Dear Sir,

Subject: Disclosure under Regulation 30 of SEBI (Listing obligations and Disclosure requirements) Regulations, 2015 - Intimation of Grant of Patent

We are pleased to inform you that UFlex Limited has been granted a patent by the Patent Office Government of India (vide patent No. **603158**) on September 18, 2026 (the intimation whereof is received on September 21, 2026) for an invention entitled **“HIGH-SPEED TWIN ASEPTIC PACK PACKAGING MACHINE FOR LIQUID PRODUCTS”** for a term of 20 years commencing from the date of filing of the application viz., September 1, 2023, in accordance with the provisions of the Patents Act, 1970.

The patent covers an aseptic packaging machine for filling and sealing liquid food products at high-speed. It has a unique design, which increases production efficiency, reduces machine footprint, and improves resource efficiency through lower air and power consumption. The machine employs a continuous vertical form-fill-seal (VFFS) configuration with a center seal strip for vertical sealing and an induction sealing arrangement for cross-sealing of packages. Its compact structure incorporates multiple machine frames, strip applicator units, vertical heads etc. for continuous packaging operations. An integrated PLC and HMI panel enables centralized control of the machine functions. The advanced configuration facilitates the formation of multiple sealed packages from packaging laminate, while meeting aseptic packaging requirements.

Kindly take the information on record.

Thanking you.

Yours faithfully,

For UFLEX LIMITED

(Ritesh Chaudhry)
Sr. Vice President - Secretarial &
Company Secretary
