Gujarat Employers' Organisation
- National Safety Council of India
- Gujarat Safety Council
- Ankleshwar Environmental Preservation Society (AEPS)
- Disaster Prevention and Management Centre (DPMC)

# Major Milestones

## Sustainability Journey

Topic	Goals	Status (FY 2025)
 <b>Energy &amp; Emissions</b>	Achieving Net Zero emission by 2050	We are on track to achieve the combined target of the Aditya Birla Group
	Achieve 60% of total energy consumption from renewable sources by FY 2030	Achieved 52% renewable power share
	By 2030, reduce CO <sub>2</sub> emissions intensity (tCO <sub>2</sub> e/MT) by 25% against the baseline of FY 2019	We have already achieved 40% during the reporting period; considering our progress, we have revised the goal to 50%, which appears to be achievable
 <b>Reducing Water Consumption</b>	50% reduction in water consumption by FY 2030 against the baseline of FY 2019	Achieved 40% reduction in total water consumption
 <b>Waste Management &amp; Circularity</b>	Achieve single-use plastic certification by 2027	On track to achieve the same as we have banned majority of the single-use plastics at both plants and offices
 <b>Diversity &amp; Inclusion</b>	To achieve 10% year-on-year increase in women staff as a proportion of total fresh hires until 2026	Achieved
 <b>Safety &amp; Training</b>	Achieve year-on-year increase in training hours per person per year by 10%	Achieved
	Zero harm to be achieved by 2026	On track to achieve the same as we have implemented various health and safety measures which has helped us to reduce the LTIs drastically
 <b>Sustainable Supply Chain &amp; Governance</b>	Screen all newly onboarded suppliers on the ESG criteria	Established a framework for screening the new suppliers onboarded and we are on track to achieve the same
	Conducting periodic reviews of existing policies and improvement of policies as applicable	This is an ongoing task and we periodically update our policies and implement new ones wherever it is required

# Corporate Governance

## Corporate Governance at CEL

At CEL, we believe in ensuring integrity, accountability, sustainability, and transparency in every aspect of business. At CEL, we ensure robust internal control mechanisms, risk management strategies and strict adherence to the Code of Conduct and regulations. Good governance is deeply embedded in our business philosophy, guided by the principle of Trusteeship.

CEL remains steadfast in its commitment to ethical conduct, adhering to legal requirements, and empowered to operate efficiently and sustainably while upholding integrity and creating long-term value for its stakeholders.

### Approach to Corporate Governance

We, at CEL, are guided by the distinctive 'Power of Five' values, which form the foundation of our corporate culture and ethical framework. This values-driven approach shapes our identity, strengthens our purpose, and ensures excellence in corporate governance.

Our approach to effective corporate governance lies in our adherence to the code of conduct which is applicable to all employees, including senior management and we have established policies which ensure ethical conduct and are in line with the regulatory framework and requirements.

## Board's Role and Composition

The Board of Directors at CEL serves a crucial function in steering the Company's strategic trajectory, maintaining robust corporate governance, and ensuring sustainable value creation for stakeholders.

The Board is dedicated to fostering transparency, accountability, and ethical leadership, in accordance with CEL's foundational values and governance principles. Their role extends to supervising major business decisions, managing risks, and ensuring adherence to legal and regulatory standards, thereby promoting a culture rooted in integrity and sustainability.

A Board Diversity Policy is actively implemented, reflecting CEL's

commitment to sustainable business growth through diversity and inclusion, improving decision-making quality and accountability, and enhancing the Company's reputation.

The CEL Board comprises a balanced and diverse assembly of professionals with extensive expertise across various sectors, facilitating effective governance and strategic direction. As of 31<sup>st</sup> March 2025, the Board consists of six Directors: one Executive Director, five Non-Executive Directors, two of whom are female. Of the Non-Executive Directors, three serve independently, including one female Independent Director, collectively representing over half of the Board's composition. Their presence

supports impartial decision-making and robust corporate governance.

CEL strictly adheres to rigorous governance standards, ensuring that no Director occupies more than ten board positions in public limited companies or more than seven in listed companies. Additionally, Whole-Time or Managing Directors of a listed entity can only serve as Independent Directors in up to three listed companies. Furthermore, no Director is a member of more than ten (10) Board Committees or serves as Chairperson of more than five (5) Committees, complying with Regulation 26(1)(b) of the Listing Regulations concerning the Audit Committee and Stakeholders' Relationship Committee.

Our strategic planning framework is rooted in our purpose, values, and long-term aspirations, and is guided by insights from the Board of Directors and senior leadership. This process involves a comprehensive evaluation of internal capabilities and the external operating environment to identify potential risks and emerging opportunities that may influence the industry. Stakeholder expectations, captured through material assessments, play a key role in shaping strategic priorities.

The integrated approach results in both long-term and annual strategic plans, which are cascaded across functions and business units. Clear responsibilities are established at every level to ensure alignment and accountability in the execution of these strategies.

## SDG Alignment

# Contribution to SDGs

## Advancing Global Goals through Local Action

At CEL, we are committed to aligning our operations, workforce, and community initiatives with the United Nations Sustainable Development Goals (SDGs) to foster a more equitable and sustainable world by 2030.

We undertook a comprehensive internal assessment to identify the SDGs most relevant to our business. This prioritization considered our regional footprint, current and potential impact areas, and the scope for meaningful contributions. The outcome of this exercise has helped us to focus our efforts where they matter most, ensuring our actions drive measurable and sustainable change.

Here are the SDGs identified as key priorities for CEL:

## Embedding SDGs into Strategic Planning

Our strategic planning framework is deeply interwoven with the United Nations Sustainable Development Goals (SDGs), which serve as a compass for identifying material issues that shape our Strategic Objectives (SOs). The achievement of these hinges on the effective stewardship of our key capitals—financial, intellectual, manufactured, human, natural, and social & relationship. Together, these interconnected capitals fuel our long-term growth ambitions while ensuring that our progress directly contributes to the broader global sustainability agenda.

# Business Opportunities

As part of our forward-looking approach, we continue to optimize our product portfolio—placing greater emphasis on high-value and sustainable offerings. Investments in advanced spinning technologies and strategic product diversification are set to enhance our performance, operational agility, and resource efficiency. While global economic headwinds such as inflation present challenges, we remain confident in navigating them through proactive planning and a demand-driven outlook.

## Staying Ahead of Evolving Market Needs

Customer preferences are evolving rapidly, requiring businesses to remain agile and responsive. The increasing adoption of digital platforms, even in manufacturing-driven industries like textiles is redefining how companies engage with markets. In line with this, we are expanding our capabilities to meet the growing demand for radial tyres in passenger vehicles by modifying our Polyester Tyre Cord Fabric (PTCF) operations at the Pune Plant. While this segment shows promising growth potential, we continue to tread carefully due to inherent market volatility. Additionally, we plan to broaden our Nylon Filament Yarn (NFY) portfolio to serve the rising demand in the activewear and performance apparel segment.

## Cultivating a Future-Ready Culture

An enabling culture lies at the core of sustainable progress. Our organizational ethos champions continuous improvement, integrity, safety, environmental stewardship, and community engagement. By fostering innovation and strategic agility, we empower our teams to drive competitive advantage and resilient growth.

## Accelerating Digital Transformation

As the textile industry evolves, we are strengthening our position as a digital-first organization. With a structured three-to-five-year digital roadmap, we have identified projects across five key pillars: creating new digital revenue streams, enhancing customer experience, achieving operational excellence, optimizing asset utilization, and minimizing risk.

This approach supports our transition to Industry 4.0 and lays the groundwork for exploring Industry 5.0 opportunities. Automation powered by AI and smart technologies is reshaping repetitive tasks, enabling safer and more efficient operations. Century Enka is proactively embracing these innovations to future-proof its business and become a force woven with purpose in the synthetic yarn and reinforcement fabric.

### Driving Quality through AI-powered Innovation

In our pursuit of operational excellence and product quality, we have successfully implemented an AI-based vision analytics system in the dipping section's winder area. This state-of-the-art solution uses advanced artificial intelligence to monitor and assess the quality of dipping fabric (DF) in real time, prior to its winding onto the shell roll.

The system enables precise detection of any deviations or defects, ensuring that only fabric meeting our rigorous quality benchmarks proceeds to subsequent stages of production. By minimizing human error and enhancing process efficiency, this innovation significantly strengthens our quality control mechanism.

Through this digital advancement, we are not only streamlining our manufacturing process but also reinforcing our promise of delivering defect-free, high-performance products—reliably and consistently—to our customers.

### Enhancing Process Efficiency through Automation and Data Analytics

To strengthen process control and ensure consistent product quality, we have implemented an automated system for seamless capture of dryer process parameters. This technology enables batch-wise data acquisition, allowing for in-depth analysis and continuous trend monitoring.

By integrating automation into the drying stage, we have eliminated manual data collection inefficiencies and enhanced the precision of critical parameter tracking. Complementing this system, a real-time dashboard has been developed to visualize the captured data, empowering operational teams to make data-driven decisions.

This proactive approach not only optimizes the drying process but also ensures uniform product quality across batches, reinforcing our commitment to operational excellence and innovation.

# Risk Management

Sustainable growth is built not just on seizing opportunities but also on proactively identifying and managing potential threats. Risk management is embedded into our strategic decision-making process, enabling us to build resilience and safeguard stakeholder value even in the face of uncertainty.

To institutionalize our approach, we have implemented a structured and robust Risk Management Policy that guides how we assess, monitor, and mitigate risks across our operations. Oversight is provided by our Board-led Risk Management Committee, which comprises four senior leaders: a Non-Executive Director as Chairperson, an Independent Director, the Managing Director, and the Chief Financial Officer. The Company Secretary acts as the Committee's Secretary. This cross-functional team meets regularly to review the risk landscape, evaluate emerging threats, and update mitigation plans as needed.

## A Structured and Dynamic Framework

Our risk management framework is designed to assess both the likelihood of occurrence and the potential impact of each identified risk. We use a calibrated reporting tool that categorizes risk likelihood as unlikely, possible, likely, or regular, and the consequences as low, moderate, high, or extreme. For risks where financial quantification—such as impact on EBITDA—is not feasible, we adopt a qualitative approach, assessing the potential severity of disruption to business operations.

Qualitative risks are rated based on their level of severity, which is determined by a criterion ranging from low to extreme. In the case of qualitative risks, a low rating indicates that the risk would cause minor disruption to day-to-day activities and would have no impact on overall plant operations. A moderate rating indicates that the risk would cause disruption to operations lasting up to one day. Risks that could cause major disruptions lasting between one and three days are classified as high, while risks that could severely affect business functionality for more than three days and result in significant losses are rated as extreme. The Risk Management Committee has identified several key emerging risks in the areas of market, operations, technology, and environment.

## Anticipating the Risks of Tomorrow

In line with our forward-looking strategy, the Risk Management Committee closely monitors emerging risks in areas such as market dynamics, operational continuity, technological disruptions, and environmental challenges. By staying alert to these evolving risks, we are not only protecting our current performance but also securing our future growth pathway, demonstrating our commitment to being a 'Force woven by Purpose', in an increasingly complex world.

# Engaging Stakeholders, Empowering Progress

Meaningful stakeholder engagement is fundamental to building long-term value and delivering on our commitment to responsible growth. Our stakeholders, ranging from investors, employees, customers, suppliers, regulatory bodies, and local communities play a vital role in shaping our strategic direction. Engagement is not a one-time activity but an ongoing dialogue that helps us understand evolving expectations, address concerns proactively, and align our business priorities with broader societal goals. Through transparent communication and active

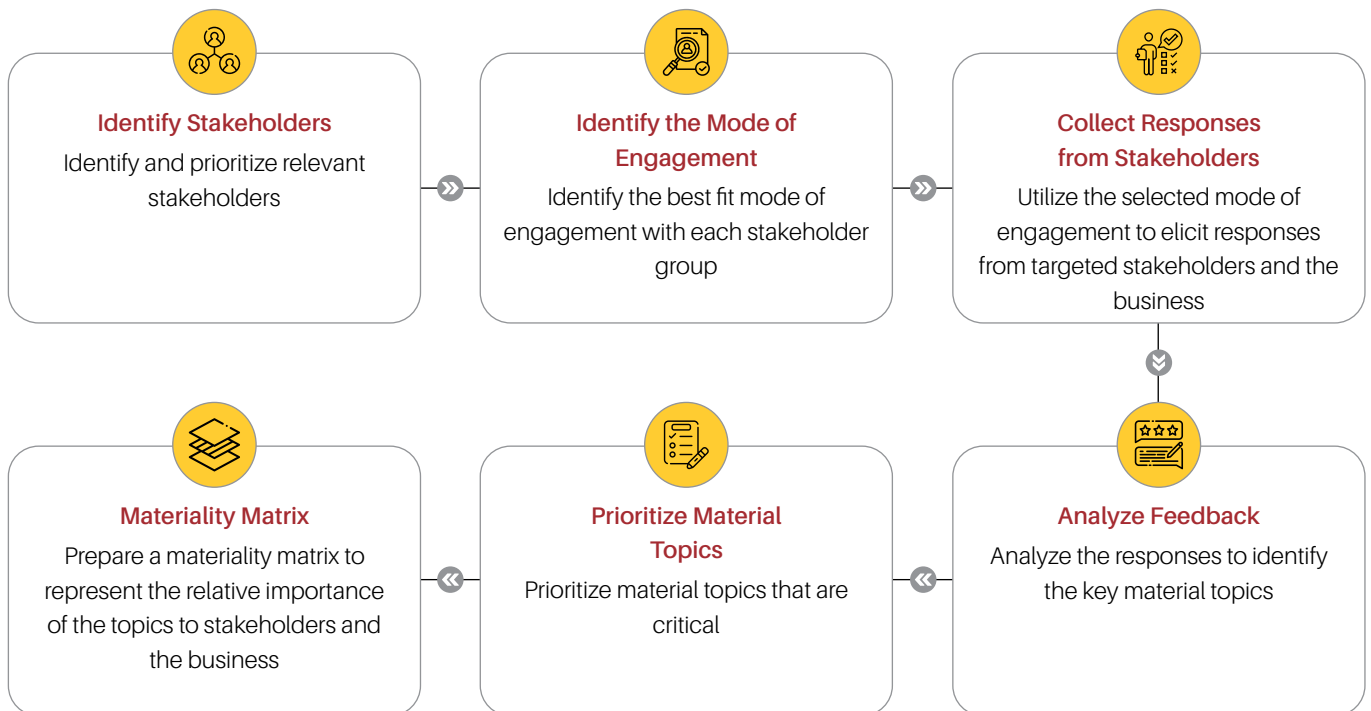

listening, we aim to foster trust, drive shared value, and co-create sustainable solutions. As part of our ESG journey, we undertook a comprehensive stakeholder engagement exercise in FY 2021-22, using a structured assessment to identify key stakeholders based on the degree of mutual influence and relevance to economic, environmental, and social dimensions. Given that there were no material changes in the reporting period, this stakeholder map has been retained and continues to guide our actions and decision-making.

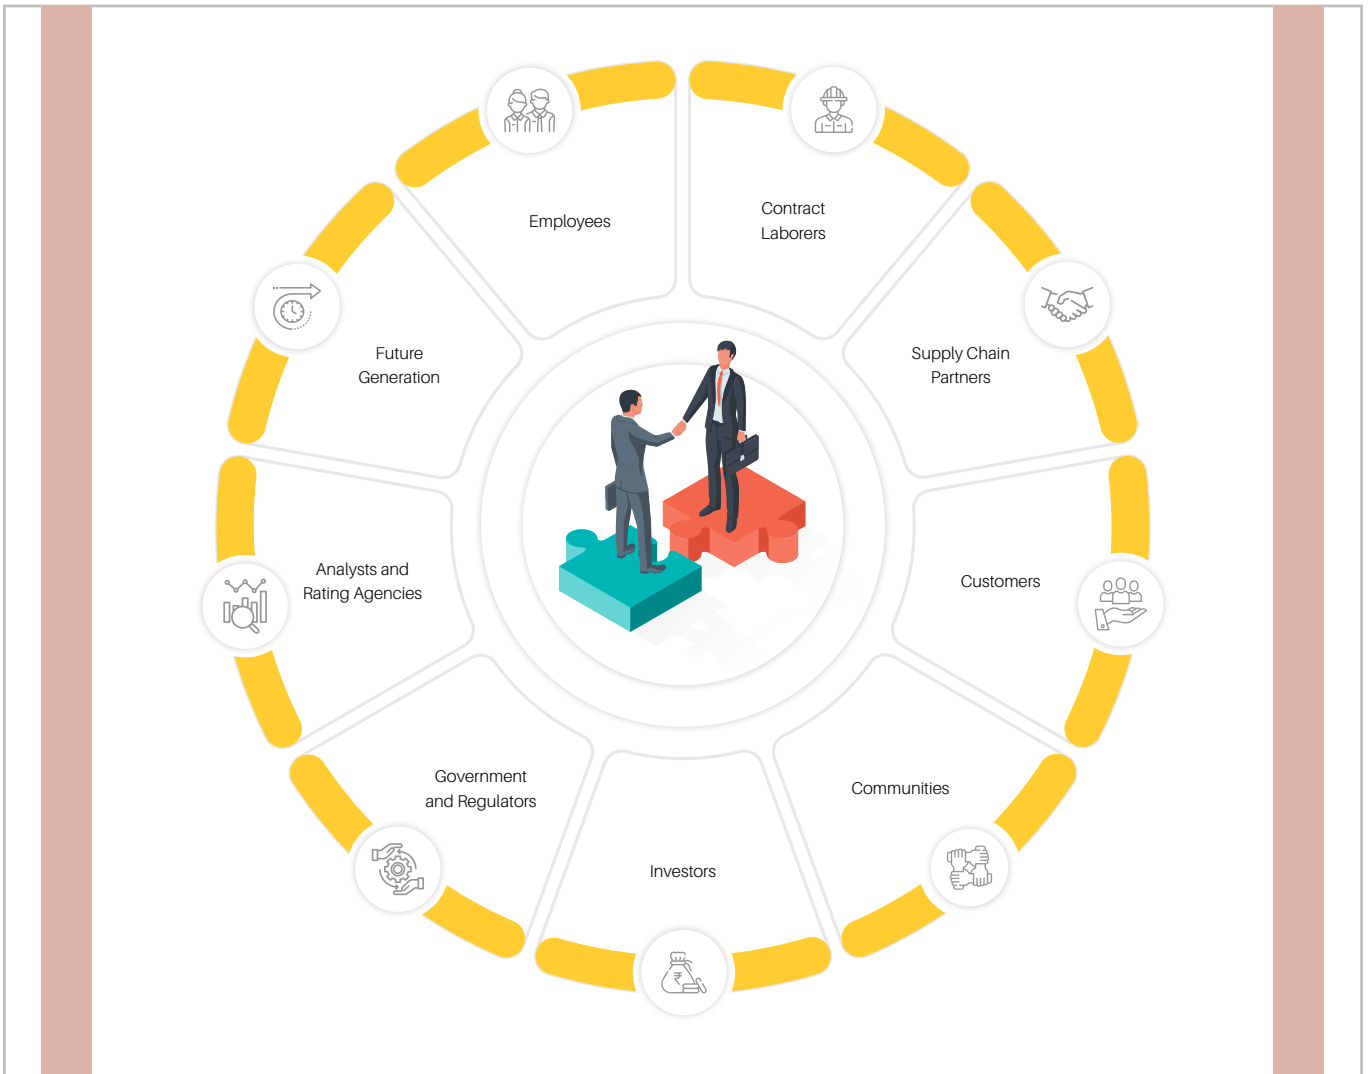

### Our engagement efforts enable us to:

- Identify key concerns and expectations of stakeholders
- Detect ESG-related gaps and opportunities
- Prioritize actions aligned with our sustainability goals
- Strengthen accountability and transparency

This continuous engagement reinforces our belief that being a Force woven with Purpose means not only delivering performance but also nurturing the partnerships that make progress possible.

# Materiality Assessment

Material topics play a crucial role in shaping an organization's ability to create and sustain value over the short, medium, and long term. At CEL, we use the insights from our materiality assessment to develop a focused sustainability roadmap that outlines clear goals and targets across environmental, social, and governance (ESG) dimensions. The outcomes of the materiality exercise are categorized into high,

medium, and low priority topics, based on their significance to stakeholders and their impact on business performance. A structured materiality matrix is prepared by assigning weights and scores to both business relevance and stakeholder feedback. In FY 2022, we conducted a comprehensive analysis comprising global ESG risk trends, sector benchmarks, and stakeholder inputs, which resulted in the identification of

ten high-priority material issues. These topics continue to guide our ESG strategy and are regularly reviewed in light of evolving stakeholder expectations, regulatory developments, and strategic business goals. As no significant changes have been observed in stakeholder concerns or operating context, the same set of material topics remains relevant and applicable in the current reporting period.

# Financial Capital

Through the strategic and efficient management of financial resources, we ensure sustainable growth and maintain a competitive edge in a dynamic market landscape, ensuring long-term value creation for all our stakeholders.

## Our Approach

We maintain a strong financial management process to support ongoing operations and growth opportunities, evaluating fund needs and comparing KPIs against benchmarks to optimize production and efficiency. Our initiatives focus on operational enhancements, cost optimization, and generating positive cash flow. We ensure adequate capital and liquidity to support growth and balance ambitions with stakeholder value, reflected in a consistent dividend payout ratio above 19% over five years, including a recommended ₹ 10/share this year. We deeply value our stakeholders' trust and investment, recognizing it as a testament to their faith in our success.

## Economic Value Generation

We have consistently prioritized our shareholders' interests through exemplary financial management and adherence to fundamental business values. We are committed to producing positive value for all our shareholders and dedicated to generating substantial returns on shareholder investments, embodying the concept of economic value.

Economic value generation has two components - Economic Value Generated (EVG) and Economic Value Distributed (EVD) wherein EVG represents the revenue of the Company, and EVD represents the cost of the Company in the form of payments to internal and external stakeholders.

Economic Value Created is computed in monetary terms by subtracting EVD from EVG, which represents the Company's profitability and serves as a measure of Economic Value Generated for shareholders and stakeholders.

- Payment to providers of capital include finance costs and dividend paid
- Payment to government includes rates and taxes, current tax, excess/short provision of tax relating to earlier years, and deferred tax
- Community investments include CSR expenses

## Management of Cash Flows

As we strive to establish ourselves as a trusted leader in the tyre reinforcement and synthetic yarn industry, we plan to leverage our robust liquidity position to expand our capacity for value-added products. This strategic allocation of capital expenditure is aimed at enhancing our market presence and competitive advantage.

Our solid balance sheet and strong financial performance reflect our prudent financial management and sustainable growth. We are committed to preserving this financial stability and using it as a foundation to realize our long-term objectives.

## Capital Expenditure

To realize our vision of becoming a trusted leader in the tyre reinforcement and synthetic yarn industries, we have made significant strides in advancing key expansion projects. In the upcoming reporting period, we successfully completed all major capital expenditure initiatives focused on enhancing Nylon Filament Yarn (NFY) capacities at the Pune Plant.

In the current reporting period, we allocated a total capital expenditure of ₹ 46.63 Crs with a substantial portion directed toward increasing spinning capacities for Polyester Tyre Cord Fabric (PTCF). These investments exemplify our strategic focus on bolstering our production capabilities and strengthening our market leadership, paving the way for sustainable growth and long-term success.

## Tax Strategy

Aligned with our commitment to responsible corporate citizenship, we have implemented a robust tax strategy to ensure full compliance with tax obligations and regulatory requirements. This strategy undergoes regular review by the finance committee, guaranteeing timely payment of all taxes and statutory dues while upholding the highest standards of legal adherence. Our dedication to ethical practices cultivates a culture of integrity and strengthens our reputation within the market. The strategy, uniformly applied across the Company, integrates meticulous accounting processes aimed at minimizing potential tax-related issues.

We actively monitor regulatory changes, and align our tax strategy accordingly to ensure continuous compliance and effectiveness. Furthermore, our ethical approach is highlighted by our policy of not seeking or accepting any unethical benefits. We also foster open communication by providing grievance-handling mechanisms, enabling stakeholders to share feedback, voice concerns, and seek resolutions.

Operating solely within India's tax jurisdiction, we consistently fulfill all tax obligations, including advance tax payments.

## Business Ethics and Anti-corruption

Our company recognizes the potential risks associated with direct engagement involving customers, vendors, and suppliers. To mitigate these risks, we conduct comprehensive evaluations of employees actively involved in customer interactions, ensuring that any concerns related to corruption are promptly addressed. Additionally, we periodically review Company-wide activities to identify and proactively manage potential corruption risks, in alignment with our unwavering commitment to ethical business practices.

The Code of Conduct serves as a cornerstone for maintaining integrity, transparency, and ethical behavior across CEL. It applies to the Board, senior management, and all employees, fostering accountability and providing clear mechanisms for reporting unethical practices. Additionally, our Related Party Transactions Policy ensures transparency in interactions with related parties. We also conduct specialized training programs to educate governing body members, employees, and workers on anti-corruption policies and practices.

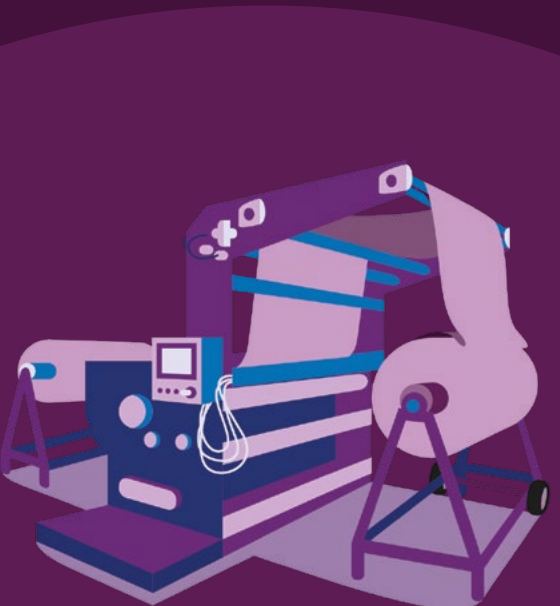

We are proud to report that during FY 2025, no incidents of corruption were recorded within the Company. Furthermore, we did not incur any fines, penalties, or regulatory actions related to corruption or conflicts of interest throughout this period.

# Manufactured Capital

As a leader in India's textile sector, our scalable and innovation-driven facilities strengthen our industry position while creating lasting value and trust for our shareholders and enhancing our commitment to environmental stewardship. ## Our Approach to Manufacturing Excellence

At CEL, we are unwavering in our pursuit of excellence, continuously reinforcing our position as India's leading textile producer. We achieve this by integrating modern technology and fostering a culture of innovation that enhances manufacturing processes and maximizes production efficiency. Our commitment to environmental stewardship drives us to upgrade our facilities to meet the highest global standards.

With advanced environmental management systems in place, our manufacturing plants in Maharashtra and Gujarat proudly comply with ISO 14001:2015 and ISO 9001:2015 certifications. Through cutting-edge technology and pioneering production methods, we optimize productivity, mitigate risks, and expand our capacities, solidifying our leadership in the industry.

## Our Product Portfolio

Our state-of-the-art manufacturing facilities in Maharashtra and Gujarat are equipped with cutting-edge machinery, enabling us to produce a diverse range of high-quality products. Synthetic yarn adds strength and versatility to textiles such as ethnic and active wear, while Reinforcement Fabric plays a vital role in commercial vehicle tires, delivering enhanced durability and performance.

Sustainability is at the core of our operations, our dope-dyed yarn production conserves water and minimizes dye-related pollution, contributing to a greener future. Holding

the STANDARD 100 OEKO-TEX® certification, we ensure our yarn meets the highest environmental and human safety standards.

Our robust distribution network guarantees that our products reach customers efficiently and cost-effectively, strengthening accessibility of our products across regions. Through continuous innovation and optimization, we deliver exceptional products that not only exceed global environmental and quality standards but also drive sustainable growth and long-term profitability.

### Nylon Filament Yarn (NFY)

#### Key Features and Application

- Nylon, commonly known as polyamide, is a remarkably versatile material widely used in ethnic wear, knitting, stockings, and functional apparel. Celebrated for its softness, luminous sheen, vivid hues, and flexibility, it offers superior comfort, moisture absorption, breathability, and skin-friendly properties—making it a preferred choice in the fashion industry.
- Thanks to its exceptional dyeability, Nylon Filament Yarn imparts striking vibrancy and an elegant luster to fabrics. Our advanced engineering ensures durability, softness, and optimal moisture management, making Nylon Filament Yarn the perfect choice for the next-generation intimate fabrics and garments.
- Widely incorporated into Indian ethnic wear for both men and women including sarees, salwar kameez, lehengas, kurtis, sherwanis, and dhoti-kurtas, our Nylon Filament Yarn is available in five distinct categories, offering rich color depth, a silky finish, lightweight appeal, and cost-effective solutions. It is also integral to activewear, where comfort and flexibility are paramount, while its remarkable strength makes it ideal for intricate designs and seamless blending with other yarns.
- Additionally, non-aesthetic textiles serve crucial roles in packaging and temporary bonding. At CEL, we are committed to producing superior-quality Nylon Filament Yarn through cutting-edge technology and continuous innovation.

