MANAGEMENT COMMENTARY

Mr. Ramesh Kumar Vijay

Promoter & Chairman

“FY26 has been a year of steady progress and strong business momentum for Dar Credit & Capital Ltd. We delivered healthy growth across our lending operations, supported by expanding customer relationships, disciplined credit practices, and improved operational efficiency. Our continued focus on financial inclusion and responsible lending has helped strengthen our market presence across key regions.

During the year, we enhanced our distribution network, strengthened our risk management framework, and leveraged technology to improve customer servicing and operational scalability. We also witnessed encouraging demand across our core lending segments, which contributed positively to the Company’s overall performance.

As we move ahead, we remain committed to expanding our loan portfolio prudently, improving asset quality, driving sustainable profitability, and creating long-term value for all our stakeholders while continuing to support underserved communities through accessible financial solutions.”

BUSINESS OVERVIEW

WHAT WE DO

We have expertise in India's financing and investment sector, and have developed a strong understanding of the financial needs of underbanked and underserved customers.

Our Financial Offerings:

We specialize in providing credit solutions to low-income individuals, particularly those in class-fourth employment roles such as cleaners, sweepers, and municipal peons. We also support small-scale shopkeepers and vendors, with a dedicated focus on empowering women entrepreneurs.

In addition to our headquarters in Kolkata and regional office in Jaipur, DCCL operates through its branch offices across West Bengal, Rajasthan, Bihar and Jharkhand also Camp Offices are set up in the States of Madhya Pradesh and Gujarat.

TECHNOLOGY & DIGITAL PLATFORMS

We have implemented technology across our operations to enhance efficiency, improve processes, and increase productivity. This enables us to provide timely financial solutions, ensuring superior customer service.

Key Components of IT Systems:

LOS & LMS Integration:

We operate LOS, LMS, and accounting for Micro and MSME loans using an in-house designed software, '**Vijay**', developed by **Qbent Technologies Pvt. Ltd.**

- Qbent Technologies is a Kolkata-based IT company with senior developers from Wipro, TCS, and Accenture.
- The software connects all branches with the Head Office in Kolkata, ensuring seamless operations.

Cloud-Based Personal Loan operating & Management System:

- Our personal loan segment operates on **RISEMONEY**, a cloud-based software developed by **RISINGSUNTECH**.
- It enables centralized control, integrating the Head Office and all Branch Offices.
- Provides **real-time** access to loan management and transactions, ensuring transparency and efficiency.

MAJOR DEBT PARTNERS

7 banks, SIDBI and 29 NBFCs as lenders have (as of March, 2026).

Strong long-term relationships with financial partners.

Established formal agreements with multiple banks and NBFCs for financing.

- Hybrid model: Branch expansion + digital platforms for accessibility
- Local partnerships & agent networks for last-mile delivery

Strengthening Risk & Underwriting Models

- Data-driven decision-making for accurate credit assessment
- AI-powered risk management & fraud detection
- Adaptive underwriting policies for changing market conditions

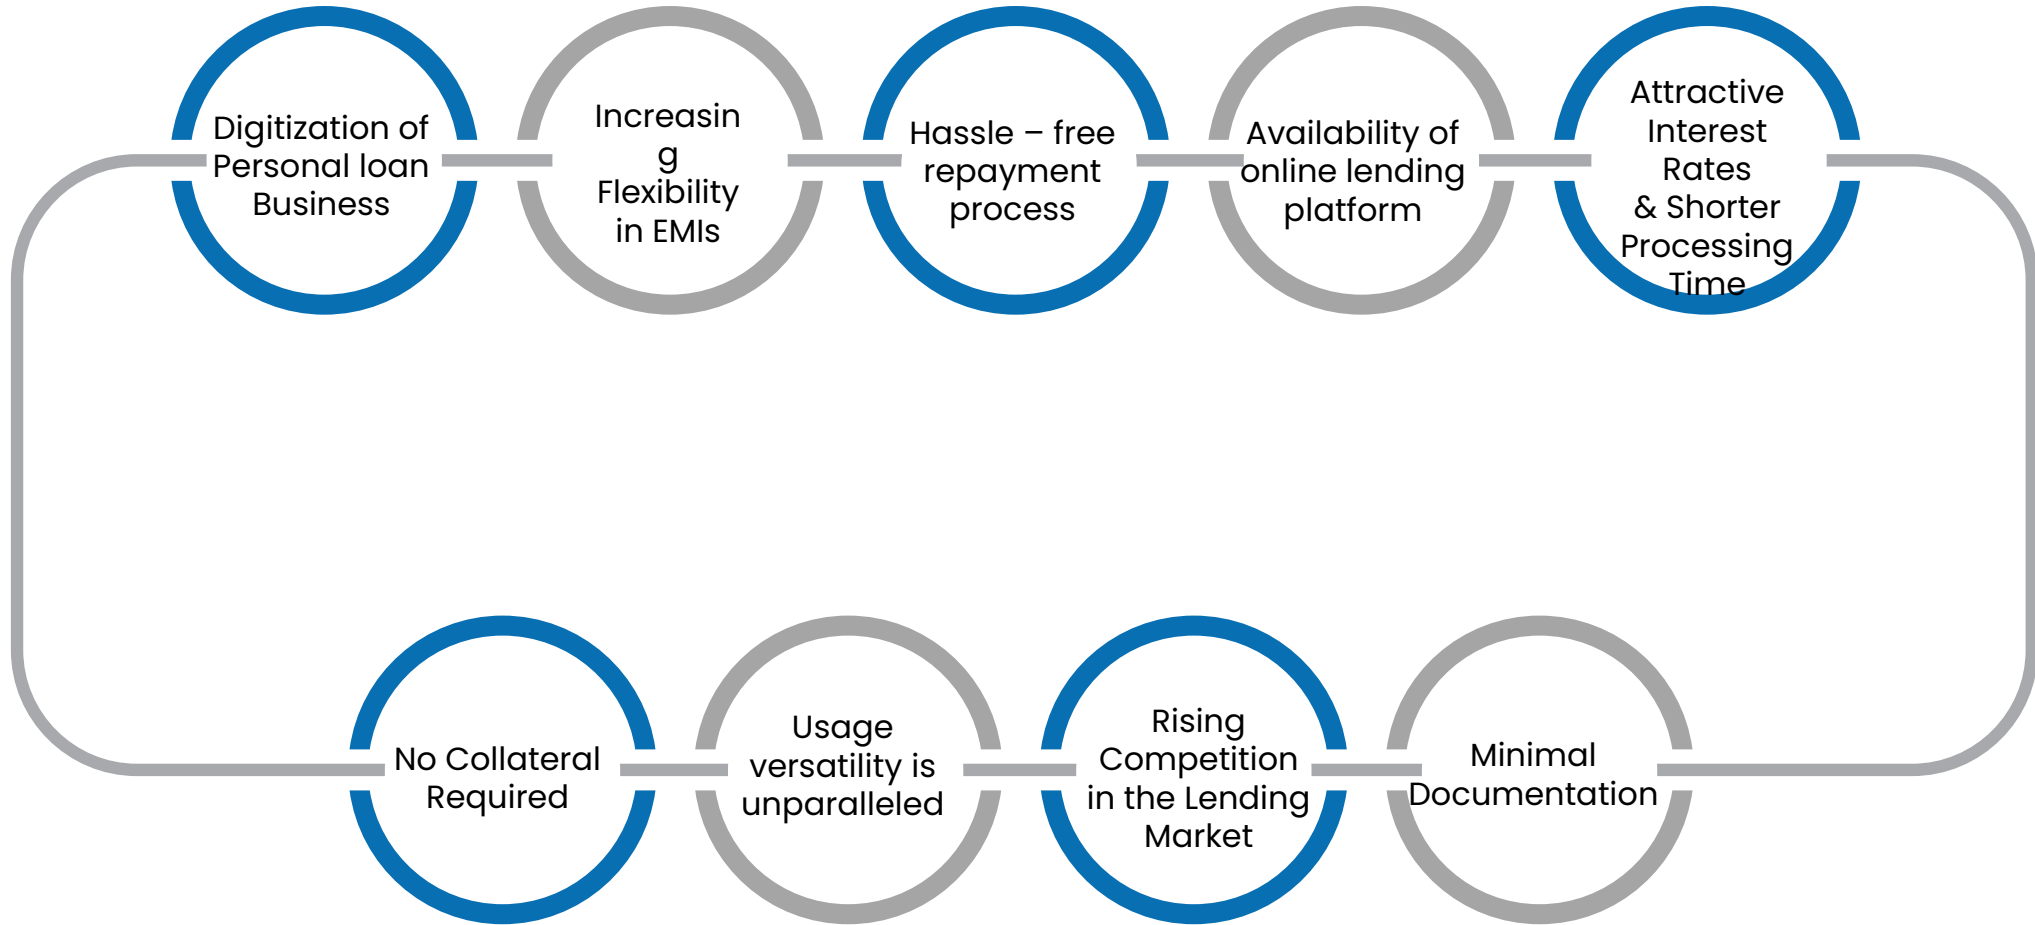

INDUSTRY OVERVIEW

GROWTH DRIVERS OF PERSONAL LOAN MARKET

Personal loan market is forecast to grow at a formidable rate of **17.67%** during **FY2025 - 2030**.

Major Drivers:

GROWTH DRIVERS OF MSME LOAN MARKET

Major Drivers

Interest Rates

The Reserve Bank of India (RBI) has retained an accommodative stance with the **repo rate at 5.25%** as of February 2026. This is expected to continue to result in lower lending rates of banks, which in turn is expected to increase the demand for MSME loans in India.

Economic Growth

A higher economic growth rate can lead to increased business activity and higher demand for credit. India's economy has been expanding at a **rate of 6.5%** since 2023–24, which is expected to boost the demand for MSME loans in India.

Technological Advancements

The use of technology has revolutionized the lending industry, making it easier for borrowers to apply for loans and for lenders to process applications. The emergence of fintech companies has made it easier for MSMEs to access credit. These companies use alternative data sources and innovative credit assessment models to provide loans to MSMEs that would otherwise be considered too risky by traditional lenders. The increased use of technology is expected to further increase the demand for MSME loans in 2026.
