MESSAGE FROM THE Chairman

From Chairman's Desk

FY 2026 marked a period of robust growth, with revenue Increasing by 20.43% to ₹280.67 Cr with profitability remaining strong. This performance was supported by consistent volume growth, better business mix, and disciplined cost management. Expansion momentum and rising diagnostic volumes strengthened margins and overall financial performance.

During the year, we expanded our network with new state-of-the-art Diagnostic Centres in 15 states and continued to scale our Chandan Medical Centres to reach more communities. These additions enhanced patient access and reinforced our commitment to quality and affordable healthcare.

Looking ahead, we plan to accelerate our pan-India expansion through a mix of owned and franchise-led collection centres. Chandan Healthcare has also entered into an exclusive strategic partnership with Jeena Sikho Lifecare Limited to establish diagnostic centres across all existing and upcoming Jeena Sikho Hospitals and Clinics across India. Jeena Sikho Lifecare Limited (JSL) is one of India's leading Ayurvedic healthcare providers with over a decade of experience in holistic wellness. With a clear strategy and strong foundation, Chandan Healthcare remains focused on steady, profitable, and sustainable growth in the years ahead.

Chandan Healthcare Limited is one of India's leading service providers of Diagnostic and Pharmacy services and a key entity within the Chandan Group. The company offers a comprehensive range of NABL/NABH accredited pathology and radiology services across 15 states in India. It's service portfolio includes a wide array of diagnostic solutions such as Blood tests, MRIs, CT scans, X-rays, Ultrasounds, ECGs, TMT and other specialized investigations, ensuring accurate, reliable and high-quality patient care.

Chandan operates through a diversified business model encompassing B2C (Retail customers), B2B (Institutional Partnerships), and B2G (Government PPP Contracts) segments, all under a company-owned model that ensures consistent service standards and strong operational control. In F.Y. 2025-26, Chandan has entered in Franchise business as well. Chandan has also started online services in Diagnostic and Pharmacy. Chandan has been awarded 14 PPP contracts in Radiology at Punjab, Haryana and Assam.

Chandan Healthcare Limited was got listed on NSE Emerge on 17th February, 2025.

Dr. Amar Singh
Promoter, Chairman and Managing Director

MESSAGE FROM THE
**Managing
Director**

From The Managing Director

This year has been a landmark year of growth and transformation for Chandan Healthcare Limited. As we reflect on our journey, I take immense pride in the progress we have made in strengthening our healthcare ecosystem, expanding access to quality diagnostics in 15 states, and creating sustainable value for all our stakeholders.

During the year, we continued to enhance our presence through strategic expansion, technology-led innovation, and an unwavering commitment to patient-centric care. Our teams across diagnostics, radiology, and retail pharmacy remained dedicated to excellence, enabling us to serve a growing number of patients, healthcare institutions, and communities. Supported by strong operational execution and a focus on quality, we delivered healthy growth while further strengthening the trust that patients and healthcare professionals place in the Chandan Healthcare brand.

A defining milestone during the year was our successful listing, marking the beginning of an exciting new chapter in our journey. This achievement reflects the confidence of our investors and reinforces our commitment to the highest standards of governance, transparency, and sustainable growth.

Looking ahead, we remain focused on building a future-ready healthcare organization. Over the next three years, we aim to establish more than 100 laboratories under our "One District, One Lab" initiative and expand our franchise network to over 1,000 centers.

In line with our commitment to innovation and clinical excellence, we are also establishing a state-of-the-art Genome Sequencing Laboratory in Lucknow, expected to be operational in 2026. This facility will enhance our capabilities in advanced molecular diagnostics and precision healthcare, further strengthening our position as a trusted healthcare partner.

I extend my heartfelt gratitude to our patients, doctors, institutional partners, business associates, investors, and employees for their continued trust and support. Their confidence inspires us to strive for greater excellence every day.

