HSBC FLASH INDIA COMPOSITE PMI

Pvt Sector Activity Hits 4-mth High in Oct

New orders and stronger services activity lift the composite PMI to 56.7, export orders reach a six-month high

Our Bureau

New Delhi: India's private sector activity accelerated to a four-month high in October, driven by an increase in new orders and improving market conditions, according to a survey released on Friday.

The HSBC Flash India Composite Purchasing Managers' Index (PMI) rose to 56.7 in October from 55.9 in the preceding month. The reading was 60.4 a year ago. A reading above 50 signals expansion and one below indicates contraction. "Private-sector manufacturing activity continued to expand, with growth of output and new orders broadly unchanged at last month's levels," said Pranjul

Bhandari, chief India economist at HSBC. Manufacturing PMI declined to 54.9 in October from 55.1 in September, due to a slowdown in job creation. In contrast, services activity increased to 56.2 from 55.2 during this period.

Employment across the private sector increased slightly in October, as firms remained reluctant about hiring, citing sufficient staffing levels to meet current workloads. Business confidence for the coming year strengthened to its highest level since May, driven by expectations of further improvements in market conditions. International demand also supported growth, with export orders expanding at the fastest pace in six months. Panellists reported receiving new orders from the

United States, the United Kingdom, West Asia and Bangladesh. "Manufacturers responded by increasing their stocks of purchases and finished goods," said

Bhandari. Meanwhile, inflationary pressures continued to ease in October. Input cost prices slowed to their lowest level in almost a year, while output price inflation moderated to its weakest pace since March 2025. "Where input prices increased, higher steel and transportation costs were mentioned," the report said.

FSDC Stresses on Vigilance and Reforms Amid Rising Global Uncertainty & AI Boom

Our Bureau

New Delhi: Finance minister Nirmala Sitharaman on Friday chaired the Financial Stability and Development Council (FSDC) meeting, which took cognisance of the emerging trends in the domestic and global macro-financial situation and stressed the need to be vigilant.

The committee reviewed macro-financial stability amid increasing geopolitical uncertainties, the artificial intelligence boom (AI) and a sharp rise in global bond yields.

In a statement, the finance ministry said the FSDC deliberated on strengthening the domestic investment ecosystem, enhancing capital flows and deepening financial sector reforms.

"The Council recognised the need for proactive efforts to mitigate potential risks to financial stability while adopting adequate safeguards for the financial system's resilience," the statement noted, adding that the members decided to strengthen inter-regulatory coordination for the wider development of the financial sector.

Sitharaman also urged the council to hold FSDC meetings more frequently given rising geopolitical headwinds and global uncertainties, the ministry said.

The meeting was also attended by Reserve Bank of India governor Sanjay Malhotra, Securities and Exchange Board of India chairman Tuhin Pandey, insurance regulator Ajay Seth and other senior officials.

The council also reviewed the cyber resilience of the Indian financial sector and took note of the Financial Sector Cyber Security Strategy (FSCSS) formulated by an inter-ministerial group

comprising financial sector regulators and cybersecurity agencies.

"The implementation of the FSCSS is expected to strengthen the overall resilience of the Indian financial sector," the statement said, adding that the discussions also covered India's preparedness to protect the critical information infrastructure and resilience of protection systems and improving cybersecurity preparedness of regional rural banks.

In its statement, the finance ministry stated that considering the importance of regulatory improvisation and digital modernisation in the financial sector, the FSDC also discussed measures towards promoting innovation in the fintech sector and exploring the prospects of tokenisation of financial assets and other real-world assets.

The FSDC additionally discussed issues relating to formulating a strategy for implementing past decisions and budget announcements, including strengthening the domestic investment ecosystem and improving resource flow for investment, including in the GIFT-IFSC.

Other issues deliberated included the simplification and digitalisation of 'know your customer (KYC) processes, alongside digital onboarding for non-resident Indians and foreign portfolio investors.

Additionally, the discussions covered reforms to scale up digital public infrastructure in India, including the Account Aggregator and Unified Lending Interface framework, with a specific focus on micro, small and medium enterprises, and reducing intermediation costs in the financial sector.

Labour Survey to Cover Volunteers From Jan 2027

Our Bureau

New Delhi: The Periodic Labour Force Survey will expand its coverage from January 2027 to capture unpaid household and caregiving activities, volunteer work and digital platform workers as part of a broader revamp aimed at improving labour market data.

