Sir / Madam,

Sub: Revised intimation under Regulation 30 of the SEBI (LODR) Regulations, 2015 – Update on commencement of operations at our new plant (Unit III) at Kakinada SEZ, Kakinada, Andhra Pradesh.

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the “SEBI LODR Regulations”) read with Para B of Part A of Schedule III of the Regulations, we are pleased to announce the trial production of our new plant i.e Unit III at Kakinada SEZ on 05.04.2022 and is now fully ready to commission.

The CAPEX of Rs. 70 Crores was invested by the Company in the Unit III. The new facility has production capacity of 35 MTPD. This facility is a completely integrated facility. The trial production is started on today i.e., 05.04.2022. The Commercial production will be commenced in the next 10 to 15 days.

Unit III shall augment Company’s value-added supply to various parts of the Globe. The new plant will be an important base for expanding global sales in the future.

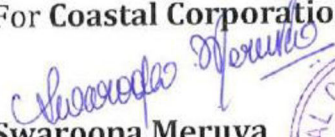

This development is in line with the Company’s commitment towards fostering sustainable growth while also creating job opportunities in the region. This capacity addition will enable us to expand our footprints and ensure sufficient and timely supplies thereby adding to efficiencies of the supply chain.

Further, to our press release dated 2nd December, 2021 with regards to 3.6 MW_DC Solar Power Plant at Daleshwaram Village, Kanchili Mandal, Srikakulam with a Capex of INR 14 Crore, the project is likely to commence in the next week, we would like to draw your attention to the fact that, we have received approval from Andhra Pradesh Chief Electrical Inspector to Govt. This initiative to move towards renewable energy and reduce carbon foot print, will also reduce the power cost and the Company’s dependence on APEPDCL.