Together, we will continue advancing our mission of improving healthcare outcomes, building healthier communities, and creating enduring value for generations to come.

Asmita Singh

VISION
Mission
& VALUES

Vision

Our vision is to ensure comprehensive diagnostics coverage to every corner of the country in the coming years. We are committed to maintaining uncompromising quality while offering affordable rates, ensuring access to essential healthcare services for all.

Mission

To build value, performance, and trust for delivering quality diagnostic services while maintaining the highest ethical and social standards.

Core Values

- We believe in a work approach that puts "the customer first". Over 35 years of experience tells us that if we serve our clients well, success is the only outcome that follows.
- Our people and reputation for quality are our assets.
- Business integrity is a way of life at Chandan. We aim at providing world-class services by adopting fair means and expect our employees to maintain high ethical standards.
- We collaborate with trust, respect, and shared responsibility to achieve excellence together.
- We try to keep in pace with the changing needs of our clients and keep on embracing innovative solutions for the enhancement of services to meet them.
- We ensure the protection of the confidential information that our clients entrust us with.
- Because of our passion for excellence, we nurture our employees by providing them continuous training and education.

Franchise BUSINESS

India's Most Trusted and Rewarding Diagnostic Franchise Networks

1. Fully IT driven operations for stress free management
2. Low Initial Investment
3. Quality Assurance
4. Quick turnaround time in processing & reporting
5. Do Business On the Go- Manage with a mobile app
6. Reputed Brand serving the nation's populace for 35 years
7. Comprehensive array of over 3500 tests and profiles
8. Extensive Network
9. State-of-the-art laboratories
10. Constant Guidance & Support

Total Franchises **325+** | **100+** Franchises Added every month

Target For F.Y. 2026-27 **1000+**

QUALITY Assurance PROGRAM

- All our Centres are **ISO 9001:2015 Certified** and we have **16 NABL Accredited Labs**.
- Stringent quality control parameters along with intelligent IT enabled systems.
- State-of-art equipment to provide best quality testing service.
- Monitoring of pre-analytical, analytical and post-analytical errors.
- Periodic maintenance of equipment and use of world class consumables.

Internal Quality Assurance Program

- Daily internal quality controls from Bio-rad and other reputed companies.
- Control charts (LJ charts) are plotted for internal quality control and are monitored for trends and shifts to have better control over testing system.
- Emphasis over automation to avoid human errors.
- Regular training programs done for skill upgradation.

External Quality Assurance Program

Quality Assessment is done periodically by External Agencies like:-

- Christian Medical College, Vellore
- Bio-Rad Laboratories, USA

3 YEARS Expansion STRATEGY

40 Comprehensive Diagnostic Centres

50 Diagnostic Centres

3000+ Franchises in 17 States

50 Standalone Labs (One District, One Lab)
Total Labs: 155

100+ Chandan Medical Centres

Genome Sequencing Lab in Lucknow

2 PET Scans in Gorakhpur & Kanpur

[Key Strengths Driving Sustainable Growth]

Investment Rationale

-  Integrated Diagnostics Chain offering both Pathology and Radiology services under one roof, driving patient stickiness and cross-selling opportunities.
-  Widespread Presence with operations in 15 states, enabling deep regional penetration and first-mover advantage in underserved areas.
-  Focused Expansion in Tier 2/3 Markets, including recent entry into Delhi, Madhya Pradesh and Chhattisgarh, targeting high-growth diagnostics demand.
-  Volume-Led Growth Strategy with a scalable model anchored in in-house labs, B2B referral partnerships, and low-cost collections infrastructure.
-  Core Diagnostics Business Drives Revenue, supported by strong unit economics, high margin radiology services, and rising test volumes.
-  Experienced Promoter-Led Team with 35+ years in healthcare operations, marketing, and diagnostics strategy.
-  Accredited Infrastructure including NABL-certified central labs, ensuring quality, compliance, and eligibility for government and insurance linked programmes.

