CMC assessed at Level 5 of the SEI's Capability Maturity Model Integration (CMMI) for Software Development and Services

Mumbai, February 20, 2013: CMC today announced that it has been assessed at Level 5 of the Software Engineering Institute's Capability Maturity Model Integration (CMMI) for Software Development and Services, version 1.3. The scope covers all delivery centres and all types of projects under software solutions and integration services, and embedded and real-time solutions and engineering services. The appraisal was conducted by KPMG, India; an SEI Partner for CMMI based services.

Commenting on this achievement, Mr. R Ramanan, MD and CEO, CMC Limited said, "We are extremely proud to have achieved this distinction, it is a significant milestone in our ongoing journey towards excellence. This assessment underscores our commitment to delivery excellence, process maturity and service quality, ensuring timely and best-in-class solutions for our clients globally."

Developed by Software Engineering Institute (SEI), Carnegie Mellon University, USA, CMMI Maturity Level 5 is the highest level of process maturity that independently verifies an organization's capabilities to continuously enhance its processes through incremental and innovative process improvements and technological improvements. Particularly, version 1.3 of CMMI standard, ensures a stronger correlation between client's business objectives to delivery goals, thereby significantly improving the benefit clients realize from software engineering and service delivery practices.

Capability Maturity Model Integration and CMMI® are registered in the U.S. Patent and Trademark Office by Carnegie Mellon University.
