II. Overview, background and objects of the Scheme

- i. DCMSR had, in August 2022, constituted a Restructuring/ Reorganisation Committee comprising of independent directors, non-executive directors and director-finance, and headed by its chairman, Mr. S. B. Mathur (“RRC”), to explore the possibility of restructuring the operations of DCMSR with a view to unlock growth potential and shareholder value. The RRC had to consider various options on the restructuring/ reorganisation of the businesses of DCMSR with a view to unlocking shareholder value and to embark on future growth and expansion of the different business verticals housed in DCMSR, with focussed attention and enhancement of the valuations, in a smooth and seamless manner.
- ii. The RRC, on 14 August 2023, provided its recommendation to the Board of Directors of DCMSR, whereby it *inter alia* recommended a composite scheme of arrangement involving demerger of 2 (two) business undertakings (i.e., Chemical Undertaking and Rayon Undertaking of DCMSR into 2 (two) existing companies, on a going concern basis, while the residual undertaking comprising of sugar, alcohol and power would be retained in DCMSR, after the amalgamation of the Transferor Company with DCMSR, since (a) the 3 (three) segregated business verticals of sugar, chemicals and rayon being diverse in nature with no critical business inter-dependencies, would be best placed in independent companies; (b) the separated undertakings being part of separate companies would have a greater possibility of inviting specialised and strategic investors and joint venture partners, and the demerger as set out in the Scheme would likely increase shareholder value and focus each company on specific business, leading to faster growth and better price discovery; and (c) the family members constituting the ‘promoter and promoter group’ of DCMSR would have direct ownership in each vertical (instead through investment company(ies)) so that they can take independent decisions on their respective shareholdings.
- iii. The Board of Directors of DCMSR therefore, on 14th November 2023, recommended a composite scheme of arrangement involving amalgamation of the Transferor Company with DCMSR followed by demerger of the Chemical Undertaking and Rayon Undertaking of DCMSR into 2 (two) separate companies, namely, the Resultant Company 1 and Resultant Company 2.
- iv. The amalgamation of the Transferor Company with DCMSR shall lead to simplification of the shareholding structure and reduction of shareholding tiers and demonstrate direct commitment to and engagement with DCMSR of/by the family members constituting the ‘promoter and promoter group’ of DCMSR. Such amalgamation shall have no adverse implication for the Transferor Company, DCMSR, public shareholders of DCMSR, or the Resultant Companies. The ‘promoter and promoter group’ of DCMSR shall cumulatively hold the same number of shares in DCMSR, prior to and post such amalgamation of the Transferor Company with DCMSR, as well as demergers of the Chemical Undertaking and the Rayon Undertaking of DCMSR into Resultant Company 1 and Resultant Company 2, respectively, as contemplated in this Scheme.
- v. Further, the demerger shall provide scope and opportunities for pursuing independent growth, collaboration and expansion of the 3 (three) segregated business verticals (viz., Chemical Undertaking, Rayon Undertaking and Residual Undertaking) for enhancing their valuations. Since such business verticals are independent and self-sufficient (with no critical business inter-dependencies on each other), the transition will be smooth and seamless, and each such vertical will continue to function efficiently after the demerger. By unlocking value, the option of independent joint ventures, collaborations on a sectoral basis are made possible, i.e., separate ventures of each of the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, and the segregation thereof will allow each of DCMSR, Resultant Company 1 and Resultant Company 2 to create a strong and distinctive platform with more focused business and management teams, which will enable greater flexibility to pursue long term objectives and independent business strategies.
- vi. The objects of the Scheme are as under :-
 - a. greater management focus on each business vertical (being Chemical Undertaking, Rayon Undertaking and Residual Undertaking);
 - b. better administrative efficiency;
 - c. operational rationalisation, organisational efficiency and optimum utilisation of resources;
 - d. focused approach to respective line/stream of business;
 - e. ability to leverage financial and operational resources for each business;
 - f. allows shareholder to have a choice of investment in some and not all the businesses;
 - g. better price discovery as performance of each business can be evaluated and projected without counter balancing of other businesses;

- h. unlocking shareholder value and opportunity for the public shareholders to exploit the individual potential of DCMSR and each of the Resultant Companies, pursuing options of independent joint ventures, collaborations on a sectoral basis i.e., separate ventures for sugar, chemical and rayon and creating a strong and distinctive platform with more focused management teams, which will enable greater flexibility to pursue long term objectives and independent business strategies;
- i. providing scope for independent growth, collaboration and expansion of the three segregated business verticals, including for enhancing their valuations and efficient capital allocation;
- j. provide diversity in decisions regarding use of cash flows and exploring various opportunities;
- k. allowing the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, which are independent, self-sufficient and standalone undertakings (with no critical business inter-dependencies), to continue to function with efficiency and efficacy, and synergies with a seamless transition;
- l. streamlining promoter shareholding of DCMSR by eliminating shareholding tiers and simplification of promoter shareholding into a clear structure directly identifiable with the promoters; focused management and direct commitment, attention and long term stable leadership to chemical, rayon and sugar businesses of DCMSR, comprising the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, respectively; and
- m. facilitating succession planning in the future in an orderly and strategic manner, without any business disruption, which is key to secure the long-term stability, leadership, transparency and operational clarity of DCMSR and the Resultant Companies.

