Sub: SSWL Bags export order from Russian After-Market

Sir,

We are happy to announce that SSWL has bagged its maiden Export order from Russian territory. The order will cater to the Russian after-market demand and this order will open up opportunity for SSWL to increase foothold in export markets. The order is worth 30000 wheels and will cater to passenger car segment.

SSWL is already an exclusive OEM supplier to Renault Russia for the Duster model and is now spreading it portfolio to capture opportunity in the after-market segment.

SSWL is constantly looking to address global after market demand given the size of the market. With this entry into Russian market we look to explore the possibility of supplying the entire range of SSWL export product portfolio which shall cater to across segment vehicles.

Kindly take the same on your record please.

Thanking you.
Yours faithfully,

For Steel Strips Wheels Limited
