# PSBs collect ₹9,000 cr in penalty for minimum balance breach

**MONEY WOES.** 11 banks penalise savings a/c holders for violating norms

**Shikhar Shukla**  
New Delhi

Eleven public sector banks (PSBs) have collected over ₹9,000 crore in the last five years as penalty for not maintaining minimum balance in savings bank accounts, according to the Reserve Bank of India (RBI) data presented in the Report on TFR on Tuesday.

The Reserve Bank of India discontinued average monthly minimum balance charges in March, 2020. Canara Bank, Bank of Baroda, Punjab National Bank, Indian Bank, Bank of India, Central Bank of India and Union Bank of India followed suit from the second quarter of FY20.

accounts (RBI) and salary accounts, besides other categories of accounts, are exempted from maintaining minimum balance.

## LOGIC BEHIND PEN

In a written reply to a question by Congress President and Rajya Sabha MP Mallikarjun Kharge, Minister of State in the Finance Ministry, Pankaj Chaudhary said, "The Department of Financial Services (DFS) has advised banks to examine the issue of rationalisation of penalty charges for non-maintenance of the minimum average balance (MAB), with specific emphasis on providing relief to customers in

semi-urban and rural areas." It seems that more than 11 PSBs have followed the advice while the remaining five are expected to follow the same soon.

The Reserve Bank of India has laid down guidelines regarding levy of penalty charges for non-maintenance of minimum balance in savings bank accounts and regarding customer service in banks. "Banks are permitted to levy penalty charges for non-maintenance of minimum balance in savings accounts, as per their board-approved policy, while ensuring that penalty charges should be a fixed percentage levied on the average of dif-

"DFS has advised banks to examine rationalisation of penalty charges for non-maintenance of the minimum average balance," said the MoS to Finance Ministry Pankaj Chaudhary.

# ₹ nears a crucial support

**Sanjivani K.**  
B. Research Bureau

The rupee has been under pressure since the beginning of this month. The domestic currency has declined about 0.5 per cent in the last one week. This fall has taken it below a key support level of ₹65.50. The rupee crashed a low of ₹65.02 on Tuesday against the dollar, before closing at ₹65.62.

## WEEKLY RUPEE VIEW

A strong rise in the dollar index, especially after the US-Japan trade deal, dragged the rupee lower. Strong foreign money outflows from the Indian equity segments is also weighing on the rupee. The Indian equity segment has seen a net outflow of about \$1.6 billion so far this month.

**DOLLAR OUTLOOK**  
The US Federal Reserve meeting outcome on Wednesday will be important to watch. The central bank is expected to keep the rate unchanged in the 4.25-4.5 per cent range. The market will be closely watching for any hint on the future policy decision on the back of the tariff impact. That will be very important in setting the trend for the dollar going forward.

The dollar index (DXY) has risen well above an impor-

tant resistance level of 95.70. The region between 95.70 and 96.30 will be a good support zone now. The neckline is bullish.

The dollar index can rise to 99.85-100 in the coming days. This can continue to keep the rupee under pressure. The price action after the rise in 100 on the dollar index will need a close watch. Failure to breach the psychological 100 mark can drag the dollar index down to 99 again.

**RUPEE OUTLOOK**  
The trend is down for the rupee. There is some room to fall from here. A crucial support is at the ₹65.50 level, which can be tested in a week. The price action thereafter is going to be very important.

If the ₹65.50 support zone holds, there are good chances for the rupee to recover towards ₹66.50-67.50. On the other hand, if the rupee declines below ₹65.50 decisively, the downside pressure can increase. In that case, the currency can fall to ₹65.00. As such the price action in the ₹65-67.50 will need a very close watch.

Banking was up 22 per cent at ₹440 crore (₹331 crore).

Global net interest margin (NIM) was lower at 2.55 per cent, against 3.07 per cent in the year-ago period.  
"Once we start reducing our deposit rates and the cost of deposit comes down, margins will start improving. We do not foresee any further repo cuts from RBI," said Rajesh Karmali, MD & CEO.  
Karmali said that BI has cut the savings bank deposit rate from 2.75 per cent to 2.5 per cent.
