India to import uranium from Australia under nuclear pact

Both nations announce 18 outcomes, to deepen defence and maritime security cooperation

ARCHIS MOHAN
New Delhi, 9 July

After talks between Prime Minister (PM) Narendra Modi and his Australian counterpart Anthony Albanese in Melbourne, India and Australia on Thursday announced 18 outcomes, including deepening their defence and maritime security cooperation, which underscored the vital role of the bilateral partnership in ensuring a peaceful Indo-Pacific region.

India and Australia also operationalised a pact to enable supply of uranium from Australia to India. India and Australia signed a civil nuclear cooperation pact in 2014. The agreement with Australia on uranium supply would leverage the Sustainable Harnessing and Advancement of Nuclear Energy for Transforming India (SHANTI) Act.

During their discussions, Albanese raised and expressed concern about China's intercontinental ballistic missile (ICBM) test in the Pacific on Monday. In response, Modi said that India views the Indo-Pacific as an area where it would like to see peace, security, and stability. He said India and Australia have shared interests and perspectives on the Indo-Pacific, and should intensify cooperation so that peace and security is continued in the region.

Modi and Albanese acknowledged that the bilateral Economic Cooperation and Trade Agreement (ECTA) signed and implemented in 2022 delivered tangible benefits with a 55 per cent increase in bilateral trade. The two leaders instructed their respective set of officials to conclude the negotiations for the Comprehensive Economic Cooperation Agreement (CECA) at the earliest "to unlock the full potential of the bilateral economies", and firm up a bilateral investment protection framework. On defence and maritime security

Prime Minister Narendra Modi described as "unparalleled" the outcomes from his talks with Australian PM Anthony Albanese in Melbourne

cooperation, the two sides agreed to consult on defence-related developments in the Indo-Pacific that affect shared interests, increasing the complexity of joint defence exercises, including with partners. Australia and India along with the US and Japan are part of the Quad grouping.

The two sides said they will accelerate efforts to build interoperability and information-sharing between defence forces, and "expand aircraft deployments from each other's territories". "We will expand our cooperation with the United States, America and Japan, to build capability and cooperation towards our positive vision for an open, stable, peaceful, and prosperous Indo-Pacific region," the two sides said in their joint statement. The two leaders agreed that India and Australia, which reside on the edges of the Indian Ocean, have enormous amount of strategic convergence on the key issues of the

day, and have a shared approach for ensuring a free, open, and prosperous Indian Ocean region.

An agreement was also signed between their respective coast guards, the Indian Coast Guard (ICG) and the Maritime Border Command (MBC) of Australia. The two sides also committed to work closely in shipbuilding, and ship repair & maintenance. In the defence sector, the two sides said they will promote connections between Australian and Indian defence industries, through Australia's first defence trade mission to India and the Australia-India Defence Industry Roundtable.

The two sides instituted an annual bilateral defence ministers' dialogue, and also annual dialogues on supply chain resilience, critical technology, cyber security, digital resilience, and defence research and collaboration. Both sides resolved to cooperate in critical minerals and energy security

domains. They committed to maintaining a stable, secure, and reliable supply of energy products — such as coal, diesel, oil, liquefied natural gas, and natural gas — with New Delhi recognising Australia's role as an important supplier of liquefied natural gas (LNG) and coal to India.

Modi described as "unparalleled" the outcomes from his talks with Albanese, especially in areas of renewable energy, climate action, nuclear energy, critical minerals, technology, and education. An announcement was also made on the deployment of an Indian military instructor in the Australian Defence College for 2026-29.

"Today we have issued an important Joint Declaration to enhance cooperation in defence and security. Through the India-Australia Defence Innovation Corridor, we will work to connect defence startups and industries," Modi said.

Drawing on the popularity of cricket in the two countries, Modi said, "As we are here in Melbourne — the sports capital of the world — not talking about sports would be like not starting a cricket match after the toss. Cricket is the diplomatic language of India-Australia relations. That is why our meetings, too, resemble cricket. The agenda — focused like a one-day match... Decisions — swift like a T20 game — and the partnership — long-term, like a Test match."

Agreements were also signed in the education sector with Australia's Victoria University receiving an approval to set up and operate its campus in Gurugram. And, Flinders University joined seven other Australian universities endorsed to have campuses across India. Western Australian TAFE will support a Centre of Excellence for Skilling in Mining and Mining Equipment, Technology and Services in Bhuvanagar.

TOKENISED CROSS-BORDER PAYMENTS

HSBC, Citi, DBS among 17 banks to pilot Swift's blockchain ledger

SUBRATA PANDA
Mumbai, 9 July

Seventeen global banks including HSBC, Citi, DBS, BNP Paribas, Standard Chartered, MUFG Bank, UBS and Wells Fargo, are preparing to pilot cross-border transactions using Swift's blockchain-based ledger, enabling them to support 24/7 cross-border payments with tokenised deposits.

The participating banks span six continents and include ANZ, BNP Paribas, BNY, Citi, DBS, First Abu Dhabi Bank, FirstRand Bank, HSBC, Itaú Unibanco, Lloyds Bank, Mashreq, MUFG Bank, OCBC, Standard Chartered, UBS, UOB and Wells Fargo.