PART-I

1.1 Overview

- 1.1.1 DCMSR (*as defined below*) had, in August 2022, constituted a Restructuring/Reorganisation Committee comprising of independent directors, non-executive directors and director-finance, and headed by its chairman, Mr. S. B. Mathur ("**RRC**"), to explore the possibility of restructuring the operations of DCMSR with a view to unlock growth potential and shareholder value. The RRC had to consider various options on the restructuring/reorganisation of the businesses of DCMSR with a view to unlocking shareholder value and to embark on future growth and expansion of the different business verticals housed in DCMSR, with focussed attention and enhancement of the valuations, in a smooth and seamless manner.
- 1.1.2 The RRC, on 14 August 2023, provided its recommendation to the Board of Directors of DCMSR, whereby it *inter alia* recommended a composite scheme of arrangement involving demerger of 2 (two) business undertakings (i.e., chemical undertaking and rayon undertaking (including defence and engineering projects)) of DCMSR into 2 (two) existing companies, on a going concern basis, while the residual undertaking comprising of sugar, alcohol and power would be retained in DCMSR, after the amalgamation of the Transferor Company (*as defined below*) with DCMSR, since (a) the 3 (three) segregated business verticals of sugar (including alcohol and power), chemicals and rayon (including defence and engineering projects) being diverse in nature with no critical business inter-dependencies, would be best placed in independent companies; (b) the separated undertakings being part of separate companies would have a greater possibility of inviting specialised and strategic investors and joint venture partners, and the demerger would likely increase shareholder value and focus each company on specific business, leading to faster growth and better price discovery; and (c) the family members constituting the 'promoter and promoter group' of DCMSR would have direct ownership in each vertical (instead through investment company(ies)) so that they can take independent decisions on their respective shareholdings. DCMSR notified the Stock Exchanges (*as defined below*) on 14 August 2023 of the in-principle approval of the Board of Directors to the proposed restructuring of the DCMSR's operations to undertake a composite scheme of arrangement through the amalgamation of the Transferor Company with DCMSR and the demerger of 2 (two) business verticals of DCMSR, namely the Chemical Undertaking (*as defined below*) and the Rayon Undertaking (*as defined below*), on a going concern basis.
- 1.1.3 The Board of Directors of DCMSR therefore, on 14 November 2023, recommended a composite scheme of arrangement involving amalgamation of the Transferor Company with DCMSR followed by demerger of the Chemical Undertaking and Rayon Undertaking of DCMSR into 2 (two) separate companies, namely, DCM Shriram Fine Chemicals Limited, a company incorporated under the Act and having its registered office at 6th Floor, Kanchenjunga Building, 18 Barakhamba Road, New Delhi – 110001, New Delhi, India ("**Resultant Company 1**") and DCM Shriram International Limited, a company incorporated under the Act and having its registered office at 6th Floor, Kanchenjunga Building, 18 Barakhamba Road, New Delhi – 110001, New Delhi, India ("**Resultant Company 2**"), respectively, (Resultant Company 1 and Resultant Company 2 are hereinafter collectively referred to as the "**Resultant Companies**") with retention of the Residual Undertaking (*as defined below*) in DCMSR.
- 1.1.4 The amalgamation of the Transferor Company with DCMSR shall lead to simplification of the shareholding structure and reduction of shareholding tiers, and demonstrate direct commitment to and engagement with DCMSR of/by the family members constituting the 'promoter and promoter group' of DCMSR. Such amalgamation shall have no adverse implication for the Transferor Company, DCMSR, public shareholders of DCMSR, or the Resultant Companies(*as defined below*). The 'promoter and promoter group' of DCMSR shall cumulatively hold the same number of shares in DCMSR, prior to and post such amalgamation of the Transferor Company with DCMSR, as well as demergers of the Chemical Undertaking and the Rayon Undertaking of DCMSR into Resultant

Company 1 and Resultant Company 2, respectively, as contemplated in this Scheme.

- 1.1.5 Further, the demerger shall provide scope and opportunities for pursuing independent growth, collaboration and expansion of the 3 (three) segregated business verticals (viz., Chemical Undertaking, Rayon Undertaking and Residual Undertaking) for enhancing their valuations. Since such business verticals are independent and self-sufficient (with no critical business inter-dependencies on each other), the transition will be smooth and seamless, and each such vertical will continue to function efficiently after the demerger. By unlocking value, the option of independent joint ventures, collaborations on a sectoral basis are made possible, i.e., separate ventures of each of the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, and the segregation thereof will allow each of DCMSR, Resultant Company 1 and Resultant Company 2 to create a strong and distinctive platform with more focused business and management teams, which will enable greater flexibility to pursue long term objectives and independent business strategies. This is critical as modern investors and collaborators do insist on value growth without diffusion of their investments into multiple businesses, and the same will also provide diversity in decisions regarding use of cash flows and exploring various opportunities for separate businesses. The Chemical Undertaking, Rayon Undertaking and the Residual Undertaking are independent, self-sufficient and standalone (with no critical business inter-dependencies), and would continue to function with efficiency, efficacy and synergies post the demergers. The promoter family is moving closer to a generational shift and this Scheme will also facilitate succession planning in an orderly and strategic manner, without any business disruption, which is key to secure the long-term stability, leadership, transparency and operational clarity. This Scheme will unlock shareholder value and the growth potential of DCMSR and the Resultant Companies. Further, the amalgamation of the Transferor Company with DCMSR and the demergers shall provide the family members constituting the 'promoter and promoter group' of DCMSR to have direct holding of shares of DCMSR and consequently, the Resultant Companies (instead of through investment company(ies)), so that they can take independent decisions on their respective shareholdings in each entity.
- 1.1.6 All costs, charges and expenses pertaining to amalgamation of the Transferor Company with DCMSR, pursuant to this Scheme and any other expenses or payment for liabilities pertaining to the Transferor Company prior to the Effective Date shall be borne out of the Surplus Assets (*as defined below*) of the Transferor Company. Any deficit thereof, i.e., such costs, charges or expenses (pertaining to amalgamation of the Transferor Company with DCMSR) exceeding the Surplus Assets, shall be borne in the manner provided in this Scheme. Limited Review Report on unaudited standalone financial results of DCM Shriram Industries Limited for the quarter ended 30 September 2024 and year-to-date results for the period from 1 April 2024 to 30 September 2024 pursuant to Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To the Board of Directors of DCM Shriram Industries Limited

1. We have reviewed the accompanying Statement of unaudited standalone financial results of DCM Shriram Industries Limited (herein after referred to as "the Company") for the quarter ended 30 September 2024 and year to date results for the period from 1 April 2024 to 30 September 2024 ("the Statement").
2. This Statement, which is the responsibility of the Company's management and approved by its Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations"). Our responsibility is to issue a report on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of interim financial information Performed by the independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. We draw attention to Note 1 to the Statement, which states that as per the policy consistently followed by the Company for the preparation of quarterly financial results, the sugar off-season expenses amounting to Rs. 3,200 lakhs are not considered as part of cost of sugar produced during the period and are carried forward as inventory for inclusion in the cost of sugar to be produced in the remaining part of the financial year. However, for annual accounts, such expenses are fully absorbed in cost of sugar produced during the year. Had the Company recognised the above expenses in profit and loss account in the period it is incurred, the decrease in stock-in-trade would have been higher by Rs. 1,116 lakhs for the quarter and six months ended 30 September 2024. Consequently, profit after tax would have been lower by Rs. 726 for the quarter and six months ended 30 September 2024. Our review report for the corresponding quarter and six months ended 30 September 2023 included in the Statement was also modified in respect of the above matter.
5. Based on our review conducted as above, except for the effect of matter referred in paragraph 4 above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the Listing Regulations including the manner in which it is to be disclosed, or that it contains any material misstatement.

