Delaplex Strengthens UK and European Supply Chain Technology Capabilities through Strategic Acquisition of Bisham

Nagpur, Maharashtra | 4th November 2026

Delaplex Limited (formerly known as Delaplex Private Limited) ("Delaplex" or "the Company"), listed on the National Stock Exchange of India (NSE: DELAPLEX), announces the completion of the acquisition by its wholly owned subsidiary, Delaplex Software Limited, incorporated in England and Wales, of 100% ownership of Bisham Limited and Bisham Consulting Limited, two United Kingdom-based companies operating in logistics, supply chain and Warehouse Management Systems ("WMS") consulting.

The acquisition brings together Delaplex's end-to-end technology, AI, data, engineering, implementation and supply chain capabilities with Bisham's more than two decades of specialist consulting and delivery experience in logistics, supply chain and WMS. The combination is intended to strengthen Delaplex's presence in the United Kingdom, support the Company's ability to pursue opportunities across selected European markets, deepen customer engagement and broaden the range of domain-led transformation services available to customers.

Transaction Highlights

Delaplex Software Limited has acquired 100% ownership of Bisham Limited and Bisham Consulting Limited, which operate under the trade name Bisham Consulting. The acquisition has been completed, with the entire consideration payable in cash. The transaction and related disclosures are being undertaken in accordance with applicable corporate, accounting and regulatory requirements.

About the Acquired Entities

Incorporated in the United Kingdom in 2004, Bisham Consulting is a specialist logistics and supply chain consultancy with over two decades of experience. Its team brings together strategic, operational and technical expertise to develop practical and commercially viable solutions for its customers.

Strategic Rationale

The acquisition aligns with Delaplex's strategy of strengthening its capabilities in supply chain technology while expanding its international market presence and delivery footprint. Bisham's established presence across the UK and Europe, long-standing customer relationships and specialised expertise in logistics and supply chain transformation complement Delaplex's capabilities across consulting, technology, AI, data, engineering and implementation. The combined capabilities are expected to enable Delaplex to engage with customers at an earlier stage of their transformation journey, undertake end-to-end transformation programmes and capitalise on additional business opportunities across the UK and selected European markets.

Management Comments

Commenting on the acquisition, Nitin Sachdeva, Managing Director, Delaplex Limited said:

"The acquisition of Bisham is an important step in strengthening Delaplex's presence in the United Kingdom and supporting our broader growth ambitions across the UK and selected European markets. Bisham brings established customer relationships and deep domain expertise in logistics and supply chain management across multiple sectors, with capabilities spanning automation and warehousing, design, build and fit-out, process and systems optimisation, freight and transportation.

These capabilities complement Delaplex's end-to-end strengths across consulting, technology, AI, data, engineering and implementation. By bringing together Bisham's specialist industry expertise with our broader technology and delivery platform, we believe we will be better positioned to engage customers earlier in their transformation journeys, strengthen our market presence and address a wider spectrum of business, supply chain and technology requirements"

About Delaplex Limited

Delaplex Limited is a technology and consulting services company headquartered in Nagpur, Maharashtra, India. The Company provides software development, AI and data solutions, supply chain technology consulting, implementation and digital transformation services to customers across geographies. Delaplex focuses on combining domain expertise with technology and implementation capabilities to address complex business requirements and strengthen its presence in international markets.

About Bisham

Bisham Consulting is a UK-based specialist logistics, supply chain and WMS consultancy with more than two decades of experience supporting customers in addressing operational, commercial and technology-led transformation requirements. Following the completion of the acquisition, it has become a wholly owned subsidiary of Delaplex Software Limited.
