**Security Symbol: DEEM**

**Sub: Intimation under Regulation 30 of SEBI (LODR) Regulations, 2015**

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company hereby informs that ongoing geopolitical tensions in the Middle East have disrupted a key global energy transit route. India imports a significant portion of its R-LNG through this route, making domestic gas supplies vulnerable to disruptions and price volatility.

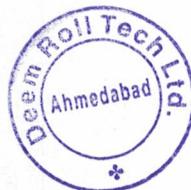

Consequently, the Company has received a Force Majeure declaration from its gas suppliers, which may lead to potential supply constraints and increased energy costs. As a steel manufacturing entity, the Company uses natural gas as fuel in certain production processes and may therefore face operational challenges due to these constraints.

The Company is actively monitoring the situation and evaluating alternative arrangements to mitigate the impact on production planning and operational costs. At this stage, the total financial impact cannot be precisely quantified. The Company will continue to keep the stock exchanges informed of any material developments.

This may please be taken on record and suitably disseminated to all concerned.

Thanking You,

**Yours faithfully,**  
**For, Deem Roll Tech Limited**