Management Declaration On Q1, 2026-27 Results

We are thrilled to present our performance for the first quarter of the new financial year, 2026-27, a period marked by robust financial expansion, rapid network scaling, and strategic refinement aimed at long-term value creation.

From our beginnings as a single diagnostic centre in 1991, our brand has built a legacy of clinical excellence and trust. Today, we stand as a major diagnostic powerhouse spanning 15 states, rapidly expanding our presence beyond North India to national market.

Our core business segments delivered exceptional growth across both top-line and bottom-line metrics by having **revenue Growth of 19.62%** year-over-year, **EBITDA Growth 42.27%** increase y-o-y, reflecting significant operational leverage. **PAT Growth increased to 29.51%** y-o-y in Q1.

This stellar performance is driven by a diversified business model spanning Referrals from doctors, nursing home and hospitals. Corporate business from government, public sector units and insurance companies. Preventive healthcare (Health checkups), Government Contracts, Franchise Networks and Online Business.

In this quarter alone, we had the privilege of serving **0.6 million** patients by performing **3.19 million** tests, backed by a network of over 40,000 referring doctors and more than 200 corporate affiliations.

Our footprint across 15 states is powered by a high-capacity, multi-tiered infrastructure of 400 centres includes 23 Comprehensive diagnostic centres, 18 Diagnostic centres, 21 standalone Labs, 15 radiology centres and 324 franchisee. We have approx **15 lakhs sq.ft. rental space** and **21,000 sq.ft. company owned space**.

Our newly launched franchise model has achieved unprecedented momentum, onboarding over 324 franchisees within its first 4 months. Paired with our fast-growing online booking platform, we are drastically expanding patient accessibility and brand reach.

To maximize capital efficiency and sharpen our operational focus, the company has taken a strategic decision to exit the pharmacy business. This realignment allows us to dedicate 100% of our management bandwidth and resources to high-margin diagnostic opportunities.

Specialized High-End Diagnostics includes installation of two **advanced PET Scan facilities at Gorakhpur and Kanpur** within the next 4 months and Genomics Lab, a state-of-the-art Genome Lab slated within the next 6 months to capture growing demand in personalized medicine.

We are aggressively positioning the business for sustainable, high-margin growth through a clear growth trajectory by having >1,000 franchisees, >100 standalone labs and >30 comprehensive diagnostic centres by the end of this financial year.

Our journey from a local centre to a global diagnostic brand is built on clinical accuracy, operational agility, and shareholder value creation. With a sharp focus on our core diagnostic strengths, high-margin specialized testing, and an asset-light franchise expansion strategy, we remain fully committed to maintaining strong momentum and delivering sustainable profitability in the years ahead.

Asmita Singh
Managing Director

[Multi Segment Model driving growth across B2C, B2B & B2G]

Diversified revenue streams ensure stability, scalability and reduced risk.

B2C (Retail Diagnostics)

- Walk-in services across **15 states**
- **18L+ Patients served** in FY 26
- Strong brand recall, reliable service and affordable care
- 40,000 Referring Doctors

FY 26 Revenue
Share- 41.5%
YOY Growth- 29.57%

B2B (Institutional Clients)

- 230+ Hospitals, Clinics, Corporates, Insurance companies, TPAs & Laboratories as partners
- Recurring, long-term relationships
- Steady revenue from integrated tie-ups

FY 26 Revenue
Share- 26.88%
YOY Growth- 50.58%

B2G (Government PPPs)

- Public-Private Partnerships with **state governments**
- Diagnostic services in government hospitals
- Long-term contracts ensure stable cash flow & credibility

FY 26 Revenue
Share- 31.82%
Growth- 3.64%

[Expanding Footprint Across India]

Network Expansion Plan

- Addition of **100 labs** across **15 states** over the next 3 years
- Expanding presence through 3,000 franchises in the next 3 years
- Enhancing accessibility and strengthening nationwide reach