Limited Review Report on unaudited consolidated financial results of DCM Shriram Industries Limited for the quarter ended 30 September 2024 and year to date results for the period from 1 April 2024 to 30 September 2024 pursuant to Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To the Board of Directors of DCM Shriram Industries Limited

1. We have reviewed the accompanying Statement of unaudited consolidated financial results of DCM Shriram Industries Limited (hereinafter referred to as "the Parent"), and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group") and its share of the net profit after tax and total comprehensive income of its associate for the quarter ended 30 September 2024 and year to date results for the period from 1 April 2024 to 30 September 2024 ("the Statement"), being submitted by the Parent pursuant to the requirements of Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations").
2. This Statement, which is the responsibility of the Parent's management and approved by the Parent's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
We also performed procedures in accordance with the circular issued by the Securities and Exchange Board of India under Regulation 33(8) of the Listing Regulations, to the extent applicable.
4. The Statement includes the results of the following entities:
DCM Shriram Industries Limited (Holding Company)
Daurala Foods and Beverages Private Limited (Subsidiary)
DCM Shriram Fine Chemicals Limited (Subsidiary)
DCM Shriram International Limited (Subsidiary)
DCM Hyundai Limited (Associate)
5. We draw attention to Note 1 to the Statement, which states that as per the policy consistently followed by the Holding Company for the preparation of quarterly financial results, the sugar off-season expenses amounting to Rs. 3,200 lakhs are not considered as part of cost of sugar produced during the period and are carried forward as inventory for inclusion in the cost of sugar to be produced in their main part of the financial year. However, for annual accounts, such expenses are fully absorbed in cost of sugar produced during the year. Had the Holding

Company recognised the above expenses in profit and loss account in the period it is incurred, the decrease in stock-in trade would have been higher by Rs. 1,116 lakhs for the quarter and six months ended 30 September 2024. Consequently, profit after tax would have been lower by Rs. 726 for the quarter and six months ended 30 September 2024. Our review report for the corresponding quarter and six months ended 30 September 2023 included in the Statement was also modified in respect of the above matter.

6. Notes

1. In accordance with the accounting policy consistently followed by the Company, off-season expenditure aggregating ₹ 3,200 Lakhs (corresponding previous half year ₹ 3,919 Lakhs) has been deferred for inclusion in the cost of sugar to be produced in the remainder of the year.
2. This Statement has been prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS), prescribed under Section 133 of the Companies Act, 2013, as amended, and other recognized accounting practices and policies to the extent applicable.
3. There has been ambiguity with regard to chargeability of UP VAT or GST on certain supplies made to a party and therefore no tax is charged on invoices raised for such supplies. The Hon'ble Allahabad High Court has held that no VAT is chargeable on such transactions. This matter is sub-judice before the Hon'ble Supreme Court. GST demand is raised on these transactions from July, 2017 which is contested and is adequately provided as provision for contingencies with corresponding reimbursement asset based on back-to-back undertaking by the party to indemnify for any liability that may finally arise.
GST council in its meeting dated October 7, 2023 has ceded the right to tax such supplies to state governments. Changes suggested by GST council have been incorporated in the Finance Bill, 2024 for bringing necessary amendments in GST laws. Pending this, the Company has continued the same accounting treatment in respect of the transactions as in previous quarter(s).
4. The Board of Directors in the meeting held on 14 November, 2023 approved a Composite Scheme of Arrangement ("the Scheme") between DCM Shriram Industries Limited and DCM Shriram Fine Chemicals Limited and DCM Shriram International Limited (wholly owned subsidiaries of DCM Shriram Industries Limited) and Lily Commercial Private Limited, for amalgamation of Lily Commercial Private Limited with DCM Shriram Industries Limited, and subsequent demerger of Chemical and Rayon businesses of DCM Shriram Industries Limited into DCM Shriram Fine Chemicals Limited and DCM Shriram International Limited, respectively, with effect from the appointed date of 1 April 2023, subject to regulatory and statutory approvals, as applicable. The Scheme has been cleared by BSE and NSE under listing regulations and has been filed for approval with Hon'ble NCLT, New Delhi on 23rd October, 2024 as required under section 230-232 of the Companies Act, 2013. Pending the necessary approvals, the effect of the Scheme has not been given in the financial results.
5. The above financial results have been reviewed by the Audit Committee and then approved by the Board of Directors in its meeting held on 07 November 2024. The above financial results are available on the Company's website www.dcmsr.com and also on www.bseindia.com & www.nseindia.com.

3. Material accounting policies

a) Operating Cycle

Based on the nature of activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle.
 - It is held primarily for the purpose of being traded,
 - It is expected to be realised within 12 months after the reporting date, or
 - It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- Current assets include the current portion of non current financial assets. All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the company's normal operating cycle,
- It is held primarily for the purpose of being traded,
- It is due to be settled within 12 months after the reporting date, or
- The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

b) Property, plant and equipment (PPE)

(i) Recognition and initial measurement

All items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation/amortization and accumulated impairment losses, if any.

Cost of acquisition or construction of property, plant and equipment comprises its purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and for assets that necessarily take a substantial period of time to get ready for their intended use, finance costs. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Capital work-in-progress is stated at cost, net of impairment loss, if any.

The cost of self-constructed property, plant and equipment includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition and location for their intended use, and the estimated cost of dismantling and removing the items and restoring the site on which they are located. Interest cost incurred for constructed assets is capitalised up to the date the asset is ready for its intended use, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

When parts of an item of property, plant and equipment having significant cost have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognised.

