13th February 2026, Ahmedabad:

The Company had received provisional suspension intimation from Oil and Natural Gas Corporation Limited (ONGC) in relation to Contract for charter hiring of a 90 MT mobile drilling rig for CBM Asset, Bokaro.

The provisional suspension arose following a Force Majeure event involving violent sabotage of the rig by unidentified miscreants leading to registration of FIR and imposition of a police status quo order that prevented access and operations.

The Company firmly believes that the provisional suspension are legally untenable, particularly in light of the Force Majeure provisions under the contract as well as Indian statute and is actively pursuing all legal remedies.

All existing ONGC contracts and ongoing business operations with ONGC remain fully intact and are being executed without any disruption.

This development has no impact on our balance order book, other client relationships, or day-to-day business activities. The Company anticipates that this development could lead to an impact on revenue in the range of approximately ₹5–6 Crores during Q4 of FY 2025–26.

We remain confident of a favourable outcome and continue to focus on delivering value to all stakeholders.