Expansion Highlights

- **New States:** Entry into Assam, Chandigarh, Chhattisgarh, Delhi, Gujarat, Haryana, Karnataka, Madhya Pradesh, Maharashtra, Punjab & West Bengal.
- **Strengthening Presence:** Deepening network in **Uttar Pradesh & NCR**
- **Strategic Focus:** Addressing **diagnostic gaps** in mid-sized cities & suburban regions

Strategic Partnership with Jeena Sikho Lifecare Limited

- Chandan Healthcare to act as the **Exclusive Diagnostics partner** across 15 states and 100+ cities
- Extends to upcoming Jeena Sikho facilities as their network expands
- Providing end-to-end pathology and radiology services for IPD and OPD patients

Growth via Chandan Medical Centres (CMC)

- Plan to open new CMCs under structured, long-term strategy
- CMCs act as sample collection centre as well
- Sale of medicines
- Distribution of group company **Cendana Pharmaceutical Pvt. Ltd.** Products.

Genome LAB

*"Powered by Innovation.
Guided by Expertise.
Focused on Every Patient."*

The Future Of Precision Diagnostics Is Arriving

Introducing a State-of-the-Art Clinical Genomics Laboratory

Decoding DNA. Delivering Diagnostic Confidence.

At Chandan Genomics, we are bringing the next generation of clinical genomics to healthcare. Our state-of-the-art laboratory combines advanced high-throughput sequencing technology, world-class molecular diagnostics, and expert clinical interpretation to provide accurate, timely, and reliable genomic testing that supports informed medical decisions and improved patient outcomes.

Why Choose Us?

Advanced Technology

High-throughput Next Generation Sequencing (NGS) | Automated sample processing | Robust bioinformatics and data analysis | High accuracy with rapid turnaround times

Expert Clinical Team

Molecular geneticists | Clinical scientists | Bioinformaticians | Genetics professionals dedicated to quality and precision

Patient-Centered Care

Every sample represents a patient and a family seeking answers. We are committed to delivering trustworthy genomic insights that support better diagnosis, personalized treatment, and improved healthcare outcomes.

Expert Clinical Team

Molecular geneticists | Clinical scientists | Bioinformaticians | Genetics professionals dedicated to quality and precision

Our Clinical Genomic Services

Hereditary Disease Testing | Cancer Genomics | Rare Disease Diagnostics | Whole Exome Sequencing (WES) | Whole Genome Sequencing (WGS) | Targeted Gene Panels | Tpharmacogenomics | Carrier & Prenatal Screening

Our Commitment

Combining cutting-edge technology with scientific expertise, we deliver genomic diagnostics that clinicians can trust and patients can rely on.

Advancing Healthcare

Through Precision Genomics Every Gene. Every Insight. Every Patient.

PET Scan

Strengthening its commitment to bringing cutting-edge healthcare closer to patients, Chandan Diagnostics is set to launch two state-of-the-art PET-CT centres in Kanpur and Gorakhpur over the next four months. This expansion marks another significant milestone in the organization's mission to make advanced diagnostic services more accessible across Uttar Pradesh while enhancing the region's cancer care infrastructure.

Equipped with next-generation PET-CT technology, the new centres will deliver exceptional image quality, superior diagnostic accuracy, shorter scan times, and enhanced patient comfort. Supported by a team of experienced nuclear medicine physicians, radiologists, and highly skilled technologists, these facilities will provide comprehensive molecular imaging services while upholding the highest standards of clinical excellence, quality, precision, and patient safety.

With the addition of these two advanced PET-CT centres, Chandan Diagnostics continues to strengthen its position as a trusted leader in diagnostic healthcare. By bringing world-class molecular imaging closer to patients, the organization aims to reduce travel, enable earlier and more accurate diagnosis, facilitate timely treatment decisions, and ultimately improve patient outcomes. This expansion reflects Chandan Diagnostics' unwavering commitment to innovation, accessibility, and excellence in healthcare delivery.
