Coforge Launches Private Equity Business Unit

Princeton, NJ, USA | Greater Noida, India | August 11, 2026: Coforge Limited (NSE:COFORGE), a global AI-native engineering services leader, today announced the launch of a new business unit focused on the Private Equity (PE) sector.

Drawing on Coforge management's exceptional record of turning around businesses including NIIT Technologies, Incessant Technologies, SLK Global, Cigniti Technologies, and Encora LLC, this new unit will leverage Coforge's expertise and playbooks to help PE firms drive value.

Private equity firms are increasingly focused on operational transformation, EBITDA improvement, and scaling growth vectors to drive investment returns. Changing market conditions, challenging valuations, and longer hold periods have made strong portfolio performance and technology transformation essential.

"Coforge has worked closely with PE firms for more than a decade. We are recognized for having an execution intensity that is uniquely our own. That execution intensity has helped us turn around a string of acquisitions and accelerate the growth and margin expansion across all our acquired entities. Our acquisition integration playbook has allowed us to leverage technology to create enterprise value at scale over the last decade. Consequently, this new business unit is aligned with our DNA as a company," said **Preeti Singh, Executive Vice President and Head of North America, Coforge**. "Private equity firms are moving from exploring AI opportunities to embedding AI-driven value creation into their investment strategies. Executing AI initiatives at scale across the portfolio is becoming a strategic differentiator that requires a repeatable, scalable model tied to measurable business outcomes."

Powered by Coforge Nuuron, an AI operating system and enterprise autonomy platform, Coforge's PE business unit combines technology, data, governance, and execution expertise to deliver services that go beyond traditional deal advisory or technology solutions. As AI becomes increasingly embedded into investment strategies and portfolio operations, private equity firms will turn to experienced service providers like Coforge that enable them to drive sustainable enterprise value across the investment lifecycle and for portfolio companies.

About Coforge

Coforge is an AI-native engineering services leader, where AI is the very foundation of how we design, build, and deliver intelligent solutions for our clients. We use AI and hyperspecialized industry expertise to engineer autonomous enterprises. We combine AI agents with our AI-enabled workforce, including specialized FDEs in hybrid pod-based delivery units. With a deep focus on trusted AI, our solutions are secure, governed, and enterprise-grade. We are outcome-led by design. Moving beyond AI experimentation, we deliver measurable business outcomes – lower operating costs, faster cycle times, higher conversion rates, and sustained margin growth.
