## Cyient and CNH Industrial Construction Equipment Expand Strategic Partnership to Advance Autonomous Solutions

**Hyderabad, November 27, 2025:** Cyient Limited, a global Intelligent Engineering solutions company, and CNH Construction Equipment segment have reinforced their strategic partnership, focusing on delivering advanced perception and automation capabilities across multiple vehicle platforms.

Over the past two and a half years, Cyient and CNH have been successfully collaborating on key innovation programs, most notably the development of the Advanced Perception System for Wheel Loaders—a breakthrough unveiled at the Bauma exhibition. This system marked a significant step in CNH’s vision for smart and autonomous construction machinery.

Speaking on the partnership, **Humayun Chishti, President, Construction at CNH**, emphasized, “Our collaboration with Cyient demonstrates the power of strategic technology partnerships in accelerating our journey towards autonomy. Cyient has played a critical role in helping us bring our Advanced Perception System to life and will remain an essential partner as we continue to expand autonomy across our construction equipment portfolio.”

The renewed focus of the partnership will be on scaling these autonomous solutions across various vehicle segments, driving improvements in safety, efficiency, and operational productivity. With CNH’s domain expertise and Cyient’s strength in intelligent engineering, the alliance is geared to deliver next-generation systems that align with CNH’s bold ambitions in autonomy and digital transformation.

“We are proud to be a trusted partner to CNH in their autonomy journey,” said Sukamal Banerjee, Executive Director & Chief Executive Officer, Cyient. “Our work together on the Advanced Perception System is just the beginning. We’re excited to co-create solutions that define the future of autonomous construction equipment.”