**A. Mono Filament Yarn**

Mono filament yarn is a single strand of untwisted continuous fiber available in bright and semi-dull luster, produced by several techniques.

**B. Nylon Mother Filament**

Mother yarn is a multifilament drawn yarn that transforms into monofilament yarn by breaking the ends during spinning. This versatile yarn finds applications in sarees, gowns, curtains, and mosquito nets, while also serving essential functions in the automotive industry and the production of sports shoes.

**C. Multifilament Yarns**

Nylon filament yarn is produced at high speeds with intermediate drawing integrated into the spinning process, enhancing polymer stabilization through orientation and crystallization. Partially Oriented Nylon Filament Yarn (POY) is the primary form derived directly from the melt spinning process and serves as the foundation for various downstream applications, including Air Textured Yarn (ATY), Draw Textured Yarn (DTY), and draw warping. Other key yarn types include Fully Drawn Yarn (FDY), POY, High-Oriented Yarn (HOY), DTY, ATY, and Draw Winder. Additionally, TOW refers to a continuous synthetic filament strand gathered in a loose, rope-like form, later cut into small fibers for final flocking applications.

**Nylon Tyre Cord Fabric (NTCF)**

**Key Features and Application**

Century Enka is a leading provider of high-quality Nylon Tyre Cord Fabrics (NTCF), designed to reinforce tyres across various vehicle categories, including motorcycles, scooters, light commercial vehicles (LMVs), heavy commercial vehicles (HCVs), and off-road vehicles (OTR). Engineered for superior strength and durability, our NTCF plays a critical role in shaping tyre structure, enhancing load-bearing capacity, and optimizing performance. By extending tyre lifespan and improving overall efficiency, our tyre reinforcement solutions set the industry standard for reliability, durability, and safety, thereby ensuring exceptional performance on every journey.

**A. Yarn**

Dried polymer chips are melted, filtered, and extruded through a spinneret to form yarn of varying densities. Fiber thickness and length are controlled by the hole size and drawing speeds. The filaments are coated with water and oil for stability, then air-quenched and solidified, enhancing tensile strength, elasticity, and heat resistance. The yarn is stretched beyond its original length, aligning macromolecules for maximum durability and performance.

**B. Greige Fabric**

Cord material is woven into the warp and interlaced with cotton or poly-cotton weft to produce reinforcing material for a wide variety of uses.

**C. Dipped Fabric**

Greige fabric has minimal natural adhesion to rubber. To enhance bonding, it is treated with an RFL (Resorcinol-Formaldehyde-Latex) solution, which acts as an adhesive agent between the fabric and rubber. Following this, the fabric undergoes a heat-setting process, where it is hot-stretched to minimize thermal shrinkage. It is then processed through multiple ovens to achieve strong adhesion with rubber, ensuring dimensional stability and durability.

# Intellectual Capital

We see knowledge as power, and innovation as purpose. Our intellectual capital is the foundation on which we build excellence fueled by advanced technology, skilled people, and a relentless drive to innovate. As a leading player in the reinforcement fabric and synthetic yarn, we channel our organizational expertise, proprietary systems, and strategic investments in R&D to unlock long-term value.

We do not just adapt to change, we anticipate it. Through our future-focused mindset and a strong commitment to continuous improvement, we transform ideas into action and potential into performance.

## Empowering Innovation for a Smarter Tomorrow

Innovative progress begins with a mindset open to change and a culture that encourages curiosity. With a clear aspiration to lead the global textile industry in technological advancement, we are committed to integrating cutting-edge solutions across our value chain. By combining internal expertise

with strategic external partnerships, we accelerate the deployment of breakthrough technologies across functions such as manufacturing, operations, and marketing enabling smarter, faster, and more sustainable outcomes.

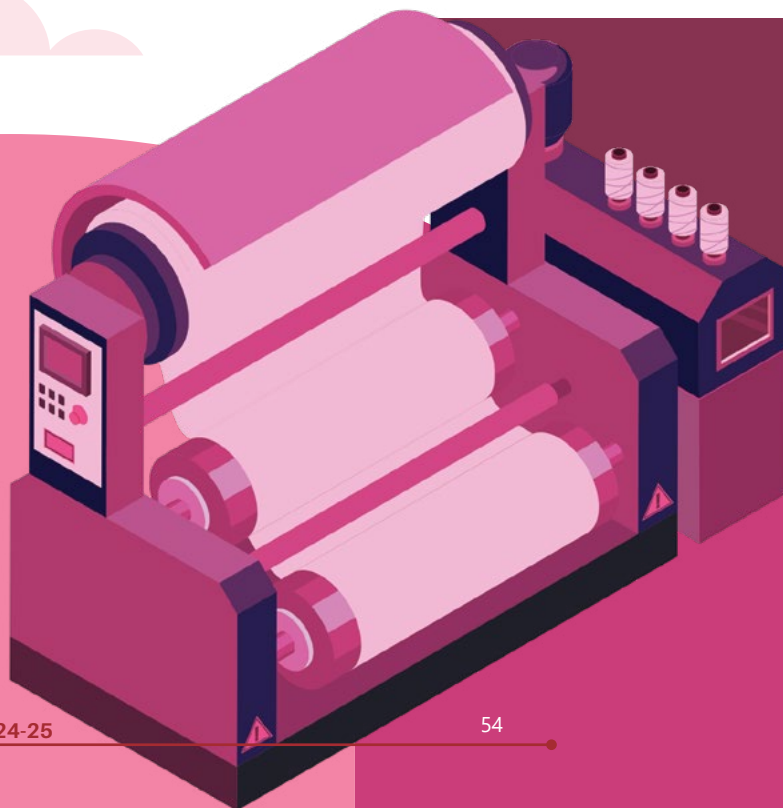

## Transforming Potential into Performance

Staying agile and responsive to evolving market needs is central to our innovation strategy. At CEL, we are constantly reimagining our product offerings and processes to enhance value creation for our customers.

By investing in in-house capability upgrades and product innovation, we aim to strengthen our presence in technical textiles and meet the growing demand for performance-oriented materials across industries.

## Conversion of Partially Oriented Yarn to High Tenacity Nylon Yarn (HTY)

We successfully undertook an in-house re-engineering initiative to convert an idle polyester Partially Oriented Yarn plant into a High Tenacity Nylon Yarn (HTY) manufacturing unit. This transformation enabled us to cater to the technical textile segment with higher precision and efficiency. The market response to the output from this re-engineered machine has been overwhelmingly positive, validating the effectiveness of our strategic direction.

## Solution

Building on this momentum, we are now focused on expanding our draw texturing capabilities. Draw textured yarns are known for their durability, strength, and lightweight properties, making them ideal for diverse textile applications. Additionally, we have strategically broadened our product portfolio by entering the polyester tire cord market, allowing us to diversify our offerings and tap into new customer segments.

## Impact

These targeted innovations have not only helped us optimize idle assets and reduce operational costs, but also positioned us as a forward-looking partner in the technical textile space. By customizing our products to suit emerging market trends and customer specifications, we are reinforcing our brand as a dependable and future-ready textile solutions provider.

## Product Certifications

Our greige yarns have achieved certification from the Global Recycled Standard (GRS) – version 4.0, showcasing our dedication to sustainability and ethical sourcing. These yarns are crafted from premium recycled materials, ensuring they meet customer specifications.

Additionally, our Nylon Filament Yarn has obtained certifications from GRS, OEKO-TEX® Standard 100, and Registration, Evaluation, Authorisation, and Restriction of Chemicals (REACH), highlighting its eco-friendly nature and safety. Our Nylon Tyre Cord Fabric has also been certified by REACH, confirming its compliance with chemical safety standards. Moreover, our laboratories are accredited by the National Accreditation Board for Testing and Calibration Laboratories (NABL), ensuring they adhere to both national and international standards and foster customer confidence in our products.

We have also received the prestigious CII DX (Digital Transformation) National Awards in the 'Innovative In-Service Excellence Category' for the case study project 'AI-based Online Fabric Defect Monitoring and Controlling'.

# Natural Capital

In an industry that depends significantly on natural inputs, we recognize the importance of treading lightly and acting with foresight. Our environmental approach is guided by the principles of sustainability, resilience, and long-term value creation.

We have embedded advanced systems and controls across our operations to manage energy and water usage efficiently, expand the adoption of renewable resources, and reinforce responsible sourcing. Through continuous improvement in waste management, recycling, and cleaner technologies, we strive to minimize our footprint and strengthen the natural capital we depend on. These purposeful actions are aligned with India's Net Zero ambitions, and we are determined to be a catalyst for positive environmental change in the years ahead.

## Strengthening Natural Capital through Responsible Resource Stewardship

- Transitioning to Low-Carbon Operations:** We are steadily moving toward energy-efficient, low-emission processes to reduce our greenhouse gas footprint and contribute to global climate goals.
- Water Conservation and Management:** By implementing advanced water-saving technologies and maximizing recycling potential, we aim to significantly reduce our dependency on freshwater sources.
- Maximizing Resource Recovery:** Through systematic recycling and reuse practices, we are enhancing the value extracted from waste, turning it into a resource rather than a burden.
- Circular Economy Integration:** We continue to explore innovative ways to close the loop within our value chain by adopting circular economy practices.

## Operational Excellence

### Environmental Management Systems

Implemented ISO 14001:2015 and ISO 9001:2015 certified environmental management systems, providing a framework for compliance and enhanced environmental performance.

## Driving Efficiency in Material Utilization for a Sustainable Future

We approach material management with a focus on responsibility, efficiency, and environmental stewardship. From procurement and storage to consumption across operations, every stage of our material lifecycle is optimized to minimize waste and enhance resource productivity.

Our manufacturing processes primarily rely on caprolactam and nylon chips, with a total material consumption of **75,816 MT** during the reporting period. Recognizing the environmental

impact associated with virgin material extraction and processing, we are actively exploring alternatives that reduce dependency on non-renewable inputs. This transition not only helps lower our energy use and emissions but also supports better waste management and pollution control.

Through these proactive measures, we aim to embed circularity into our operations and contribute meaningfully to the conservation of natural capital.

### Raw Material Consumption

## Advancing Sustainable Packaging Solutions

In our pursuit of sustainable alternatives, we have been actively reusing old paper tubes and plastics. We encourage key suppliers to return packaging materials, enabling multiple reuse cycles. During the reporting period, we evaluated and tested more sustainable packaging formats, shifting away from conventional materials.

One significant step forward has been our adoption of transparent

biodegradable bags with lower micron thickness, improving both environmental performance and product visibility. These bags have been well-received by our customers, allowing us to successfully phase out traditional paper tubes and plastics. As a result, we achieved a ~8% reduction in paper tube consumption per MT of yarn produced.

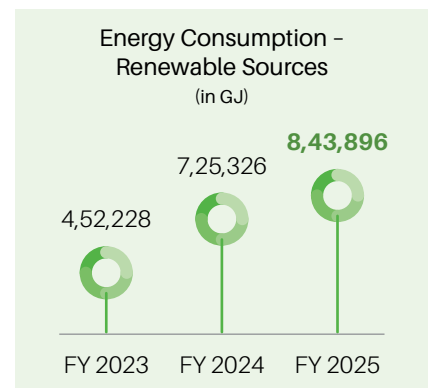

Earlier, we used 15-micron (High Molecular) HM bags for packaging, which had to be replaced with 51-micron Linear Low-Density Polyethylene (LLDPE) bags in line with revised CPCB guidelines. However, we went a step further and introduced biodegradable alternatives, which are not only sustainable but also cost-effective. Customer acceptance has affirmed the success of this transition.

## Driving Energy-efficiency and Renewable Transition

Energy plays a pivotal role in our operations, and we recognize the urgency of reducing reliance on fossil fuels to align with global sustainability goals. We embraced cleaner energy alternatives and implemented high-efficiency manufacturing processes that support energy conservation and carbon emission reduction.

Our approach includes a robust monitoring and reporting mechanism to evaluate energy usage across our facilities. These insights help us identify areas of high consumption and implement targeted strategies for energy optimization. We meet our energy requirements through a balanced mix of renewable and non-renewable sources. Notably, steam used in our processes is sourced from biomass-based renewable sources, while electricity and fuels such as LNG, LDO, and HSD comprise our non-renewable inputs.

Our dedicated Energy Conservation Cell plays a crucial role in setting internal targets, overseeing energy efficiency projects, and ensuring continuous progress. For the reporting year, our total energy consumption stood at **16,33,316.41 GJ**, with **52%** sourced from renewables which helps us to meet our target of achieving 60% of total energy consumption requirement sourced from renewable sources by 2030.

## Strengthening Energy-efficiency through Strategic Interventions

Enhancing energy efficiency is a key pillar of our sustainability agenda. In FY 2025, we launched several targeted initiatives across our operational units to improve process efficiency and reduce energy intensity. Key interventions included eliminating redundant cooling tubes, transitioning from pneumatic

to mechanical systems, and optimizing steam usage by isolating non-operational headers.

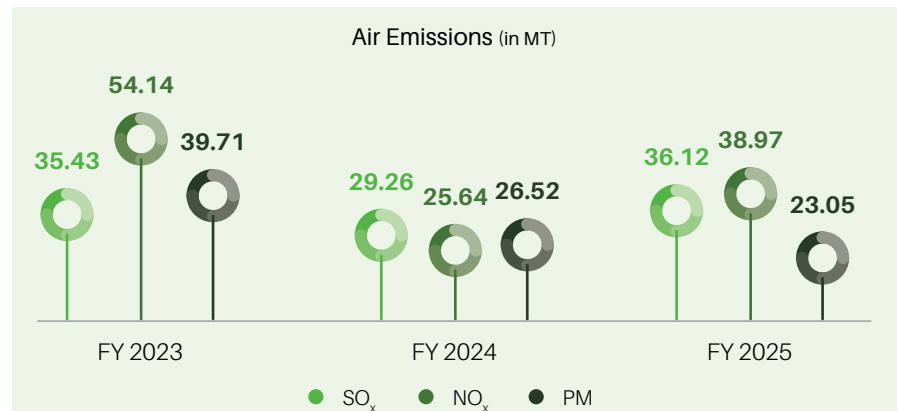

These projects, backed by an investment of ₹ 40 Crs, led to daily energy savings of 3,826.2 kWh and annual monetary savings of 16 Crs. The cumulative impact of these energy-saving measures resulted in a reduction of 4,297.6 GJ in energy consumption and a corresponding decrease of 867.9 tCO<sub>2</sub>e in Scope 2 emissions. These efforts reflect our continued commitment to resource optimization and a lower-carbon operational model.

## Reducing Emissions for a Cleaner Tomorrow

We are systematically working to lower greenhouse gas and air pollutant emissions through cleaner fuels, sustainable technologies, and operational efficiencies.

Significant steps during the reporting year included replacing Light Diesel Oil (LDO) with Liquefied Natural Gas (LNG) and focusing more on biomass generated steam for running the boilers, a cleaner alternative that has contributed to the reduction of our Scope 1 emissions. In parallel, we have invested in renewable energy infrastructure such as a briquette-fired boiler to further curtail our carbon footprint.

Our operations generated 63,531 tCO<sub>2</sub>e of biogenic emissions, primarily from the use of biomass as a renewable energy source. We recognize the importance of responsible emissions management and proactively monitor ambient air quality and stack emissions to ensure full compliance with State Pollution Control Board (SPCB) standards.

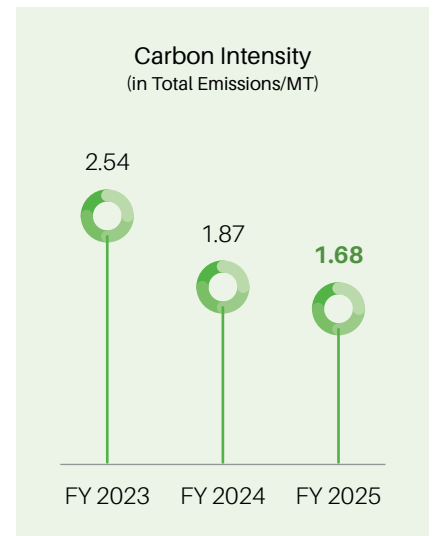

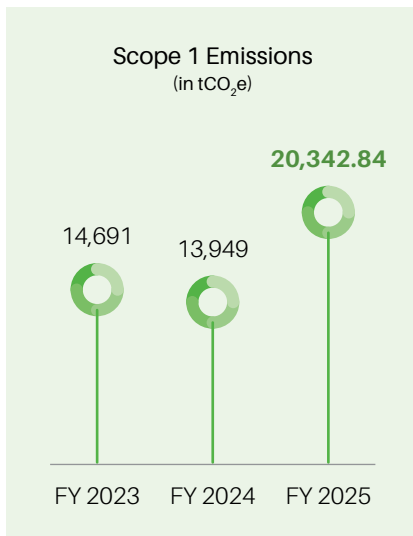

To strengthen our environmental oversight, we have deployed advanced air pollution control systems and remain aligned with the latest global developments in pollution mitigation technologies. Our environmental performance is now tracked through a digitized and integrated KPI monitoring platform, known as the environmental canvas. This system facilitates real-time data collection, online audits, and unified dashboards, enabling more informed decision-making and consistent compliance.

## Emissions Reduction

We are steadfast in our commitment to achieving Net Zero GHG emissions by 2050, with clearly defined short- and medium-term targets to guide our progress. We have already achieved 40% during the reporting period, relative to the FY 2019 baseline. Considering our progress, we have revised the goal to 50%, which we believe is achievable. To meet this target, we are significantly increasing the share of renewable energy in our overall consumption. As a result of these focused efforts, our renewable energy usage witnessed a remarkable **16%** increase compared to the previous reporting period.

## Scope 3 Emissions

We have disclosed data for 8 categories of Scope 3 emissions in the current financial year. This reflects our proactive approach to managing indirect emissions across our supply chain, logistics, and product lifecycle. By deepening our emissions transparency, we aim to drive operational efficiencies, support supplier decarbonization, and align with industry best practices for sustainable manufacturing.

Category	Category Name	Emissions (tCO <sub>2</sub> e)
Category 1	Purchased goods and services	307,549
Category 2	Capital Goods	121
Category 3	Fuel- and Energy-related Activities	59,456
Category 4	Upstream Transportation and Distribution	8,101
Category 5	Waste Generated in Operations	460
Category 6	Business Travel	2,533
Category 7	Employee Commute	4,494
Category 9	Downstream Transportation and Distribution	2,425

## Water Management

While water consumption in spinning and weaving remains low, textile wet processing requires considerable water use and generates large volumes of effluents laden with chemicals and solids.

To address these challenges, we prioritize source-level water reduction, process optimization, and elimination of discharge wherever possible. Both of our plants operate as Liquid Discharge (ZLD) through the adoption of cutting-edge water treatment systems. A major milestone during the reporting period

was the commissioning of a comprehensive ZLD system at our Gujarat plant, featuring three-stage Reverse Osmosis (RO), Mechanical Vapor Recompression (MEE), and Agitated Thin Film Dryer (ATFD) technologies. This system has successfully reduced freshwater consumption by 230 m<sup>3</sup> per day.

We are progressing steadily toward our ambitious target of reducing total water consumption by 50% by FY 2030, against the FY 2019 baseline. We are well on track to meet our goal. During the current fiscal year, total water consumption across both plants stood at **6,64,078** kiloliters.

## Biodiversity Conservation and Ecosystem Balance

Acknowledging the growing threats of overexploitation, land-use changes, and increased demand for natural resources, we remain committed to ensuring that our operations do not adversely impact the surrounding ecosystems.

Both our Maharashtra and Gujarat plants are situated outside any ecologically sensitive or protected areas and do not pose any significant threat to local biodiversity. Moreover, our manufacturing processes are not directly dependent on biodiversity in the regions around our facilities.

### To mitigate potential impacts and promote ecological well-being, we have implemented a range of initiatives:

- Green belt development is a key focus area, with 52% of the total land at our Gujarat unit dedicated to green cover, consisting of a rich mix of trees, shrubs, and herbs.
- We conduct regular plantation drives, including a fruit tree plantation within factory premises, as part of our World Environment Day celebrations under the theme 'Ecosystem Restoration'.

These efforts support ecosystem revitalization, enhance the local environment, and reinforce our commitment to sustainable and biodiversity-friendly practices. By embedding biodiversity conservation into our operational ethos, we aim to contribute positively to the long-term health of the natural environment and the well-being of our surrounding communities.

### Ek Ped Maa Ke Naam – Mega Plantation Drive

In support of Prime Minister Shri Narendra Modi's nationwide campaign "Ek Ped Maa Ke Naam", aimed at combating global warming through large-scale tree plantation and environmental protection, we organized a dedicated plantation drive.

As part of this initiative, we planted 56 saplings of large, native tree species that support the local biodiversity. The species included Arjuna, Molshree, Akesia (Shehtoot), and other indigenous trees.

We were honored to have the Forest Officer and his team join us during this meaningful program, further reinforcing our shared commitment to environmental stewardship.

## Waste Management

By adhering to the principles of reduce, reuse, and recycle, we aim to significantly reduce our environmental impact while ensuring compliance with all necessary regulations set by the State Pollution Control Board (SPCB).

### Waste Generated (in MT)

Waste Category	FY 2025	FY 2024	FY 2023

### Disposal of Hazardous Waste

## Eco-friendly Waste Management: Turning Waste into Green Wealth

We continue to adopt eco-friendly practices across our operations, with a strong focus on responsible waste management and resource circularity.

Hazardous waste, such as plastic liners, bags, and drums, is systematically collected and recycled through government-registered recyclers, while insulation waste is securely disposed of in designated landfills, ensuring safety and compliance.

At our Gujarat plant, we have established a robust model for managing horticultural and gardening waste. Five composting pits convert this green waste into nutrient-rich manure over the span of a year. This effort yields approximately 30 metric tons of compost annually, which is then used to nurture our green belts, plantations, and gardens creating lush, eco-friendly spaces within and around our premises.

To further optimize organic waste disposal, we installed a 100 kg/day food waste composting machine near our canteen, operational since 2023. This system efficiently

transforms 20–25% of canteen waste into usable compost, with the remaining liquid evaporated during processing—resulting in zero discharge. The output is again used for enhancing greenery, closing the loop on kitchen waste and minimizing landfill impact.

We are going beyond compliance to actively improve resource efficiency, reduce waste, and support biodiversity.

# Social & Relationship Capital

Building meaningful, long-term relationships with stakeholders and empowering those who are central to the organization is essential to building a resilient and responsible business. Our engagement strategy is rooted in trust, respect, and mutual value creation, enabling us to navigate changing economic and business landscapes with confidence and stability. These enduring partnerships play a crucial role in supporting our sustainable growth journey.

## Our Approach

Driven by strong values, we nurture trust-based relationships with customers, suppliers, employees, communities, and regulators. We engage consistently to meet evolving expectations, emphasizing transparency, ethics, and community involvement. Through responsible sourcing and impactful development, we enhance our social fabric and reputation as a reliable industry leader. We believe robust social and relationship capital benefits stakeholders and ensures our growth and relevance.

## Investing for Impact

To ensure our efforts are meaningful, we regularly engage with these groups to gather feedback and evaluate the effectiveness of our community programs. Understanding that impact assessment is an ongoing journey, we have established a structured framework to identify relevant stakeholder groups for each initiative. This inclusive approach helps us remain responsive, transparent, and aligned with the evolving needs of those we aim to support.

## Our CSR Initiatives

Our Corporate Social Responsibility (CSR) efforts are a core component of how we do business, rooted in the belief that creating value goes hand in hand with uplifting communities and protecting the environment. We strive to ensure our operations contribute positively to society by supporting initiatives in health, education, livelihood, infrastructure, and ecological sustainability. These programs are carried out either directly or in collaboration with NGOs, charitable trusts, civil society organizations, or local authorities. Special focus is given to villages located near our manufacturing units, with a vision to gradually expand our reach. A dedicated CSR Committee and Board provide oversight, ensuring all initiatives are effectively monitored and aligned with our long-term goals.

## Empowering Communities through Education

At CEL, we view education as a catalyst for personal and community growth, integral to our community development efforts. Over the past year, we have focused on creating inclusive learning environments by enhancing educational infrastructure, equipping teachers, distributing learning materials, and promoting literacy campaigns, all aimed at fostering sustainable impact.

### 01 Poshanvahini Project - Empowering Women, Combating Malnutrition

#### Overview

Launched in the tribal villages of Narmada District, the Poshanvahini Project aimed to strengthen the operations of Anganwadi centers by addressing critical staff shortages. By engaging one additional helper at each center, the project enhanced the centers' ability to provide improved nutrition and care services to children, thereby contributing to the fight against malnutrition in the region.

#### Impact

- 50 Anganwadi centers across the Narmada District benefited from the support of dedicated volunteer helpers.
- 50 tribal women were engaged as helpers, many of whom were previously unemployed. Through this opportunity, they not only contributed to improving child health outcomes but also became self-reliant and economically independent.

#### Outcome

By bridging staffing gaps in the Anganwadi system, the project significantly contributed to reducing malnutrition among children in the region, while simultaneously empowering women from tribal communities through livelihood generation.

## Shikshasathi Project - Bridging Gaps in Tribal Education

### Overview

The Shikshasathi Project was implemented across 30 government schools in the tribal regions of Bharuch District to address the shortage of teaching staff and improve learning outcomes. By sponsoring 30 volunteer teachers, the project aimed to enhance the quality of education and curb the high dropout rates commonly observed in these underserved areas.

### Impact

- 30 government schools benefited from additional teaching support.
- 30 volunteer teachers were appointed, ensuring consistent and quality education for tribal children.
- The initiative played a key role in reducing student dropout rates and encouraging continued learning.

### Outcome

Through focused educational support, the Shikshasathi Project not only strengthened the learning environment but also fostered a culture of sustained education in tribal communities laying the groundwork for long-term social development.

## Kanya Kelavani & Praveshotsav Project - Celebrating New Beginnings in Education

### Overview

Implemented across various villages in Gujarat, the Kanya Kelavani and Praveshotsav Project is a government-led initiative designed to celebrate and encourage the enrollment of children entering school for the first time.

As part of this initiative, we have extended support by sponsoring essential school supplies for these first-time students. Items distributed included uniforms, shoes, school bags, water bottles, square and long notebooks, general notebooks, compass boxes and kits, slates, pappipens, pencil boxes, drawing books, ball pens, and sketch pens.

### Impact

- Welcomed hundreds of new students into the formal education system.
- Reduced the economic burden on families through the provision of necessary school materials.
- Encouraged higher enrollment and retention, particularly among young girls.

### Outcome

The project not only celebrated the beginning of a child's educational journey but also helped establish a strong foundation for improved literacy and long-term academic engagement in Gujarat's rural areas.

The construction of a road in Raisingpura Village aimed to provide residents with better access to schools, healthcare centers, markets, and other critical facilities. Prior to this intervention, villagers faced difficulties due to unpaved and damaged roads, especially during the monsoon season.

### Impact

- ⦿ Enhanced daily mobility for 2,400 villagers, including farmers, students, and the elderly.
- ⦿ Improved access to emergency and essential services.
- ⦿ Boosted local economic activity by improving transportation of goods and produce.
- ⦿ Contributed to overall village development and quality of life.

## Strengthening Customer Relationships

At the heart of our customer engagement approach lies a commitment to fostering lasting partnerships and delivering solutions that align with the evolving needs and expectations of our customers. We emphasize proactive collaboration and regular interaction with both dealers and end-users to gain deep insights into their requirements and consistently deliver value-driven offerings.

### 01

#### Quality Products & Responsive Services

Our focus is on enhancing the overall customer experience by providing high-quality products and responsive services through diverse channels. These include personal visits, participation in exhibitions and trade fairs, and targeted direct mailers that keep our customers informed about new products and innovations. To gauge satisfaction and identify areas for improvement, we conduct biannual customer surveys that assess parameters such as product quality, pricing, availability, and after-sales support.

### 02

#### Circular Economy & Product Safety Compliance

We are aligning our operations with circular economy principle, particularly in material management to meet these expectations. We are pleased to report zero instances of non-compliance related to the health and safety of our products during the reporting period, reflecting our unwavering accountability and commitment to customer well-being. During the year, our customer technical sales team undertook personal visits to gather firsthand feedback on quality-related concerns. Issues raised were addressed promptly, with samples (yarn or fabric) collected when needed for detailed analysis. These insights were shared with our production teams to drive product enhancements and continuous improvement.

### 03

#### Grievance Redressal & Privacy Assurance

To ensure customer concerns are handled promptly and efficiently, we have implemented a robust grievance redressal mechanism covering all our key product segments—Nylon Filament Yarn, Nylon Tyre Cord, greige yarn and fabric, and dipped fabrics. This system ensures that all customer complaints are resolved in a timely and transparent manner. We also understand that protecting customer privacy is essential to sustaining trust and strengthening our market reputation. Our privacy policy is designed to secure user data, and we are proud to report that no complaints regarding data privacy were received during the reporting period.

