Subject: Media Release for Strategic Partnership with Sangfor Technologies for the MEA Region

Dear Sir/Madam,

DC Infotech is delighted to announce a new strategic partnership with Sangfor Technologies, a global leader in cybersecurity, cloud computing, and IT infrastructure solutions.

Through this collaboration, DC Infotech will bring Sangfor's cutting-edge, next-generation technology solutions to customers across the Middle East & Africa (MEA) region.

This partnership enables DC Infotech to deliver enhanced cybersecurity and cloud infrastructure solutions across MEA, while providing customers with access to Sangfor's next-generation IT innovations. It also strengthens our regional support capabilities and empowers enterprises with comprehensive, end-to-end digital transformation enablement.

This collaboration underscores our commitment to expanding our capabilities and providing secure, scalable, and high-performance solutions that empower enterprises in MEA on their digital transformation journey.

About Sangfor Technologies

Sangfor Technologies is a global leader in cybersecurity, cloud infrastructure, and IT innovation, serving over 100,000 customers worldwide. Founded in 2000, the company offers a comprehensive portfolio that includes Hyper-Converged Infrastructure (HCI), Virtual Desktop Infrastructure (VDI), Next-Generation Firewall (NGFW), SASE, endpoint security, and managed cloud services. With a strong focus on continuous R&D and a global presence across 70+ locations, Sangfor delivers integrated, high-performance, and secure digital-transformation solutions to enterprises, governments, BFSI, healthcare, and large corporates.

Management Comment:

"We are delighted to formalize our partnership with Sangfor Technologies, a global leader in cybersecurity, cloud computing, and IT infrastructure. This collaboration comes at a pivotal time, as enterprises across the MEA region are accelerating their digital transformation journeys and seeking reliable, high-performance technology partners. Through this partnership, we will be able to bring Sangfor's advanced cybersecurity solutions, cloud platforms, and cutting-edge IT innovations to a wider customer base, supported by DC Infotech's strong regional presence and technical expertise.

For our customers, this means greater access to robust, secure, and scalable solutions that can address evolving threats, enhance operational efficiency, and support long-term digital modernization. By combining Sangfor's innovation with our deep understanding of regional market needs, we aim to deliver comprehensive, end-to-end solutions that drive measurable business outcomes. We are confident that this partnership will create significant value for enterprises across MEA and strengthen our position as a trusted technology partner."