Swift said the blockchain-based ledger is ready for initial use and will provide participating banks with a secure orchestration layer for bank-issued tokenised deposits on their own ledgers. The platform will enable banks to offer funds for customers, including overnight and on weekends, before

THE PLATFORM WILL HELP BANKS MOVE FUNDS FOR CUSTOMERS, INCLUDING OVERNIGHT AND ON WEEKENDS, BEFORE FINAL SETTLEMENT THROUGH EXISTING SYSTEMS

completing final settlement through existing systems. According to the global financial messaging cooperative, the ledger is the first use case for the platform that it announced last year and was designed and built with feedback from international financial institutions in nine months.

"Without new ledger capability, we're extending trust and stability of established finance into the frontiers of digital money. It allows tokenised value to move across borders with the velocity and flexibility modern commerce expects, while maintaining the same high levels of resilience, security and compliance

global finance requires," said Thierry Chilos, chief business officer at Swift.

"The strong support from banks shows the practical value of this approach — one that will help scale benefits globally while creating a foundation for future innovation in areas like programmable money and agentic commerce," Chilos added.

Swift said banks will benefit from an improved client experience and greater global liquidity efficiency without compromising the compliance, credit, risk and control standards embedded in existing payment processing.

The cooperative said the ledger will expand in functionality and availability after the initial controlled go-live phase. It added that the platform builds on improvements already made to its existing payment rails, with 75 per cent of payments on the network reaching beneficiary banks within 10 minutes, and often in seconds.

India opens high seas to fishermen with fresh LoA regime

HEMANT KUMAR ROUT
Bhubaneswar, 9 July

Vice-President C P Radhakrishnan on Thursday launched the issuance of Letters of Authorisation (LoA) for sustainable harnessing of fisheries in the high seas. The initiative, he said, would boost India's maritime economy by allowing the fishing community to tap marine resources in the country's exclusive economic zone (EEZ) and beyond.

India has a coastline of more than 11,000 km and an exclusive economic zone covering nearly 2.4 million square km, making it one of the world's most resource-rich maritime nations.

The Vice-President added that India's fisheries and aquaculture sector has emerged as one of the country's fastest-growing economic segments, with rising global confidence in the quality of seafood opening up export opportunities.

Despite this marine wealth, he observed that a significant portion remained underutilised because fishing had traditionally been confined to coastal waters. "This (initiative) will strengthen fish farmer-producer organisations

(FFPOs), fisheries cooperatives and individual fishermen by facilitating their participation in sustainable deep-sea and high-seas fishing. It will improve access to high-value fish resources, boost incomes of fishing communities and accelerate India's seafood exports."

The new policy framework would encourage Indian fishermen to confidently venture into deeper waters for the sustainable harvesting of high-value species such as tuna, reducing pressure on near-shore fisheries while unlocking economic opportunities. Despite high potential, India's fishing activity remained concentrated within 40 to 30 nautical miles from the coast for years. This LoA allows Indian-flagged fishing vessels to undertake fishing or fishing-related activities in the high seas. He said India was the world's second-largest fish-producing country, accounting for 8 per cent of global fish production. The fisheries sector supports the livelihoods of nearly three crore fishermen and fish farmers across the country, while seafood exports crossed ₹3,000 crore in FY26.

Securitisation volumes in Q1 up 20% on NBFC push

India's securitisation market began 2026-27 (FY27) on a strong note, with volumes rising about 20 per cent year-on-year (Y-o-Y) to ₹61,000 crore in the April-June quarter, driven almost entirely by non-banking financial companies (NBFCs), according to rating agency Crisil.

The growth extends the trend seen in the previous financial year, when banks sharply reduced their securitisation activity while non-banking entities continued to

increase issuances. NBFCs accounted for nearly the entire market during the quarter, with overall volumes originating from the segment growing 27 per cent over the corresponding period of FY26. Crisil said the robust growth came despite some of the larger NBFCs lowering their sell-down volumes, indicating that several new and smaller entities are increasingly using securitisation as a funding and liquidity tool. **BS REPORTER**

Skills-based occupational classification in the works

AUHOONA MUKHERJEE
New Delhi, 9 July

The Ministry of Labour, in collaboration with the International Labour Organization (ILO), has begun a feasibility study to develop an international reference classification of occupations based on skills and capabilities. Additional Secretary and Director General of Employment Ajoy Sharma said on Thursday. The framework aimed at aligning global capability centres (GCCs) better match talent demand with workforce supply.

Speaking at the Confederation of Indian Industry GCC Business Summit, Sharma said the ministry is undertaking a feasibility study to develop an international reference classification of occupations based on skills and capabilities. The framework aims to improve talent mapping, identify skill

gaps, compare occupational requirements across countries, identify transferable skills across occupations, and map pathways for workers to transition into emerging roles through targeted upskilling.