# 04

## Customized Labelling & Sustainable Practices

As part of our ethical commitment, we prioritize clear and customized product labeling to support informed decision-making by our customers. Given the bespoke nature of many of our offerings, we tailor our labeling process to meet specific customer requirements. To enhance efficiency and reduce the risk of manual errors, we have adopted an automated labeling system that ensures consistent accuracy across our product portfolio. A notable step in our sustainability journey is the development of an eco-friendly product made from recycled caprolactam waste—our green polymer chips. These are distinctly packaged in green materials to reinforce their environmentally responsible identity. This standardized labeling system minimizes discrepancies and reinforces our dedication to transparency and accuracy in product communication. We are pleased to report that no concerns were raised regarding the accuracy or completeness of our product information and labeling, a testament to the strength of our systems and our customer-centric philosophy.

## Building a Responsible and Resilient Supply Chain

CEL is committed to embedding sustainability into every aspect of its supply chain. We focus on partnering with suppliers who share our sustainability values, conducting regular risk assessments, offering training and capacity building, fostering transparent stakeholder engagement, and tracking key performance indicators such as carbon footprint, water consumption, waste generation, and overall supply chain transparency.

With a supplier base of 1,606 partners, including those providing chemicals, fuel, and packaging materials, we uphold stringent ESG criteria during vendor selection and registration. Critical suppliers undergo regular assessments based on internationally recognized standards, including ISO certifications. We are also formulating a targeted action plan to manage and mitigate environmental risks

across our value chain.

Our sustainability efforts include integrating plastic recycling into supply chain operations and conducting bi-annual reviews and supplier audits to assess performance on parameters such as quality, timeliness, and responsiveness. Additionally, we are advancing our localization efforts by sourcing more materials domestically to strengthen supply chain resilience and reduce dependency on global markets.

Going forward, we plan to scale our supplier engagement initiatives, introduce robust risk assessment tools, and enhance disclosure and accountability. These initiatives underscore our vision of a supply chain that not only supports business continuity but also contributes positively to people and the planet.

# Human Capital

At CEL, we are committed to nurturing our workforce and promoting the health and wellbeing of our employees. With a workforce of over 3,100 individuals, we are driving innovation and sustainability in pursuit of long-term goals. Our vision is to create a legacy of value, with our people forming the foundation of a forward-thinking and sustainable strategy.

## CEL's Commitment to Diversity and Inclusion

At CEL, diversity and inclusion are fundamental to our culture and success. A workforce enriched by varied backgrounds, experiences, and perspectives fosters innovation, enhances organizational capabilities, and drives business growth.

We embrace fairness and equal opportunities for all, regardless of age, religion, gender, race, disability, or any other characteristic. Our recruitment process is designed to uphold unbiased hiring practices, ensuring every candidate has an equitable chance.

By actively supporting local hiring initiatives and seeking diverse talent, we create opportunities for underrepresented groups. Through targeted development programs, we promote skill upgradation, refinement and knowledge building among employees, thereby fostering an inclusive and empowering environment.

## Employee Well-being and Development

Guided by our “Force Woven with Purpose” philosophy, we have established comprehensive skill enhancement programs that provide diverse learning opportunities, fostering continuous development.

Regular performance and career development reviews ensure employees remain on track toward their goals. In FY 2025, 93% of our workforce received structured feedback, reinforcing clarity in their progression and motivating them towards their future aspirations.

As part of our commitment to professional growth, CEL provides significant training hours annually, equipping employees with essential skills and knowledge to advance in their careers.

At CEL, employee wellbeing is a priority. Our comprehensive Employee Well-being Policy is designed to ensure that every team member feels valued, supported, and motivated.

Understanding the effects of stress on productivity, we have introduced dedicated stress-management programs, including workshops that equip employees with practical coping strategies. Additionally, we emphasize physical fitness through gym facilities at residential colonies, yoga sessions, and wellness activities, encouraging regular exercise for overall health.

As part of our dedication to accessibility, we have developed disability-friendly infrastructure, incorporating features such as non-slip flooring, wider door openings, wheelchair-accessible pathways, grab bars, and specialized toilets and sinks.

Mental wellbeing remains a core focus of our approach. Through the Making Individuals and Teams Resilient (MITR) training program, we support mental health and resilience-building. In partnership with MPower, an organization dedicated to mental health awareness, we create a confidential and inclusive space for employees to seek guidance and engage in open discussions.

## Retirement Benefits for a Secure Future

We prioritize the long-term well-being of our employees by offering a comprehensive retirement benefits package that ensures financial security and peace of mind beyond their years of service.

A key element of this package is the gratuity plan, governed by the Payment of Gratuity Act, 1972. Employees who complete five years of service receive benefits based on their tenure and salary at retirement, with regular reviews ensuring fairness and adequacy.

Additionally, our contributions to the Provident Fund help employees build a solid financial foundation for their future. To further safeguard their health and well-being, our Employee State Insurance (ESI) scheme provides medical benefits and financial assistance, ensuring support during critical times.

## Learning and Development

At CEL, we cultivate talent through personalized development programs and growth opportunities, combining training, digital learning, coaching, and workshops. Focusing on safety, technical skills, and managerial competencies, we prepare our workforce to excel and drive innovation in a dynamic environment.

## Embracing the Future at Learning Fest

Century Group, as part of the Aditya Birla Group, launched the Learning Fest – Embrace the Future, an initiative aimed at fostering continuous learning and development across the organization and saw a successful participation of 38 hours per employee in FY 2025. Recognized for its commitment to innovation, the Company was honored with the Innovative Incubator Award for its transformative contributions.

## Objectives

The Learning Fest was designed to:

- Cultivate futuristic skills among employees through collaboration
- Encourage sustainability and innovation in daily operations
- Foster a culture of learning and engagement through interactive activities
- Utilize gamification to enhance the learning experience
- Strengthen leadership and professional growth

## Key Initiatives and Implementation

### 01 Futuristic Skills Development

The program was led by seven captains, each spearheading a critical skill area: Digital Transformation, Macroeconomics, Growth Mindset, Risk Management, Authentic Leadership, Data Analytics, and Influencing the Ecosystem. By working closely with cross-functional teams, Century Group made significant strides in upskilling its workforce.

### 02 The Learning Premier League

Under the theme "Earning with Learning," three key milestones were established to guide employees through their learning journey, ensuring tangible skill-building achievements.

### 03 Innovation and Sustainability - "The Best from Waste"

Teams demonstrated exceptional creativity by optimizing in-house materials for sustainable applications, seamlessly integrating seven futuristic skills into their projects. Innovation and inclusivity were highlighted as core strengths of the initiative.

### 04 Water Conservation - "Water Saving Campaign"

We made a dedicated effort to promote water conservation, aimed at reducing resource strain, while fostering long-term environmental sustainability. Employees were encouraged to adopt best practices for responsible water usage.

### 05 Safety Enhancement - "Suraksha Sarvapratham"

We implemented a safety simulation program designed to improve responsiveness by incorporating realistic behavioral approaches, ensuring employees were equipped with essential safety skills.

### 06 Learning Carnival and Gamification

The Learning Fest culminated in a vibrant Learning Carnival, celebrating continuous learning through engaging gamification techniques. The event also highlighted the integration of Gen Z talent into the organization, ensuring the future workforce was equipped with essential skills.

### 07 Recognition and Employee Engagement

Employees were actively involved in shaping the learning journey, contributing valuable insights and ideas. The Company recognized 78% of Unique Users, acknowledging their contributions to creating an energetic and inspiring learning culture.

## Upholding Our Commitment to Human Rights

At CEL, we uphold the principles of “Leadership with Trust”, ensuring ethical business practices and a respectful workplace. Guided by our Human Rights Policy, we are dedicated to protecting and promoting the rights of our employees while strictly prohibiting discrimination, harassment, child labor, and forced labor.

We are proud to report zero recorded incidents of indigenous rights violations during the reporting period. Additionally, we safeguard freedom of association and collective bargaining, with structured agreements in place for permanent and unionized contract workers at our Maharashtra Unit. At our Gujarat facility, a performance rating system ensures fair assessments and supports career growth.

By fostering a culture of dignity, inclusion, and empowerment, CEL remains committed to being a force woven with purpose.

### Recognizing Key Rights-holders

**Our operations can impact various individuals, whom we identify as rights-holders as identified below:**

- **Our personnel:** Any person working for or on behalf of the Company.
- **Contract workforce:** Individuals employed through third-party contracts.
- **Impacted communities:** Communities affected by the Company’s operations.
- **Consumers and customers:** Individuals who use the Company’s products and services.

CEL is dedicated to fostering a workplace that prioritizes both performance and security. Our Human Rights policy is designed to safeguard employee well-being and uphold their rights, ensuring an inclusive and supportive environment.

## Occupational Health and Safety Management

Our Occupational Health and Safety Management System (OHSMS) enables us to proactively identify and mitigate risks for employees, workers, visitors, and stakeholders, including customers, vendors, and nearby residents. To maintain its effectiveness, we conduct regular internal audits and external assurance.

To further strengthen employee well-being we have 24x7 dispensary facilities in place, offering general medical consultations, preventive care, vaccinations, and emergency first aid. These facilities collaborate with specialists and nearby hospitals, ensuring advanced care when needed. Employees undergo pre-employment medical screenings and regular health checkups, reinforcing our commitment to long-term health monitoring.

Through partnerships with health service providers, we offer outpatient (OPD) services, pathology, and radiology facilities to employees and their eligible family members. Additionally, we also have comprehensive insurance coverage

for employees which includes health, accident, and term life insurance, providing financial security in unforeseen circumstances.

Recognizing the importance of hygiene and sanitation, we have established a Water, Sanitation, and Hygiene (WASH) Committee to ensure safe drinking water, sanitation practices, and personal hygiene in the workplace. Employee participation in WASH committee meetings helps shape ongoing improvements.

To proactively address process-related hazards, we conduct Hazard Identification and Risk Assessment (HIRA) and regularly monitor workplace conditions, including noise levels, illumination, dust, and fumes, to mitigate any health risks. Employees working in high-noise areas undergo audiometry tests to safeguard their hearing health. With a holistic approach to health and safety, CEL remains committed to fostering a secure, supportive, and wellness-focused work environment, ensuring the well-being of its employees and stakeholders.

## Safety First Approach

At CEL, ensuring a safe and secure work environment is fundamental. Safety is governed by two key bodies: the Plant Sub Safety Committee and the Apex Safety Committee, overseeing the implementation of our ISO 45001:2018-certified health and safety management system. This certification applies to all manufacturing sites, including contractors, visitors, and other stakeholders. A rigorous review mechanism ensures the seamless execution of approved policies.

### Our commitment to achieving Zero Harm is driven by six core safety strategies:

- Cultivating safety leadership at every level
- Strengthening contractor safety management standards
- Advancing hazard identification and risk mitigation practices
- Enhancing road safety measures
- Elevating process safety management
- Improving occupational health and industrial hygiene

Recognizing the role of digital innovation in workplace safety, CEL promotes the adoption of cutting-edge technology to achieve long-term safety benchmarks. Employees participating in key safety initiatives receive financial and non-financial incentives, reinforcing the broader goal of achieving Zero Harm by 2025.

To enhance data-driven safety management, CEL has implemented the SURAKSHA platform at its Maharashtra and Gujarat facilities, which enables employees to report and track safety-related occurrences including near-misses, hazardous conditions, safety observations, and environmental concerns, while providing real-time access to safety data and department-wide reports.

## Major Safety Initiatives

- Investigating incidents and identifying their underlying causes using Root Cause Analysis (RCA) and online methods.
- Conducting safety audits both internally, between departments, and by third-party auditors.
- Planning and preparing for emergencies.
- Implementing safety procedures such as the Permit to Work System (PTW), Lockout and Tag-out (LOTO), and Daily Toolbox Talk (DTT).
- Reporting unsafe conditions, near-misses, and safety observations through an online reporting portal.
- Encouraging employee participation and motivation in safety through programs like Safety Suggestions Scheme, bi-monthly safety campaigns, and celebrations of National Safety Week, Road Safety Week, National Fire Service Day, No Tobacco Day, Chemical Safety Day.
- Promoting safety through activities like monthly safety bulletins, accident case studies, and safety leaflets in the local language.
- Ensuring visitor safety through the provision of guided videos, guidebooks, and Personal Protective Equipment (PPE).
- Integrating safety into the annual performance appraisal system.

## Safety Training and Awareness Building

### Key Safety Training Conducted During the Year

Workplace safety is a shared responsibility, overseen by a structured Safety Committee framework. The Departmental Safety Committee ensures safety measures are effectively implemented at the operational level, while the Central Safety Committee, with equal worker representation, drives safety-related decision-making at the organizational level.

To promote safety awareness, we distribute safety manuals, health guides, fire safety protocols, and general workplace safety guidelines to employees, workers, and visitors. The Occupational Health Prevention Guide, available in English, Hindi, Gujarati, and Marathi, ensures accessibility across all levels of the workforce. Actively engaging with employees on safety matters, we integrate their suggestions and concerns into our risk mitigation strategies.

Employees and workers play a vital role in Hazard Identification and Risk Assessment (HIRA), Job Safety Analysis (JSA), and Hazard and Operability Analysis (HAZOP), helping identify potential risks and improve workplace safety. They also participate in accident investigations, root cause analysis, risk management planning, and various safety-related competitions and committees.

To instill a culture of safety, we conduct comprehensive training sessions across all levels. These cover electrical safety, chemical safety, mechanical safety, shopfloor safety, process safety, behavioral safety, and emergency preparedness, including firefighting programs and mock drills. These initiatives empower employees to recognize hazards and implement preventive measures to mitigate risks effectively.

## Hazard Identification and Risk Assessment

We perform routine worksite inspections and risk identification studies, such as safety audits, job safety analysis, and Hazard Identification and Risk Assessment (HIRA), to detect potential hazards related to work activities. Additionally, we conduct daily safety sampling to identify any unsafe conditions or actions at the site. Our hazard assessments have identified several types of work-related hazards, including those related to chemical handling, noise, machinery, ergonomics, and electricity. Detailed breakdown for the types of hazards is provided below:

### Identified Occupational Hazards

01

#### Physical Hazards

These include General Physical hazards like noise, bad smell, cold, among others, and Particulate Contaminant Hazards which includes dust, fumes and aerosols, etc.

02

#### Ergonomic Hazards

These hazards happen because of improper work station design, heavy manual lifting and from poorly designed tools and equipments.

### Identified Occupational Hazards

03

#### Chemical Hazards

These hazards arise from carcinogenicity, mutagenicity, toxicity, corrosiveness, chemical burns, and sensitizers that affect the skin or other organs

04

#### Biological Hazards

These hazards include health issues caused by viruses, bacteria, pathogenic microorganisms, fungi, and biomedical waste

### Hazard Identification Process

The HIRA sheet lists all work activities, both routine and non-routine, and based on the risk rating, appropriate control mechanisms are put in place. We have a step-by-step method for determining risk:

We have implemented safety engineering controls, acoustic barriers, sound absorbers, fall arresters, in all areas where work is done at a higher level, and 100% of our plants and offices have been assessed by the entity itself.

# MANAGEMENT DISCUSSION AND ANALYSIS REPORT

## 1. OVERALL REVIEW

The year 2024-25 marked a significant operational improvement on back of higher volumes and improved margins. Company posted its highest ever sales volume on back of capacity expansions done in previous years. Lower GDP growth with volatile geo-political developments posted multiple challenges to the entire economy. We effectively navigated these challenges through continued focus on expanding sales by strengthening the customer base, cost optimisation measures and increasing share of Value-Added Products (VAPs). We continue to operate in a highly dynamic and volatile external scenario.

The Indian Nylon filament yarn Industry faced significant challenge due to severe surge in Imports. China has built-up significant over capacity in Nylon Filament Yarn and the Industry faces stiff competition from dumping by China in absence of any significant duty protection. Our focus on increasing VAPs helped in reducing impact of Chinese dumping as we continue to engage with the Government to provide level playing field through various measures.

Robust Tyre demand in the first half of the year mainly from 2-3 wheeler segments enabled higher sales performance of Nylon Tyre Cord Fabric (NTCF) compared to previous year. Increased imports towards the year end and tariff uncertainties affected domestic demand in second half of the year. We have initiated approvals for Polyester Tyre Cord Fabrics (PTCF) which should convert into commercial sales in FY26.

## 2. INDUSTRY STRUCTURE, DEVELOPMENT, THREATS, OPPORTUNITIES & OUTLOOK

### Industry Status

The Company manufactures Tyre Cord Fabric and Nylon Filament Yarn (NFY) in the synthetic yarn segment of the textile industry.

### Tyre Cord Fabric

Nylon Tyre Cord Fabric (NTCF) is used as reinforcement material in Bias/Cross ply tyres, which are primarily used in trucks, two-three wheelers, Agricultural and off-the-road (OTR) vehicles used for mining, forestry, heavy earth moving etc. Polyester Tyre Cord Fabric (PTCF) is mainly used in Passenger car radial tyres for better fuel efficiency and comfort.

Domestic demand for Cars and Trucks is expected to grow at healthy pace and pave way for better capacity utilisation. Volatile geopolitical situations may dampen export potential of Tyres especially for Bias Tyres. Original Equipment Manufacturers (OEMs) are making great efforts to cross the borders and push the sales in Southeast Asia especially for 2-3-wheelers and Tractors. This augurs well for Bias Tyres production going forward.

Radialisation in Medium and Heavy Commercial Vehicles

(MHCV) in India has reached a plateau and should remain same for next 2-3 years providing a window of opportunity for bias tyre manufacturers. Farm Tyres segment is anticipated to witness growth supported by favorable monsoon predictions and continued support on Minimum Support Price (MSP) by Government of India. Similarly, demand for Off the Road (OTR) tyres is expected to grow in overseas market subject to cooling of geopolitical tensions.

Owing to growth in Car segment, PTCF demand is also robust and expected to continue further. OEMs have many opportunities in domestic and overseas market for car sales, and this is pushing tyre industry demands higher. Many tyre companies are expanding their capacities to cater to these market expectations. Our entry into PTCF enables us to participate in this growth and diversify risks associated with supply to Bias tyres only.

### Nylon Filament Yarn (NFY)

The Nylon Filament Yarn industry in India is expected to grow at 6-7% in medium term. The growth is primarily driven by urbanization and evolving consumer lifestyle changes. Nylon yarns are finding increased usage in Athleisure, Sportswear, Workwear, Lingerie, laces, Defense fabric & imports substitution for Technical textiles.

The Indian government's Make in India campaign and push for Man made Fibre (MMF), is further expected to accelerate growth in the textile industry and the demand for Nylon filament yarns. Amidst Water scarcity issues affecting natural fibers cultivation & stagnation in domestic cotton production, Government of India (GOI) is emphasizing on MMF as a sustainable alternative and in turn, Nylon filament yarns are expected to play critical role in this shift.

Lifestyle changes and growing health and fitness consciousness is aiding Athleisure and Sportswear growth. Nylon filament yarn is commonly used in the production of high-performance fabrics used in these applications. We expect Micro and Fine deniers and specifically Draw textured nylon yarn will be the fastest growing segment in the Nylon 6 Filament Yarn market. These yarns possess the properties of both natural and synthetic fiber like comfort, softness, high moisture, durability and high retention.

Overall, the Indian nylon filament yarn industry is expected to experience moderate growth in the coming years. Nylon filament yarn also faces competition in premium Saree segments from other synthetic fibers, like Viscose Filament Yarns with increased availability of cheap imports from China. To mitigate above risks, we are focusing on Application development, Products customization and new value-added Products developments.

### Company Performance

In FY25, Margins continued to be impacted due to very low Chinese import prices. China, is the world's largest Nylon

## MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)

producer, having more than 20 times production compared to India. Challenging macro geopolitical situation led to slow down in their domestic consumption and in turn, proximity to India, lead to increased imports volumes and dumping.

The Company has achieved higher NTCF sales backed up by buoyant demand in first half of FY 25. Second half of the year witnessed market consolidation amid volatile geopolitical conditions which led to uncertainties and reduced sale of Tyre cord fabric and Industrial yarns. Overall margins were also impacted by volatile raw material scenario.

Despite above challenges, the Company delivered robust financial performance with Earnings before interest, depreciation, and tax (EBIDTA) up by 31% to Rs. 152 crs. in FY 25 against Rs. 116 crs in FY24

### Company Outlook

Predictions of above normal monsoon and easing geo-political situation augur well for stable performance in the coming year. Company's strong focus on costs, product optimization and realizing benefits from past investments would continue in FY 26 as well.

The company intends to strengthen its position in supply of Premium Draw Textured Yarns (DTY) for Athleisure and Sportswear, Mother/ Mono yarns for Ethnic wear, Sustainable Recycled and dope dyed yarns for Functional & Technical Textiles.

Reduced Raw Material prices due to softening of crude oil, better availability of Natural rubber is likely to boost Tyre production in times to come. Tyre Industry's focus will primarily be on Passenger car radial and Truck/ Bus Radials. The Company is looking forward to the successful commercialization of PTCF capacities, which will further enhance its presence in the reinforcement market.

Looking ahead to FY26, overall market conditions are anticipated to remain moderate, with margins continuing to remain under pressure due to lower cost imports from China. Furthermore, tariff action from US is creating vulnerability in the global market. Our focus on controllable variables and proactive approach would support us in 25-26, as we remain cautiously optimistic about business performance.

### 3. SAFETY, HEALTH, ENVIRONMENT & SUSTAINABILITY

The Company strongly believes that *"Life is precious, and we must safeguard it."* Guided by this principle, we are deeply committed to minimizing the safety risks associated with our operations. This commitment extends to our employees, visitors, customers, vendors, and communities residing near our facilities, as well as to our plants and equipment.

We have embedded safety into the core of our organizational

culture through a structured and proactive approach, underpinned by active leadership involvement. Safety is recognized as a top priority across all levels of the organization, involving employees, contractors, service providers, suppliers, and local communities alike.

Our Pune and Bharuch facilities operate under a certified Safety Management System in accordance with ISO 45001:2018 standards. Notably, our Bharuch site has received prestigious recognition, earning two Gold Trophies for *Safety Excellence* and *Digitization in Safety* from the Quality Circle Forum of India (Surat Chapter) on 4th January 2025, and an additional two Gold Trophies on 31<sup>st</sup> August 2024.

#### Key Safety Initiatives Undertaken During the Year:

- Promoted the reporting of near-miss incidents, unsafe conditions, unsafe actions, and safety observations.
- Conducted awareness programs such as workshops, bulletin circulations, accident case studies, and safety campaigns including contests and suggestion schemes.
- Installed cautionary notices and warning signage across facilities.
- Implemented machine guarding, fencing, regular safety rounds, and comprehensive safety surveys.
- Delivered shop-floor safety training and leadership workshops
- Carried out Risk Assessments, HAZOP (Hazard and Operability Study), and JSA (Job Safety Analysis).
- Enhanced fire prevention measures with robust protection and firefighting systems, along with third-party fire safety audits.
- Conducted regular emergency response mock drills and fire drills to test the effectiveness of emergency systems.
- Celebrated National Safety Week 2024 with specialized training sessions on Electrical Safety, Mechanical Safety, Boiler Safety, LPG Safety, and Behaviour-Based Safety (BBS).
- Organized CPR and First Aid training, led by certified medical professionals, for employees.
- Extended firefighting and accident prevention training to neighboring small and medium enterprises (SMEs).

#### Health, Hygiene, and Well-being at the Workplace

The Company is committed for fostering a healthy, safe and supportive work environment for all employees. To support this commitment:

- Comprehensive medical services are readily available at both plant locations.
- Periodic preventive health check-ups are conducted across

**MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)**

the workforce to ensure early detection and management of health concerns.

- Both at Pune and Bharuch Unit, half yearly medical check-up is done for the employees who are engaged in hazardous processes.
- Employees are equipped with appropriate Personal Protective Equipment (PPE).
- The Company emphasizes maintaining high standards of cleanliness, personal hygiene, and housekeeping.
- Mechanized systems such as dust extraction units, fume exhaust systems, and noise control devices are employed to maintain air quality and reduce occupational exposure to harmful elements.

To oversee sanitation and hygiene, a dedicated WASH Committee (Water, Sanitation, and Hygiene) has been established. This committee regularly monitors workplace cleanliness, hygiene practices, and the availability of safe drinking water.

Additional inclusive initiatives include:

- The installation of a sanitary pad dispenser with an incineration facility in women's restrooms.
- At Bharuch Unit the provision of a specially designed washroom with wheelchair accessibility for elderly individuals and persons with disabilities.

The Company also ensures robust safety governance through external audits of its fire safety systems, electrical systems, Job Safety Analysis (JSA), Hazard Identification and Risk Assessment (HIRA), and Integrated Management System (IMS).

Both Pune and Bharuch locations operate under an ISO 45001:2018 certified in Occupational Health and Safety Management System.

As part of our commitment to promoting emotional wellbeing, we are proud to be associated with MPOWER – an initiative by Aditya Birla Education Trust (ABET), founded by Mrs. Neerja Birla. Through this collaboration we organise a range of initiatives, which includes activities, webinars and workshops aimed at fostering mental health awareness and understanding.

**Mental Health and Well-being - MPOWER Initiative**

MPOWER, an initiative by the Aditya Birla Education Trust, strives to be a transformative movement that drives positive change in mental health awareness and support. Our Company actively supports this initiative by fostering awareness, promoting prevention, and providing access to professional mental health services through a holistic, multidisciplinary approach.

In 2025, MPOWER organized the "Mpowering Minds Summit" in Mumbai, anchored on the pillars of Acceptance, Action, and Advocacy. This high-impact summit served as a powerful call to action for addressing youth mental health, bringing

together mental health experts, policymakers, changemakers, and individuals with lived experiences to inspire dialogue and actionable solutions.

As part of this commitment, a three-day mental health workshop was conducted at our Pune Unit, totaling approximately 250 manhours. Employees and workers participated enthusiastically, benefiting from sessions that included meditation practices and insights into the understanding of the seven chakras, contributing to their emotional and mental well-being.

**Environment and Sustainability**

The Company is deeply committed to environmental stewardship and actively works to respect, protect, and restore the natural environment. Both the Pune and Bharuch facilities are certified under the ISO 14001:2015 Environmental Management System, reflecting our structured approach to environmental risk management. This involves identifying potential environmental risks, assessing their impact, mitigating them through timely interventions, and ensuring continuous monitoring and compliance.

During the reporting period, the Company's consumption of water, fuel, and other resources, as well as the generation and treatment of wastewater, hazardous waste, and gaseous emissions, remained within the regulatory limits prescribed by the State Pollution Control Board (SPCB).

The Company continues to champion sustainable development by embracing responsible usage of natural resources, improving energy efficiency, enhancing water conservation efforts, and reducing dependence on non-renewable energy sources. Key environmental initiatives and achievements during the year include:

**Key Highlights of Environmental Initiatives:**

1. Life Cycle Assessment (LCA) conducted for NTCF, NFY and De-poly products by M/s. Sphera.
2. Canteen Waste Composter installed; manure generated is utilized in gardening and greenbelt development.
3. Green and horticultural waste converted to compost and used for landscaping purposes.
4. Plantation of approximately 400 native tree species to enhance green cover.
5. Obtained approval for revised disposal methodology of hazardous waste through pre-processing and co-processing.
6. Rainwater harvesting recharge wells installed to enhance groundwater recharge.
7. Renewable energy adoption through the use of biofuel in boilers and thermic fluid heaters for steam and heat generation.

## MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)

8. Procurement of 10.5 MW wind-solar hybrid power under the Group Captive Scheme.
9. Installation of Waste Heat Recovery System and Vapor Absorption Machine (VAM) for improved resource conservation.
10. Use of high calorific value hazardous waste as alternative fuel by authorized co-processors.
11. Establishment of a Zero Liquid Discharge (ZLD) unit for process wastewater treatment, enabling reuse within operations. Sewage Treatment Plant (STP) effluent is used for greenbelt maintenance.
12. Replacement of Ozone-Depleting Substances (ODS) with non-ODS refrigerants to reduce environmental impact.
13. Celebrated World Environment Day and Ozone Day in collaboration with the Forest Department and State Pollution Control Board officials.
14. Regular third-party monitoring and audits of pollution prevention systems such as stacks, ETP, STP, and ambient air quality.
15. Third-party Water Audit and Hydrogeological Impact Assessment conducted to optimize water management.
16. NTCF products meet the requirements of Annexure XVII and XIV of the European REACH Regulation and ECHA SVHC (Substances of Very High Concern).
17. Nylon textile products are OEKO-TEX S-100 certified and comply with REACH and ECHA SVHC regulations.
18. At Bharuch site, 28 Nos Rainwater recharge wells are installed with recharge capacity of 12960 m3/Recharge well
19. At the Bharuch site, a ZLD plant has been installed for water conservation, along with investment in the 10.5 MW wind-solar hybrid Group Captive Scheme.

