Zigly Pet Care strengthens veterinary care footprint with acquisition of leading speciality veterinary clinic in Mumbai

Mumbai, September 29, 2026: Zigly Pet Care, India's first omnichannel pet care brand, today announced the acquisition of Prolife Speciality Vet Clinic, managed by Dr. S. M. Gadge in Malad, Mumbai, further expanding its veterinary healthcare network and fast-tracking its strategy to build one of the most comprehensive pet care ecosystems in India. This is Zigly Pet Care's third strategic acquisition as the company continues to expand its veterinary care network with existing practices and is expected to be operational 24x7 in the next nine to twelve months.

Operational since year 2000, the Prolife Speciality Vet Clinic has built a reputation for clinical excellence, advanced surgical capabilities and trusted veterinary care, treating close to 20K pets and reporting an ARR of INR 4.36 crore. Currently, the clinic is offering outpatient consultations, diagnostics, surgery, endoscopy, pathology and pharmacy services and will continue to operate with its existing team of veterinarians, a centre manager and experienced support staff, ensuring continuity of care for existing pet parents.

Commenting on the acquisition, **Saurabh Jain, Chief Executive Officer, Zigly Pet Care**, said, *"India's pet care industry is evolving rapidly, with pet parents increasingly seeking specialised healthcare backed by clinical expertise and round the clock support. Prolife Speciality Vet Clinic has earned the trust of Mumbai's pet parent community over more than two decades, making it an ideal partner in our growth journey. As we plan to transform this into a 24x7 facility and integrating it with the Zigly Pet Care ecosystem, we are expanding access to advanced veterinary care while strengthening trusted our ability to deliver a seamless pet parenting experience. This acquisition also reflects our long-term strategy of scaling high-quality veterinary services through strategic partnerships with respected clinicians across the country."*

The addition of the Mumbai clinic will further expand Zigly Pet Care's veterinary footprint in the city and strengthen its access to quality, specialised pet healthcare. This follows Zigly Pet Care's earlier acquisitions of Small Animal Clinic & Surgical Centre in Khar West and Dr. Santa's Pet Clinic, reflecting the company's focus on expanding its network through partnerships with established veterinary practices. These acquisitions enable Zigly Pet Care to build a wider network of experienced veterinary professionals and bring specialised clinical expertise closer to pet parents across neighbourhoods. The expanded footprint will also help improve access to timely consultations, diagnostics and treatment, particularly for pets requiring ongoing or specialised care. By bringing trusted neighbourhood clinics into its ecosystem, the company aims to make quality and pro-active veterinary care more accessible while strengthening its presence in key markets.

As pet ownership in India continues to grow and the demand shifts towards specialised and accessible veterinary care, Zigly Pet Care is focused on expanding its healthcare footprint through a mix of greenfield expansion and strategic acquisitions. The decision is aligned with the brand's commitment to strengthen veterinary infrastructure, support seasoned clinicians and make world-class pet healthcare more accessible to pet families nationwide.

About Zigly Pet Care:
