PRESS RELEASE

CORONA Remedies receives **ANVISA GMP (Brazil) Certification** for Bhayla Manufacturing Facility, Reinforcing Its Commitment to **“One World, One Quality”**

Ahmedabad | October 22, 2026

CORONA Remedies Limited, an India-focused pharmaceutical company with a strong presence across Women’s Healthcare, Cardio-Diabetes, Pain Management, and Urology, has received Good Manufacturing Practice (GMP) certification from **Brazil’s National Health Surveillance Agency (ANVISA)** for its manufacturing facility at Bhayla, Ahmedabad, covering both Oral Solid Dosage (OSD) and Women’s Hormone production lines. This milestone further strengthens CORONA’s manufacturing credentials and reaffirms its commitment to maintaining high standards of quality, compliance, and operational excellence.

Reaffirming the Philosophy of **“One World, One Quality”**

While India will remain the company’s primary market, contributing over 96% of its revenue; the ANVISA GMP certification further strengthens its manufacturing credentials. This marks CORONA’s third major GMP accreditation, building on its EU-GMP approvals for the Women’s Hormone and OSD facilities and its EAEU-GMP certification for the OSD facility.

Brazil represents one of the largest pharmaceutical markets in Latin America, with an estimated market size of **USD 44 billion¹**, this market presents opportunities for pharmaceutical manufacturers with strong quality systems and regulatory capabilities.

Together, these recognitions reflect the company’s continued focus on strengthening quality systems, maintaining regulatory compliance, and fostering a culture of continuous improvement across its manufacturing operations.

Commenting on this achievement, **Mr. Viral Sitwala, Executive Director**, CORONA Remedies Limited, said:

*“Quality has always been central to the way we work at CORONA Remedies. Our philosophy of **‘One World, One Quality’** reflects our belief that the standards we follow must remain consistent and uncompromised.*

The ANVISA GMP certification for our Bhayla manufacturing facility is an important recognition of the systems, discipline, and collective efforts that go into maintaining these standards. While India remains our primary market and the focus of our business, such accreditations further strengthen our manufacturing credentials and reaffirm our commitment to quality and compliance. We will continue to strengthen our capabilities and uphold the quality standards that guide everything we do.”