### 4. HUMAN RESOURCE AND INDUSTRIAL RELATIONS

The Human Resource Department (HRD) holds a pivotal role in the Company's growth journey, as employees are recognized as one of our most valuable assets. The HR function is closely aligned with the business strategy of every department, ensuring synergy between people development and operational excellence. Driven by a proactive and progressive approach, HR continues to focus on enhancing employee engagement, development, and satisfaction—aiming for internal customer delight at its core. The Key HR Initiatives and Achievements are as under:

#### 1. Learning Fest - "Embrace the Future"

For the first time, we launched the Learning Fest, an Aditya Birla Group-wide initiative to promote continuous learning and development. The Century Group was honored with

the Innovative Incubator Award for its creative contributions. Highlights included:

- 7 Captains Leading 7 Futuristic Skills: A strategic leadership-driven focus on future-ready capabilities.
- Learning Premier League: Based on the theme "Earning with Learning", three key milestones were set to encourage employee learning through a gamified structure.
- "Suraksha Sarvapratham" Safety Simulation: A behavioral training module to enhance safety awareness and preparedness.
- Learning Carnival: A vibrant conclusion to the fest, celebrating a culture of learning with special recognitions.
- Engagement of Gen Z talent and gamification methods were prominently featured.
- The initiative resulted in a substantial increase in e-learning hours: from 4.5 hours per employee in FY24 to 38.2 hours in FY25.
- 78% of users actively participated, adding significant value and fostering a high-energy learning environment.

#### 2. REPRISM and PRIDE - Flagship Recognition Programs

For the first time, the Company introduced two Group-wide initiatives aimed at fostering innovation, excellence, and recognition:

- REPRISM (Reinforcing Engineering Pride and Recognizing Innovative Seamless Manufacturing): A platform to celebrate manufacturing excellence and spark innovation. Industry-leading white papers were presented by Mr. Rakesh Batra (Pune Unit) and Mr. Biplab Chakrabarty (Bharuch Unit) in the "Challengers Round," highlighting cutting-edge solutions to industry challenges.
- PRIDE (Performance Recognition in Delivering Excellence):  
A prestigious Aditya Birla Group initiative to recognize individuals and teams making impactful contributions.
- ❖ Mr. Surat Prakash (Pune Unit) was recognized as an Individual Achiever under the Managing Critical Situations category.
- ❖ Team from Spinning Department, Bharuch Unit—Mr. Sunilkumar Uttam, Mr. Vipul Patel, Mr. Vaidraj Bhaskar, and Mr. Sanjay Yadav—were recognized for their waste reduction project.

## MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)

- ❖ Cross-functional team from Pune Unit— Mr. Sunil Patil, Mr. Yogesh Lomte and Mr. Dnyeshwar Mule from Polymerization, Mr. Surat Prakash from Maintenance, Mr. Nilesh Shirsat from Boiler House, Mr. Avinash Shinde from Automation and Mr. Ashwin Achrekar from Power, a cross functional team of Pune Unit were awarded for their project under scope of Productivity, to improve the production by reinforcing operational efficiency.

### 3. Aditya Birla Group Values Program

This initiative brought together staff and workers to reinforce our shared values and workplace culture. Through collaborative engagement, the program aimed to align daily actions with the Company's core principles, fostering a unified and thriving organizational environment.

### 4. AWOO (A World of Opportunity) - "Give Back" Campaign

In support of the "Padhega to Badhega India" mission, 57% of our employees voluntarily participated in the AWOO campaign, empowering the nation through education. We proudly share that six children of our workers were awarded prestigious AWOO scholarships from the AWOO Foundation pursuing Chartered Accountancy, Engineering programs, Medical Science and Forensic Science.

These achievements reflect our unwavering commitment to people development, innovation, and social responsibility—building not only a better workplace, but also a stronger community and future.

### 5. INTERNAL CONTROL SYSTEM AND ITS ADEQUACY

The Company has implemented a well-structured internal financial control system that is aligned with the size, scale, and complexity of its operations. This system, comprising detailed policies and procedures, is designed to:

- Ensure compliance with the Company's policies and regulatory requirements,
- Safeguard assets against loss or misuse,
- Promote efficient and effective use of resources,
- Prevent and detect fraud and irregularities,
- Maintain accurate and complete accounting records, and
- Enable the timely preparation of reliable financial statements.

The Audit Committee of the Board plays an active and vigilant role in monitoring the effectiveness of these internal controls. It undertakes periodic reviews to assess their adequacy and performance.

During the year under review, the internal control mechanisms

were rigorously tested and found to be effective, with no reportable material weaknesses identified. The Internal Auditor continues to independently assess the adequacy and operational efficiency of the control systems. Key observations and recommendations are presented to the Audit Committee, whose insights and guidance are incorporated to continuously strengthen the Company's internal control environment.

### 6. INFORMATION TECHNOLOGY

The Company firmly believes that a robust, agile, and secure Information System is fundamental to achieving sustainable growth in today's fast-paced, technology-driven business environment. With a clear vision for long-term competitiveness, the Company continues to invest in advanced digital solutions that drive operational excellence, enhance decision-making, and deliver greater value to all stakeholders.

Aligned with its digital-first strategy, the Company has adopted a cloud-first approach, migrating core infrastructure and business applications to the cloud. This shift enables increased scalability, flexibility, and cost efficiency, while ensuring seamless and secure access to systems and data from any location. Cloud integration has significantly accelerated innovation, reduced downtime, and simplified system maintenance.

To advance its digital capabilities, the Company is actively deploying Artificial Intelligence (AI) and Machine Learning (ML) across key business functions. These technologies are particularly impactful in Production and Quality Assurance, where intelligent automation has improved precision, responsiveness, and efficiency.

In fostering a data-driven culture, the Company has developed and rolled out Business Analytics Dashboards across departments. These interactive dashboards provide real-time insights into key performance indicators (KPIs), enabling faster, evidence-based decision-making and promoting transparency, accountability, and continuous improvement.

The Company is also upgrading its Operational Technology (OT) systems to improve machine-to-machine communication, increase uptime, and enhance process control. These enhancements are critical for maintaining product quality, regulatory compliance, and operational reliability, especially in manufacturing-intensive settings.

Recognizing the escalating risks in the digital landscape, the Company places top priority on Information Security and Data Privacy. A comprehensive cybersecurity framework—anchored in People, Processes, and Technology—guides the Company's protective measures, reinforced by consistent investment in advanced security infrastructure.

Major cybersecurity initiatives include:

- Endpoint Detection and Response (EDR) solutions for real-

time threat monitoring and mitigation

- Cloud-based content filtering to prevent access to malicious or unauthorized web content
- Identity and access management systems with Single Sign-On (SSO) and policy-based controls
- A 24/7 Security Operations Center (SOC) for continuous threat detection and incident response
- Multi-Factor Authentication (MFA) enforced across all mission-critical applications

These efforts collectively ensure secure and flexible access for employees, supporting the Company's transition to a resilient hybrid and remote work environment.

Through strategic investments in cloud computing, AI/ML, analytics, cybersecurity, and OT, the Company is building a future-ready digital infrastructure that fuels innovation, enhances productivity, and safeguards business continuity—laying the foundation for sustainable, technology-led growth.

## 8. CORPORATE SOCIAL RESPONSIBILITY (CSR)

At the Aditya Birla Group, our Corporate Social Responsibility (CSR) initiatives are deeply rooted in our commitment to building sustainable and inclusive communities. We focus on key thrust areas including Vocational Skill Development, Education, Infrastructure Development, Healthcare Services, and Women Empowerment.

We work through long-term, strategic partnerships with grassroots NGOs that bring deep community insights and implementation expertise. Additionally, we collaborate closely with government bodies at the district level to ensure our CSR programs are effective, efficient, and impactful, especially in rural and tribal areas.

In the current financial year, our CSR programs have expanded their reach significantly:

- Partnered with 68 Anganwadis, 50 schools, and over 40 villages
- Positively impacted the lives of 83,904 people
- Focused on the tribal belt of Bharuch district and aspirational district ( Narmada -Gujarat).

### 1. Vocational Skill Development

Vocational training plays a crucial role in bridging the skills gap within the workforce by providing practical exposure across key sectors. It enhances employability and drives economic development, thereby improving livelihood opportunities within the community.

This initiative is designed to reduce unemployment, empower individuals, and bridge the rural-urban divide by promoting

**MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)**

self-sufficiency and encouraging sustainable development. By equipping people with market-relevant skills, we aim to create a more inclusive and resilient workforce, capable of contributing meaningfully to both local and national growth.

**Vocational Training - Empowering Youth with Skills for a Better Future**

Our vocational training initiative is focused on empowering underprivileged youth by enrolling them in diverse skill development programs. These trainings not only build technical expertise, but also enhance soft skills and value-based education, making participants more confident and job-ready.

Over the past few years, we have introduced a range of vocational courses that have significantly contributed to employment generation among youth. In the current year, we launched a new course - "Computer Operator and Programming Assistant" (COPA) - to provide hands-on technical exposure and align with today's digital demands.

A key focus of our initiative is women empowerment. By offering free education and training for girls, we are helping them become financially independent and self-reliant. Out of the 135 trainees enrolled this year, 37 were women, reflecting our commitment to inclusive development.

**2. Promoting Health and Well-being - Aligned with SDG 3**

In alignment with Sustainable Development Goal 3: Good Health and Well-being, and in the spirit of the WHO Constitution, which affirms that "the enjoyment of the highest attainable standard of health is one of the fundamental rights of every human being," our organization is committed to promoting holistic health for all.

Preventive healthcare is a critical pillar of this commitment, requiring attention and collaboration across all sectors of society. It plays a vital role in improving the overall health, well-being, and productivity of individuals, families, and communities—particularly among the disadvantaged and marginalized.

To advance this mission, we have implemented a range of health-focused initiatives, including:

- Regular health camps in underserved areas
- Community health awareness programs
- Health education sessions targeting early prevention and hygiene practices

These efforts reflect our belief that health is not only a personal right, but also a shared responsibility that strengthens communities and supports sustainable development.

**a. Poshanvahini Project**

Access to nutritious food is a fundamental human right and lies at the heart of Sustainable Development Goal 2: Zero Hunger - To advance this goal, our company partnered with the Ministry of Women and Child Development's Integrated Child Development Services (ICDS) in Narmada district. Through this collaboration we:

- a) Supported 50 Anganwadis across Nandod, Garudeshwar and Dedyapada talukas, reaching 2,639 children.

- b) Employed 50 local women as helpers, empowering them with jobs while ensuring each child receives care, early-learning support and nutritious meals.
- c) Identified and monitored malnourished children; thanks to sustained intervention, the number classified as malnourished fell from 224 at the start of the year to 167 (57 children come under normal category) by year-end.

By reinforcing government initiatives in underserved communities, we are helping India move closer to ending hunger and securing a healthier future for every child.

**b. Eye Check-up and Cataract Operation Camp**

The company, in partnership with the renowned NGO SEWA Rural, has been actively working to improve eye health in rural communities. As part of this initiative, we organized five eye check-up and cataract surgery camps in the villages of Umalla, Asha, Rajparadi, Velugam of Bharuch district and Junaghata of Narmada district.

Our aim is to offer free medical consultations and treatment to economically disadvantaged villagers while supporting the objectives of the National Rural Health Mission (NRHM). Through this effort, over 20 villages in Bharuch district were positively impacted.

**Key outcomes of the initiative include:**

- 1,102 individuals received comprehensive eye check-ups
- 123 patients successfully underwent cataract surgeries
- 845 patients were provided with free spectacles for improved vision

This program not only restored sight to many but also enhanced the quality of life in underserved communities through accessible and timely eye care.

**c. Blood Donation Camp**

On 14<sup>th</sup> June 2024 in observance of World Blood Donor Day, we organized a blood donation camp in collaboration with the Red Cross Society, Rajpipla - Narmada District.

Blood donation plays a crucial role in sustaining the healthcare system by ensuring a consistent and lifesaving supply of blood for patients in need. This initiative aimed to raise awareness about the importance of blood donation and to encourage active participation from both the community and our employees.

As a result of the camp, 50 units of plasma were successfully collected, contributing meaningfully to the region's healthcare resources and reinforcing our commitment to community well-being.

**d. Women's hygiene (Distribution of sanitary Napkins)**

Menstrual hygiene was a key focus area for the company this year. In collaboration with Gram Vikas Trust, Bharuch—an organization dedicated to empowering women under the motto "By the Women, For the Women"—we conducted a series of awareness programs aimed at promoting the use of sanitary pads during the menstrual cycle.

## MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)

As part of this initiative 64,800 sanitary napkins (sufficient for six months of use) were distributed to 1,800 women across the villages of Tavadi, Shir, Vali, Bamalla, Raisingpura, Umalla, and Vagpura in Bharuch district

This program not only addressed a critical health and hygiene issue but also aimed to break taboos, improve menstrual health awareness, and enhance the dignity and well-being of rural women.

### e. Support in eradication of T.B.

India bears the highest tuberculosis (TB) burden globally, as highlighted in the Ministry of Information and Technology report. In response, the Ministry of Health and Family Welfare has launched an ambitious National Strategic Plan to eliminate TB by 2025, requiring a multi-sectoral approach—addressing key determinants such as nutritional support, improved living and working conditions, and greater access to diagnostics and treatment.

In alignment with the Prime Minister's vision of "TB Mukht Bharat", the company extended its support by adopting two talukas—Netrang and Jhagadia—in Bharuch District.

Key contributions under this initiative include:

- Sponsorship of 2,425 government-prescribed nutrition kits for TB patients
- 38% of patients cured, while 51% remain under active treatment, reflecting an 89% positive impact rate

This initiative not only supports the national mission but also reinforces our commitment to community health and disease eradication through sustained and meaningful intervention.

### 3. Education Initiative

In support of Sustainable Development Goal (SDG) 4 – Quality Education, our company recognizes that education is a cornerstone of sustainable development. We have been actively investing in various educational initiatives aimed at fostering individual empowerment and driving holistic community upliftment.

By enhancing access to quality learning opportunities, we are not only nurturing future-ready individuals but also contributing to the creation of more informed, resilient, and equitable communities.

#### a. Shiksha Sathi Project

To address the shortage of teachers in government schools, our company, in collaboration with the Education Department, sponsored 30 volunteer teachers from local communities and placed them in identified schools.

**This initiative led to:**

- A reduction in dropout rates by keeping students engaged and motivated
- Support for special needs students, promoting their integration into mainstream education
- The creation of a more inclusive and nurturing learning environment for all children

The program was implemented across 30 primary schools in the Jhagadia, Valia, and Netrang talukas of Bharuch district, positively impacting over 2,100 students. Through this effort, we reinforced our commitment to strengthening grassroots education and building a brighter future for the next generation.

#### b. Kanya Kelavani and Shala Praveshotsav Program

The company actively participated in the Shala Praveshotsav and Kanya Kelavani—flagship initiatives of the State Government held annually in June to promote school enrollment in Grade 1, encourage girls' education, and ensure a zero-dropout rate among children.

This year, we collaborated with various primary schools and Anganwadi centers to support these campaigns. As part of our initiative, we sponsored and distributed essential educational materials, including School uniforms, shoes, bags, Water bottles and a wide range of stationery items such as square notebooks, long books, notebooks, compass boxes, compass kits, slates, patti pens, pencil boxes, drawing books, ball pens, and sketch pens.

During the financial year, this program covered 17 schools and 18 Anganwadi centers, positively impacting around 1,260 children. Through this effort, we reaffirm our commitment to universal access to education, especially for the girl child, while contributing to the overall goal of inclusive and equitable quality education for all.

#### c. Providing D.G set up in a school

To support uninterrupted learning, the company provided a diesel generator (DG) set to a school operated by Cenka Samaj Kalyan Sanstha. The installation of the DG set ensured a safe, efficient, and continuous educational environment, allowing daily school operations, safety measures, and academic activities to proceed smoothly during power outages or disruptions.

This initiative positively impacted 720 students throughout the year, reinforcing our commitment to creating resilient and reliable learning spaces for every child.

#### d. Construction of rooms in a school

The company extended financial support for the construction of a classroom in a school located in Kariyapura village. This contribution significantly improved access to education by providing students with a dedicated and improved learning environment, fostering greater engagement and encouraging continued school attendance.

As a result, 40 students directly benefited from this initiative, marking a meaningful step toward strengthening rural education infrastructure and promoting long-term educational development.

#### e. Child Sexual Abuse Awareness Program for school

As a proactive measure for early intervention and child protection, the company organized 20 awareness programs across various government schools. These sessions engaged 1,500 students, educating them on crucial topics such as preventive measures

**MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)**

against child sexual abuse, understanding good touch and bad touch, stopping child marriage, the right to education, and child rights.

To support continued learning, the company also provided learning and reference materials to the students for future reading and guidance, reinforcing the messages shared during the programs and empowering children with knowledge to protect themselves.

**4. Rural Infrastructure development**

Investing in rural infrastructure under SDG 9: Industry, Innovation, and Infrastructure is a powerful strategy to bridge the gap between urban and rural areas. By enhancing connectivity, modernizing essential services, and fostering innovation, such investments drive long-term economic growth and uplift entire communities. Improved infrastructure not only supports better access to education and healthcare but also transforms mindsets, enabling positive social change and sustainable livelihoods.

During this financial year, the company launched multiple CSR projects focused on building the foundation for sustainable development and overall prosperity in rural regions, reinforcing our commitment to inclusive growth and community well-being.

**a. Toilet/ Urinal construction for public uses**

The company extended financial support for construction of toilet and urinal blocks in Asha village, near the Vadiya Talav crossroad. This initiative significantly improved public hygiene and ensured safe, clean, and accessible sanitation facilities—especially benefiting elderly individuals, women, and the wider community. By providing toilets that uphold dignity and privacy, the project helped eliminate barriers to proper sanitation without embarrassment.

This effort not only promoted sustainability but also strengthened social inclusion, positively impacting the lives of approximately 2,500 villagers.

**b. Construction of Water Tank for Drinking water in a school**

Recognizing a critical need of Drinking water, the company provided financial assistance to construct a 15,000 Litre drinking water tank at a school located in Pratapnagar, District Narmada, Gujarat. This initiative ensured that students have access to clean and safe drinking water, significantly improving their health and well-being.

As a result, this impactful project benefited 450 students, contributing to a healthier and more conducive learning environment.

**c. Providing of Hand Pump**

The company provided financial assistance to install a hand pump near the Police Check Post to provide access to safe and clean drinking water. This facility serves a diverse group—from villagers and farmers to truck drivers and travelers—ensuring they stay hydrated and maintain hygiene while on the road.

By addressing this fundamental need, the company has

contributed significantly to the health and well-being of 700 residents in Kariyapura village, the entire community and passersby alike.

**d. High Mast lighting Tower**

Health, safety, and development in surrounding villages remain top priorities for the company. To enhance public safety, we installed 26 high mast light towers, each equipped with six floodlights, across various identified villages. This initiative significantly improved nighttime visibility, helping to reduce accidents and creating a safer environment—particularly focusing on the safety of women traveling after dark. By illuminating public spaces, the project lowered risks and fostered a greater sense of security for the community.

In total, this effort positively impacted the lives of 25,372 villagers, contributing to safer and more secure villages after sunset.

**e. Streetlight at Umalla Village**

Our company is deeply committed to community development and enhancing the quality of life in rural areas. As part of this initiative, we installed 12 units of 50W LED lights with clamps and 33 units of 100W floodlights at key locations throughout Umalla village. This effort aimed to address the urgent need for safe and well-lit public spaces, particularly during evening hours when women and children are most vulnerable. By improving visibility and safety, we successfully contributed to a reduction in accidents and created a more secure environment for the entire community.

In total, this initiative benefited 3,172 villagers, reinforcing our mission to build safer, more resilient rural communities through targeted infrastructure support.

**f. Infrastructure Support of Furniture and Electric Fittings**

CEL supported the installation of furniture and electrical fittings at Bamalla, for a community gathering center. This initiative has enhanced the functionality of the space, improving access to essential public services for approximately 700 villagers. Improved infrastructure facilitated seamless delivery of public services. This benefited 700 villagers & strengthened the sense of community and bonding among villagers, as well as Contributed to a more structured and citizen-friendly setup.

**g. Rehabilitation in Bharuch District Prison**

The Prison Rehabilitation Program was launched at Bharuch District Jail in collaboration with the District Jail authorities, aiming to improve basic amenities and support the mental well-being of inmates through enhanced infrastructure. Under this initiative, the company provided in-kind support, including: 2 Water Coolers, 1 RO Plant (1000 liters), 12 Plastic Chairs and 12 LED Smart TVs.

These facilities contributed to creating a more humane and supportive environment, helping to alleviate mental stress and promote positive engagement among inmates.

This effort benefited 1,500 inmates, reinforcing our commitment to inclusive development and the rehabilitation and dignity of all members of society.

## MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT (Contd.)

### h. Financial Support to Old Age Home

Our company deeply values the lifelong contributions of senior citizens and is committed to their well-being. As part of our ongoing social welfare efforts, we extended financial support to an old age home in Ahmedabad. This initiative aimed to create a sustainable and supportive environment for the elderly by addressing key areas such as:

- Healthcare services and regular medical check-ups
- Nutritional support through balanced meals
- Infrastructure improvements to enhance comfort and safety

Through this support, we contributed to improving the quality of life for 25 senior citizens, reaffirming our commitment to dignity, care, and respect for the elderly.

### i. Construction of road in a village

The company extended financial support for the construction of a stretch of road in Raisingpura village, aiming to enhance transportation infrastructure and support the overall development of the region. This initiative significantly improved road connectivity, leading to:

- Reduced travel time and fewer road accidents
- A safer and more accessible environment for the community
- Boosted local trade and economic activities
- Easier access to essential services such as healthcare, education, and markets
- Improved transportation for agricultural activities, supporting local livelihoods

By bridging the gap between rural and urban areas, this initiative promoted social and economic growth and directly benefited 2,400 residents of the village.

### j. RCC benches of the villages

The company provided 181 RCC benches across Jhagadia, Valia, and Netrang Talukas, strategically placed in public areas such as bus stations, Panchayat offices, and in front of banks. This initiative aimed to enhance public infrastructure by offering comfortable seating in high-traffic community areas, making them more welcoming, accessible, and functional for both residents and visitors.

By improving the usability of shared spaces, this effort promoted community interaction and convenience, benefiting approximately 28,531 individuals from surrounding interior villages near the Bharuch site.

### k. Shed for Villagers Engagement

Villagers' participation plays a vital role in community engagement. To facilitate smooth functioning and active participation, a shed was constructed at the Umalla to serve as a dedicated space for gatherings and discussions. This resulted into providing shelter and improved infrastructure for 3,172 villagers by offering a more functional and accessible public space.

### 5. Women Empowerment Initiative

To promote SDG 5 – Gender Equality, the company undertakes a range of impactful initiatives each year with the core objective of enhancing economic opportunities for women. Through these efforts, we focus on empowering women by providing access to education, skill development, and self-employment opportunities. By reducing gender inequality, we aim to help women achieve financial independence and a strong sense of self-identity.

These initiatives not only uplift individual women but also contribute to building more inclusive, equitable, and resilient communities.

#### a. Beauty Therapist Training for Women empowerment

The company, in collaboration with Sonali Foundation, Ankleshwar, sponsored a Beauty Therapist Training Course at Bhalod Gram Panchayat in Bharuch district. A total of 56 rural women were enrolled and successfully completed the 4-month certified training program, recognized by the government.

This initiative aimed to empower women through skill development, equipping them with practical expertise and a government-approved certificate to enhance their employability. To further support their journey toward economic independence, the company also provided a complete business starter kit, enabling them to establish their own small-scale beauty services.

This program not only boosted the confidence and financial stability of the 56 women but also contributed to the broader goal of women's empowerment and sustainable livelihood creation in rural communities.

# CORPORATE GOVERNANCE REPORT

Corporate Governance lies at the heart of the Company's business philosophy, grounded in the principles of trusteeship. The Company is steadfast in its commitment to uphold the highest standards of governance, both in letter and in spirit. During the financial year under review, the Company ensured full compliance with all applicable corporate governance provisions.

As part of the Aditya Birla Group, the Company is guided by the Group's core purpose: 'To enrich lives by building dynamic and responsible businesses and institutions that inspire trust.' This purpose is deeply embedded in the Company's culture through its unique 'Power of Five' values, which form the ethical foundation of its operations. Rooted in these values, the Company's approach drives both operational excellence and its unwavering commitment to corporate governance. The 'Power of Five' values are:

## A. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

The foundation of the Company's business practices is built on the four pillars of Trusteeship: transparency, adequate disclosure, fairness to all stakeholders, and independent monitoring & supervision.

At its core, corporate governance is about fostering and upholding integrity, transparency, accountability, sustainability, and safety across all aspects of the business, while ensuring strict compliance with applicable laws and the highest standards of ethical conduct.

The Company affirms its compliance with the corporate governance requirements as prescribed under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations') and the Companies Act, 2013 ('the Act'), as amended from time to time. The further details are set out hereunder.

## B. BOARD OF DIRECTORS

### Composition of the Board

The Board plays a pivotal role in ensuring the effectiveness of the Company's corporate governance framework. The Company is led by a well-balanced and diverse Board comprising professionals with the requisite qualifications, experience, and expertise across various functional domains, enabling them to discharge their responsibilities effectively.

As of 31<sup>st</sup> March 2025, the Board consists of six (6) Directors with substantial experience in their respective fields. Among them, one (1) serves as an Executive Director, while the remaining five (5) are Non-Executive Directors, including two (2) women Directors. Out of the five Non-Executive Directors, three (3) are Independent Directors, one (1) of whom is a woman. All Independent Directors are eminent professionals, constitute 50% of the total Board strength.

The composition of the Board is in full compliance with the regulatory limits prescribed under applicable laws. No Director serves on the Board of more than ten (10) public limited companies or holds directorships in more than seven (7) listed companies. ### Appointment and Tenure of Directors

The Directors of the Company are appointed or re-appointed by the Board based on the recommendations of the Nomination and Remuneration Committee (NRC), subject to the approval of the members. The NRC considers various factors in its recommendations, including qualifications, positive attributes, areas of expertise, and the number of directorships held in other companies, along with chairmanships and memberships in committees. In accordance with the Company's Articles of Association, the Companies Act, and the Listing Regulations, all Directors except the Executive Director and Independent Directors are subject to retirement by rotation and, if eligible, may offer themselves for re-appointment. The appointment, re-appointment, and tenure of Directors are governed by the applicable provisions of the Act and Listing Regulations. The Executive Director is appointed for a fixed term, while Independent Directors may serve a maximum of two consecutive five-year terms.

### Directors' interest in other Company

Every Director is required to disclose their interest or concern in any company, firm, body corporate, or other association of individuals including shareholding at the first Board meeting in which they participate as a director. Thereafter, such disclosures must be made at the first Board meeting of each financial year or whenever there is any change to the previously disclosed interests, at the first Board meeting following such change.

When the Company enters into contracts with entities in which a director has an interest, either as a director or member, the management ensures that these contracts are executed in the ordinary course of business and on an arm's length basis.

Complete details of contracts in which Directors are interested or concerned are recorded in the Register of Contracts maintained under Section 189 of the Companies Act, 2013. This register is presented for noting at the subsequent Board meeting.

### Directors and Officers Insurance

In accordance with Regulation 25(10) of the Listing Regulations, the Company has obtained Directors and Officers Insurance coverage for its Directors and Officers, with coverage amounts determined appropriately based on risk assessment and exposure.

### Succession Planning

Succession planning is a vital tool for ensuring the smooth functioning of the Company and sustaining its effective performance through

## CORPORATE GOVERNANCE REPORT (Contd.)

continuous leadership. As an artificial entity with perpetual existence, the Company requires a well-structured succession plan. To prevent any leadership gaps at the Board and Senior Management levels, the Company has established a formal succession plan to ensure orderly appointments. Based on the recommendation of the Nomination and Remuneration Committee (NRC), the Board has formulated the Nomination, Remuneration, and Succession Policy, which is available on the Company's website at <https://www.centuryenka.com/pdf/policies/nomination-remuneration-and-succession-policy.pdf>

### Legal Compliance Reporting

The Company has established a system to generate quarterly legal compliance reports covering all applicable laws. This system also identifies and alerts the concerned individuals of any lapses in updating compliance. The Board periodically reviews these compliance reports to ensure adherence.

### Training, Induction and Familiarization Program

All Directors have unrestricted access to interact with the Company's Senior Management personnel to discuss matters related to the Company's affairs. ## CORPORATE GOVERNANCE REPORT (Contd.)

Mr. Rahul Dubey, Vice President–Legal and Company Secretary, serves as the Secretary to the Committee. Mr. Krishna S. Thar (DIN: 00390137), Chairperson of the Nomination and Remuneration Committee (NRC), was present at the last Annual General Meeting of the Company held on 30<sup>th</sup> August 2024.

The NRC's brief terms of reference inter-alia include recommending to the Board the Remuneration Policy for Directors, Key Managerial Personnel, and employees; formulating criteria for evaluating the performance of individual Directors, the Board as a whole, and its committees; designing performance evaluation templates; and recommending the appointment, re-appointment, and remuneration of Directors, Key Managerial Personnel, and Senior Management.

### Performance Evaluation

The Board conducts an annual evaluation of its own performance, performance of individual Directors, and the functioning of Board and its committees, in accordance with the requirements of the Act. The performance of Non-Independent Directors and the overall Board is assessed by the Independent Directors. Additionally, the performance of the Chairperson is reviewed based on feedback from Executive, Non-Executive, and Independent Directors.

The evaluation process is guided by a defined set of criteria, including but not limited to, meeting attendance, active participation in discussions, understanding of the Company's business and industry landscape, and contributions to strategic decision-making. These criteria also align with the roles and responsibilities outlined in the Act and the Listing Regulations.

Structured questionnaires are distributed to Directors to gather feedback on the effectiveness of the Board, its committees, and the Chairperson. Based on this feedback, action plans are developed in consultation with the Directors to enhance participation, foster more robust deliberations, and leverage their expertise to further elevate the Company's performance.

In line with the recommendations of the Nomination and Remuneration Committee (NRC), the Board has adopted a comprehensive Nomination, Remuneration and Succession Policy, which is publicly available on the Company's website.

**O. OTHER DISCLOSURES**

**(a) Material significant related party transactions that may have a potential conflict with the interest of the listed entity at large**

During the financial year 2024-25, there were no materially significant related party transactions that could have posed a potential conflict with the interests of the Company at large.

**(b) Details of non-compliance by the listed entity, penalties and strictures imposed on the Company by Stock Exchanges or SEBI or any Statutory Authority on any matter related to capital markets, during the last three years**

There have been no instances of non-compliance by the Company, nor have any penalties or strictures been imposed by the Stock Exchanges, SEBI, or any other regulatory authority in connection with capital market-related matters over the last three years, except for a reported delay of a few hours in providing prior intimation to BSE and NSE regarding the Board Meeting held on 9<sup>th</sup> August 2022. This delay was due to an accidental loss of server/network connectivity. The Company duly responded to the Show Cause Notice and applied for a waiver of the fine; however, the request was not accepted, and the Company paid a fine of ₹10,000/- to each Stock Exchange.

Additionally, with respect to the Corporate Governance Report for the financial year 2021-22, the Securities Appellate Tribunal (SAT), in its order dated 25<sup>th</sup> March 2022, quashed the order issued by SEBI and the Stock Exchanges concerning the composition of directors under Regulation 17(1) of the Listing Regulations. Pursuant to this decision, both Stock Exchanges refunded ₹ 6,25,000/- each to the Company, which had been earlier paid under protest.

An incident of fire occurred on February 26, 2025, at the NFY Spinning Plant located at Rajashree Polyfil, Rajashree Nagar, Post Umalla, District Bharuch, Gujarat - 393 120. As a result, production operations at the said plant have been temporarily disrupted. There were no human injuries or casualties arising from the incident. The plant had adequate insurance coverage in place.

In the month of April, 2025, Pursuant to the incident, the Gujarat Pollution Control Board (GPCB) has imposed an interim Fire Accident Environment Compensation of ₹36,00,000 (Rupees Thirty-Six Lakhs) and has directed the submission of a Bank Guarantee of ₹ 2,50,000 (Rupees Two Lakhs Fifty Thousand).

The incident has been duly reported to both stock exchanges in compliance with the applicable regulations.

**(c) Details of Vigil Mechanism/Whistle Blower Policy and affirmation that no personnel have been denied access to the Audit Committee**

The Company has established a Vigil Mechanism/Whistle Blower Policy to foster an open, transparent, and accountable work environment. The policy encourages responsible reporting and ensures a secure whistle-blowing system. It affirms that no personnel have been denied access to the Audit Committee. ## CORPORATE GOVERNANCE REPORT (Contd.)

### CERTIFICATE

To,

The Members of Century Enka Limited

We have examined the compliance of the conditions of Corporate Governance by Century Enka Limited ('the Company') for the year ended 31<sup>st</sup> March 2025, as stipulated in Regulations 17 to 27, clauses (b) to (i) and (t) of Regulation 46 (2) and para C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time ('Listing Regulations').

The compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to a review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance with the conditions of the Corporate Governance as stipulated. It is neither an audit nor an expression of opinion on the financial statements of the Company.

## BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORTING (BRSR) - CENTURY ENKA LIMITED (CEL)

At Century Enka Limited (CEL), our Business Responsibility and Sustainability Report (BRSR) emphasize our dedication to responsible business practices and sustainability. As a prominent Synthetic Yarn Manufacturing Company in India, we understand the influential role we play in the nylon textiles industry and the corresponding responsibility it entails.

Our belief is that our business practices should not simply comply with regulations but should also create a positive impact on the environment and society. We are committed to implementing sustainable practices that benefit our stakeholders, the community, and the planet. Our BRSR covers our performance on key principles relating to the Environment, Social, and Governance (ESG) dimensions, as defined by Regulation 34(2)(f) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015. M/s BDO India LLP has performed limited assurance on BRSR Core Indicators.

We are committed to enhancing positive outcomes across environmental sustainability, social impact, and governance mechanisms. By actively reducing our carbon footprint, optimizing resource efficiency, and implementing effective waste and water management strategies, we aim to minimize our environmental impact. Recognizing the significance of our social responsibility, we strive to improve community well-being and make a meaningful contribution to society through best practices. Our dedication to sustainability also encompasses our governance practices, where we prioritize transparency, accountability, and ethical conduct at all levels of the Company.

Embracing sustainability is fundamental to creating long-term value for our shareholders, fostering societal well-being, and constructing a future for our stakeholders that consistently delivers value.

26. Overview of the entity’s material responsible business conduct issues.

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	Approach to adapt or mitigate	Positive/negative implications
1	Occupational Health and Safety	Risk	Risk: Despite having proper training and established safety protocols, human errors can still occur affecting health and safety leading to accidents or injuries, and process failures posing huge risks.	We have established comprehensive plans and training programs to address occupational health and safety risks, including MITR (Making Individuals & Team Resilient) and MPOWER for mental health education. Our ISO 45001:2018 certified system proactively manages risks, utilizing Hazard Identification and Risk Assessment (HIRA) to maintain a record of zero injuries and no loss of man-hours this fiscal year.	Positive Implications: Investing in occupational health and safety programs offers long-term benefits like reduced medical expenses, lower workers’ compensation claims, and decreased insurance premiums. Prioritizing mental health helps retain employees and minimizes hiring costs, property damage, and production disruptions. Companies focusing on these areas gain a competitive edge as ethical practices attract customers, partners, top talent, contracts, and stakeholder collaborations.  Negative implications: Conversely, major injuries can still disrupt total man-hours and raise operational costs.
2	Waste Management	Risk	Waste management is a significant concern for CEL, mainly due to its possible environmental and regulatory impacts. Poor waste management practices can lead to environmental pollution, legal violations, and harm to the company’s reputation. To mitigate these risks, CEL should focus on enhancing its waste management strategies to reduce its environmental impact, comply with regulations, and potentially recover resources through circular economy practices.	CEL emphasizes waste reduction, recycling, and proper disposal practices throughout its operations. By implementing efficient waste segregation at the source, embracing circular economy principles to minimize, recycle, and reuse materials, and ensuring waste disposal through authorized agencies compliant with Central and State Pollution Control Board regulations, CEL strives to limit waste production, optimize resource use, and mitigate environmental risks.	Positive implications: <ul style="list-style-type: none"><li>• Implementation of effective waste management practices can ensure cost savings through reduced waste generation and disposal costs.</li><li>• It can enhance resource efficiency and reduce the need for new raw materials, leading to potential cost savings.</li></ul>

## BUSINESS RESPONSIBILITY &amp; SUSTAINABILITY REPORT (Contd.)

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	Approach to adapt or mitigate	Positive/negative implications
				<p>Some of the mitigation measures are highlighted below;</p> <ul style="list-style-type: none"> <li>• Achieved substantial reduction in hazardous waste discharge by installing a paddle dryer in Pune.</li> <li>• Established coprocessing of hazardous waste as an alternative to landfill disposal.</li> <li>• Initiated the production of "Green Polymer" utilizing process waste to generate additional revenue.</li> </ul>	
3	Water Management	Opportunity	We have achieved zero wastewater discharge from our manufacturing processes. Both plant locations are not in water stress zones. We have initiated several measures to reduce water consumption at both plants. Moreover, nineteen Rainwater Recharge wells are available at Bharuch site to improve the quality and level of water.	Since water management is an opportunity, no mitigation measures have been identified	<p>Positive implications:</p> <ul style="list-style-type: none"> <li>• Cost savings through water efficiency.</li> <li>• Adherence to all the applicable compliances to avoid fines and penalties.</li> </ul>
4	Energy Management	Risk, Opportunity	<p>Opportunity: By reducing reliance on non-renewable energy, we have the chance to set future energy consumption goals and diminish uncertainties linked to non-renewable sources.</p> <p>Risk: Poor energy management risks non-compliance with regulations, reputational damage, and financial burdens. It can result in penalties, legal consequences, loss of public trust, and increased operational costs.</p>	Our commitment to renewable energy has resulted in a significant reduction in our carbon footprint and an increase in energy efficiency. We have increased our usage of biomass as fuel and we installed a 1 MWh solar power system in the previous financial year, which is now fully operational, supporting our commitment to clean, sustainable energy and contributing to our overall energy efficiency goals. As a result, we were able to meet nearly 52% of our total energy requirements from renewable sources during the reporting period.	<p>Positive implications:</p> <ul style="list-style-type: none"> <li>• Transitioning to renewable energy sources and implementing energy efficiency measures can have positive financial implications. This includes minimizing energy costs, maximizing resource efficiency, and improving stakeholder perception.</li> </ul>

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	Approach to adapt or mitigate	Positive/negative implications
5	Employee & Labour Management	Risk, Opportunity	<p>Opportunities: Responsible management of human capital boosts labor productivity and well-being, leading to improved creativity, decision-making, and stakeholder engagement.</p> <p>Risks: Poor human capital management leads to reputational risks, low morale, and high turnover, making effective management essential to avoid these issues.</p>	We employ strategies to comply with labor laws, investing in employee engagement through training, wellness, and work-life balance initiatives to attract, retain, and motivate skilled employees, boosting productivity and job satisfaction.	<p>Positive Implications: Investing in human capital yields positive financial effects by enhancing employee retention and productivity, which reduces costs, ensures long-term sustainability, and strengthens industry reputation.</p> <p>Negative Implications:  <ul style="list-style-type: none"> <li>• High absenteeism and low productivity raise costs and reduce revenues.</li> <li>• Frequent hiring and training increase expenses.</li> <li>• Decreased efficiency and overtime cause burnout and lower productivity.</li> <li>• Non-compliance with employment laws leads to legal disputes and penalties.</li> </ul> </p>
6	Customer Centricity	Opportunity	Strong customer relationships boost revenue and profitability. Offering customized products enhances our customer management, fostering loyalty, repeat business, and positive word-of-mouth to attract new customers.	Since customer centricity is an opportunity, no mitigation measures required.	<p>Positive Implications: Building positive customer relationships and loyalty increases market share, retention, revenue, and profitability. Satisfied customers attract new ones, promoting revenue growth, making this investment vital for long-term success.</p>
7	Supply Chain Management	Risk, Opportunity	<p>Opportunity: Embracing ethical supply chain practices enhances our reputation, offers competitive advantage, fosters supplier relationships, and opens new markets focused on sustainability. Customers prefer ethical companies, so this approach helps differentiate us and build trust. Collaborating with suppliers boosts performance, communication, and innovation, benefiting both parties. As demand for ethical sourcing grows, we can expand our customer base and revenue potential, driving our growth.</p> <p>Risk: Inefficient supply chain management can cause delays, customer dissatisfaction, and legal liabilities. Implementing ethical practices is essential to avoid these risks.</p>	We collaborate with suppliers to enhance their capabilities and integrate them as key partners, investing in technology to boost efficiency. By supporting vendors and product development, we create opportunities to advance supply chain management. Our selection process favors ISO-certified suppliers, promoting ethical and sustainable practices. We plan to use analytics to proactively manage supply chain risks and opportunities.	<p>Positive Implications: Effective supply chain management leads to cost savings, stronger supplier relationships, better customer service, increased brand value, and ultimately higher revenue and profitability.</p> <p>Negative Implications: Inefficient supply chain management results in higher costs and revenue loss from increased transportation and storage expenses, delayed deliveries, and dissatisfied customers.</p>

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	Approach to adapt or mitigate	Positive/negative implications
8	Community Development	Opportunity	Community development allows the Company to better understand those they serve. Partnerships with local organizations and businesses enhance shared resources and networks, creating beneficial relationships and increasing positive community impact.		Positive Implications: Commitment to community development has positive financial implications. It enhances reputation, expands the customer base, identifies new business opportunities, and fosters valuable partnerships.

We have established a Code of conduct for Board of Directors and Senior Management Personnel which provides guidelines and encourages all members to avoid any situation of conflict of interest, either directly or indirectly which may have an impact on the business. In case of such situations, one should immediately inform the Company for effective redressal. The Code can be accessed at the Company's website through this link: <https://www.centuryenka.com/pdf/policies/code-conduct-members-board-senior-management.pdf>

**PRINCIPLE 2: BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE.**

Century Enka Ltd. follows sustainable and safe practices by responsibly sourcing raw materials, fuels and energy preferring recycled, non-fossil & biodegradable inputs to reduce environmental impact. The company complies with ISO 14001:2015, GRS, OEKO-TEX, and REACH regulations and uses Life Cycle Assessment (LCA) to evaluate product sustainability. Processes are optimized for energy and water efficiency, with initiatives like Zero Liquid Discharge (ZLD), use of renewal energy like Biofuel, our own solar panel and procurement of Hybrid energy (Solar & Wind). Occupational health and safety are ensured through ISO 45001, behaviour-based programs, regular training, and emergency drills. Customer safety is addressed via product labelling, safety data sheets and usage guidelines.

Additionally, the company promotes circular economy principles by innovatively converting process waste into high-quality finished products.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, what is the coverage of such a system?

CEL has put in place a strong Occupational Health and Safety Management System (OHSMS) aimed at proactively identifying, evaluating, and mitigating health and safety risks across its operations. The system is inclusive of all personnel—employees, contract workers, and temporary staff—reinforcing CEL’s commitment to their safety and well-being. It further extends to external stakeholders such as service providers, vendors, and visitors. To maintain high standards and promote continuous improvement, regular internal and external audits are conducted to assess compliance and system performance.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

We follow a systematic approach to identify and assess work-related hazards on both routine and non-routine bases. This includes regular inspections, safety audits, and job safety analyses. Hazard Identification and Risk Assessment (HIRA) is conducted to identify key risks such as chemical exposure, noise, mechanical hazards, ergonomics, and electrical issues. Risks are evaluated using HIRA sheets, and control measures are implemented based on their severity and likelihood. Additionally, daily safety rounds are carried out to monitor conditions, assess risks, and apply controls in line with the hierarchy of controls.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks.

We have established comprehensive procedures to enable employees and workers to report work-related hazards effectively. Our approach includes robust training and awareness programs designed to enhance hazard identification capabilities and ensure familiarity with reporting protocols. Multiple channels are available for reporting, such as dedicated forms, direct communication with supervisors, and access to the Health and Safety Department. We also provide a safety observation tool for reporting unsafe conditions, near misses, or hazardous situations in real time. In the event of identifying a hazard, employees are encouraged to take immediate action to remove themselves from harm and inform their supervisors or follow established evacuation procedures.

d. Do the employees/ workers of the entity have access to non-occupational medical and healthcare services?

At CEL, we are committed to safeguarding the health and well-being of our employees by ensuring access to quality medical services, including annual health check-ups at both our Bharuch and Pune facilities. Our healthcare offerings include:

1. **Comprehensive Health Insurance:** All employees and their immediate family members are covered under a health insurance policy that provides financial assistance for medical expenses related to illnesses or injuries. This ensures timely access to essential healthcare services beyond occupational-related incidents.
2. **Accident Coverage:** We offer accident insurance to employees, providing financial protection in the event of disability or loss of life due to accidents. This support helps employees and their families manage unforeseen and challenging circumstances.
3. **On-site Medical Facilities:** Our Bharuch and Pune plants are equipped with medical dispensaries functioning as clinics and emergency first-aid centers. These facilities offer general medical consultations, preventive care, vaccinations, and treatment for common ailments. Additionally, they maintain arrangements with external specialists and hospitals for referrals and advanced medical care when required.

Furthermore, we have partnered with Mpower, a renowned organization, to combat mental health stigma by offering online sessions and resources. These sessions provide a safe, confidential space for employees to discuss and seek expert guidance.

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

11. Details of safety related incidents, in the following format:

Safety incident/number	Category	FY 2024-25	FY 2023-24
Lost Time Injury Frequency Rate (LTIFR) (per one-million-person hour worked)	Employees	0	0
	Workers	0.15	0.26
Total recordable work-related injuries	Employees	0	0
	Workers	8	26
No. of fatalities	Employees	0	0
	Workers	0	0
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	0	0

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

To ensure a safe and healthy workplace, our organization has established dedicated Safety Committees, an Occupational Health Committee, and a WASH Committee to oversee and promote workplace well-being. We have developed robust technical standards, SOPs, and manuals on Safety, Fire, and Occupational Health, which are also made available in the local language for better comprehension by all employees.

A structured approach to hazard identification and risk management is adopted using tools such as HIRA, HAZOP, and JSA. We actively promote the reporting of unsafe acts, unsafe conditions, and near-miss incidents to strengthen our safety culture and enable timely corrective actions.

Regular training sessions are conducted on Occupational Health, Safety, and Fire to build awareness and enhance competency across the workforce. Engineering controls and artificial intelligence-based solutions have been implemented to reinforce process safety and minimize human error.

Safety signage, including Life Saving Rules, is prominently displayed across the facility to serve as continuous reminders of safe practices. Emergency preparedness and response plans are well-defined and periodically reviewed through mock drills.

The involvement of employees at all levels in safety initiatives fosters a culture of shared responsibility. These collective measures contribute significantly to maintaining a safe, healthy, and compliant work environment.

Working conditions	100%. Internally assessed by the respective location's administration team.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/concerns arising from assessments of health & safety practices and working conditions.

We remain committed to ensuring a safe workplace environment, continuously mitigating safety risks and implementing effective corrective actions. Our approach includes safety surveys, workplace monitoring, and exposure assessments for noise, dust, fumes, and gases. In the current reporting period, we have reported 1 Lost Time Injuries. However, we have proactively addressed other safety incidents and risks through the following measures:

- We have established robust reporting processes encouraging employees to promptly report near-miss accidents, recordable incidents, and work-related illnesses, ensuring timely hazard identification and mitigation.
- Installation of a fall protection system to minimize fall-related incidents from heights.
- Conducting internal and external audits to assess safety-related data and practices, which are integral to our Occupational Health and Safety (OHS) management system to identify areas for improvement.

### PRINCIPLE 4: BUSINESSES SHOULD RESPECT THE INTERESTS OF AND BE RESPONSIVE TO ALL ITS STAKEHOLDERS.

Stakeholders are the cornerstone of CEL and are extremely valuable to us. We are committed to creating value for our stakeholders through innovation, increased efficiency, sustainable practices, and cost reduction. We regularly engage with all our stakeholders to understand their concerns and address them effectively, resulting in growth and strong relationships. Stakeholder engagement is significant for building trust and promoting reliability in business operations.

### ESSENTIAL INDICATORS

1. Describe the processes for identifying key stakeholder groups of the entity.  
Stakeholder engagement is vital to our Company and our value chain since it emphasizes the necessity of maintaining positive relationships with our stakeholders. Engagement with stakeholders allows us to better understand our stakeholders' requirements and expectations, which aids in the prioritization of business initiatives. We use a comprehensive strategy to identify and engage with our stakeholders based on the impact the business has on numerous environmental, economic, and social factors.

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

Our approach to stakeholder engagement involves identifying and prioritizing relevant stakeholders, determining the most efficient mode of engagement, collecting responses from key stakeholders and business leaders, analyzing feedback to identify sustainability topics relevant to the business, and prioritizing these topics to create a materiality matrix for business growth and stakeholder value creation.

**ESSENTIAL INDICATORS**

1. Provide the processes for consultation between stakeholders and the board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Surboard.

At CEL, we consider Stakeholder Engagement for value creation and stakeholder management. We ensure that consultations with stakeholders on various topics are assigned by the Board and governed in accordance with the Company's operating policies. Valuable feedback from these consultations is regularly communicated to the Board through board and committee meetings.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into the policies and activities of the entity.

Yes, stakeholder consultation is used to support the identification and management of environmental and social topics. We actively seek inputs from stakeholders on these issues and incorporate their suggestions into our policies and activities. Through these consultations, we reaffirm our ongoing priorities related to the identified material topics. The inputs received from stakeholders plays a crucial role in shaping our approach to environmental and social matters, ensuring alignment with stakeholder expectations, and enhancing the overall sustainability of our operations.

3. Provide details of instances of engagement with, and actions are taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

At CEL, we engage with our communities regularly as part of our Corporate Social Responsibility (CSR) activities which also include vulnerable or marginalized groups. The modes of engagement are Panchayat meetings, understanding problems with the village Sarpanch and even direct meetings in some instances. Input from attendees at these meetings is used to steer our resources and drive various programs to assist various areas of the community.

During the reporting year, CEL undertook a range of initiatives to strengthen educational and community infrastructure. Schools were enhanced with the addition of classrooms, clean drinking water facilities, benches, and other essential amenities to foster a conducive learning environment and promote quality education. Special efforts were directed toward empowering underprivileged girls and women by promoting self-reliance within their communities. This included initiatives to reduce school dropout rates among girls by providing basic educational supplies, conducting hygiene awareness campaigns, and distributing sanitary pads.

Furthermore, CEL played an active role in the holistic development of rural communities by improving access to essential services and upgrading local infrastructure. As part of its healthcare interventions, CEL supported the fight against tuberculosis in tribal areas through the distribution of nutrition kits to affected individuals. The company also contributed to water management efforts, significantly enhancing access to safe drinking water in surrounding regions.

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)****PRINCIPLE 5: BUSINESSES SHOULD RESPECT AND PROMOTE HUMAN RIGHTS.**

CEL is dedicated to leading with trust and dignity by improving the quality of life and upholding compliance with all relevant human rights regulations. Our Human Rights Policy emphasizes the importance of respecting and protecting the rights of our people while eliminating discrimination, harassment, and unethical practices.

Additionally, we have implemented a POSH (Prevention of Sexual Harassment) policy to effectively address issues of sexual harassment and ensure that all employees have access to a Grievance Redressal Mechanism when needed. Our Company's Code of Conduct sets clear guidelines for anti-corruption and anti-bribery, mandating adherence from all employees and senior management.

\*Note: The data for the current reporting period has been calculated based on the latest guidance provided under the Industry Standard Note issued by SEBI, which mandates the inclusion of both permanent and non-permanent employees and workers. In contrast, the data for the previous reporting period included only permanent employees and workers, as no detailed guidance was available at that time.

## 4. Do you have a focal point (individual/ committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Human Resource department addresses issues pertaining to human rights.

## 5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

We are committed towards the prompt redressal of grievances of stakeholders, aiming to minimize conflicts and enhance stakeholder relationships. We have a robust grievance redressal process in place which emphasizes integrity, accountability, fairness, transparency, equity, impartiality, and procedural accuracy. We also ensure that this mechanism is easily accessible to stakeholders and resolves issues through effective dialogue and discussion.

Furthermore, we have established a whistleblower system to enable employees to report potential human rights violations or misconduct. This system allows employees to confidentially raise concerns to management, providing an extra layer of transparency and accountability in our operations.

Complaints on POSH as a % of female employees / workers	0	2.6%
Complaints on POSH upheld	0	0

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

We are dedicated to fostering a workplace that is devoid of discrimination and harassment, ensuring a healthy and inclusive environment for all employees and workers, irrespective of caste, gender, religion, disabilities, or any other forms of discrimination. In accordance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition, and Redressal) Act, 2013, we have established a Prevention of Sexual Harassment (POSH) Policy aimed at effectively addressing grievances related to sexual harassment. The complainant can report incidents to the Internal Committee (IC), which then takes appropriate steps to provide redressal.

The Committee has implemented mechanisms to prevent adverse consequences for the complainant. These include interim relief, such as transferring the complainant to another job, providing additional leave beyond their entitlements, and preventing the respondent from evaluating their performance. If dissatisfied with the resolution of their complaint or the actions taken by the Unit IC or Business IC, the complainant can file an appeal before the appropriate court or tribunal.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes, human rights requirements form an essential part of our business agreements and contracts, as outlined in our [Human Rights Policy](#). The policy emphasizes on respecting human rights in the workforce, communities, and towards all those impacted by their operations and products. It also includes provisions for legal compliance, promoting awareness, engaging with stakeholders, valuing diversity, prohibiting child, and forced labor, and ensuring access to remedies for grievances related to human rights.

10. Assessments of the year

11. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 10 above.

There were no significant risks or concerns arising from the assessments stated in question 10 above. We follow all applicable regulations regarding human rights and have also formulated a Human Rights Policy outlining our commitment towards human rights. The policy is applicable to all employees and highlights our stance on zero-tolerance of any violations of human rights related aspects.

**LEADERSHIP INDICATORS**

1. Details of a business process being modified/introduced as a result of addressing human rights grievances/complaints.

We have a comprehensive human rights policy in place that complies with all mandated regulations related to human rights. Our policy ensures grievance redressal through mechanisms such as the Whistleblower and Prevention of Sexual Harassment (POSH) policies. The policy is aligned with key human rights principles.

Additionally, we have established a robust grievance redressal mechanism specifically tailored to address human rights impacts and violations, ensuring that any grievances or complaints related to human rights are promptly and effectively addressed.

2. Details of the scope and coverage of any human rights due diligence conducted

Human rights due diligence has not been conducted by CEL.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

## BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)

(Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken if any.

As per Bureau of Energy Efficiency (BEE) regulations, our Pune facility is recognized as a Designated Consumer (DC) under the Perform, Achieve, and

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

Trade (PAT) Scheme. We successfully met the targets under PAT Cycle-1 and received 1,395 Energy Saving Certificates (ESCerts). In PAT Cycle-2, a shortfall was reported due to formula-related inaccuracies. The issue has been escalated to BEE through an accredited consultant for review. Currently, PAT Cycle-3 assessment is in progress. Based on our internal analysis, we are confident of meeting the targets and expect to earn positive ESCerts.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2024-25	FY 2023-24
Water withdrawal by source (in kiloliters')		
(i) Surface water (in kiloliters')	0	0
(ii) Groundwater (in kiloliters')	3,36,972	3,97,000
(iii) Third-party water (municipal water supplies)	3,27,106	3,38,459
(iv) Seawater / desalinated water	0	0
(v) Others (Rainwater and Municipality water)	0	0
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	6,64,078	7,35,459
Total volume of water consumption (in kilolitres)	6,64,078	7,35,459
Water intensity per rupee of turnover (water consumed / turnover)	3.32	4.22
Water intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total water consumption / Revenue from operations adjusted for PPP)	68.54	96.48
Water intensity in terms of physical output (KL/MT)	8.28	10.64
Water intensity (optional) - the relevant metric may be selected by the entity		

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Limited Assurance on BRSR Core was carried out by M/s BDO India LLP

The Purchasing Power Parity (PPP) factor considered is 20.66 (PY 22.88) as per IMF as provided in the Industry Standards on reporting of BRSR Core released by SEBI.

4. Provide the following details related to water discharged:

Parameter	FY 2024-25	FY 2023-24
Water discharge by destination and level of treatment (in kiloliters).		
(i) To Surface water		
- No Treatment	NA	NA

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

We have implemented a robust Zero Liquid Discharge (ZLD) mechanism through the installation of Effluent Treatment Plants (ETPs) at both of our manufacturing facilities. These plants have a combined treatment capacity of 4042 m<sup>3</sup>/day and ensure 100% utilization of treated wastewater for internal processes and horticultural activities. To enhance water recovery and reuse, we have also commissioned a Reverse Osmosis (RO) plant, along with a Multi-Effect Evaporator (MEE) and Agitated Thin Film Dryer (ATFD), at our Bharuch facility. This integrated system enables advanced purification and facilitates the reuse of water within the plant operations. The ZLD infrastructure has been fully operational since the last reporting period, supporting our commitment to sustainable water management and regulatory compliance.

6. Please provide details of air emissions (other than GHG emissions) by the entity in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
NOx	MT	38.97	25.64
SOx	MT	36.12	29.26
Particulate matter (PM)	MT	23.05	26.52
Persistent organic pollutants (POP)	MT	NA	NA
Volatile organic compounds (VOC)	MT	NA	NA
Hazardous air pollutants (HAP)	MT	NA	NA
Others - Please specify.	MT	NA	NA

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) and its intensity in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 1 emissions (Break-up of the GHG into CO <sub>2</sub> , CH <sub>4</sub> , N <sub>2</sub> O, HFCs, PFCs, SF <sub>6</sub> , NF <sub>3</sub> if available)	Metric tonnes of CO <sub>2</sub> equivalent	20,342.84	13,948.98
Total Scope 2 emissions (Break-up of the GHG into CO <sub>2</sub> , CH <sub>4</sub> , N <sub>2</sub> O, HFCs, PFCs, SF <sub>6</sub> , NF <sub>3</sub> if available)	Metric tonnes of CO <sub>2</sub> equivalent	1,14,582.51	1,15,475.42
<b>Total Scope 1 and Scope 2 emissions per rupee of turnover</b> (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	(tCO <sub>2</sub> e/₹lacs)	0.67	0.74
<b>Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)</b> (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP)	(tCO <sub>2</sub> e/PPP in Lacs)	13.91	16.98
Total Scope 1 and Scope 2 emission intensity in terms of physical output	(tCO <sub>2</sub> e/MT)	1.68	1.87

Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Limited Assurance on BRSR Core was carried out by M/s BDO India LLP

The Purchasing Power Parity (PPP) factor considered is 20.66 (PY 22.88) as per IMF as provided in the Industry Standards on reporting of BRSR Core released by SEBI.

The increase in scope 1 emissions in FY 2024-25 compared to the previous fiscal year is due to a significant change in the emission factor for CH<sub>4</sub> for Biomass (considering only biogenic emissions), which has increased by 10 times ([https://ghgprotocol.org/sites/default/files/2024-05/Emission\\_Factors\\_for\\_Cross\\_Sector\\_Tools\\_V2.0\\_0.xlsx](https://ghgprotocol.org/sites/default/files/2024-05/Emission_Factors_for_Cross_Sector_Tools_V2.0_0.xlsx)).

8. Does the entity have any project related to reducing greenhouse gas emission? If yes, then provide details.

Yes, we have undertaken multiple initiatives to reduce greenhouse gas emissions and minimize environmental impact. These include the installation of in-house solar panels, procurement of hybrid power, and the utilization of biofuels for steam and heat generation, all aimed at promoting the use of clean and renewable energy sources.

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

9. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2024-25	FY 2023-24
Total waste generated (in metric tonnes)		
Plastic waste (A)	51.37	634.28
E-waste (B)	5.25	3.90

Other Hazardous waste. Please specify, if any. (G)	3,610.7	2,300.33
Other Non-hazardous waste generated (H). Please specify, if any.	6,395.94	5,856
Total (A+B + C + D + E + F + G + H)	10,696.41	10,981.11
Waste intensity per rupee of Turnover (Total waste generated /Revenue from operations)	0.05	0.06
Waste intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total waste generated / Revenue from operations adjusted for PPP)	1.10	1.44
Waste intensity in terms of physical output (MT/MT)	0.13	0.16
Waste intensity (optional) - the relevant metric may be selected by the entity.		

For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)

Category of waste	FY 2024-25	FY 2023-24
(i) Recycled	2,735.47	2,352.40
(ii) Re-used	0.00	0.00
(iii) Other recovery operations	0.00	0.00
<b>Total</b>	<b>2,735.47</b>	<b>2,352.40</b>

For each category of waste generated, total waste disposed of by nature of disposal method (in metric tonnes)

Category of waste	FY 2024-25	FY 2023-24
(i) Incineration	0.05	0.06
(ii) Landfilling	1,403.30	387.68
(iii) Other disposal operations	6,555.60	8,240.97
<b>Total</b>	<b>7,960.95</b>	<b>8,628.70</b>

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Limited Assurance on BRSR Core was carried out by M/s BDO India LLP.

The Purchasing Power Parity (PPP) factor considered is 20.66 (PY 22.88) as per IMF as provided in the Industry Standards on reporting of BRSR Core released by SEBI. The significant decrease in the quantity of plastic waste generated in FY 2024-25 as compared to previous fiscal year is due to reclassification into other hazardous waste. Drums and liners from the Bharuch plant were reclassified from plastic to hazardous waste due to mixed metal and plastic content. Segregation measures are being implemented and are on track for future compliance. Therefore, the quantity of other hazardous waste increased in FY 2024-25 compared to the previous fiscal year.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce the usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such waste.

We aim for sustainable operations by minimizing the amount of waste generated and maximizing its reuse and recycling. We follow the 3R approach to ensure effective waste management across operations. Some of the practices we follow include:

- Selling lube oil, and waste oil to recyclers, donating contaminated containers and liners to registered recyclers, sending Effluent Treatment Plant (ETP/WTP/insulation) waste to government-approved landfills, incinerating biomedical waste at a common facility,
- Selling electronic waste to government-registered recyclers, purchasing scrap batteries on a buy-back basis, depolymerizing chips, polymer lumps, and yarn waste for finished goods, and dumping waste to co-processing units.

## BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones, etc.) where environmental approvals/clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
--------	--------------------------------	--------------------	---

No, CEL does not have any offices and plants located in/around ecologically sensitive areas

12. Details of Environmental Impact Assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA notification no.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant web link
-----------------------------------	----------------------	------	---	--	-------------------

No environmental impact assessments of the projects were done during the current reporting period.

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (prevention and control of pollution) Act, Air (prevention and control of pollution) Act, Environment Protection Act, and rules there under (Y/N). If not, provide details of all such non-compliances, In the following format:

S.No	Specify the law/ regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines /penalties /action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken if any
------	--	---------------------------------------	---	--------------------------------

Yes, we affirm towards compliance with applicable environmental laws mandated by the government authorities and have not been subjected to any penalties or corrective actions from regulatory authorities.

## LEADERSHIP INDICATORS

1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):

For each facility / plant located in areas of water stress, provide the following information:

- (i) Name of the area: Not Applicable
- (ii) Nature of operations: Not Applicable
- (iii) Water withdrawal, consumption and discharge: Not Applicable

Parameter	FY 2024-25	FY 2023-24

2. Please provide details of total Scope 3 emissions & their intensity:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 3 emissions (Break-up of the GHG into CO <sub>2</sub> , CH <sub>4</sub> , N <sub>2</sub> O, HFCs, PFCs, SF <sub>6</sub> , NF <sub>3</sub> , if available)	Metric tonnes of CO <sub>2</sub> equivalent	3,85,228	NA
Total Scope 3 emissions per rupee of turnover	Metric tonnes of CO <sub>2</sub> equivalent	1.92	NA
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO <sub>2</sub> equivalent	NA	NA

3. With respect to the ecologically sensitive areas reported at Question 10 of essential indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along with prevention and remediation activities.

Not Applicable, we do not have any plants or offices in ecologically sensitive areas.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge/waste generated, please provide details of the same as well as the outcome of such initiatives:

S.No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Energy Reduction Initiatives	<ol style="list-style-type: none"> <li>Established an Energy Conservation Cell to set internal targets and monitor the performance of various projects.</li> <li>Adoption of renewable energy sources for heating, steaming and cooling processes.</li> <li>Steam consumption optimization.</li> <li>Fuel saving projects at Bharuch and Pune plants.</li> </ol>	<ul style="list-style-type: none"> <li>Energy consumption from renewable sources increased by 16.35% compared to the last reporting period.</li> <li>Investing in energy reduction initiatives, we were able to save 3,826 kWh/day of energy in the current reporting period.</li> <li>This translates to an annual energy saving of ₹162.8 lacs.</li> </ul>

All 28 borewells combined will be able to recharge groundwater by an impressive 3,62,880 cubic meters every year.</p>

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, we have an onsite emergency response plan in place that covers all natural and man-made disasters such as fires, explosions, hazardous chemical releases, and structural collapses. This thorough plan focuses on managing crises by assessing the likelihood of various situations. The plan aims to promptly control and minimize the impact of events, ensuring employee safety while also protecting assets and the environment. It involves outlining employees' roles and responsibilities during emergencies and emphasizes the safe recovery of affected areas and the restoration of normal operations, as well as ensuring employee safety before returning to work. By integrating business continuity and disaster management into our operations, we strive to promote resilience, adaptability, and sustained growth.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

We actively ensure that our suppliers and vendors comply with all relevant certifications such as ISO 14001 and other environmental requirements and we have not observed any significant environmental impacts arising from our value chain.

7. Percentage of value chain partners (by the value of business done with such partners) that were assessed for environmental impacts.

We currently do not have any system in place to assess our value chain partners for their environmental impacts.

8. How many Green Credits have been generated or procured:

- a. By the listed entity
- b. By the top ten (in terms of value of purchases and sales, respectively) value chain partners

During the reporting period, CEL did not generate or procure any Green Credits. Furthermore, we are in process of developing a framework to track data of green credits for our major value chain partners.

**PRINCIPLE 7: BUSINESSES, WHEN ENGAGING IN INFLUENCING PUBLIC AND REGULATORY POLICY, SHOULD DO SO IN A MANNER THAT IS RESPONSIBLE AND TRANSPARENT.**

CEL is an active member of multiple trade organizations, demonstrating our unwavering commitment to robust corporate governance and building lasting partnerships. Through collaboration with various industry associations, we showcase our sustainability achievements and work hand in hand with these associations to advocate for sustainable business practices.

**ESSENTIAL INDICATORS**

1. a. Number of affiliations with trade and industry chambers/ associations.  
The Company has 12 affiliations to industry chambers and associations.

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

- b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such a body) the entity is a member of/ affiliated to.

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	The Synthetic & Rayon Textiles Export Promotion Council	National
2	Association of Synthetic Fiber Industry (ASFI)	National
3	Indian Technical Textile Association (ITTA)	National
4	Mahratta Chamber of Commerce Industries and Agriculture, Pune (MCCIA)	State
5	Federation of Gujarat Industries	State
6	Jhagadia Industries Association	State
7	Nylon Spinners association	State
8	Gujarat Employers' Organization	State

10	Gujarat Safety Council	State

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.

Name of authority	Brief of the case	Corrective action taken
Not Applicable, as we do not have any adverse orders against issues related to anti-competitive conduct during the current financial year.		

**LEADERSHIP INDICATORS**

1. Details of public policy positions advocated by the entity:

S. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in the public domain? (Yes/No)	Frequency of review by board (Annually/ half yearly/ quarterly / others - please specify)	Web-link, if available
We have not advocated public policy positions in the current financial year.					

**PRINCIPLE 8: BUSINESSES SHOULD PROMOTE INCLUSIVE GROWTH AND EQUITABLE DEVELOPMENT.**

At CEL, we place great importance on cultivating long-term relationships built on trust and shared benefits. These relationships form the backbone of our engagements with stakeholders, and we are dedicated to assessing the impact of our initiatives on them and their life.

Through our CSR Policy, we are committed to creating value for our communities, who are our vital stakeholders. We consistently strive to enhance society through initiatives encompassing healthcare, education, infrastructure, quality of life, and environmental protection, in collaboration with charitable organizations, NGOs, and local authorities.

Our relentless dedication to positively impact our communities for the betterment of society and the environment is critical to our CSR efforts. We believe that regular engagement and value creation for the communities is essential for ensuring sustained growth and strong stakeholder relationships.

**ESSENTIAL INDICATORS**

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

Name and brief details of project	SIA notification No.	Date of notification	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain. (Yes/No)	Relevant web link
We have not conducted any Social Impact Assessments projects in the current financial year.					

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

2. Provide information on the project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity:

S No.	Name of project for which R&R is ongoing	State	District	No. of project affected families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In ₹)
NA, there is no ongoing project undertaken by the Company for which R&R is to be provided.						

3. Describe the mechanisms to receive and redress grievances of the community.

At CEL, the grievances from communities are communicated through face-to-face meetings, which are then analyzed to identify key focus areas based on the recommendations received by nearby Panchayat and Trusts. Additionally, we also have a grievance redressal mechanism that covers all our stakeholders including communities covered in the areas we operate.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2024-25	FY 2023-24
Directly sourced from MSMEs/ small producers	7.42%	6.83%
Directly from within India	48.35%	42.84%

5. Job creation in smaller towns - Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost

Location	FY 2024-25	FY 2023-24
Rural	46.32%	49.65%
Semi-Urban	-	-
Urban	53.68%	50.35%
Metropolitan	-	-

**LEADERSHIP INDICATORS**

1. Provide details of actions taken to mitigate any negative social impacts identified in the social impact assessments (Reference: Question 1 of essential indicators above):

Details of negative social impact identified	Corrective action taken
We have not conducted any Social Impact Assessments projects in the current financial year	

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational district	Amount spent (In ₹)
1	Gujarat	Narmada	20.64 Lacs

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized/vulnerable groups?

No, we do not have a preferential procurement policy in place. However, we do purchase raw materials from MSMEs and small producers.

(b) From which marginalized/vulnerable groups do you procure?

We source raw materials from MSMEs and small producers.

(c) What percentage of total procurement (by value) does it constitute?

NA

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by the entity (in the current financial year), based on traditional knowledge:

S.No.	Intellectual property based on traditional knowledge	Owned/acquired (Yes/No)	Benefit shared (Yes/No)	Basis of calculating benefit share
We have not acquired intellectual properties in the current financial year				

**BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT (Contd.)**

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property-related disputes wherein usage of traditional knowledge is involved.

Name of the authority	Brief the Case	Corrective action taken
NA	NA	NA

6. Details of beneficiaries of CSR projects:

S.No	CSR project	No. of persons benefited from CSR projects	% of beneficiaries from vulnerable and marginalized groups
1.	Poshanvahini Project for strengthening Anganwadi center	2,639	Most of the CSR activities and projects undertaken by us are specifically targeted towards benefiting vulnerable and marginalized groups in society. However, presently it is challenging to provide an accurate percentage of beneficiaries from these groups.
2.	Shikshasathi Project	2,100	
3.	Kanya Kenavani & Praveshutsav	1,260	
4.	Eye Checkup Camps	1,102	
5.	Women Health Checkup camps	1,800	
6.	Nutrition support for fighting T.B.	2,425	
7.	Construction of water tank in school	450	
8.	Infrastructure support for Prisoner Rehabilitation	1,500	
9.	Constructon of Road in village	2,400	
10.	Public Toilet construction in village	2,500	

**PRINCIPLE 9: BUSINESSES SHOULD ENGAGE WITH AND PROVIDE VALUE TO THEIR CONSUMERS IN A RESPONSIBLE MANNER.**

At CEL, we prioritize building strong relationships with our consumers and customers to drive increased revenue, growth, and profitability. Our commitment is to consistently deliver the highest quality products and create positive value for our consumers.

We have established a centralized grievance redressal mechanism to ensure that our consumers can easily reach out to us in case of any issues regarding our products. Additionally, we regularly conduct customer satisfaction surveys to gather constructive feedback on product quality and pricing. By actively seeking and addressing feedback, we aim to attract new customers through a positive word of mouth.

**ESSENTIAL INDICATORS**

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

We ensure that all consumer complaints and feedback are promptly acknowledged by our Technical Marketing team and forwarded to the relevant departments for thorough investigation. Our responses to these issues are tailored to meet the specific requirements and expectations of our customers.

2. Turnover of products and/or services as a percentage of turnover from all products/services that carry information about:

	As a % to total turnover
Environmental and social parameters relevant to the product	0%
Safe and responsible usage	
Recycling and/or safe disposal	

3. Number of consumer complaints in respect of the following:

	FY 2024-25			FY 2023-24		
	Receive during the year	Pending resolution at end of year	Remarks	Received during the year	Pending resolution at end of year	Remarks
Data privacy	No complaints received during the year.			No complaints received during the year.

4. Details of instances of product recalls on account of safety issues.

Number	Reason for Recall
Voluntary recalls	NIL
Forced recalls	

5. Does the entity have a framework/policy on cyber security and risks related to data privacy? If available, provide a web link to the policy.

Yes, we have a policy on cyber security and risks related to data privacy, available at <https://www.centuryenka.com/privacy-policy.html>

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty/action taken by regulatory authorities on the safety of products/ services.

Not Applicable, as there were no complaints received for mentioned topics during the current reporting period.

7. Provide the following information relating to data breaches:

- Number of instances of data breaches  
No instances received during the current financial year.
- Percentage of data breaches involving personally identifiable information of customers  
NA
- Impact, if any, of the data breaches

# INDEPENDENT ASSURANCE STATEMENT

To,  
Century Enka Limited  
Plot No. 72 & 72-A, MIDC Bhosari,  
Pune, Maharashtra, 411026

Independent Assurance Statement to Century Enka Limited on select non-financial disclosures in the Business Responsibility and Sustainability Report (BRSR) for the financial year 2024-25.

## Introduction and objective of engagement

Century Enka Limited ('the Company') has developed its Business Responsibility and Sustainability Report (BRSR) (the 'Report') including the BRSR Core Indicators, based on the reporting guidelines prescribed by SEBI for listed entities. The reporting criteria have been derived from the Principles of National Guidelines on Responsible Business Conduct, 2018 (NGRBC), and Greenhouse Gas (GHG) Protocol - A Corporate Accounting and Reporting Standard. The BRSR would form part of the Integrated Annual Report (FY 2024-25) of the Company.

BDO India LLP (BDO) was engaged by the Company to provide independent limited assurance on BRSR Core indicators in the Report for the financial year 2024-25.

## The Company's responsibilities

The Report (BRSR FY 2024-25) content and its presentation are the sole responsibilities of the management of the Company. The Company management is also responsible for the design, implementation, and maintenance of internal controls relevant to the preparation of the Report, so that it is free from material misstatement, whether due to fraud or error.

## BDO's responsibilities

BDO India LLP responsibility, as agreed with the management of the Company, is to provide assurance on the Report content as described in the 'Scope & boundary of Assurance' section below. We do not accept or assume any responsibility for any other purpose or to any other person or organisation. Any reliance a third party may place on the Report is entirely at its own risk.

## Assurance standard

We conducted our assurance engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" and ISAE 3410, "Assurance Engagements on Greenhouse Gas Statement" issued by the International Auditing and Standards Board. We applied the criteria of 'Limited' assurance.

## Scope & boundary of assurance

We have assured non-financial information of the BRSR Core indicators<sup>1</sup> in the Report, pertaining to the Company's performance for the period 1<sup>st</sup> April 2024 through 31<sup>st</sup> March 2025.

The reporting scope and boundary cover the Company's operations.

<sup>1</sup> SEBI vide SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122 dated 12 July 2023

Verification of non-financial sustainability performance data, based on our professional judgment was conducted at the following sites, on a sample basis:

- Corporate Office, Pune
- Century Enka, Pune
- Century Enka, Bharuch

## Assurance methodology

Our assurance process entails conducting procedures to gather evidence regarding the reliability of the disclosures covered in the assurance scope. We conducted a review and verification of data collection, collation, and calculation methodologies, and a general review of the logic of inclusion/ omission of relevant information/ data in the Report. Our review process included:

- Evaluation and assessment the appropriateness of the quantification methods used to arrive at the non-financial sustainability information of the BRSR Core indicators in the Report;
- Review of consistency of data/information within the Report as well as between the Report and source;
- Engagement through discussions with personnel at the corporate level who are accountable for the data and information presented in the Report;
- Execution of an audit trail of claims and data streams, to determine the level of accuracy in collection, transcription, and aggregation;
- Review of data collection and management procedures, and related internal controls.

We used our professional judgement as Assurance Provider and applied appropriate risk-based approach, for determining sample for review of non-financial information for verification. The reviews was conducted via plant visits and thereafter in virtual mode.

## Limitations and exclusions:

There are inherent limitations in an assurance engagement, including, for example, the use of judgement and selective testing of data. Accordingly, there are possibilities that material misstatements in the Report may remain undetected.

## The assurance scope excludes:

- Data and information outside the defined reporting period (1<sup>st</sup> April 2024 to 31<sup>st</sup> March 2025)
- Review of the 'economic and/or financial performance indicators' included in the Report or on which reporting is based; we have been informed by the Company that these are derived from the Company's audited financial records;
- The Company's statements and claims related to any topic other than those listed in the 'Scope & boundary of assurance';
- The Company's statements that describe qualitative/quantitative assertions, expression of opinion, belief, inference, aspiration/targets, expectation, aim or future intention.

## INDEPENDENT ASSURANCE STATEMENT (Contd.)

### Our observations

We have reviewed the disclosures in the "Report" for the reporting period from 1<sup>st</sup> April 2024 to 31<sup>st</sup> March 2025. The disclosures of the Company, covered under the "scope and boundary of assurance", are fairly reliable.

### Our conclusions

Based on the procedures performed and evidence obtained as defined under the 'Scope & boundary of assurance', nothing has come to our attention that causes us not to believe that the disclosures of the Company are presented fairly in accordance with the relevant reporting guidelines/standards.

### Our assurance team and independence

BDO India LLP is a professional services firm providing services in Advisory, Assurance, Tax, and Business Advisory Services, to both domestic and international organizations across industry sectors. Our non-financial assurance practitioners for this engagement are drawn from a dedicated Sustainability and ESG Team in the organization.

This team is comprised of multidisciplinary professionals, with expertise across the domains of sustainability, global sustainability reporting standards and principles, and related assurance standards. This team has extensive experience in conducting independent assurance of sustainability data, systems, and processes across sectors and geographies. As an assurance provider, BDO India LLP is required to comply with the independence requirements set out in the International Federation of Accountants (IFAC) Code of Ethics for Professional Accountants. Our independence policies and procedures ensure compliance with the Code.

## REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

### OPINION

1. We have audited the accompanying Standalone Financial Statements of Century Enka Limited ('the Company'), which comprise the Standalone Balance Sheet as at 31 March 2025, and the Standalone Statement of Profit And Loss (including Other Comprehensive Income), Standalone Statement of Changes in Equity and Standalone Statement of Cash Flows for the year ended on that date, and notes to the Standalone Financial Statements, including a summary of material accounting policy information and other explanatory information ('the Standalone Financial Statements').
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ('Ind AS') and other accounting principles generally accepted in India, of the State of Affairs of the Company as at 31 March 2025, and its Profit and Other Comprehensive Income, Changes in Equity and its Cash Flows for the year ended on that date.

### BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing ('SAs') specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act,

and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

### EMPHASIS OF MATTER

4. We draw attention to the fact that Note 45(b) of the Standalone Financial Statements wherein it is stated that, the Excise department had issued an order dated 31 December 2013 denying the applicability of Notification No. 6/2000 dated 01 March 2000 and raised a demand of Rs.22,927 lacs plus interest thereon and penalty equivalent to duty demand amount. In this matter, CESTAT in its order dated 20 December 2019, upheld the denial of aforesaid notification and remanded back the matter to Central Excise Department to redetermine quantum of duty short paid, imposition of equal amount of penalty on redetermined amount of duty demand and applicable interest. The Commissioner, CGST & Central Excise, Raigad Commissionerate has re-determined assessable value pursuant to order of CESTAT and confirmed the demand amounting to Rs.730 lacs (as against above demand of Rs.22,927 lacs), interest at appropriate rate on the duty and equal amount of penalty vide its order dated 08 September 2020. Against the said order of the Commissioner, CGST & Central Excise, Raigad, Department has filed an appeal before the Appellate Tribunal. The Company's appeal in the matter is pending before the Honourable Supreme Court of India. The Company has deposited the amount of duty of Rs.730 Lacs under protest. Based on expert legal advice and merits of the case, no provision has been considered necessary by the Company. Our opinion on the Standalone Financial Statements is not modified in respect of the above matter.

### KEY AUDIT MATTERS

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current year. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How the matter was addressed in our audit
<b>Inventory Valuation</b> <ul style="list-style-type: none"> <li>The Company has significant balances of inventory as on 31 March 2025 (refer note 9 to the Standalone Financial Statements)</li> <li>Inventories are valued at lower of cost or net realizable value (NRV). Cost is determined using weighted average cost method</li> <li>Valuation of inventories can be subjective due to inherent uncertainty due to volatility in prices of raw material and volatility in prices of finished goods due to changes in consumer demands</li> </ul>	<b>Our procedures included:</b> <ul style="list-style-type: none"> <li>Obtaining understanding of production process and testing of key controls over recognition and measurement of inventory</li> <li>For sample locations, conducted physical verification of inventories at the year end</li> <li>For sample of inventory items, re-performed the weighted average cost calculation</li> </ul>

<ul style="list-style-type: none"> <li>• Determination of whether inventory will be realized for value less than cost requires management to exercise judgement and apply assumption</li> <li>• Because of size, inherent uncertainty in volatility in prices of raw material, assumption and complexities involved in inventory valuation, this is considered key audit matter</li> </ul>	<ul style="list-style-type: none"> <li>• Obtaining management’s calculation and relevant supporting for inventory valuation, validated mathematical accuracy of production costs and agreed the same with financial statements</li> <li>• Assessing reasonableness of assumption and judgements applied by management in inventory valuation including evaluating consistencies with management’s prior period estimations</li> <li>• Assessing appropriateness of NRV estimated by management, on sample basis, by comparing NRV to recent market prices</li> <li>• Obtaining and re-performing the calculation of inventory write down based on ageing and NRV of inventory</li> </ul> <p>Comparing historical trend of prices of raw material and finished goods to determine appropriateness of valuation of inventory.</p>

### OTHER INFORMATION

6. The Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the Company’s annual report but does not include the Standalone Financial Statements and our auditors’ report thereon. The Other Information is expected to be made available to us after the date of this auditor’s report.
7. Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
8. In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.
9. When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

### RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

10. The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the State of Affairs, profit and Other Comprehensive Income, Changes in Equity and Cash Flows of the Company in) conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing

and detecting frauds and other irregularities; selection of the appropriate accounting software for ensuring compliance with applicable laws and regulations including those related to retention of audit logs; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

11. In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
12. The Board of Directors are also responsible for overseeing the Company’s financial reporting process.

### AUDITOR’S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

13. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.
14. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - 14.1. Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error,

design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 14.2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- 14.3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- 14.4. Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 14.5. Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
15. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
16. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
17. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

18. As required by the Companies (Auditor's Report) Order, 2020 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
19. As required by Section 143(3) of the Act, we report that:
  - 19.1 We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - 19.2 In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in paragraph 20.8 below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
  - 19.3 The standalone balance sheet, the standalone statement of profit and loss including Other Comprehensive Income, the Statement of Changes in Equity and the Standalone Cash Flow Statement dealt with by this Report are in agreement with the books of account.
  - 19.4 In our opinion, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act read with the relevant rules thereunder.
  - 19.5 On the basis of the written representations received from the directors as on 31 March 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
  - 19.6 The modification relating to the maintenance of books of accounts and other matters connected therewith are as stated in the paragraph 19.2 above on reporting under Section 143(3)(b) and paragraph 20.8 below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
  - 19.7 With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B'.
  - 19.8 In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act.
20. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
  - 20.1 The Company has disclosed the impact of pending litigations as at 31 March 2025 on its financial position in its Standalone Financial Statements - Refer Note 45(d) to the Standalone Financial Statements;

- 20.2 The Company has made provision, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 45(c) to the Standalone Financial Statements;
- 20.3 There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- 20.4 The Management has represented, to best of their knowledge and belief as disclosed in Note 44(b) to the Standalone Financial Statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ('Intermediaries'), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- 20.5 The Management has represented, to best of their knowledge and belief as disclosed in Note 44(h) to the Standalone Financial Statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ('Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- 20.6 Based on such audit procedures, that have been considered reasonable and appropriate in the circumstances, performed by us, nothing has come to our notice that has caused us to believe

that the representation under para 20.4 and 20.5 contain any material misstatement.

- 20.7 In our opinion and according to the information and explanations given to us, the dividend declared and / or paid during the year by the Company is in compliance with Section 123 of the Act.
- 20.8 Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the audit trail feature has operated throughout the year for all relevant transactions recorded in the respective software, except for two of the accounting softwares, the feature of audit trail (edit log facility) was not enabled at the database level to log any direct data changes upto July 1, 2024 for one of the system and July 3, 2024 for the other system.

Further, where audit trail (edit log) facility was enabled and operated throughout the year, we confirm that it did not come across any instance of audit trail feature being tampered with. Additionally, other than for the softwares where audit trail was not enabled at the database layer in the previous year and upto the date mentioned in the current year, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

# ANNEXURE '[B]' TO THE INDEPENDENT AUDITORS' REPORT

on the Standalone Financial Statements of Century Enka Limited for the year ended 31<sup>st</sup> March 2025

(Referred to in paragraph '19.7' under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to the aforesaid Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act').

## OPINION

1. We have audited the internal financial controls with reference to the Standalone Financial Statements of Century Enka Limited ('the Company') as at 31 March 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.
2. In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to the Standalone Financial Statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal controls over financial reporting criteria established by the Company / Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('the Guidance Note').

## MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

3. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

## AUDITOR'S RESPONSIBILITY

4. Our responsibility is to express an opinion on the Company's internal financial controls with reference to the Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ('SA'), prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Standalone Financial Statements. Those SAs and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Standalone Financial Statements were established and maintained and whether such controls operated effectively in all material respects.
5. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to the Standalone Financial Statements, assessing the risk that a material weakness exists, and testing

and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

6. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the Standalone Financial Statements.

## MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE STANDALONE FINANCIAL STATEMENTS

7. A company's internal financial controls with reference to the Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Standalone Financial Statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

## INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE STANDALONE FINANCIAL STATEMENTS

8. Because of the inherent limitations of internal financial controls with reference to the Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the Standalone Financial Statements to future periods are subject to the risk that the internal financial controls with reference to the Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## TO THE STANDALONE FINANCIAL STATEMENTS

### 1. COMPANY OVERVIEW

Century Enka Limited (“the Company”) is a Public Limited Company incorporated in India having its registered office at Pune, Maharashtra, India. The Company is engaged in the manufacturing and selling of ‘Synthetic Yarn’ and related products.