The statistics ministry said on Friday that new questions will be introduced to measure own-use production of goods, unpaid household and caregiving activities, volunteer work and unpaid trainee work. The questions will be asked during the first visit in both rural and urban areas and will cover people aged 15 years and above, enabling annual reporting on these activities.

The changes are expected to provide a more comprehensive assessment of work beyond conventional employment, improve data availability on unpaid and non-market activities, and offer a broader understanding of individuals' contributions to household and community well-being, the ministry said. The survey will introduce an additional binary question to identify households in which any member has engaged in digital platform work during the specified reference period. The question will be asked in both rural and urban households to identify eligible households for a new stratum of sub-sample (SSS) based on digital platform workers.

A substantial proportion of women spend considerable time on unpaid household and caregiving activities like cooking, cleaning, childcare and care of elderly, as per to the concept note released.

India to Remain Strict on Quality: Goyal

Commerce minister says there are more problems in Europe about bureaucracy than in India

Kirtika Suneja

Berlin: India will remain strict on issues related to quality and environmental damage, and this is not bureaucracy but a cautious approach to safeguard the country's future, commerce and industry minister Piyush Goyal said.

India will be "okay" as far as the impact of the EU carbon border adjustment mechanism (CBAM) is concerned, and the country has an advantage owing to its decarbonisation measures and because competition will suffer the cost of the mechanism, he said. Goyal's statement assumes significance as Katherina Reiche, Germany's federal minister for economic affairs and energy, called for cutting red tape on both sides while speaking at the India-Germany Business Roundtable and inauguration of the India Centre of the German Council on Foreign Relations Thursday.

"I think there are more problems in Europe about bureaucracy than in India...We recognise that we have inherited a lot of bureaucracy," Goyal said at a briefing Thursday.

He said India was making systemic changes based on feedback to address red-tapism and support industry. "This is a government that is an action board to support ease of doing business," Goyal said.

But there are certain things where one has to be strict, such as quality and environmental damage, and there will be delays in environmental approvals if companies' mitigation plans are not good enough, he said. "I will not call it bureaucracy, but call it caution, and preserving India's future. Every country does this." Noting that getting approvals is not easy in Europe, he said they would also have to improve. "Sometimes they delay approvals for

our products, and then it is a give and take," he said.

INVESTMENT INTEREST

The minister said during his meetings with CEOs, several of them expressed "more than keen interest" in investing in India, with car makers exploring manufacturing opportunities. Auto components, pharmaceuticals, research and development, textiles and leather are some other areas of interest, while precision engineering, aerospace, defence and shipbuilding are the new ones, he said.

"The metrics seem to suggest that these are big numbers, but we have not done a formal engagement with industry asking them for specific commitments," he said.

"We export about 1 million cars from India. Soon you will see cars made in India start coming into Europe. So, I think, in high-tech (sectors), India's entry is increasing," Goyal said. Ambassador of India to Germany Ajit Gupte said in the last two and a half years, German companies announced investments of \$7.4 billion in India.

UNBEATABLE COMBINATION

Goyal said the total imports of the EU nations were upward of \$6 trillion. With the "regulatory overhang that they are creating upon themselves", Europe will have to look for trusted countries where at least many of the things that are becoming very expensive in Europe can be produced, he said.

Indian scale and European technology together are an "unbeatable combination", he said. "I see tremendous potential for India and huge job creation in India with the free trade agreement (with EU)," he said. The FTA, according to him, is a symbol of certainty, continuity and predictability.

CARBON TAX

India and the EU have reached an amicable settlement on CBAM, Goyal said. "We are decarbonising our economy so fast that we will have an advantage because our competition will suffer the cost of CBAM," he said.

India will support industries which are exporters to Europe to decarbonise faster, and Europe will support Indian industry to decarbonise quickly, he said. "We have a very robust arrangement with that."

For micro and small companies, Goyal said: "We are willing to literally take care of the entire cost of certification. And others also, there is some very expensive certification or process; we are happy to support them."

Pawan Hans Asked to Chart Five-Year Turnaround Plan by This Year End

Anuradha Shukla

New Delhi: The Department of Public Enterprises (DPE) has asked state-owned helicopter operator Pawan Hans to submit a five-year turnaround plan by December, focusing on financial and organisational restructuring, steps to enhance operational and fleet efficiencies, and the identification of new verticals and revenue streams.

