Coforge Wins "AI Native Enterprise" Award at TOI AI Quotient Awards

Recognition highlights Coforge's demonstrated ability to move enterprises from AI experimentation to scaled execution

Greater Noida, India – September 13, 2026 – **Coforge Limited** (NSE: COFORGE), a global AI-native engineering services leader, announced that it has won the flagship **"AI Native Enterprise"** category at the *TOI AI Quotient Awards*, which recognizes organizations that have successfully scaled AI across the enterprise and delivered measurable business impact.

The awards follow a rigorous evaluation by a panel of experts, who reviewed each nominee's AI execution track record against criteria such as business value and impact, technical innovation, scalability, and governance. In addition to receiving the top award, Coforge was also cited for its ability to disrupt markets, accelerate growth, and redefine industry standards.

"This award reflects the progress we've made in embedding AI into the way Coforge operates and delivers value for clients," said **Sudhir Singh, Chief Executive Officer and Executive Director, Coforge**. "Being AI-native is not a strategy or initiative for us. It's increasingly how our business runs. The outcomes we have delivered prove that AI creates the greatest value when it is integrated into the fabric of the enterprise."

The recognition reflects Coforge's continued investment in AI-native delivery models and platforms, including Coforge Nuuron, a composable enterprise autonomy enablement suite, and Momentum blue, a specialized Forward Deployed Engineer (FDE) operating unit that embeds human + AI agent pods within client environments.

About Coforge

Coforge is an AI-native engineering services leader, where AI is the foundation of how we design, build, and deliver intelligent solutions for our clients. We use AI and hyperspecialized industry expertise to engineer autonomous enterprises. We combine AI agents with our AI-enabled workforce, including specialized FDEs in hybrid pod-based delivery units. With a deep focus on trusted AI, our solutions are secure, governed, and enterprise-grade. We are outcome-led by design. Moving beyond AI experimentation, we deliver measurable business outcomes—including lower operating costs, faster cycle times, higher conversion rates, and sustained margin growth.
