Dear Sir/Madam,

Subject: Operational Update for the Half Year ended September 30, 2026.

Re: Intimation under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations 2015").

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to provide the operational update of Chamam Metallics Limited ("the Company") for the half year ended September 30, 2026.

The key operational performance of the Company for **H1 FY27**, along with the corresponding comparative figures, is enclosed herewith.

The operational update provides details of production, sales and captive power generation and other relevant operating parameters for the period.

The abovementioned operational update is also available on the website of the company at www.cmlgrgroup.com.

We request to take the above information on your records and disseminate the same on your respective website.

Thanking You,
Yours faithfully,
For CHAMAN METALLICS LIMITED

Particulars	H1 FY27	H2 FY26	H1 FY26
Captive Power Generation	10,83,19,613	9,39,73,924	2,48,48,568
Power Consumption	8,26,11,714	6,61,55,599	1,93,91,126
Captive Power Utilization	94,99,230	76,81,560	25,14,547
Surplus Power Sold	1,62,08,669	2,01,36,765	29,42,895

OPERATIONAL HIGHLIGHTS

↑ Higher Production

Improved production across key product categories supported by better utilisation of available capacities.

* Captive Power

Captive power generated is utilised for internal consumption, with surplus power sold on a cash basis, enhancing overall operational efficiency.

⚙ Operational Efficiency

Continued focus on improving plant efficiency, product mix and utilisation of integrated manufacturing facilities.

MANAGEMENT OUTLOOK

Focused on higher capacity utilisation, operational efficiency and cost optimisation, with the objective of leveraging expanded capacities to drive sustainable growth and enhance shareholder value. The company remains committed to strengthening its integrated manufacturing capabilities, improving product mix and maximising the benefits of captive power generation. With a focus on disciplined execution, resource optimisation and operational excellence, the company aims to build a stronger and more resilient business while capitalising on emerging opportunities in the steel and ferro alloys markets.