The move comes amid the government's push to handhold central public sector enterprises (CPSEs) with strategic potential and improve their performance. The communication, sent in the first week of October, follows a September meeting between the Pawan Hans management and senior DPE officials. Pawan Hans management is also planning to engage a senior consultant to help prepare the plan, officials said.

"There is a lot of potential for the state-owned helicopter operator and, with proper hand-holding, it can grow multifold," a senior official said. The move follows an instruction by a committee headed by cabinet secretary TV Somanathan, which has recommended handholding CPSEs that can be strategic to the medium- to long-term growth of the country.

The roadmap is expected to assess opportunities in heli-tourism, religious tourism, helicopter emergency medical

services, regional connectivity and other aviation-related businesses. The development of heliports and services for remote and underserved destinations could feature in the expansion strategy. Pawan Hans has separately been exploring electric seaplane technology. In August, it signed a non-binding MoU with Norway's Neomi Aerospace to explore collaboration in electric seaplanes and sustainable aviation.

The turnaround exercise follows the collapse of an earlier divestment attempt. In May

2022, the government selected a consortium led by Star9 Mobility Pvt Ltd to acquire 51% stake in the company for ₹211.14 crore. The process was subsequently called off in July 2023 amid pending legal cases.

The civil aviation ministry is the administrative ministry for Pawan Hans, while the DPE, under the finance ministry, frames policy guidelines relating to the performance and management of CPSEs. The ministry has already allocated ₹450 crore for fleet modernisation, linking the company's expansion plans to the government's push to strengthen indigenous helicopter capacity and improve connectivity to remote regions under the Udaan scheme.

The proposed induction of Dhruv helicopters from Hindustan Aeronautics into Pawan Hans is also part of the Centre's effort to strengthen indigenous aviation capabilities.

PRICES PLUNGE 53% FROM RECORD HIGH OF ₹420,048 PER KG IN JAN

Silver Hits 11-month Low of ₹1.95 Lakh as Surging Crude Stokes Inflation Fears

Sutanuka Ghosal

Kolkata: Silver prices have plunged to an 11-month low, falling more than 53% from their record high of ₹420,048 per kg on January 29, as surging crude oil prices rekindling inflation fears and expectations of higher interest rates dampen the appeal of precious metals. Gold, too, is under pressure, having declined more than 20% from its peak this year, as investors reassess their exposure to non-yielding assets.

On the Multi Commodity Exchange (MCX), silver futures fell ₹6,799 per kg, or 3.4%, to ₹1,92,800 per kg on Friday. Prices

ces have plunged ₹32,955, or more than 14%, over the past 10 sessions. A recent appreciation in the rupee has provided only limited relief against the decline in international prices.

Gold has also witnessed a sharp slide. In the international market, spot prices have fallen more than 3.5% to around \$4,015 an ounce, their lowest since July 20, with Thursday alone seeing a 2.8% drop. On the MCX, gold futures slipped below ₹1.42 lakh per 10 grams on Friday, down more than 20% from this year's peak of ₹1.81 lakh per 10 grams in January.

In Mumbai's spot market, silver was trading at ₹1.95 lakh per kg, down from ₹2 lakh per kg on

GOLD ALSO DOWN

Gold, too, is under pressure, having declined more than 20% from its peak this year

Thursday. Gold, on the other hand, was trading at ₹1.41 lakh per gm, down from ₹1.43 lakh per 10 gm on Thursday. "Oil is driving this selloff more than fear is," said Aditya Agarwal, chief investment officer, InvestValue. Brent crude above \$110 a bar-

rel, amid fresh supply risks in the Gulf, has revived inflation concerns. Also, markets are now anticipating another US Federal Reserve rate hike before the year-end.

Higher interest rates weigh on gold and silver as they do not generate interest income, making yield-bearing assets more attractive. Silver is also facing concerns over industrial demand, with weakness in solar-panel manufacturing in China and demand from chip-making industry amid the technology-sector sell-off adding to the pressure. The near-term outlook remains cautious, although analysts see scope for a recovery if prices stabilise at key support levels.

