PRESS RELEASE **FOR IMMEDIATE DISSEMINATION**

Sterlite Tech recognised as VISIONARY in Gartner's Magic Quadrant for second consecutive year

Mumbai, India – November 9, 2017: Sterlite Tech [BSE: 532374, NSE: STRTECH], a global leader in smarter digital network solutions, announced that it has been recognised as a Visionary in Gartner's prestigious Magic Quadrant (MQ) for Integrated Revenue and Customer Management (IRCM) for Communication Service Providers (CSPs)* for the second consecutive year.

Sterlite Tech has been investing in building a telecom software solution since 2015, and its out-of-the-box service-management platform has been deployed in multiple projects across varied enterprises. This platform enables operators with new revenue models, successful roll out of next-generation services, faster customer acquisition and supports future services. The platform offers high flexibility to a variety of enterprises – Communication Service Providers (CSPs), Mobile Virtual Network Operators/Enablers (MVNOs/MVNEs), Multiple System Operators (MSOs) and Small and Mid-size Businesses (SMBs) – to achieve interoperability that supports 3G/4G/ADSL/FTTH/WI-Max/Wi-Fi and other next-gen network requirements.

Highlighting the recognition, **Dr Anand Agarwal, CEO, Sterlite Tech,** said, "Sterlite Tech is committed to delivering smarter networks with solutions ranging from optical communications products and system integration services to world-class software. Gartner's recognition of our software specialisation is a validation of our thought-leadership position with great execution capabilities." He added, "Our strong software product roadmap is aligned with the evolving needs of our customers to swiftly deliver and monetise next-generation services by leveraging our product's scalability, virtualisation, digital commerce features and open APIs. We continue to aggressively invest to upgrade our offerings, and provide a competitive edge to our clients to win in the era of digitisation."

Every year, Gartner evaluates 21 shortlisted Operations Support Systems (OSS) / Business Support Systems (BSS) vendors for its Magic Quadrant on completeness of vision and ability to execute. Sterlite Tech was a contender in this evaluation, as an integrated provider with a full-suite of IRCM solutions, including billing and account management, customer self-care, real-time rating/charging, policy management, customer/partner lifecycle management, multi-channel support, product catalogue, mediation, interconnect/wholesale billing, analytics and reporting among other functionalities.

About Sterlite Technologies:

Sterlite Technologies Ltd [BSE: 532374, NSE: STRTECH], is a global technology leader that designs, builds and manages smarter digital networks. Sterlite Tech engages with customers in more than 100 countries, with a digital web-scale offering across products, services and software. The Company has
