Coforge Partners with Driving Forward to Expand Career Pathways for First-Generation and Under-Resourced College Students in Chicago

Coforge supports their mentorship, paves their practical learning roadmap and provide professional connections that help these students move from college to career

Princeton, NJ, USA | Greater Noida, India | October 27, 2026 – Coforge Limited (NSE: COFORGE), a global AI-native engineering services leader, supported Driving Forward, a U.S.-based nonprofit that helps first-generation and under-resourced college students successfully transition from college to career. Coforge participated as an Opportunity Sponsor at the organization's 2026 Annual Celebration, held in Chicago.

Driving Forward helps students build practical skills, confidence and professional networks through programs that include paid internships, one-on-one mentorship and coaching, project-based learning, career-readiness training and networking opportunities. Since 2020, the organization has positively impacted nearly 280 students.

Coforge's sponsorship reflects its commitment to expanding access to career development opportunities and supporting the next generation of professionals. The Coforge team attended the celebration, joining students, mentors, volunteers and industry leaders to recognize the impact of the program. Several Coforge employees also volunteered and some of them have been selected to serve as a Driving Forward mentor in 2027.

"Talent is everywhere, but access to mentorship, practical experience and professional networks is not always equal," said Preeti Singh, EVP & Head of US Geo, Coforge. "Through our support of Driving Forward, we are proud to help students build the skills and connections that can open doors as they begin their careers. We look forward to contributing to this work and to the community of mentors and leaders investing in the next generation."

"We're very grateful to Coforge for investing in Driving Forward and our work with first-generation college students and students from financially disadvantaged backgrounds. Their sponsorship helps us provide the mentorship, practical experience, and connections that can make a lasting difference as students begin their careers," said Marvin Richardson, Board Chair and Co-Founder, Driving Forward.

The 2026 Annual Celebration brought together approximately 100 attendees, including students, volunteer mentors and executives from across the healthcare and business communities. Students shared how the organization's programs have supported their career journeys, while mentors and coaches spoke about the value of helping students prepare for professional opportunities.

About Driving Forward

Our vision is that every college student in America should have an equal opportunity to achieve their career objectives and create a better future for themselves and their communities. To advance that vision, we empower first-generation and under-resourced college students to successfully transition from college to a meaningful career through a supportive professional development, mentorship, and

experiential learning community. To learn more, volunteer or support our mission, visit www.drivingforward.org.

About Coforge

Coforge is an AI-native engineering services leader, where AI is the very foundation of how we design, build, and deliver intelligent solutions for our clients. We use AI and hyperspecialized industry expertise to engineer autonomous enterprises. We combine AI agents with our AI-enabled workforce, including specialized FDEs in hybrid pod-based delivery units. With a deep focus on trusted AI, our solutions are secure, governed, and enterprise-grade. We are outcome-led by design. Moving beyond AI experimentation, we deliver measurable business outcomes—lower operating costs, faster cycle times, higher conversion rates, and sustained margin growth.
