^ESG ratings are different from credit ratings. An ESG rating is an assessment of an entity's exposure and ability to manage ESG-related risks and opportunities. A credit rating represents the rating agency's opinion on the likelihood of a rated debt obligation being repaid in full and on time. ESG ratings are provided by Crisil ESG Ratings and credit ratings are provided by Crisil Ratings Ltd.

**Crisil Ltd launched its ESG scoring business in June 2021 using a robust India-specific framework on the environmental, social and governance aspects. Pursuant to the receipt of ERP registration by Crisil ESG Ratings from the SEBI on April 25, 2024, Crisil Ltd transferred its ESG scoring business to Crisil ESG Ratings on May 03, 2024. Consequently, Crisil's outstanding ESG scores for equity and debt-listed entities have been migrated to Crisil ESG Ratings w.e.f. May 03, 2024, the date of commencement of its operations.

Summary

The overall ESG rating of Century Plyboards (India) Ltd (CPIL) has increased to 'Crisil ESG 62' from 'Crisil ESG 51' earlier, with the company moving to the 'Strong' category primarily driven by its improved performance on environment (E) and social (S) scores

Further, Crisil ESG Ratings has assigned a Core ESG rating¹ of 'Crisil Core ESG 69' to CPIL.

On E pillar, the company has performed better than peers on Scope 1+2 emissions, non-hazardous waste generation and water withdrawal intensity. On S pillar, the company performed better than peers on workforce parameters like gender diversity of workers, higher sourcing from MSMEs and high share of employees trained on safety measures and skill upgradation.

CPIL was assessed based on public disclosures on ESG parameters it made at the consolidated level and other information in public domain.

The final environmental (E) and social (S) scores are a combination of the company's performance relative to its peers, as well as the respective sector's impact on environment and society. Governance (G), on the other hand, is sector-agnostic, and hence has no sectoral performance attached to it. This approach allows Crisil ESG Ratings the flexibility to bring nuanced sector-specific parameters into the assessment of a specific company, while retaining the cross-sector comparability of the final ratings.

Pillar-wise ESG scores

On a scale of 0-100, with 100 being the highest and 0 the lowest

Key strength areas

- Lower than peer's intensities of Scope 1 and 2 emissions, hazardous waste generation and water withdrawal
- High share of renewable energy consumption in overall energy consumption mix

¹ In-line with the SEBI ERP regulations, Crisil ESG Ratings has assigned Core ESG rating on CPIL. Please note Core ESG ratings are based only on BRSR Core disclosures, which are only a small subset of the various ESG parameters considered by Crisil ESG Ratings in evaluation of the ESG ratings. Resultantly, ESG ratings and Core ESG ratings assigned on an entity are not directly comparable. For further details, please refer to our detailed ESG ratings [methodology](#).

- Improved gender diversity of workers, high share of employment generated in the rural areas (~45% of total wages paid are to workforce employed in rural areas) and high proportion of employees imparted training on safety measures and skill upgradation
- High average attendance of directors at Board and committee meetings (~95% and 100%, respectively), moderate share of women directors on the Board (~24%) and zero investor and whistle blower complaints received in fiscal year 2026

Key focus areas

- Higher energy consumption and non-hazardous waste generation intensity
- Higher attrition rate, lost time injury frequency rate (LTIFR) of the workforce, customer complaints and relatively lower input material sourced from within India

Rating sensitivity factors

Upward factors

- Efficiencies in the energy consumption and non-hazardous waste generation
- Significant decline in the attrition rate, LTIFR of workforce and customer complaint intensity

Downward factors

- Deterioration in environmental performance, including higher emissions and energy consumption and waste generation
- Further increase in attrition rate or weakening of other key workforce parameters like attrition rate, lower employee coverage on skills and safety measures
- Any material governance lapse, adverse ESG controversy, regulatory action, or deterioration in board effectiveness and disclosure practices

Note: Data on the composition of the Board and various committees is as on October 1, 2026

Compliance lapses, regulatory action and controversies

There is no material controversy as of October 1, 2026
