Delta Autocorp Limited, Unveils Superion: The Future of Electric Motorcycles – ‘Be Fearless, Be A Visionary’

New Delhi, January 20th, 2025:

Deltic, showcased the first look of its much-awaited electric motorcycle, **Superion**, at a grand event at **The Umrao, New Delhi**. Superion offers a bold new design with great performance and high-tech features to enhance the riding experience of environmentally conscious riders. The introduction of Superion signifies a pivotal moment in the brand's commitment to promoting eco-friendly transportation in India.

Introducing the Superion, Mr. Ankit Agarwal, Managing Director and CEO of Deltic said, “The Superion represents our vision to lead the transition from using EV as an alternative medium of mobility to a mainstream desirable, aspirational motorcycle on par in terms of performance, style, and comfort. It embodies the perfect blend of innovation and has been introduced after years of research. Superion is for motorcycle enthusiasts and will appeal to the riders in Bharat for its bold and modern design along-with safety and power.”

Superion: A Game-Changer in Electric Motorcycles

The Superion is poised to revolutionize the electric motorcycle market in India. With a top speed of **90-100 km/h** and a range of **120 km** per charge, this bike is designed for safety,

efficiency, and performance. It is meticulously engineered upon the **trellis chassis design**, crafted from **High-Tensile-Graded-Steel (HTGS)** ensuring optimal strength and lightweight efficiency.

- **Ergonomic design** for unmatched comfort and commuting ease.
- An **aggressive stance with a comfortable riding triangle** for a balanced and confident riding experience.
- Exceptional **acceleration, stability, and pickup**, making it an ideal alternative for ICE motorcycles.

Colors and Availability

The prototype of **Superion** is ready and will be available across the Deltic showrooms pan-India before the onset of the festive season this year, adding to the euphoria and fulfilling the rising demand. Superion will be coming in a single variant and with multiple color options, advance-booking for the same will open soon.

Sustainable yet a Powerful Performer

Well-known automotive industry YouTube influencer **Manish** from “MS Auto Vlogs” found Superion to be a “trendsetter and market disruptor”. Lifestyle content and marketing influencer **Dev** from “Dev Smile and Happy Channel” called Superion “an electric motorcycle which will be a dream bike for the generation”.

Looking Ahead

The electric motorcycle market in India is evolving rapidly, emphasizing sustainable mobility. However, a gap remains for a high-performing, aspirational, and functional motorcycle that caters to both commuting and lifestyle needs.

Deltic's Superion fills this void with unmatched performance, reliability, and affordability, making it the top choice for electric mobility enthusiasts in urban and rural areas.

The Superion's launch marks a pivotal moment for Deltic, setting new standards in EV innovation and redefining the electric motorcycle segment with its cutting-edge design and superior performance.
