Dear Sir / Madam,

With reference to the today's price movement in the Company's shares on stock exchanges, the Company has been receiving following queries from its shareholders / investors:

1) The reason behind so much decrease in the price?

2) Whether promoters of the Company have been selling shares in the market?

With reference to aforesaid queries our point-wise reply is as under:

1) The Company make timely disclosures of all the events, information etc. that have a bearing on the operation / performance of the Company which include price sensitive information etc. Presently, the Company is not having any such information, which requires disclosure as aforesaid and the Company is not aware of reason of sudden decrease in price of equity share of the Company today. The Company would further like to assure its investors, shareholders and other stakeholders that the fundamentals of the Company remain strong and it continues to move ahead on the growth path.

2) None of the promoters of the Company have sold any shares in the market. However, one of the promoters, Shri Padam Chand Gupta has gifted some of his shares to his family member(s) through off-market transactions and the Company is already making the requisite disclosures in this regard from time to time.
