India among top gainers in index of energy transition

GLOBAL ENERGY TRANSITION readiness has declined for the first time in more than a decade amid surge in geopolitical risks, but India has registered one of the strongest improvements, a report said Thursday.

DAMS IN SOUTH LESS THAN 25% FULL

WATER LEVELS IN 47 reservoirs in southern India improved marginally from the previous week to 21.34% of their capacity, yet much below the previous year's level. Sandip Das reports that due to sluggish progress of monsoon, reservoirs in southern region are yet to replenish adequately.

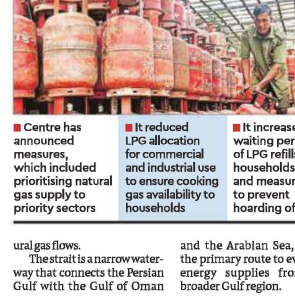

Emergency fuel curbs may be eased back if tensions ease

SUKALP SHARMA New Delhi, June 18

MARITIME TRAFFIC TO PICK UP

WITH THE US-IRAN MOU raising hopes of normalisation of energy flows through the Strait of Hormuz, emergency measures taken since March to ensure adequate fuel supply security to the most critical sectors and consumer segments are now likely to be reviewed and rolled back as the government feels the situation is stable and nearing normalcy, according to a senior government official.

Given the supply squeeze, the government announced several measures, which included prioritising natural gas supply to some priority sectors while reducing it for others, reducing liquefied petroleum gas (LPG) allocation for commercial and industrial consumers to ensure cooking gas availability to households, increasing mandatory waiting periods of LPG refills by households, and measures to prevent hoarding of petrol and diesel.

India shells out \$353 mn extra in two months for LNG imports

SAURAV ANAND New Delhi, June 18

ADDITIONAL OUTGO

INDIA PAID AN estimated \$353 million or over 20% extra for LNG imports during March-April because of disruptions in West Asia forced buyers to replace traditional Qatar supplies with costlier US-linked and spot cargoes.

Official data show LNG imports declined from 4.45 million tonnes (mt) in January-February to 3.43 mt in March-April. However, the import bill fell by only 7%, from \$2.22 billion to \$2.16 billion, highlighting the sharp rise in procurement costs.

At the same time, imports from the United States, surged from 0.14 mt in January and 0.07 mt in February to 0.34 mt in March, 0.28 mt in April, and a record 0.91 mt in May, making America India's largest LNG supplier during the month.