The carrying amount of an item of property, plant and equipment is de-recognised on disposal or when no further benefit is expected from its use and disposal. Assets retired from active use and held for disposal are generally stated at the lower of their net book value and net realizable value. Any gain or losses arising on disposal of property, plant and equipment is recognized in the Statement of Profit and Loss. Incomes and expenses related to the incidental operations not necessary to bring the item to the location and the condition necessary for it to be capable of operating in the manner intended by Management are recognized in the Statement of profit and loss.

Once classified as held-for-sale, property, plant and equipment are no longer depreciated.

Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is de-recognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial period end and adjusted prospectively, if appropriate.

(ii) Subsequent expenditure

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured.

(iii) Depreciation

Depreciation is provided on a pro-rata basis using the straight-line method as per the useful lives prescribed in Schedule II to the Companies Act, 2013. Assets costing up to Rs. 0.05 lakhs are fully depreciated in the period of purchase.

Leasehold land (being in the nature of perpetual lease) are not depreciated.

Depreciation methods, useful lives, and residual values are reviewed in each Financial period, and changes, if any, is accounted for prospectively.

c) Revenue recognition

Sale of Goods

Revenue from sale of goods is recognised at the point in time when control of products is transferred to the customer. Amounts disclosed as revenue are net of returns and allowances, trade discounts and rebates. The Company collects Goods and Services Tax on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, these are excluded from the revenue. At contract inception, the Company assesses the goods or services promised in a contract with a customer and identifies a performance obligation each promise to transfer to the customer. Revenue from contracts with customers is recognized when control of goods or services are transferred to customers and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. The timing of the transfer of Control varies depending

on individual term of the sales agreements,

Revenue is measured based on the transaction price, which is the consideration, adjusted for variable consideration such as volume discounts, cash discounts etc. as specified in the contract with the customer.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

d) Income tax

Income tax expense comprises current and deferred tax. It is recognised in Statement of Profit and Loss except to the extent that it relates to a business combination, or items recognised directly in equity or in Other Comprehensive Income (OCI).

- Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received after considering uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Current tax is recognised in statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current tax is also recognised in other comprehensive income or directly in equity respectively.

- Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Unrecognised deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

e) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date determine whether there is any indication of impairment considering the provisions of 'Ind AS 36 Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU"). In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used.

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the Statement of Profit and Loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of the assets of the CGU.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized:

f) Provisions and contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made, of the amount of the obligation.

Provisions are measured at management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contract is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligation under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on assets associated.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company, Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements. However contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs. Contingent liabilities in respect of show cause notices are considered only when converted into demands.

g) Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or erection of qualifying assets are capitalised as part of cost of such asset until such time that the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition of the qualifying asset.

Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

h) Earnings per share (EPS)

Basic earnings / (loss) per share are calculated by dividing the net profit or loss for the period attributable to the shareholders of the Company by the weighted average number of equity shares outstanding at the end of the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus / rights issue, if any, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

i) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A number of the accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (ie. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company has an established control framework with respect to the measurement of fair values. It regularly reviews significant inputs and valuation adjustments.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Impairment of financial assets

The Company recognizes loss allowances for expected credit losses on:

- Financial assets measured at amortized cost; and
- Financial assets measured at Fair value through other comprehensive Income (FVOCI)— debt instruments.

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt instruments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred .

Financial liabilities

Financial liabilities are classified as measured at amortized cost or Fair value through profit and loss(FVTPL). A financial liability is classified as at FVTPL if it is classified as held-for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of Profit and Loss. Any gain or loss on de-recognition is also recognised in the Statement of Profit and Loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

j) Cash and cash equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

k) Goods and Service tax input credit

Goods and services tax input credit is recognised in the books of accounts in the period in which the supply of goods or service received is recognised and when there is no uncertainty in availing/utilising the credits.

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

1. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
2. When receivables and payables are stated with the amount of tax included The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Subject: Recommendation of Fair Equity Exchange ratio for the proposed Amalgamation of Lily Commercial Private Limited into and with DCM Shriram Industries Limited and subsequent share entitlement ratio for the proposed demerger of Chemical and Rayon Undertakings of DCM Shriram Industries Limited into DCM Shriram Fine Chemicals Limited and DCM Shriram International Limited.

Dear Sir/Madam,

This is in accordance with the terms of reference set out in our engagement letter dated 4th July 2023, wherein **Mr. Mukesh Chand Jain, Registered Valuer/ IBBI/RV/05/2020/13666** (hereinafter referred to as 'We') and **TRC Corporate Consulting Private Limited** (hereinafter referred to as 'TRC' and collectively referred to as 'Valuer') have been appointed for providing valuation services to DCM Shriram Industries Limited (hereinafter referred to as 'DCMSR') and Lily Commercial Private Limited (hereinafter referred to 'LCPL' and collectively referred to as 'Client' or 'amalgamating companies') in connection with estimating Fair Equity Exchange ratio for the amalgamation of LCPL into and with DCMSR and subsequent share entitlement ratio for the proposed demerger of Chemical Undertaking and Rayon Undertaking of DCMSR, into two separate companies, namely, DCM Shriram Fine Chemicals Limited ('DSFCL' or 'Resultant Company 1') and DCM Shriram International Limited ('DSIL' or 'Resultant Company 2'), respectively with demerged DCMSR being the residual undertaking (DSFCL and DSIL are hereinafter collectively referred to as the "Resultant Companies" and DCMSR, shall be referred to as the transferor) (hereinafter amalgamating Companies and resultant companies shall collectively be referred as 'Companies').

1. Purpose of this Report

We understand that the Board of Directors of DCMSR believes that (a) the 3 (three) segregated business verticals of sugar (including alcohol and power), chemicals and rayon (including defence and engineering projects) being diverse in nature with no critical business inter-dependencies, would be best placed in independent companies; (b) the separated undertakings being part of separate companies would have a greater possibility of inviting specialised and strategic investors and joint venture partners, and the demerger would likely increase shareholder value and focus each company on specific business, leading to faster growth and better price discovery; and (c) the family members constituting the 'promoter and promoter group' of DCMSR should have direct ownership in each vertical (instead through investment company(ies)) so that they can take independent decisions on their respective shareholdings.

In view of above, the Board of Directors of each of the companies has preferred a composite scheme of arrangement (the 'Scheme') which deals with the amalgamation of LCPL and DCMSR as the first step and the subsequent demergers of the Chemical Undertaking and the Rayon Undertaking of DCMSR to DSFCL and DSIL, respectively, as it is more efficient, less costly and in the interest of its shareholders, creditors and employees, so that simultaneously three separate verticals namely sugar, chemical and rayon, emerge at the end of the process after the Scheme is sanctioned as a whole.

The Scheme is expected to provide the following benefits to the Companies and its various stake holders:

- (i) greater management focus on each business vertical (being Chemical Undertaking, Rayon Undertaking and Residual Undertaking);
- (ii) better administrative efficiency;
- (iii) operational rationalisation, organisational efficiency and optimum utilisation of resources;
- (iv) focused approach to respective line/stream of business;
- (v) ability to leverage financial and operational resources for each business;
- (vi) allows shareholder to have a choice of investment in some and not all the businesses;
- (vii) better price discovery as performance of each business can be evaluated and projected without counter balancing of other businesses;
- (viii) unlocking shareholder value and opportunity for the public shareholders to exploit the individual potential of DCMSR and each of the Resultant Companies, pursuing options of independent joint ventures, collaborations on a sectoral basis i.e., separate ventures for sugar, chemical and rayon and creating a strong and distinctive platform with more focused management teams, which will enable greater flexibility to pursue long term objectives and independent business strategies;
- (ix) providing scope for independent growth, collaboration and expansion of the three segregated business verticals, including for enhancing their valuations and efficient capital allocation;
- (x) provide diversity in decisions regarding use of cash flows and exploring various opportunities;
- (xi) allowing the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, which are independent, self-sufficient and standalone undertakings (with no critical business inter-dependencies), to continue to function with efficiency and efficacy, and synergies with a seamless transition;
- (xii) streamlining promoter shareholding of DCMSR by eliminating shareholding tiers and simplification of promoter shareholding into a clear structure directly identifiable with the promoters; focused management and direct commitment, attention and long term stable leadership to chemical, rayon and sugar businesses of DCMSR, comprising the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, respectively; and
- (xiii) Facilitating succession planning in the future in an orderly and strategic manner, without any business disruption, which is key to secure the long-term stability, leadership, transparency and operational clarity of DCMSR and the Resultant Companies.

In this regard, we have been requested to recommend Fair Equity Exchange Ratio for the Proposed Amalgamation and share entitlement ratio for the Proposed Demerger.

8. Procedure Adopted

In connection with this exercise, we have adopted the following procedures to carry out the valuation:

- Requested and received financial information;
- Obtained data available in public domain;
- Undertook industry analysis such as researching publicly available market data including economic factors and industry trends that may impact the valuation;
- Discussion with the management to understand the business and fundamental factors that could affect its earnings-generating capability including strengths, weaknesses, opportunity and threats analysis and historical financial performance;
- Selection of valuation methodology/(ies) as per ICAI Valuation Standards;
- Determined the fair equity share exchange swap ratio based on the selected methodology.

9. Valuation Approach

9.1. In accordance with ICAI Valuation Standards 2018, (“Ind VS”) issued by the Institute of Chartered Accountants of India, valuation in case of Proposed Transaction would require determining Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio considering relative values of each company involved. These values are to be determined independently but on a relative basis, and without considering the effect of the Amalgamation.

9.2. The three valuation approaches are the market approach, income approach and cost approach. There are various methods under these approaches which are commonly used for valuation purpose such as:

Under Market Approach, following methods are commonly used

- Market Price Method
- Comparable Companies Multiple (CCM) Method
- Comparable Transaction Multiple Method

Under Income Approach, following methods are commonly used

- Discounted Cash Flow (DCF) Method
- Relief from Royalty Method
- Multi-period Excess Earning Method
- Option Pricing Model

Under Cost Approach, following methods are commonly used

- Replacement Cost Method
- Reproduction Cost Method

9.3. **Market Approach:** It is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities, such as a business. The market approach is the most commonly used method to assess the value of a company using the financial metrics of similar companies in the same industry.

Further, as per Regulation 164 (1) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018 ('ICDR'), if the equity shares of the issuer have been listed on a recognised stock exchange for a period of twenty-six weeks or more as on the relevant date, the price of the equity shares to be allotted pursuant to the preferential issue shall be computed as per the abovementioned regulations.

9.4. **Income Approach:** This approach is widely used for valuation under "Going Concern" basis. It focuses on the income generated by the company in the past as well as its future earning capability. The Discounted Cash Flow (DCF) Method under the income approach seeks to arrive at a valuation based on the strength of future cash flows. DCF method is considered the most theoretically sound, scientific and acceptable method for determination of the value of a business undertaking. Under this technique, the projected free cash flows from business operations are discounted at “Weighted Average Cost of Capital” to the providers of capital to the business. The sum of the discounted value of such free cash flows is the value of the business.

9.5. **Cost Approach:** It is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset.

9.5.1. Replacement Cost Method, also known as ‘Depreciated Replacement Cost Method’ involves valuing an asset based on the cost that a market participant shall have to incur to recreate an asset with substantially the same utility (comparable utility) as that of the asset to be valued, adjusted for obsolescence.

9.5.2. Reproduction Cost Method involves valuing an asset based on the cost that a market participant shall have to incur to recreate a replica of the asset to be valued, adjusted for obsolescence.

This valuation approach is mainly used in case where the assets base dominates earnings capability. A scheme of amalgamation would normally be proceeded with, on the assumption that the companies amalgamate as going concerns and an actual realization of the operating assets is not contemplated.

LCPL is an investment company holding **4,35,88,680 equity shares** in DCMSR and nominal residual positive net assets amounting INR 1,23,46,243 (comprising of cash balance and other receivables) as on 31.03.2023, after eliminating the value derived from investment held in DCMSR. LCPL has subsequently made a Rights Issue of Equity Shares resulting in an inflow of INR 4,50,00,000. LCPL does not have any other major business operations except receiving dividend income from DCMSR. The number of shares held by LCPL pre and post amalgamation shall not lead to change in shareholding as per the scheme and accordingly, the use of valuation methodologies in current valuation is not applicable and therefore, we have not carried out valuation of these companies under generally accepted valuation approaches namely cost approach, income approach and market approach, being not applicable.

10. Basis of Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio

- 10.1.** The basis of the Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio for the Proposed Transaction would have to be determined after taking into consideration all the factors, approaches and methods considered appropriate. Though different values could have been arrived at under each of the above approaches/ methods, for the purposes of recommending the Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio it is necessary to arrive at a single value for the shares of the companies involved in a Proposed Transaction. It is however important to note that in doing so, we are not attempting to arrive at the absolute values of the shares of the Companies but at their relative values to facilitate the determination of a Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each approach/ method.
- 10.2.** In the ultimate analysis, valuation will have to be arrived at by the exercise of judicious discretion by the valuer and judgments considering all the relevant factors. There will always be several factors, e.g., quality of the management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share. This concept is also recognized in judicial decisions. There is, therefore, no indisputable single exchange ratio. While we have provided our recommendation of the Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion as to the Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio of the equity shares of LCPL and DCMSR. The final responsibility for the determination of the exchange ratio at which the Proposed Transaction shall take place will be with the Board of Directors of Companies who should consider other factors such as their own assessment of the Proposed Transaction and input of other advisors.

10.3. Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio

Step1: Amalgamation of LCPL into DCMSR

LCPL is investment company which post approval of Composite Scheme of Arrangement (refer Para 2.1 of this report) shall hold **4,35,88,680 equity shares** in DCMSR. The value of LCPL post amalgamation is majorly derived from such investment in DCMSR. LCPL has a residual positive net asset value of INR 1,23,46,243 (comprising of cash balance and other net receivables) as on 31.03.2023, after eliminating the value derived from investment held in DCMSR and has also done a Rights Issue of Equity Shares subsequently resulting in inflow of INR 4,50,00,000. As per the scheme of arrangement, the cost scheme of arrangement of amalgamation of LCPL with DCMSR shall be borne by LCPL/ shareholders of LCPL and accordingly the residual assets of LCPL and the proceeds of rights issue shall be utilized to bear the cost of amalgamation etc., and accordingly equivalent number of shares shall be issued to shareholder of LCPL as held by LCPL in DCMSR post sanction of composite scheme of arrangement (refer para 2.1 of this report)

Accordingly, we have considered the following to arrive at the share exchange ratio:

- On amalgamation, the equity shares held by LCPL in DCMSR shall be cancelled and DCMSR shall issue Equity Shares directly to the shareholders of LCPL.
- The determination of share exchange ratio would not influence the ultimate value for the LCPL and DCMSR and as such the valuation as per methods discussed under Para 9 of this report is not applicable and thus not adopted.

In light of the above, and on consideration of all the relevant factors and circumstances as discussed and outlined herein above, in respect of the proposed Amalgamation of LCPL into and with DCMSR, the following is the computation of Fair Equity Share Exchange Ratio:

“1 (One) Equity Share of DCMSR of face value of INR 2/- each fully paid up shall be issued for every 1 (One) Equity Share held by LCPL in DCMSR to the shareholders of LCPL in proportion to their shareholding in LCPL”

Step2: Demerger of DCMSR into DSFCL and DSIL

From discussions with the management and from the Scheme, we understand that:

- The management of DCMSR is contemplating to demerge Chemical undertaking and Rayon Undertaking from DCMSR into DSFCL and DSIL respectively.
- DSFCL and DSIL are wholly owned subsidiaries of DCMSR.
- Upon the Scheme becoming effective, the equity shares held by DCMSR and its nominees in DSFCL and DSIL will be cancelled and shareholders of DCMSR will be entitled to the shares of the Resultant Companies
- Simultaneously and concurrent with the above cancellation upon the scheme becoming effective, shareholders of DCMSR will be entitled to shares in DSFCL and DSIL in the same proportion in which they own shares in DCMSR.
- Upon the scheme becoming effective, the beneficial economic interest of the shareholders of DCMSR in the paid up equity share capital of DSFCL and DSIL would be the same as it is in the paid up equity share capital of DCMSR.
- Upon the Scheme becoming effective, all equity shares of Resultant Company 1 and Resultant Company 2 shall, subject to the execution of the listing agreement, be listed on the Stock exchanges, and/or admitted to trading if any.

The determination of share entitlement ratio would not impact the ultimate value for the shareholders of DCMSR and the proposed demerger of the Chemical undertaking and Rayon undertaking of DCMSR into DSFCL and DSIL respectively, will be value neutral to DCMSR's shareholders. Therefore, the determination of share entitlement ratio in the instant case and a detailed valuation of the companies to determine the share entitlement ratio would not be applicable in the present case. Accordingly, we have not carried out valuation of these companies under generally accepted valuation approaches namely cost approach, income approach and market approach, being not applicable.

Based on the aforesaid discussion, considering that all shareholders of DCMSR are and will, upon demerger, become shareholders of DSFCL and DSIL, holding beneficial interest in the same proportion as they hold in DCMSR, the following proposed share entitlement ratio is fair to the shareholders of DCMSR in relation to the proposed demerger.

“1 (One) Equity Share of DSFCL of face value of INR 2/- each fully paid up for every 1 (One) equity share of DCMSR of face value of INR 2/- each fully paid up”; and

“1 (One) Equity Share of DSIL of face value of INR 2/- each fully paid up for every 1 (One) equity share of DCMSR of face value of INR 2/- each fully paid up”

11. Conclusion

Based on the foregoing, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, we recommend the following share exchange/ entitlement ratios for consideration:

Pursuant to amalgamation of LCPL into DCMSR

“1 (One) Equity Share of DCMSR of face value of INR 2/- each fully paid up shall be issued for every 1 (One) Equity Share held by LCPL in DCMSR to the shareholders of LCPL in proportion to their shareholding in LCPL”;

In view of above share exchange ratio, the number of DCMSR shares held by LCPL shall stand cancelled.

Pursuant to demerger of the Chemical Undertaking and Rayon Undertaking of DCMSR into the DSFCL and DSIL respectively.

“1 (One) Equity Share of DSFCL of face value of INR 2/- each fully paid up for every 1 (One) equity share of DCMSR of face value of INR 2/- each fully paid up”; and

“1 (One) Equity Share of DSIL of face value of INR 2/- each fully paid up for every 1 (One) equity share of DCMSR of face value of INR 2/- each fully paid up”

Our Equity Share Exchange ratio/Equity share entitlement ratio is based on the equity share capital structure of LCPL and DCMSR and any variation in the equity exchange capital of LCPL and DCMSR may have a material impact on the Fair Equity Share Exchange Ratio/ Equity Share Entitlement Ratio.

PROCEDURES ADOPTED

In connection with this exercise, we have adopted the following procedure to issue a fairness opinion.

- Requested and received financial and qualitative information
- Obtained data available in public domain
- Discussions (physical/over call) with the Management to:
- Understand the rationale of the Proposed Transaction
- Seek clarifications wherever required

BASIS OF OPINION APPROACH

The Share Exchange Ratio and Share Entitlement Ratio is based on the Valuation report dated November 14, 2023 submitted by the Valuer.

Step1: Amalgamation of LCPL into DCMSR

“1 (One) Equity Share of DCMSR of face value of INR 2/- each fully paid up shall be issued for every 1 (One) Equity Share held by LCPL in DCMSR to the shareholders of LCPL in proportion to their shareholding in LCPL”

- On amalgamation, the equity shares held by LCPL in DCMSR shall be cancelled and DCMSR shall issue Equity Shares directly to the shareholders of LCPL.
- The determination of share exchange ratio would not influence the ultimate value for the LCPL and DCMSR.

Step2: Demerger of DCMSR into DSFCL and DSIL

“1 (One) Equity Share of DSFCL of face value of INR 2/- each fully paid up for every 1 (One) equity shares of DCMSR of face value of INR 2/- each fully paid up”; and

“1 (One) Equity Share of DSIL of face value of INR 2/- each fully paid up for every 1 (One) equity shares of DCMSR of face value of INR 2/- each fully paid up”

- The management of DCMSR is contemplating to demerge Chemical undertaking and Rayon Undertaking from DCMSR into DSFCL and DSIL respectively.
- DSFCL and DSIL are wholly owned subsidiaries of DCMSR
- Upon the Scheme becoming effective, the equity shares held by DCMSR and its nominees in DSFCL and DSIL will be cancelled and shareholders of DCMSR will be entitled to the shares of the Resultant Companies
- Simultaneously and concurrent with the above cancellation upon the scheme becoming effective, shareholders of DCMSR will be entitled to shares in DSFCL and DSIL in the same proportion in which they own shares in DCMSR.
- The beneficial economic interest of the shareholders of DCMSR in the paid up equity share capital of DSFCL and DSIL would be the same as it is in the paid up equity share capital of DCMSR.
- All equity shares of Resultant Company 1 and Resultant Company 2 shall, subject to the execution of the listing agreement, be listed on the Stock exchanges, and/or admitted to trading if any.
- The determination of share entitlement ratio would not impact the ultimate value for the shareholders of DCMSR and the proposed demerger of the Chemical undertaking and Rayon undertaking of DCMSR into DSFCL and DSIL respectively, will be value neutral to DCMSR's shareholders.

DETAILS OF THE SCHEME

DETAILS OF THE SCHEME

The composite scheme of arrangement under Section 230 to 232 and other applicable provisions of the Companies Act, 2013 and the provisions of other applicable laws, amongst Lily Commercial Private Limited (“Lily”), DCM Shriram Industries Limited (“DCMSR”), DCM Shriram Fine Chemicals Limited (“DSFCL”), a wholly owned subsidiary of DCMSR, and DCM Shriram International Limited (“DSIL”), a wholly owned subsidiary of DCMSR and their respective shareholders and creditors (“Scheme”) provide, inter alia for, (a) re-arrangement and amalgamation of Lily into and with DCMSR; and (b) subsequent to this amalgamation, the resultant DCMSR shall demerge (i) its chemical business (“Chemical Undertaking”) into DSFCL; and (ii) its rayon business including defence and engineering projects (“Rayon Undertaking”) into DSIL; and (c) the residual businesses comprising of sugar, alcohol and power (“Residual Undertaking”) would be retained in DCMSR. The appointed date for the Scheme is April 01, 2023 or such other date as directed by the National Company Law Tribunal (“NCLT”), New Delhi.

The Scheme involves the demerger of 2 (two) business undertakings (i.e., Chemical Undertaking and Rayon Undertaking (including defence and engineering projects)) of DCMSR into 2 (two) existing companies, on a going concern basis, while the Residual Undertaking comprising of sugar, alcohol and power would be retained in DCMSR, after the amalgamation of Lily with DCMSR, since (a) the 3 (three) segregated business verticals of sugar (including alcohol and power), chemicals and rayon (including defence and engineering projects) being diverse in nature with no critical business inter-dependencies, would be best placed in independent companies; (b) the separated undertakings being part of separate companies would have a greater possibility of inviting specialised and strategic investors and joint venture partners, and the demerger would likely increase shareholder value and focus each company on specific business, leading to faster growth and better price discovery; and (c) the family members constituting the ‘promoter and promoter group’ of

DCMSR would have direct ownership in each vertical (instead through investment company(ies)) so that they can take independent decisions on their respective shareholdings.

The Scheme is in the best interest of the stakeholders of each of the companies involved in this Scheme, *inter alia* for the reasons explained below:

- (i) greater management focus on each business vertical (being Chemical Undertaking, Rayon Undertaking and Residual Undertaking);
- (ii) better administrative efficiency;
- (iii) operational rationalisation, organisational efficiency and optimum utilisation of resources;
- (iv) focused approach to respective line/stream of business;
- (v) ability to leverage financial and operational resources for each business;
- (vi) allows shareholder to have a choice of investment in some and not all the businesses;
- (vii) better price discovery as performance of each business can be evaluated and projected without counter balancing of other businesses;
- (viii) unlocking shareholder value and opportunity for the public shareholders to exploit the individual potential of DCMSR and each of DSIL and DSFCL, pursuing options of independent joint ventures, collaborations on a sectoral basis i.e., separate ventures for sugar, chemical and rayon and creating a strong and distinctive platform with more focused management teams, which will enable greater flexibility to pursue long term objectives and independent business strategies;
- (ix) providing scope for independent growth, collaboration and expansion of the three segregated business verticals, including for enhancing their valuations and efficient capital allocation;
- (x) provide diversity in decisions regarding use of cash flows and exploring various opportunities;
- (xi) allowing the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, which are independent, self-sufficient and standalone undertakings (with no critical business inter-dependencies), to continue to function with efficiency and efficacy, and synergies with a seamless transition;
- (xii) streamlining promoter shareholding of DCMSR by eliminating shareholding tiers and simplification of promoter shareholding into a clear structure directly identifiable with the promoters; focused management and direct commitment, attention and long term stable leadership to chemical, rayon and sugar businesses of DCMSR, comprising the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, respectively; and
- (xiii) Facilitating succession planning in the future in an orderly and strategic manner, without any business disruption, which is key to secure the long-term stability, leadership, transparency and operational clarity of DCMSR, DSIL and DSFCL.

Consideration/ share exchange ratio for demerger of the Rayon Undertaking of the DCMSR into the DSFCL

Upon the Scheme becoming effective and in consideration of the transfer and vesting of the Chemical Undertaking of DCMSR into DSFCL in terms of this Scheme, DSFCL shall, without any further application or deed, issue and allot equity shares to the shareholders of DCMSR whose names appear in the register of members of DCMSR as on the Record Date in the following manner:

For every 1 (One) equity share of face and paid-up value of Rs. 2 each held in DCMSR, 1 (One) equity share

of face and paid-up value of Rs. 2 in DSFCL.

Listing of Equity Shares of the DSFCL:

DSFCL shall apply to BSE Limited and the National Stock Exchange of India Limited, and SEBI for listing and admission of its equity shares for trading in accordance with applicable laws.

Shareholding Pattern of DSFCL as on date of the Abridged Prospectus:

DETAILS OF THE SCHEME

DETAILS OF THE SCHEME

The composite scheme of arrangement under Section 230 to 232 and other applicable provisions of the Companies Act, 2013 and the provisions of other applicable laws, amongst Lily Commercial Private Limited (“Lily”), DCM Shriram Industries Limited (“DCMSR”), DCM Shriram Fine Chemicals Limited (“DSFCL”), a wholly owned subsidiary of DCMSR, and DCM Shriram International Limited (“DSIL”), a wholly owned subsidiary of DCMSR and their respective shareholders and creditors (“Scheme”) provide, inter alia for, (a) re-arrangement and amalgamation of Lily into and with DCMSR; and (b) subsequent to this amalgamation, the resultant DCMSR shall demerge (i) its chemical business (“Chemical Undertaking”) into DSFCL; and (ii) its rayon business including defence and engineering projects (“Rayon Undertaking”) into DSIL; and (c) the residual businesses comprising of sugar, alcohol and power (“Residual Undertaking”) would be retained in DCMSR. The appointed date for the Scheme is April 01, 2023 or such other date as directed by the National Company Law Tribunal (“NCLT”), New Delhi.

The Scheme involves the demerger of 2 (two) business undertakings (i.e., Chemical Undertaking and Rayon Undertaking (including defence and engineering projects)) of DCMSR into 2 (two) existing companies, on a going concern basis, while the Residual Undertaking comprising of sugar, alcohol and power would be retained in DCMSR, after the amalgamation of Lily with DCMSR, since (a) the 3 (three) segregated business verticals of sugar (including alcohol and power), chemicals and rayon (including defence and engineering projects) being diverse in nature with no critical business inter-dependencies, would be best placed in independent companies; (b) the separated undertakings being part of separate companies would have a greater possibility of inviting specialised and strategic investors and joint venture partners, and the demerger would likely increase shareholder value and focus each company on specific business, leading to faster growth and better price discovery; and (c) the family members constituting the ‘promoter and promoter group’ of DCMSR would have direct ownership in each vertical (instead through investment company(ies)) so that they can take independent decisions on their respective shareholdings.

The Scheme is in the best interest of the stakeholders of each of the companies involved in this Scheme, *inter alia* for the reasons explained below:

- (i) greater management focus on each business vertical (being Chemical Undertaking, Rayon Undertaking and Residual Undertaking);
- (ii) better administrative efficiency;
- (iii) operational rationalisation, organisational efficiency and optimum utilisation of resources;
- (iv) focused approach to respective line/stream of business;

- (v) ability to leverage financial and operational resources for each business;
- (vi) allows shareholder to have a choice of investment in some and not all the businesses;
- (vii) better price discovery as performance of each business can be evaluated and projected without counter balancing of other businesses;
- (viii) unlocking shareholder value and opportunity for the public shareholders to exploit the individual potential of DCMSR and each of DSIL and DSFCL, pursuing options of independent joint ventures, collaborations on a sectoral basis i.e., separate ventures for sugar, chemical and rayon and creating a strong and distinctive platform with more focused management teams, which will enable greater flexibility to pursue long term objectives and independent business strategies;
- (ix) providing scope for independent growth, collaboration and expansion of the three segregated business verticals, including for enhancing their valuations and efficient capital allocation;
- (x) provide diversity in decisions regarding use of cash flows and exploring various opportunities;
- (xi) allowing the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, which are independent, self-sufficient and standalone undertakings (with no critical business inter-dependencies), to continue to function with efficiency and efficacy, and synergies with a seamless transition;
- (xii) streamlining promoter shareholding of DCMSR by eliminating shareholding tiers and simplification of promoter shareholding into a clear structure directly identifiable with the promoters; focused management and direct commitment, attention and long term stable leadership to chemical, rayon and sugar businesses of DCMSR, comprising the Chemical Undertaking, the Rayon Undertaking and the Residual Undertaking, respectively; and
- (xiii) facilitating succession planning in the future in an orderly and strategic manner, without any business disruption, which is key to secure the long-term stability, leadership, transparency and operational clarity of DCMSR, DSIL and DSFCL.