चार्टर्ड अकाउंटेंट • 3 जनवरी से फाउंडेशन परीक्षा ; 1 दिसंबर से मॉक टेस्ट, चारों पेपर दोपहर 2 से शाम 4 बजे तक होंगे

एजुकेशनडेस्क | नई दिल्ली

तैयारी का तरीका: चारों विषयों को दें बराबर समय

● **रोजका टाइम टेबल बनाइए:** हर विषय के लिए समय तय करें।
 अकाउंटिंग और क्वांटिटेटिव एप्टीट्यूड से सप्ताह हल करें।
 बिजनेस लॉ और बिजनेस ज़ांकोनॉमिक्स के जरूरी टॉपिक दोहराएँ।
 ● **हर सप्ताह खुद की जाँच लें:** सप्ताह के अंत में चारों विषयों से सवाल हल करें। देखें कि कौन-से टॉपिक पूरे हुए और कहाँ दोबारा पढ़ने की जरूरत है।
 ● **दोनों गैक टेस्ट सीटों पर:** प्रैक्सा की तरह तय समय में प्रश्नपत्र हल करें। उत्तरमाला से जवाब मिलाने। गलतियों की वजह समझें।
 ● **ज़ाहिराई दिनों में गैलरीजकॉर:** प्रैक्सा से उठें। पहले पूरा सिस्तेम पकटी बार पढ़ने से बचें। पहले पूरे हुए टॉपिक, जरूरी फॉर्मूले और क्वेश्चन सप्ताह दोहराएँ। नई प्रैक्टिस व पड्यॉ के बीच ब्रेक लें।

विषय के
हिसाब से
पढ़ाई करें

• **अकाउंटिंग:** पहले कॉन्सेप्ट समझें। फिर उदाहरण देखें और खुद सवाल हल करें। जिनमें गलती हो, उन्हें दोबारा हल करें।

- **बिजनेसलाॅ:**
कानून के नियमों को समझकर पढ़ें।
जरूरी शर्तें और एक्सेप्शन याद करें।
उत्तर लिखने का अभ्यास भी करें।

• **क्वांटिटेटिव**
एटीट्यूड: रोज
सवाल हल करें।
फॉर्मूले की छोटी
नोटबुक बनाएं।
समय तय करके
अभ्यास करें।

• बिजनेस इकोनॉमिक्स:
परिभाषा, कॉन्सेप्ट
समझें। छोटे
नोट्स बनाएं और
बहुविकल्पीय
सवाल हल करें।

सीए इंटरमीडिएट

सितंबर परीक्षा का रिजल्ट जारी, टॉपर के 502 अंक

आईसीएआई ने इंटरमीडिएट परीक्षा
सितंबर का रजिस्टर घोषित कर दिया है।
मुंबई के नील रावेशा शाह और नासिक
की चांदक साक्षी ने संयुक्त रूप से
ऑल इंडिया रैंक-1 हासिल की। दोनों
को 600 में से 502 अंक (83.67%)
मिले। आईसीएआई परीक्षा में टॉपर ने 531 अंक
(88.50%) के साथ पहली रैंक हासिल
की थी। सितंबर के दोनों टॉपर्स को रॉ
के टॉपर के मुकामले 29 अंक कम
मिले। इस बार ग्रुप-1 में 1,00,301
उम्मीदवार परीक्षा में शामिल हुए, जिनमें
से 23,210 पास हुए। ग्रुप-2 में
68,400 उम्मीदवारों में से 12,938
सफल हुए। वहीं, दोनों ग्रुप की परीक्षा देने
वाले 38,339 उम्मीदवारों में से 5,066
पास हुए।

भारतीय स्टेट बैंक

सार्वजनिक सूचना: भारतीय स्टेट बैंक के निष्क्रिय बचत बैंक (नियमित) खाता धारक

यह सूचना उन बचत बैंक (नियमित) खाताधारकों के लिए है, जिनके खाते पिछले दो वर्षों में लेन-देन नहीं करने के कारण निष्क्रिय हो गए हैं।

आपसे अनुरोध है कि आप अपने केवाईसी दस्तावेजों के साथ एसबीआई की किसी भी शाखा से संपर्क करें या अपने केवाईसी को अपडेट करने के लिए डिजिटल चैनलों जैसे इंटरनेट बैंकिंग/योनो मोबाइल ऐप/एटीएम/व्हाट्सएप बैंकिंग आदि का उपयोग करें।

इस सूचना के एक माह के भीतर अगर 1 वर्ष से अधिक समय से शून्य शेष रखने वाले ऐसे निष्क्रिय खातों की केवाईसी अपडेट नहीं की जाती है तो बिना किसी अन्य सूचना के उन्हें एक माह में बंद कर दिया जाएगा।