"In collaboration with the ILO, India is undertaking an important feasibility study on the international reference classification of occupation-based skills and capabilities. For the GCC ecosystem, this framework can help create a common language between the global capability demand and the talent supply."

Sharma said the prototype, covering the digital, green, and care sectors, is expected to be ready by September. He invited GCCs to participate in testing the framework and provide feedback before it is finalised to help make the classification more robust and relevant to

industry requirements.

He said the exercise would also help determine the additional skills and training duration required for workers to move into occupations witnessing rising demand. By identifying adjacent occupations with transferable skills, the framework could enable help employers access talent more quickly, particularly as technological changes shorten the shelf-life of skills.

The official also outlined plans to strengthen the National Career Service (NCS) portal into a labour market intelligence system. While the platform currently functions primarily as a job-matching service, the ministry plans to use employer demand data to identify emerging occupations, anticipate regional skill shortages, and generate talent maps.

NOTICE

NOTICE IS HEREBY GIVEN that the 78th Annual General Meeting of the members of The Great Eastern Shipping Company Limited will be held through Video Conferencing ("VC") / Other Audio Visual Means ("OAVM") on Tuesday, August 04, 2026 at 03.00 p.m. (I.S.T.) in compliance with the applicable provisions of the Companies Act, 2013 and circulars issued by the Ministry of Corporate Affairs and the Securities and Exchange Board of India.

The Notice of the AGM and the Annual Report for FY 2025-26 has been sent to the members of the Company whose email addresses are registered with the Company/Depository Participant(s) by way of email on July 09, 2026. The same is also available at the Company's website: www.greatship.com and on the websites of BSE Limited: www.bseindia.com and National Stock Exchange of India Limited: www.nseindia.com and on the website of National Securities Depository Limited ("NSDL"): www.evoting.nsdl.com.

The Company has engaged the services of NSDL as the Agency for providing VCO/OAVM facility as well as e-voting facility.

Members will be able to attend the AGM through VCO/OAVM at <https://www.evoting.nsdl.com>. All the business as set out in the Notice of AGM will be transacted through voting by electronic means.

Members who are individuals holding shares in demat mode may cast their votes through remote e-voting through the websites of NSDL/CDSL/Depository Participants.

Other members may cast their votes through remote e-voting at <https://www.evoting.nsdl.com>. If the member is already registered with e-voting platform of NSDL, he/she can use his/her existing User ID and Password for log in.

The facility for e-voting will also be made available during the AGM and members attending the AGM who have not cast their vote(s) by remote e-voting will be able to vote at the AGM.

Instructions pertaining to Remote e-voting:

The remote e-voting period commences at 09.00 a.m. on Thursday, July 30, 2026 and ends at 05.00 p.m. on Monday, August 03, 2026. Remote e-voting will not be allowed beyond the said date and time and the remote e-voting will be disabled by NSDL upon expiry of the aforesaid period.

A member's voting rights shall be in proportion to his/her share of the paid-up equity share capital of the Company as on July 28, 2026 ("cut-off date"). A person whose name is recorded in the register of members of the Company or in the register of beneficial owners maintained by the Depositories as on the cut-off date only shall be entitled to avail the facility of remote e-voting as well as voting in the AGM.

Manner of registering/updating e-mail addresses to receive the Notice of the AGM along with the Annual Report:

In case of a member whose e-mail address is not registered / updated with the Company / KFin Technologies Limited/ Depository Participant(s), please follow the following steps to generate your login credentials:

- Members holding shares in physical mode are requested to register / update their email addresses by writing a letter to the Company or to Company's Registrar and Transfer Agent ("RTA") - KFin Technologies Ltd. ("KFin"). Scanned copy of the letter along with self-attested copies of PAN Card may be emailed to the Company at shares@greatship.com or to KFin at enward.ris@kfin.tech.
- Members holding shares in dematerialised mode who have not registered their e-mail addresses with their Depository Participant(s) are requested to register / update their email addresses with the Depository Participant(s) with whom they maintain their demat accounts.
- After due verification, the Company / KFin/NSDL will forward your login credentials to your registered email address.

Any person who becomes a member of the Company after despatch of the Notice of the Meeting and holding shares as on the cut-off date may obtain the User ID and password for remote e-voting by sending a request to NSDL at evoting@nsdl.com or to the Company at shares@greatship.com or to KFin at enward.ris@kfin.tech.

However, if you are already registered with NSDL for remote e-voting, then you can use your existing user ID and password for casting your vote. If you forgot your password, you can reset your password by using "Forgot User Details/Password" or "Physical User Reset Password" option available on www.evoting.nsdl.com or call on 022 - 4886 7000.

In case of Individual Shareholder holding securities in demat mode who acquires shares of the Company and becomes a Member of the Company after sending of the Notice and holding shares as of the cut-off date, may follow steps mentioned in the Notice of the AGM under "Access to NSDL e-Voting system".

A member may participate in the AGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote again in the AGM.

In case of any queries/ grievances relating to voting by electronic means, the members may refer Frequently Asked Questions (FAQs) for shareholders available at www.evoting.nsdl.com or call on 022 48867000. The members may also contact at the following address:
