# ONGC, RELIANCE-BP STAND TO GAIN Gas price hike to a record \$6.1/mmBtu

MGL cuts CNG and piped gas price citing VAT cut

FE BUREAU Mumbai, March 31

THE GOVERNMENT ON Thursday more than doubled the price of domestically produced natural gas in a move that could enable state-run ONGC and Reliance-BP combine to bolster their margins, but could have adverse implications for user industries and end consumers. The price of gas for regulated fields will be a record \$6.1 per million British thermal unit (mmBtu), against the current \$2.9 per mmBtu, according to the oil ministry's Petroleum Planning and Analysis Cell (PPAC).

The new price, which could result in a hike in CNG and piped cooking gas rates, will be for six months beginning April 1. Domestic natural gas is mainly used by fertilisers units, power producers and city gas distribution companies.

The rate applicable to difficult-to-access or deep-sea KG-D6 block operated by Reliance-BP will be \$9.92 per mmBtu for April-September compared to current \$6.13 per mmBtu, the PPAC said. The government sets the price of gas every six months - on April 1 and October 1 - each year based on rates prevalent in gas surplus nations such as the US,

Earlier, the price of gas for regulated fields was \$2.9 per mmBtu. New rate could result in a hike in CNG and piped cooking gas rates. The record rate to continue for six months beginning April 1. Rate for fields like KG-D6 block to be \$9.92 per mmBtu against current \$6.13

Canada and Russia. However, Mumbai's city gas utility Mahanagar Gas on Thursday announced a steep reduction in the retail price of CNG by ₹6 per kg and piped gas by ₹3.5 per scm, effective Friday, even as the Centre more than doubled the price of domestically produced natural gas.

In a statement, MGL said consequent to the reduction in VAT on natural gas from 13.5% to 3% from April 1 by the state government, MGL will start production at M fields in the KG-D6 block in the last quarter of 2022, which will nearly double the block's output.

City gas distribution (CGD) companies like Mahanagar Gas, Indraprastha Gas and Gujarat Gas, being the main buyers of domestic gas, will find their costs going up. But analysts feel since they have been passing on cost increases to the consumers in a calibrated manner over the last few weeks due to the impact of costlier gas on their margins would be moderate in the short-term.

# Rabi wheat procurement starts, purchases to be down by a fifth

SANDIP DAS & DEEPA JANAINI New Delhi/Lucknow, March 31

WHEAT PROCUREMENT BY the government agencies in the key growing states - Punjab, Haryana, Madhya Pradesh, Rajasthan, Gujarat and Uttar Pradesh - for the 2022-23 season is set to commence. The target of 44 million tonne (MT) of grain procurement from the farmers would be reduced by around 10 mt due to a possible surge in export and high mandis prices. The official procurement session is from April-June, while a bulk of the wheat crop arrives in the mandis during the first six weeks of the procurement session.

While a major volume of wheat exports is expected from Madhya Pradesh,

Wheat procurement (million tonne)

Source: Department of Food, Rabi marketing season (April-June), \* target is 44.4 mt

because of its proximity to ports, the procurement target of 12.9 MT would decline by more than 6 MT, as the market price of wheat has been currently ruling above the minimum support price (MSP) of ₹2,015 per quintal. This would encourage the farmers to sell their produce to exporters.

The state is the second-biggest producer of wheat in the country and also contributes the highest volume of grain to the central pool. An official from Punjab told FE that wheat purchase in the state could decline by around 1 mt

from the target of 13.2 mt for the session. Five agencies including Food Corporation of India (FCI), Markfed and Pungrain have been entrusted with the responsibility of procurement of wheat at MSP from the farmers.

Meanwhile, Uttar Pradesh, the biggest producer of wheat, has set up 6,000 centres to commence procurement of around 6 mt in the 2022-23 marketing season. However, in the previous year, the state could lift 5.64 mt of grain from an estimated 13 lakh farmers. Chief minister Yogi Adityanath, during a review meeting, instructed the officials that wheat should be procured from

every eligible farmer who comes to the purchasing centre without any delay in payment.

The farmers are required to register themselves for the wheat sale at the government procurement centres on the Food and Logistics Department's portal and their produce will be purchased through e-points of purchase machines.

A spokesperson of the UP food commissioner's office said that the payment for wheat would be directly credited to the Aadhaar-linked bank accounts of the farmers. Therefore, it has been made must for the farmers to share their bank accounts in the registration details.
