Commenting on the company's performance, **Mr. Natwar Aggarwal, Chief Financial Officer, Piccadily Agro Industries Limited**, said:

"Our strong first-half performance underscores the resilience of our business model and the growing consumer preference for our premium product portfolio. The 13% growth in revenue and nearly 21% increase in EBITDA reflect our focus on operational efficiency, disciplined cost management, and sustained brand momentum. We are particularly encouraged by the 40.72% sequential rise in net profit (PAT) in Q2, which highlights the scalability and profitability potential of our business.

As we move into the second half of the financial year, we are well positioned to build on this momentum. With the alcobev sector entering a seasonally strong phase and our production capacities approaching optimal utilization, we expect to further strengthen our market presence across both domestic and international markets. Our continued investments in brand building, capacity expansion, and operational excellence will drive our long-term growth trajectory and enhance shareholder value."