### 2. MATERIAL ACCOUNTING POLICIES

#### (a) Statement of Compliance

These Standalone financial statements (hereinafter referred to as “financial statements”) are prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) prescribed under section 133 of the Companies Act, 2013 (“the Act”) read with Companies (Indian Accounting Standards) Rules as amended from time to time and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI), as applicable.

The financial statements are authorized for issue by the Board of Directors of the Company at their meeting held on 6th May, 2025.

#### (b) Basis of Preparation and Presentation:

##### Basis of Preparation

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- (i) Derivative Financial Instruments measured at fair value
- (i) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- (ii) Employee’s Defined Benefit Plan as per actuarial valuation
- (iii) Assets held for sale measured at lower of carrying value and fair value less costs to sell.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

##### Functional and Presentation Currency

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

### Classification of Assets and Liabilities into Current/ Non-Current

The Company has ascertained its operating cycle as twelve months for the purpose of Current / Non-Current classification of its Assets and Liabilities.

For the purpose of Balance Sheet, an asset is classified as current if:

- (i) It is expected to be realized, or is intended to be sold or consumed, in the normal operating cycle; or
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is expected to realize the asset within twelve months after the reporting period; or
- (iv) The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- (i) It is expected to be settled in the normal operating cycle; or
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

#### (c) Property, Plant and Equipment (PPE):

The cost of an item of PPE is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

The PPE are stated at cost less accumulated depreciation and accumulated impairment loss.

The initial cost of PPE comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use, including relevant borrowing costs and any expected costs of decommissioning. Subsequent costs incurred are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

reliably. All other repairs and maintenance cost are charged to the Statement of Profit and Loss during the period in which they were incurred.

Any gain or loss on disposal of an item of PPE is recognized in statement of Profit and Loss.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16 - Property, Plant and Equipment.

PPE except freehold land are stated at their cost of acquisition/installation or construction net of accumulated depreciation, and impairment losses, if any. Freehold land is stated at cost less impairment losses, if any.

### (d) Expenditure during construction period:

Expenditure/ Income during construction period (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) is included under Capital Work-in-Progress, and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE

Such classes of assets and their estimated useful lives are as under:

No	Nature	Useful life
1	Leasehold Assets - Plant & Machinery	Upto 25 years
2	Leasehold Assets - Other than Plant & Machinery	Lease Period
3	Stores and Spares Parts in the nature of PPE	5 to 25 Years
4	Motor Cars given to the employees as per the Company's Scheme	4 years
5	Assets individually costing less than or equal to ₹ 5,000	Fully Depreciated in the year of purchase

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production. Depreciation on deductions/disposals is provided on a pro-rata basis up to the month of deduction/disposal.

Residual value for Air Conditioners, Furniture and Fittings, Office Equipment's, Computers and servers is considered Nil.

### (f) Intangible Assets and Amortization:

#### ▪ Internally generated Intangible Assets:

Expenditure pertaining to research is expensed as incurred. Expenditure incurred on development is capitalized if such expenditure leads to creation of an asset, otherwise such expenditure is charged to the Statement of Profit and Loss.

outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets".

### (e) Depreciation:

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a straight-line basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment. Freehold land with indefinite life is not depreciated.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company, or the number of production or similar units expected to be obtained from the asset by the Company.

In case of certain classes of PPE, the Company uses different useful lives than those prescribed in Schedule II to the Act. The useful lives have been assessed based on technical advice, taking into account the nature of the PPE and the estimated usage of the asset on the basis of management's best estimation of obtaining economic benefits from those classes of assets. The estimated useful lives, residual values and the depreciation method are reviewed at the end of each reporting period and the effect of any changes in the estimates are accounted for on a prospective basis.

#### ▪ Intangible Assets acquired separately:

Intangible assets that are acquired separately are carried at cost less accumulated amortization and accumulated impairment, if any. Cost comprises the purchase price (net of tax / duty credits availed wherever applicable) and any directly attributable cost of bringing the assets to its working condition for its intended use. The Company determines the amortization period as the period over which the future economic benefits will flow to the Company after taking into account all relevant facts and circumstances. The estimated useful life and amortization method are reviewed periodically, with the effect of any changes in estimate being accounted for on a prospective basis.

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

- **Class of intangible assets and their estimated useful lives are as under:**

No	Nature	Useful life
1	Software	6 Years

Residual value for the intangible assets is considered as Nil. An intangible asset is derecognized on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an item of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of such item of intangible asset and are recognized in the statement of profit & loss when the asset is derecognized.

**(g) Impairment of Non-Financial Assets:**

At the end of each reporting period, the Company reviews the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

**(h) Financial Instruments:**

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

**Initial Recognition:**

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in Statement of Profit and Loss.

**Classification and Subsequent Measurement: Financial Assets**

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

**Amortized Cost:**

A financial asset shall be classified and measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

In case of financial assets at amortized costs, interest income, foreign exchange gain or loss and impairment are recognized in Statement of Profit and Loss.

### Fair Value through OCI:

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Where the Company has elected to present the fair value gain on equity instruments in other comprehensive income, there is no subsequent classification of fair value gain or losses to profit and loss account. Dividend from such instruments is recognized in profit and loss account as other income where right to receive is established.

### Fair Value through Profit or Loss:

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through OCI.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

### Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

### Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL:

Gains or Losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

### Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

### Impairment of financial assets:

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss

allowance. The Company recognizes a loss allowance for expected credit losses on financial asset. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time credit expected losses. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience and other credit information available.

### Derecognition of financial assets:

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes associated liabilities.

On derecognition of a financial asset, other than equity investments classified as FVOCI, in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On derecognition of equity instruments classified as FVOCI, accumulated gains or loss recognized in OCI is transferred to retained earnings.

### (i) Financial liabilities and equity instruments:

#### ▪ Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### ▪ Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognized at the proceeds received.

### (j) Derecognition of Financial Liabilities:

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

The Company de-recognizes financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability de-recognized and the consideration paid and payable is recognized in the statement of profit and loss.

### (k) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

### (l) Inventories:

Inventories are valued as follows:

- **Raw materials, Fuel, Store & Spare Parts and Packing materials**

Raw materials are valued at lower of cost and net realizable value (NRV). However, these items are considered to be realizable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Fuel, Stores & Spare parts and Packing materials are valued at cost. Cost is determined on weighted average basis. The cost of inventory comprises its purchase price, including non-refundable purchase taxes, and any directly attributable costs related to the inventories.

- **Work-in-progress (WIP), finished goods, stock-in-trade and trial run inventories:**

Valued at lower of cost and NRV. Cost of Finished goods and WIP includes cost of raw materials, direct labour, other direct costs and related production overheads upto the relevant stage of completion. Cost of inventories is computed on weighted average basis.

- **Waste / Scrap:**

Waste / Scrap and Byproduct inventory is valued at NRV.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

### (m) Cash and cash equivalents:

Cash and cash equivalents in the Balance Sheet comprise cash at bank, cheques and cash in hand and short-term deposits with banks that are readily convertible into cash which are subject to insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

### (n) Assets held for Sale:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable. They are measured at the lower of its carrying amount and fair value less costs to sell.

An impairment loss is recognized for any initial or subsequent write-down of the assets to fair value less cost to sell. A gain is recognized for any subsequent increases in fair value less cost to sell of an asset, but not in excess of any cumulative impairment loss previously recognized.

No depreciation or amortization is charged for assets classified as held for sale.

### (o) Borrowing Costs:

General and specific borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of such asset till such time the asset is ready for its intended use and borrowing costs are being incurred. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred.

Borrowing cost includes interest expense, loan processing charges, amortization of discounts, hedge related cost incurred in connection with foreign currency borrowings, ancillary costs incurred in connection with borrowing of funds and exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to the Interest cost.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

### (p) Government Grants and Subsidies:

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants, related to assets, are recognized in the Statement of Profit and Loss on a systematic basis over the expected useful life of the related assets.

### (q) Leases:

#### Company as a Lessee

The company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred. The right-of-use asset is depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the company uses incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The Company elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases') and lease contracts for which the underlying asset is of low value (low-value assets)

### Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term.

#### (r) Derivative financial instruments:

The Company enters into derivative financial instruments viz. foreign exchange forward contracts to manage foreign exchange risks. The Company does not hold derivative financial instruments for speculative purposes.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in statement of profit and loss immediately excluding derivatives designated as cashflow hedge.

#### (s) Hedge accounting:

The Company designates certain hedging instruments

in respect of foreign currency risk, interest rate risk and commodity price risk as cash flow hedges. At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

The effective portion of changes in the fair value of the designated portion of derivatives that qualify as cash flow hedges is recognized in OCI and accumulated under equity. The gain or loss relating to the ineffective portion is recognized immediately in the statement of profit and loss.

Amounts previously recognized in OCI and accumulated in equity relating to effective portion as described above are reclassified to Statement of Profit and Loss in the periods when the hedged item affects the Statement of Profit or Loss, in the same line as the recognized hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognized in OCI and accumulated in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognized the Statement of Profit and Loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in the Statement of Profit and Loss.

#### (t) Revenue Recognition:

##### Sale of goods:

The company derives revenue primarily from manufacturing and selling of Synthetic Yarn and related goods.

Revenue on sales of goods are recognized when the customer obtains control of the specified goods which is generally on dispatch/delivery of goods.

To recognize revenues, company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price (net of variable consideration), (4) allocate the transaction price (net of variable consideration) to the performance obligations

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

in the contract, and (5) recognize revenues when a performance obligation is satisfied.

The Company accounts for variable considerations like, volume discounts, rebates and pricing incentives to customers as reduction of revenue on a systematic and rational basis over the period of the contract. Revenues are shown net of goods and services tax and applicable discounts and allowances.

The Company does not expect to have any contracts where the period between the transfer of goods and payment by customer exceeds one year. Hence, the Company does not adjust revenue for the time value of money.

Government grants in the nature of export incentives are accounted for in the period of export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are reasonably expected to be fulfilled.

### Other Income:

- Dividend Income is accounted for when the right to receive the income is established.
- Interest income is recognized on time proportion basis taking into account the amount outstanding on effective interest rate.
- Difference between the sale price and carrying value of investment is recognized in statement of profit or loss on sale / redemption on investment on trade date of transaction.

### (u) Employee benefits:

#### Gratuity:

Gratuity being defined benefit plan, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognized in Other Comprehensive Income (OCI) in the period in which they occur. Re-measurement recognized in OCI is reflected immediately in retained earnings and will not be reclassified to Statement of Profit and Loss. Past service cost is recognized in the Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. The costs are categorized as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);

- net interest expense or income; and
- re-measurement

The present value of the gratuity liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The defined benefit obligation recognized in the Balance Sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

#### Superannuation:

The company has Defined Contribution Plan for Post-Employment benefits in the form of Superannuation schemes for eligible employees. The scheme is administered through Life Insurance Corporation (LIC) and Trust which is administered by the Trustees. In respect of this scheme, the Company has no further obligation beyond its contributions.

#### Employee's Family Pension

The Company has Defined Contribution Plan for Post-Employment benefits in the form of family pension for eligible employees, which is administered by the Regional Provident Fund Commissioner. Company has no further obligation beyond its contributions.

#### Provident Fund

Contribution towards provident fund for certain employees is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Scheme as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

In respect of certain employees, Provident Fund contributions are made to the Trust set up and administered by the Company. If the board of trustees are unable to pay interest at the rate declared by the government under Para 60 of the Employees provident fund scheme, 1972 for the reason that the return on investment is less or for any other reason, then the deficiency shall be made good by the Company making interest shortfall a defined benefit plan. Accordingly, the Company obtains actuarial valuation and having regard to the assets of the fund and the return on investments, the Company does not expect any deficiency as at the year end. If there is a deficiency as at any Balance Sheet date, then, the same will be recognized in the Statement of Profit and Loss in the year in which it arises.

#### Other Short-term and other long-term employee benefits

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

Liabilities for wages, salaries and bonus (as per the payment of bonus Act, 1965) including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees and workmen render the related service are recognized in respect of employee's services up to the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled.

### Compensated Absences

The Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long-term employee benefits. The company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the Statement of Profit and Loss in the year in which they arise.

### (v) Foreign Currency transactions:

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency (i.e. foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of initial transactions.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

### (w) Income Taxes:

Income Tax expenses comprise current tax and deferred tax charge or credit.

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance

with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws.

Deferred tax is provided, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Tax relating to items recognized directly in equity or OCI is recognized in equity or OCI and not in the Statement Profit and Loss.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off recognized amount and there is intention to settle the assets and liabilities on net basis.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

### (x) Earnings Per Share:

The basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit / (loss) after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

### (y) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognized.

### (z) Investment in Associates

The Company's investment in its associates are carried at cost net of accumulated impairment loss, if any.

On disposal of the Investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the statement of Profit and Loss.

Note 2(A) Critical accounting judgments and key sources of estimation uncertainty:

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

#### Key assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### (i) Useful Lives of Property, Plant & Equipment and Intangible Assets:

The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unamortized depreciable amount is charged over the remaining useful life of the assets.

#### (ii) Fair value measurement of financial instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

#### (iii) Defined benefit plans:

The cost of the defined benefit plans gratuity and provident fund, and the present value of the gratuity and provident fund obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### (iv) Recognition and measurement of deferred tax assets and liabilities:

Deferred tax assets and liabilities are recognized for deductible temporary differences for which there is probability of utilization against the future taxable profit. The Company uses judgement to determine the amount of deferred tax liability / asset that can be recognized, based upon the likely timing and the level of future taxable profits and business developments.

#### (v) Income Taxes:

The Company calculates income tax expense based on reported income and estimated exemptions / deduction likely available to the Company. The Company has applied the lower income tax rates on income tax expenses and the deferred tax assets / liabilities.

#### (vi) Asset held for sale:

The company has used certain judgements and estimates to determine fair value of asset held for sale. Fair value has determined on basis of independent external valuation and quotes from dealer of similar assets.

#### (vii) Inventory:

Valuation of Inventory involves a level of subjectivity due to inherent uncertainties such as volatility in raw material prices and fluctuations in the prices of finished goods driven by changes in consumer demand. Given the size of the inventory balance, the complexities involved, and the need for judgment in applying assumptions related to cost and net realizable value, we recognise that inventory valuation requires careful consideration and is a significant area of accounting focus for the company.

## TO THE STANDALONE FINANCIAL STATEMENTS

### 36. FINANCIAL RISK MANAGEMENT OBJECTIVES (IND AS 107):

The Company's principal financial liabilities, other than derivatives, comprises of borrowings, lease, trade and other payables. The main purpose of these financial liabilities is to finance the company's operations. The company's principal financial assets, other than derivatives include trade and other receivables, deposit with banks, investments and cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to market risk, liquidity risk and credit risk. Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company. The company uses derivative financial instruments, such as foreign exchange forward contracts, to hedge foreign currency risk exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

**The sources of risks which the company is exposed to and their management are given below:**

Risk	Exposure Arising From	Measurement	Management
<b>A. Market Risk</b>			
<b>1) Foreign Exchange Risk</b>	Committed commercial transaction Financial asset and Liabilities not denominated in INR	Cash Flow Forecasting Sensitivity Analysis	Forward foreign exchange contracts
<b>2) Interest Rate</b>	Long Term Borrowings and Short Term Borrowing at variable rates and Investments in Debt Schemes of Mutual Funds	Sensitivity Analysis, Interest rate movements	Portfolio Diversification
<b>3) Commodity Price Risk</b>	Movement in prices of commodities	Sensitivity Analysis, Commodity price tracking	Active inventory management, Sales Price linked to purchase price
<b>B. Credit Risk</b>	Trade receivables, Investments, Derivative financial instruments, Loans	Aging analysis, Credit Rating	Diversification of mutual fund investments, Credit limit and credit worthiness monitoring, Criteria based approval process
<b>C. Liquidity Risks</b>	Borrowings, lease liabilities, Other Liabilities and Liquid investments	Rolling cash flow forecasts Broker Quotes	Adequate unused credit lines and borrowing facilities Portfolio Diversification

The Company has standard operating procedures and investment policy for deployment of surplus liquidity, which allows investment in inter corporate deposits, fixed deposits, debt securities and mutual fund schemes of debt and debt like categories and restricts the exposure in equity markets.

Compliances of these policies and principles are reviewed by internal auditors on periodical basis.

The Corporate Treasury team updates the Audit Committee on a quarterly basis to about the implementation of the above policies. It also updates to the Internal Risk Management Committee of the Company on periodical basis about the various risk to the business and status of various activities planned to mitigate the risk.

#### A. Market Risk Management:

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

#### 1) Foreign Currency Risk:

Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to import of raw materials and spare parts, capital expenditure and exports.

When a derivative is entered for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure.

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

The Company evaluates exchange rate exposure arising from foreign currency transactions. The Company follows established risk management policies and standard operating procedures. It uses derivative instruments like foreign currency forwards to hedge exposure to foreign currency risk.

## TO THE STANDALONE FINANCIAL STATEMENTS

The Company assesses hedge effectiveness based on following criteria:

- (I) an economic relationship between the hedged item and the hedging instrument
- (II) the effect of credit risk and
- (III) assessment of the hedge ratio

The company designates the derivatives to hedge its currency risk and generally applies hedge ratio of 1:1. The company's policies is to match the critical terms of the forward exchange contracts to match with hedge item.

### 2) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term borrowing. The Company constantly monitors the credit markets and rebalances its financing strategies to achieve an optimal maturity profile and financing cost. Since all the borrowings are on floating rate, no significant risk of change in interest rate.

#### INR Interest rate exposure:

Particulars	As at 31 <sup>st</sup> March 2025	As at 31 <sup>st</sup> March 2024
INR	34	49

**Note:** If the rate is decreased by 100 bps profit will increase by an equal amount.

Interest rate sensitivity has been calculated assuming the borrowings outstanding at the reporting date have been outstanding for the entire reporting period.

### 3) Commodity price risk

Commodity price risk for the Company is mainly related to fluctuations of raw materials prices linked to various external factors, which can affect the production cost of the Company. Company actively manages inventory and in many cases sale prices are linked to major raw material prices. Energy costs is also one of the primary costs' drivers, any fluctuation in fuel prices can lead to drop in operating margin. To manage this risk, the Company enters into long-term supply agreement for power, identifying new sources of supply etc. Additionally, processes and policies related to such risks are reviewed and managed by senior management on continuous basis.

### B. Credit Risk Management:

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing/ investing activities, including deposits with banks, mutual fund investments, and investments in debt securities, foreign exchange transactions and financial guarantees. The Company has two major customers which represents 80% receivables as on 31<sup>st</sup>March, 2025 (77% receivables as on 31<sup>st</sup>March, 2024) and company is receiving payments from these parties within due dates. Hence, the company has no significant credit risk related to these parties.

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

### Trade receivables

Trade receivables are consisting of a large number of customers. The Company has credit evaluation policy for each customer and based on the evaluation credit limit of each customer is defined. Wherever the Company assesses the credit risk as high the exposure is backed by either letter of credit or security deposits.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

**The Company makes provision for the trade receivable as per the following matrix:**

Ageing of Trade Receivables	Provision (%)
Upto 1 Year	Nil
More than 1 Year but less than 2 years	25%
More than 2 Years but less than 3 Years	50%
More than 3 Years	100%

<b>Closing Balance</b>	-	-

### Investments, Derivative Instruments, Cash and Cash Equivalent and Bank Deposit

Credit Risk on cash and cash equivalent, deposits with the banks/financial institutions, debt securities is generally low as the said deposits have been made with the banks/financial institutions who have been assigned high credit rating by international and domestic rating agencies.

Credit Risk on Derivative Instruments are generally low as Company enters into the Derivative Contracts with the reputed Banks and Financial Institutions.

Investments of surplus funds are made only with approved Financial Institutions/ Counterparty. Investments primarily include investment in units of mutual funds and high investment grade corporates. These Mutual Funds and Counterparties have low credit risk.

Total Non-current and current investments as on 31<sup>st</sup> March, 2025 is ₹ 41,289 Lacs (31<sup>st</sup> March, 2024 - ₹ 34,480 Lacs).

### C. Liquidity Risk Management:

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts based on expected cash flows.

## TO THE STANDALONE FINANCIAL STATEMENTS

### **36(B) FAIR VALUE MEASUREMENTS (IND AS 113):**

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company has established the following fair value hierarchy that categorizes the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

**Level 1:** This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of all bonds which are traded in the stock exchanges is valued using the closing price or dealer quotations as at the reporting date.

**Level 2:** The fair value of financial instruments that are not traded in an active market (For example traded bonds, over the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates. The mutual fund units are valued using the closing Net Asset Value. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The management assessed that fair value of cash and bank balances, trade receivables, trade payables, cash credits and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the quoted investments/units of mutual fund schemes are based on market price/net asset value at the reporting date.
- The fair values of unquoted investments are based on net asset value at the reporting date.
- The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates and interest rate curve of the respective currencies.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis or based on the contractual terms. The discount rates used is based on management estimates.

### **37. SEGMENT REPORTING (IND AS 108):**

The Company is exclusively engaged in the business of synthetic yarn related products primarily in India. As per Ind AS 108 "Operating Segments", specified under Section 133 of the Companies Act, 2013, there are no reportable operating or geographical segments applicable to the Company.

### 41 DISCLOSURES IN ACCORDANCE WITH IND AS-19 ON "EMPLOYEE BENEFITS"

#### a) Defined Contribution Plans - The Company has recognised the following amounts in the Statement of Profit and Loss for the year:

₹ in Lacs

Particulars	2024-25	2023-24
Employer's Contribution to Provident Fund and Employee's Pension Scheme, 1995	565	578

<b>Total</b>	<b>623</b>	<b>638</b>

#### b) Defined Benefit Plans - Gratuity and Provident Fund

##### Gratuity:

Inherent Risk - The plan is defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, this exposes the Company to actuarial risk such as adverse salary growth, change in demographic experience, inadequate return on underlying plan assets. This may result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature, the plan is not subject to any longevity risks.

# NOTES

## TO THE STANDALONE FINANCIAL STATEMENTS

The Company operates a gratuity plan which is administered through Life Insurance Corporation and a trust which is administered through trustees. Every employee is entitled to a minimum benefit equivalent to 15 days salary last drawn for each completed year of service in line with Payment of Gratuity Act, 1972. However, certain employees are entitled to benefit higher than the benefit prescribed under Payment of Gratuity Act, 1972. The same is payable at the time of separation from the Company or retirement, whichever is earlier or death in service.

### 50 REVENUE FROM CONTRACTS (IND AS 115):

The Company is primarily in the business of manufacture and sale of Synthetic Yarn. Sales are made at a point in time and revenue from contract with customer is recognised when goods are dispatched and the control over the goods sold is transferred to customers. The Company does not expect to have any contracts where the period between the transfer of goods and payment by customer exceeds one year. Hence, the Company does not adjust revenue for the time value of money.

**Century Enka Limited**

## REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

### OPINION

1. We have audited the accompanying Consolidated Financial Statements of Century Enka Limited ('the Parent' /'the Company') and its associate which comprise the Consolidated Balance Sheet as at 31 March 2025 and the Consolidated Statement of Profit including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the year ended on that date, and notes to the Consolidated Financial Statements, including a summary of material accounting policy information and other explanatory information ('the Consolidated Financial Statements').
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports on separate financial statements of such associate the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ('Ind AS') and other accounting principles generally accepted in India, of the Consolidated State of Affairs of the Company and its associate as at 31 March 2025, and its Consolidated Profit And Other Comprehensive Income, Consolidated Changes in Equity and its Consolidated Cash Flows for the year ended on that date.

### BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing ('SAs') specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the

provisions of the Act, and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

### EMPHASIS OF MATTER

4. We draw attention to the fact that Note 45(b) of the Consolidated Financial Statements wherein it is stated that, the Excise department had issued an order dated 31 December 2013 denying the applicability of Notification No. 6/2000 dated 01 March 2000 and raised a demand of Rs.22,927 lacs plus interest thereon and penalty equivalent to duty demand amount. In this matter, CESTAT in its order dated 20 December 2019, upheld the denial of aforesaid notification and remanded back the matter to Central Excise Department to redetermine quantum of duty short paid, imposition of equal amount of penalty on redetermined amount of duty demand and applicable interest. The Commissioner, CGST & Central Excise, Raigad Commissionerate has re-determined assessable value pursuant to order of CESTAT and confirmed the demand amounting to Rs.730 lacs (as against above demand of Rs.22,927 lacs), interest at appropriate rate on the duty and equal amount of penalty vide its order dated 08 September 2020. Against the said order of the Commissioner, CGST & Central Excise, Raigad, Department has filed an appeal before the Appellate Tribunal. The Company's appeal in the matter is pending before the Honourable Supreme Court of India. The Company has deposited the amount of duty of Rs.730 Lacs under protest. Based on expert legal advice and merits of the case, no provision has been considered necessary by the Company. Our conclusion on the Statement is not modified in respect of this above matter.

### KEY AUDIT MATTERS

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current year. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How the matter was addressed in our audit
<b>Inventory Valuation</b> <ul style="list-style-type: none"> <li>The Company has significant balances of inventory as on 31 March 2025 (refer note 9 to the Consolidated Financial Statements)</li> <li>Inventories are valued at lower of cost or net realizable value (NRV). The other information comprises the information included in the Company's annual report but does not include the Consolidated Financial Statements and our auditors' report thereon. The Other Information is expected to be made available to us after the date of this auditor's report.
- Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.
- When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

#### RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

- The Company's Board of Directors are responsible for the preparation and presentation of these Consolidated Financial Statements, that give a true and fair view of the Consolidated State of Affairs, Consolidated Profit and Other Comprehensive Income, Consolidated Changes in Equity and Consolidated Cash Flows of the Company including its associate is in conformity

- with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Company and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and of its associate and for preventing and detecting frauds and other irregularities; selection of the appropriate accounting software for ensuring compliance with applicable laws and regulations including those related to retention of audit logs; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.
- In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company and/ or its associate or to cease operations, or has no realistic alternative but to do so.
  - The respective Board of Directors of the company and its associate are responsible for overseeing the financial reporting process of the Company and of its associate.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

13. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.
14. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - 14.1. Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - 14.2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to the Consolidated Financial Statements and the operating effectiveness of such controls.
  - 14.3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
  - 14.4. Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its associate to cease to continue as a going concern.
  - 14.5. Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures,

and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

- 14.6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its associate to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors.
15. We communicate with those charged with governance of the Company and its associate included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
16. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
17. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

18. As required by section 143(3) of the Act, based on our audit and on the consideration of our audit reports on separate financial statements of such associate, we report, to the extent applicable, that:
  - 18.1 We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
  - 18.2 In our opinion, proper books of accounts as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books except for the matters stated in paragraph 19.8 below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

- 18.3 The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flow dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
- 18.4 In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under Section 133 of the Act read with the relevant rules thereunder.
- 18.5 On the basis of the written representations received from the directors of the Company as on 31 March 2025, taken on record by the Board of Directors of the Company and on the consideration of our reports on associate company, incorporated in India, none of the directors of the Group companies, its associate company incorporated in India are disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- 18.6 The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 18.2 above on reporting under Section 143(3)(b) and paragraph 19.8 below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
- 18.7 With respect to the adequacy of internal financial controls with reference to the Consolidated Financial Statements of the associate Company incorporated in India and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'.
- 18.8 In our opinion and according to the information and explanations given to us and based on the consideration of our reports on separate financial statements of such associate company incorporated in India, the remuneration paid during the current year by the Company and its associate company incorporated in India to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Company and its associate company incorporated in India is not in excess of the limit laid down under Section 197 of the Act.
19. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of our audit reports on separate financial statements of such associates:
- 19.1 The Consolidated Financial Statements disclose the impact of pending litigations as at 31 March 2025 on the consolidated financial position of the Company and its associates – Refer Note 45 (d) to the consolidated financial statements.
- 19.2 Provision has been made in the Consolidated Financial Statements, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 45 (c) to the Consolidated Financial Statements in respect of such items as it relates to the Company and its associates.
- 19.3 There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Company and/or its associate company incorporated in India during the year ended 31 March 2025.
- 19.4 The respective managements of the Company, its associates whose financial statements have been audited under the Act have represented to us, to best of their knowledge and belief as disclosed in the Note 44(b) of Consolidated Financial statements that no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kinds of funds) by the Company or any of such associate to or in any other person(s) or entity(ies), including foreign entities ('Intermediaries'), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such associate ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- 19.5 The respective managements of the Company, its associates which are companies incorporated in India whose financial statements have been audited under the Act have represented to us to best of their knowledge and belief as disclosed in the Note 44(h) to the consolidated Financial statements, that no funds have been received by the Holding Company or any of such associate from any person(s) or entity(ies), including foreign entities ('Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company or any of such associate shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- 19.6 Based on such audit procedures, that have been considered reasonable and appropriate in the circumstances, performed by us, nothing has come to our notice that has caused us or other auditors to believe that the representation under para 19.4 and 19.5 contain any material misstatement.
- 19.7 In our opinion and according to the information and explanations given to us, the dividend declared and / or paid during the year by the Company is in compliance with Section 123 of the Act.
- 19.8 Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the audit trail feature has operated throughout the year for all relevant transactions recorded in the respective

software, except for the below mentioned exceptions noted during our assessment and evaluation:

- i) In respect of the Holding Company for two of the accounting softwares, the feature of audit trail (edit log facility) was not enabled at the database level to log any direct data changes up to July 1, 2024 for one of the system and July 3, 2024 for the other system.
- ii) In respect of the associate company, for one of the accounting software, the feature of audit trail (edit log facility) was not enabled at the database level, specifically to capture direct changes, was implemented only from only from 18 January 2025. Although controls restricting database administrator access were in place, audit logs for the period from 1 April 2024 to 17 January 2025 were not available to evidence any changes made directly at the database level or modifications to administrative privileges during that period.

Further, where audit trail (edit log) facility was enabled and operated throughout the year, we did not come across any instance of audit trail feature being tampered with. Additionally, other than for the audit trail (edit log) facility which was not enabled at the database layer in the previous year and upto the date mentioned above in the current year, the audit trail has been preserved by the Company as per the Statutory requirements for record retention.

20. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 ('CARO') issued by Central Government in terms of Section 143(11) of the Act, to be included in Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and included in the consolidated financial statements, we report that following qualifications and adverse remarks were observed:

# ANNEXURE '[A]' TO THE INDEPENDENT AUDITOR'S REPORT

## on the Consolidated Financial Statements of Century Enka Limited for the year ended 31<sup>st</sup> March 2025

(Referred to in paragraph '18.7' under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to the aforesaid Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

### OPINION

1. In conjunction with our audit of the Consolidated Financial Statements of Century Enka Limited as of and for the year ended 31 March 2025, we have audited the internal financial controls with reference to the Consolidated Financial Statements of Century Enka Limited ('the Parent Company' / 'the Company') and its associate company which are companies incorporated in India, as of that date.
2. In our opinion, the Company, and its associate company which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to the Consolidated Financial Statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal controls over financial reporting criteria established by the respective companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('the Guidance Note').

### MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

3. The respective Board of Directors of the Company and its associate company which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal controls over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### AUDITOR'S RESPONSIBILITY

4. Our responsibility is to express an opinion on the Company and its associate which are companies incorporated in India, internal financial controls with reference to the Consolidated Financial Statements based on our audit. We conducted our

audit in accordance with the Guidance Note and the Standards on Auditing ('SA'), prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Consolidated Financial Statements. Those SAs and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Consolidated Financial Statements were established and maintained and if such controls operated effectively in all material respects.

5. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to the Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.
6. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to the Consolidated Financial Statements.

### MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE CONSOLIDATED FINANCIAL STATEMENTS

7. A company's internal financial controls with reference to the Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and

directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE CONSOLIDATED FINANCIAL STATEMENTS**

8. Because of the inherent limitations of internal financial controls with reference to the Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the

Consolidated Financial Statements to future periods are subject to the risk that the internal financial controls with reference to the Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 1. COMPANY OVERVIEW

Century Enka Limited ("the Company") is a Public Limited Company incorporated in India having its registered office at Pune, Maharashtra, India. The Company is engaged in the manufacturing and selling of 'Synthetic Yarn' and related products. Company has one associate ABReL Century Energy Limited and it is engaged in production of power.

### 2. MATERIAL ACCOUNTING POLICIES

#### (a) Statement of Compliance

These Consolidated financial statements (hereinafter referred to as "financial statements") are prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") prescribed under section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) Rules as amended from time to time and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI), as applicable.

The financial statements are authorized for issue by the Board of Directors of the Company at their meeting held on 6th May, 2025.

#### (b) Basis of Preparation and Presentation:

##### Basis of Preparation

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- (i) Derivative Financial Instruments measured at fair value
- (ii) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- (iii) Employee's Defined Benefit Plan as per actuarial valuation
- (iv) Assets held for sale measured at lower of carrying value and fair value less costs to sell.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

##### Principles of Consolidation

These consolidated financial statements are prepared on the following basis in accordance with Ind AS on "Consolidated Financial Statements" (Ind AS - 110),

"Investments in Associates and Joint Ventures" (Ind AS - 28) and "Disclosure of interests in other entities" (Ind AS - 112), specified under Section 133 of the Companies Act, 2013.

##### Associates (Accounted using Equity method)

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. Interests in associates is accounted for using equity method. They are initially recognized at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and OCI of equity accounted investees until the date on which significant influence ceases.

##### Functional and Presentation Currency

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

##### Classification of Assets and Liabilities into Current/ Non-Current

The Company has ascertained its operating cycle as twelve months for the purpose of Current / Non-Current classification of its Assets and Liabilities.

For the purpose of Balance Sheet, an asset is classified as current if:

- (i) It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is expected to realise the asset within twelve months after the reporting period; or
- (iv) The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- (i) It is expected to be settled in the normal operating cycle; or
- (ii) It is held primarily for the purpose of trading; or
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

### (c) Property, Plant and Equipment (PPE):

The cost of an item of PPE is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

The PPE are stated at cost less accumulated depreciation and accumulated impairment loss.

The initial cost of PPE comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use, including relevant borrowing costs and any expected costs of decommissioning.

Subsequent costs incurred are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance cost are charged to the Statement of Profit and Loss during the period in which they were incurred.

Any gain or loss on disposal of an item of PPE is recognized in statement of Profit and Loss.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16 - Property, Plant and Equipment.

PPE except freehold land are stated at their cost of acquisition/installation or construction net of accumulated

depreciation, and impairment losses, if any. Freehold land is stated at cost less impairment losses, if any.

### (d) Expenditure during construction period:

Expenditure/ Income during construction period (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) is included under Capital Work-in-Progress, and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets".

### (e) Depreciation:

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a straight-line basis over the useful lives as prescribed in Schedule II to the Act or as per technical assessment. Freehold land with indefinite life is not depreciated.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company, or the number of production or similar units expected to be obtained from the asset by the Company.

In case of certain classes of PPE, the Company uses different useful lives than those prescribed in Schedule II to the Act. The useful lives have been assessed based on technical advice, taking into account the nature of the PPE and the estimated usage of the asset on the basis of management's best estimation of obtaining economic benefits from those classes of assets. The estimated useful lives, residual values and the depreciation method are reviewed at the end of each reporting period, and the effect of changes in the estimates are accounted for on a prospective basis.

### Such classes of assets and their estimated useful lives are as under:

No	Nature	Useful life
1	Leasehold Assets - Plant & Machinery	Upto 25 years
2	Leasehold Assets - Other than Plant & Machinery	Lease Period
3	Stores and Spares Parts in the nature of PPE	5 to 25 Years
4	Motor Cars given to the employees as per the Company's Scheme	4 years
5	Assets individually costing less than or equal to ₹ 5,000	Fully Depreciated in the year of purchase

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production. Depreciation on deductions/disposals is provided on a pro-rata basis up to the month of deduction/disposal.

Residual value for Air Conditioners, Furniture and Fittings, Office Equipment's, Computers and servers is considered Nil.

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

### (f) Intangible Assets and Amortization:

#### ▪ Internally generated Intangible Assets:

Expenditure pertaining to research is expensed as incurred. Expenditure incurred on development is capitalized if such expenditure leads to creation of an asset, otherwise such expenditure is charged to the Statement of Profit and Loss.

#### ▪ Intangible Assets acquired separately:

Intangible assets that are acquired separately are carried at cost less accumulated amortization and accumulated impairment, if any. Cost comprises the purchase price (net of tax / duty credits availed wherever applicable) and any directly attributable cost of bringing the assets to its working condition for its intended use. The Company determines the amortization period as the period over which the future economic benefits will flow to the Company after taking into account all relevant facts and circumstances. The estimated useful life and amortization method are reviewed periodically, with the effect of any changes in estimate being accounted for on a prospective basis.

#### ▪ Class of intangible assets and their estimated useful lives are as under:

No	Nature	Useful life
1	Software	6 Years

Residual value for the intangible assets is considered as Nil. An intangible asset is derecognized on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an item of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of such item of intangible asset and are recognized in the statement of profit & loss when the asset is derecognized

### (g) Impairment of Non-Financial Assets:

At the end of each reporting period, the Company reviews the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise

they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

### (h) Financial Instruments:

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

#### Initial Recognition:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at

fair value through profit or loss are recognized immediately in Statement of Profit and Loss.

### **Classification and Subsequent Measurement:**

#### **Financial Assets**

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

#### **Amortized Cost:**

A financial asset shall be classified and measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

In case of financial assets at amortized costs, interest income, foreign exchange gain or loss and impairment are recognized in Statement of Profit and Loss.

#### **Fair Value through OCI:**

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Where the Company has elected to present the fair value gain on equity instruments in other comprehensive income, there is no subsequent classification of fair value gain or losses to profit and loss account. Dividend from such instruments is recognized in profit and loss account as other income where right to receive is established.

#### **Fair Value through Profit or Loss:**

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through OCI.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

### **Classification and Subsequent Measurement:**

#### **Financial liabilities**

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

#### **Financial Liabilities at FVTPL:**

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL:

Gains or Losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

#### **Other Financial Liabilities:**

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

#### **Impairment of financial assets:**

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 - Financial Instruments for recognition of impairment loss allowance. The Company recognizes a loss allowance for expected credit losses on financial asset. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time credit expected losses. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience and other credit information available.

#### **Derecognition of financial assets:**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes associated liabilities.

On derecognition of a financial asset, other than equity investments classified as FVOCI, in its entirety, the difference between the asset's carrying amount and the

sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On derecognition of equity instruments classified as FVOCI, accumulated gains or loss recognized in OCI is transferred to retained earnings.

### (i) Financial liabilities and equity instruments:

#### ▪ Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### ▪ Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognized at the proceeds received.

### (j) Derecognition of Financial Liabilities:

The Company de-recognizes financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability de-recognized and the consideration paid and payable is recognized in the statement of profit and loss.

### (k) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

### (l) Inventories:

Inventories are valued as follows:

#### ▪ Raw materials, Fuel, Store & Spare Parts and Packing materials

Raw materials are valued at lower of cost and net realizable value (NRV). However, these items are considered to be realizable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Fuel, Stores & Spare parts and Packing materials are valued at cost. Cost is determined on weighted average basis. The cost of inventory comprises its purchase price, including

non-refundable purchase taxes, and any directly attributable costs related to the inventories.

#### ▪ Work-in-progress (WIP), finished goods, stock-in-trade and trial run inventories:

Valued at lower of cost and NRV. Cost of Finished goods and WIP includes cost of raw materials, direct labour, other direct costs and related production overheads upto the relevant stage of completion. Cost of inventories is computed on weighted average basis.

#### ▪ Waste / Scrap:

Waste / Scrap and Byproduct inventory is valued at NRV.

Net realizable value for inventories is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

### (m) Cash and cash equivalents:

Cash and cash equivalents in the Balance Sheet comprise cash at bank, cheques and cash in hand and short-term deposits with banks that are readily convertible into cash which are subject to insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

### (n) Assets held for Sale:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable. They are measured at the lower of its carrying amount and fair value less costs to sell.

An impairment loss is recognized for any initial or subsequent write-down of the assets to fair value less cost to sell. A gain is recognized for any subsequent increases in fair value less cost to sell of an asset, but not in excess of any cumulative impairment loss previously recognized.

No depreciation or amortization is charged for assets classified as held for sale.

### (o) Borrowing Costs:

General and specific borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of such asset till such time the asset is ready for its intended use and borrowing costs are being incurred. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred.

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

Borrowing cost includes interest expense, loan processing charges, amortization of discounts, hedge related cost incurred in connection with foreign currency borrowings, ancillary costs incurred in connection with borrowing of funds and exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to the Interest cost.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

**(p) Government Grants and Subsidies:**

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants, related to assets, are recognized in the Statement of Profit and Loss on a systematic basis over the expected useful life of the related assets.

**(q) Leases:**

**Company as a Lessee**

The company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred. The right-of-use asset is depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the company uses incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The Company elected to use the recognition exemptions for lease contracts that, at the commencement date, have

a lease term of 12 months or less and do not contain a purchase option ('short-term leases') and lease contracts for which the underlying asset is of low value (low-value assets)

**Company as a Lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term.

**(r) Derivative financial instruments:**

The Company enters into derivative financial instruments viz. foreign exchange forward contracts to manage foreign exchange risks. The Company does not hold derivative financial instruments for speculative purposes.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in statement of profit and loss immediately excluding derivatives designated as cashflow hedge.

**(s) Hedge accounting:**

The Company designates certain hedging instruments in respect of foreign currency risk, interest rate risk and commodity price risk as cash flow hedges. At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

The effective portion of changes in the fair value of the designated portion of derivatives that qualify as cash flow hedges is recognized in OCI and accumulated under equity. The gain or loss relating to the ineffective portion is recognized immediately in the statement of profit and loss.

Amounts previously recognized in OCI and accumulated in equity relating to effective portion as described above are reclassified to Statement of Profit and Loss in the periods when the hedged item affects the Statement of Profit or Loss, in the same line as the recognized hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

liability, such gains and losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognized in OCI and accumulated in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognized the Statement of Profit and Loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in the Statement of Profit and Loss.

### (t) Revenue Recognition:

#### Sale of goods:

The company derives revenue primarily from manufacturing and selling of Synthetic Yarn and related goods.

Revenue on sales of goods are recognized when the customer obtains control of the specified goods which is generally on dispatch/delivery of goods.

To recognize revenues, company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price (net of variable consideration), (4) allocate the transaction price (net of variable consideration) to the performance obligations in the contract, and (5) recognize revenues when a performance obligation is satisfied.

The Company accounts for variable considerations like, volume discounts, rebates and pricing incentives to customers as reduction of revenue on a systematic and rational basis over the period of the contract. Revenues are shown net of goods and services tax and applicable discounts and allowances.

The Company does not expect to have any contracts where the period between the transfer of goods and payment by customer exceeds one year. Hence, the Company does not adjust revenue for the time value of money.

Government grants in the nature of export incentives are accounted for in the period of export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are reasonably expected to be fulfilled.

#### Other Income:

- Dividend Income is accounted for when the right to receive the income is established.
- Interest income is recognized on time proportion basis taking into account the amount outstanding on effective interest rate.

- Difference between the sale price and carrying value of investment is recognized in statement of profit or loss on sale / redemption on investment on trade date of transaction.

### (u) Employee benefits:

#### Gratuity:

Gratuity being defined benefit plan, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognized in Other Comprehensive Income (OCI) in the period in which they occur. Re-measurement recognized in OCI is reflected immediately in retained earnings and will not be reclassified to Statement of Profit and Loss. Past service cost is recognized in the Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. The costs are categorized as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The present value of the gratuity liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The defined benefit obligation recognized in the Balance Sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

#### Superannuation:

The company has Defined Contribution Plan for Post-Employment benefits in the form of Superannuation schemes for eligible employees. The scheme is administered through Life Insurance Corporation (LIC) and Trust which is administered by the Trustees. In respect of this scheme, the Company has no further obligation beyond its contributions.

#### Employee's Family Pension

The Company has Defined Contribution Plan for Post-Employment benefits in the form of family pension for

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

eligible employees, which is administered by the Regional Provident Fund Commissioner. Company has no further obligation beyond its contributions.

### Provident Fund

Contribution towards provident fund for certain employees is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Scheme as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

In respect of certain employees, Provident Fund contributions are made to the Trust set up and administered by the Company. If the board of trustees are unable to pay interest at the rate declared by the government under Para 60 of the Employees provident fund scheme, 1972 for the reason that the return on investment is less or for any other reason, then the deficiency shall be made good by the Company making interest shortfall a defined benefit plan. Accordingly, the Company obtains actuarial valuation and having regard to the assets of the fund and the return on investments, the Company does not expect any deficiency as at the year end. If there is a deficiency as at any Balance Sheet date, then, the same will be recognized in the Statement of Profit and Loss in the year in which it arises.

### Other Short-term and other long-term employee benefits

Liabilities for wages, salaries and bonus (as per the payment of bonus Act, 1965) including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees and workmen render the related service are recognized in respect of employee's services up to the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled.

### Compensated Absences

The Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long-term employee benefits. The company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the Statement of Profit and Loss in the year in which they arise.

### (v) Foreign Currency transactions:

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency (i.e. foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of initial transactions.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

### (w) Income Taxes:

#### Income Tax expenses comprise current tax and deferred tax charge or credit.

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws.

Deferred tax is provided, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Tax relating to items recognized directly in equity or OCI is recognized in equity or OCI and not in the Statement Profit and Loss.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off recognized amount and there is intention to settle the assets and liabilities on net basis.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

### (x) Earnings Per Share:

The basic Earnings per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit / (loss) after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

**(y) Provisions, Contingent Liabilities and Contingent Assets:**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognized.

**(z) Investment in Associates**

The Company's investment in its associates are carried at cost net of accumulated impairment loss, if any.

On disposal of the Investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the statement of Profit and Loss.

**2(A) CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY:**

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**Key assumptions:**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

**(i) Useful Lives of Property, Plant & Equipment and Intangible Assets:**

The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unamortized depreciable amount is charged over the remaining useful life of the assets.

**(ii) Fair value measurement of financial instruments:**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

**(iii) Defined benefit plans:**

The cost of the defined benefit plans gratuity and provident fund, and the present value of the gratuity and provident fund obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions

# NOTES

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

**(iv) Recognition and measurement of deferred tax assets and liabilities:**

Deferred tax assets and liabilities are recognized for deductible temporary differences for which there is probability of utilization against the future taxable profit. The Company uses judgement to determine the amount of deferred tax liability / asset that can be recognized, based upon the likely timing and the level of future taxable profits and business developments.

**(v) Income Taxes:**

The Company calculates income tax expense based on reported income and estimated exemptions / deduction

likely available to the Company. The Company has applied the lower income tax rates on income tax expenses and the deferred tax assets / liabilities.

**(vi) Asset held for sale:**

The company has used certain judgements and estimates to determine fair value of asset held for sale. Fair value has determined on basis of independent external valuation and quotes from dealer of similar assets.

**(vii) inventory:**

Valuation of inventories involves a level of subjectivity due to inherent uncertainties such as volatility in raw material prices and fluctuations in the prices of finished goods driven by changes in consumer demand. Given the size of the inventory balance, the complexities involved, and the need for judgment in applying assumptions related to cost and net realizable value, we recognise that inventory valuation requires careful consideration and is a significant area of accounting focus for the company.

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 36. FINANCIAL RISK MANAGEMENT OBJECTIVES (IND AS 107):

The Company's principal financial liabilities, other than derivatives, comprises of borrowings, lease, trade and other payables. The main purpose of these financial liabilities is to finance the company's operations. The company's principal financial assets, other than derivatives include trade and other receivables, deposit with banks, investments and cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to market risk, liquidity risk and credit risk. Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company. The company uses derivative financial instruments, such as foreign exchange forward contracts, to hedge foreign currency risk exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

**The sources of risks which the company is exposed to and their management are given below:**

Risk	Exposure Arising From	Measurement	Management
<b>A. Market Risk</b>			
<b>1) Foreign Exchange Risk</b>	Committed commercial transaction Financial asset and Liabilities not denominated in INR	Cash Flow Forecasting Sensitivity Analysis	Forward foreign exchange contracts
<b>2) Interest Rate</b>	Long Term Borrowings and Short Term Borrowing at variable rates and Investments in Debt Schemes of Mutual Funds	Sensitivity Analysis, Interest rate movements	Portfolio Diversification
<b>3) Commodity Price Risk</b>	Movement in prices of commodities	Sensitivity Analysis, Commodity price tracking	Active inventory management, Sales Price linked to purchase price
<b>B. Credit Risk</b>	Trade receivables, Investments, Derivative financial instruments, Loans	Aging analysis, Credit Rating	Diversification of mutual fund investments, Credit limit and credit worthiness monitoring, Criteria based approval process
<b>C. Liquidity Risks</b>	Borrowings, lease liabilities, Other Liabilities and Liquid investments	Rolling cash flow forecasts Broker Quotes	Adequate unused credit lines and borrowing facilities Portfolio Diversification

The Company has standard operating procedures and investment policy for deployment of surplus liquidity, which allows investment in inter corporate deposits, fixed deposits, debt securities and mutual fund schemes of debt and debt like categories and restricts the exposure in equity markets.

Compliances of these policies and principles are reviewed by internal auditors on periodical basis.

The Corporate Treasury team updates the Audit Committee on a quarterly basis to about the implementation of the above policies. It also updates to the Internal Risk Management Committee of the Company on periodical basis about the various risk to the business and status of various activities planned to mitigate the risk.

#### A. Market Risk Management:

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

##### 1) Foreign Currency Risk:

Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to import of raw materials and spare parts, capital expenditure and exports.

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

Cash flow Hedge: The company has foreign currency capital commitment and to mitigate the risk of foreign currency, the company has taken forward cover. The company is following hedge accounting for all the foreign currency capital commitment raised based on qualitative approach

The Company assesses hedge effectiveness based on following criteria:

- (I) an economic relationship between the hedged item and the hedging instrument
- (II) the effect of credit risk and
- (III) assessment of the hedge ratio

The company designates the derivatives to hedge its currency risk and generally applies hedge ratio of 1:1. The company's policies is to match the critical terms of the forward exchange contracts to match with hedge item.

### 2) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term borrowing. The Company constantly monitors the credit markets and rebalances its financing strategies to achieve an optimal maturity profile and financing cost. Since all the borrowings are on floating rate, no significant risk of change in interest rate.

#### INR Interest rate exposure:

**Note:** If the rate is decreased by 100 bps profit will increase by an equal amount.

Interest rate sensitivity has been calculated assuming the borrowings outstanding at the reporting date have been outstanding for the entire reporting period.

### 3) Commodity price risk

Commodity price risk for the Company is mainly related to fluctuations of raw materials prices linked to various external factors, which can affect the production cost of the Company. Company actively manages inventory and in many cases sale prices are linked to major raw material prices. Energy costs is also one of the primary costs' drivers, any fluctuation in fuel prices can lead to drop in operating margin. To manage this risk, the Company enters into long-term supply agreement for power, identifying new sources of supply etc. Additionally, processes and policies related to such risks are reviewed and managed by senior management on continuous basis.

## TO THE CONSOLIDATED FINANCIAL STATEMENTS

### B. Credit Risk Management:

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing/ investing activities, including deposits with banks, mutual fund investments, and investments in debt securities, foreign exchange transactions and financial guarantees. The Company has two major customers which represents 80% receivables as on 31<sup>st</sup> March 2025 (77% receivables as on 31<sup>st</sup> March 2024) and company is receiving payments from these parties within due dates. Hence, the company has no significant credit risk related to these parties.

#### Trade receivables

Trade receivables are consisting of a large number of customers. The Company has credit evaluation policy for each customer and based on the evaluation credit limit of each customer is defined. Wherever the Company assesses the credit risk as high the exposure is backed by either letter of credit or security deposits.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

#### The Company makes provision for the trade receivable as per the following matrix:

Ageing of Trade Receivables	Provision (%)
Upto 1 Year	Nil
More than 1 Year but less than 2 years	25%
More than 2 Years but less than 3 Years	50%
More than 3 Years	100%

Add: Provision made during the year	-	-
Less: Provision utilization during the year	-	714
<b>Closing Balance</b>	<b>-</b>	<b>-</b>

#### Investments, Derivative Instruments, Cash and Cash Equivalent and Bank Deposit

Credit Risk on cash and cash equivalent, deposits with the banks/financial institutions, debt securities is generally low as the said deposits have been made with the banks/financial institutions who have been assigned high credit rating by international and domestic rating agencies.

Credit Risk on Derivative Instruments are generally low as Company enters into the Derivative Contracts with the reputed Banks and Financial Institutions.

Investments of surplus funds are made only with approved Financial Institutions/ Counterparty. Investments primarily include investment in units of mutual funds and high investment grade corporates. These Mutual Funds and Counterparties have low credit risk.

Total Non-current and current investments as on 31<sup>st</sup> March 2025 is ₹ 40,900 Lacs (31<sup>st</sup> March, 2024 - ₹ 34,154 Lacs).

### C. Liquidity Risk Management:

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts based on expected cash flows.

### 36(B) FAIR VALUE MEASUREMENTS (IND AS 113):

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company has established the following fair value hierarchy that categorizes the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of all bonds which are traded in the stock exchanges is valued using the closing price or dealer quotations as at the reporting date.

Level 2: The fair value of financial instruments that are not traded in an active market (For example traded bonds, over the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates. The mutual fund units are valued using the closing Net Asset Value. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The management assessed that fair value of cash and bank balances, trade receivables, trade payables, cash credits and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the quoted investments/units of mutual fund schemes are based on market price/net asset value at the reporting date.
- The fair values of unquoted investments are based on net asset value at the reporting date.
- The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates and interest rate curve of the respective currencies.

# NOTES

<b>Total</b>	<b>623</b>	<b>638</b>

#### b) Defined Benefit Plans - Gratuity and Provident Fund

##### Gratuity:

**Inherent Risk** - The plan is defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, this exposes the Company to actuarial risk such as adverse salary growth, change in demographic experience, inadequate return on underlying plan assets. This may result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature, the plan is not subject to any longevity risks.

The Company operates a gratuity plan which is administered through Life Insurance Corporation and a trust which is administered through trustees. Every employee is entitled to a minimum benefit equivalent to 15 days salary last drawn for each completed year of service in line with Payment of Gratuity Act, 1972. However, certain employees are entitled to benefit higher than the benefit prescribed under Payment of Gratuity Act, 1972. The same is payable at the time of separation from the Company or retirement, whichever is earlier or death in service.

### xiv) Asset liability matching strategy:

The money contributed by the Company to Gratuity Fund has to be invested. The trustee have outsourced management of investment to an Insurance Company. The Insurance Company in turn manage these funds as per mandate provided by the trustees and the asset allocation which is with in permissible limits prescribed in insurance regulations. Due to restrictions in type of investments that can be held by the fund it is not possible to explicitly follow asset liability matching strategy. There is no compulsion on the part of company to fully prefund liability of the plan. The Company fund these benefit based on known liability and Level of underfunding of the plan.

#### Provident Fund:

The Company makes contribution towards Provident fund for certain eligible employees to the trust, set up and administered by the Company, in line with the Provident Fund and Miscellaneous Provisions Act, 1952. The plan guarantees interest at the rate notified by the Provident Fund Authorities. The contribution by the employer and employee together with the interest accumulated thereon are payable to employees at the time of their separation from the company or retirement, whichever is earlier. The benefits vest immediately on rendering of the services by the employee. The rules of the trust provides that if the board of trustees are unable to pay interest at the rate declared by the government under Para 60 of the Employees provident fund scheme, 1972 for the reason that the return on investment is less or for any other reason, then the deficiency shall be made good by the Company making interest shortfall a defined benefit plan. Accordingly, the Company has obtained actuarial valuation and based on the below provided assumptions there is no deficiency as at the balance sheet date. Hence, the liability is restricted towards monthly contributions only.

The above amount of contingencies does not include applicable interest, if any. Cash outflows for the above are determinable only on receipt of judgments pending at various forums / authorities.

- (b) Excise Department had issued an order dated 31<sup>st</sup> December, 2013 denying the applicability of Notification No. 6/2000 dated 1st March, 2000 and raised a demand of ₹ 22,927 lacs plus interest thereon and penalty equivalent to duty demand amount. In this matter, CESTAT in its order dated 20th December, 2019, upheld the denial of aforesaid notification and remanded back the matter to Central Excise Department to redetermine quantum of duty short paid, imposition of equal amount of penalty on redetermined amount of duty demand and applicable interest. The Commissioner, CGST & Central Excise, Raigad has re-determined assessable value pursuant to order of CESTAT and confirmed the demand amounting to ₹ 730 lacs (as against above demand of ₹ 22,927 lacs), interest at appropriate rate on the duty and equal amount of penalty vide its order dated 8<sup>th</sup> September, 2020. Against the said order of the Commissioner, CGST & Central Excise, Raigad, Department has filed an appeal before the Appellate Tribunal.
- The Company's appeal in the matter is pending before the hon'ble Supreme Court of India. The Company has deposited the amount of duty of ₹ 730 Lacs under protest. The Company has been advised by legal experts that it has a fair chance of ultimately succeeding in the matter and accordingly no provision is required to be made in the accounts.
- (c) Foreseeable Losses: The Company has a process whereby periodically all long term contracts are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that adequate provision as required under any law/ applicable accounting standards for material foreseeable losses on such long term contracts has been made in the books of account.
- (d) Pending litigations: The Company has reviewed its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial statements.

#### 46. CAPITAL AND OTHER COMMITMENTS:

- (a) Estimated amount of contracts remaining to be executed on capital account, not provided for (net of advances) as on 31<sup>st</sup> March, 2025 is ₹ 1,044 Lacs. (31<sup>st</sup> March, 2024 - ₹ 830 Lacs).
