Sub: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015— Delta Autocorp Limited (“Deltic”) Establishes Full-Fledged In-House Design Studio: Signaling a Decisive Long-Term Product Strategy.

Dear Sir/Madam,

In compliance with Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we hereby inform that **Delta Autocorp Limited (“Deltic”) Establishes Full-Fledged In-House Design Studio: Signaling a Decisive Long-Term Product Strategy**. The press release pertaining to this expansion enclosed for your information and record.

You are requested to take the above information on record.

Thanking You.

Yours Faithfully,
Delta Autocorp Limited

Rama Kanojia
Company Secretary & Compliance Officer

Corporate office: - Unit No.408, 4th Floor, Krishna Apra Business Square Plot No D4,5 and 6, Netaji Subhash Place, Pitampura, Delhi-110034

Unit-I: 304P, Mihijam Road, Rupnarayanpur, Pithakiari, Hindustan Cables Town, Paschim Bardhaman, West Bengal, 713386

Unit-II: Plot No 61, 62 and 63, Gangeshwar Paper Mills, Saharanpur Road, Dundahera, Bagpat, Uttar Pradesh- 250101.

PRESS RELEASE

Delta Autocorp Limited (“Deltic”) Establishes Full-Fledged In-House Design Studio: Signaling a Decisive Long-Term Product Strategy

Delta Autocorp Limited (“Deltic”) today announces the establishment of a fully integrated in-house Design Studio along with a significantly strengthened New Product Development (NPD) function - a move that clearly signals the Company’s intent to play the long game in India’s electric mobility landscape.

At a time when large parts of the EV market remain driven by opportunistic launches, shared platforms, and repetitive design language, Deltic is deliberately investing in deep structural capability. This initiative is not a short-term product push. It is a foundational step toward building enduring product DNA, proprietary architecture, and long-cycle brand equity.

The newly established Design Studio has been created to lead the custom development of Deltic’s upcoming flagship scooter while simultaneously institutionalizing a sustained, native design-led development culture within the organization. The focus is not merely on launching a new model, but on building a repeatable, scalable system for future innovation.

In mobility, design remains one of the most decisive purchase triggers. Recognizing this, Deltic is integrating styling, feature conceptualization, ground-up chassis engineering, CMF direction, ergonomics, and overall product architecture under a single coordinated framework. This enables true end-to-end control over how its vehicles are imagined, engineered, and evolved - ensuring that every future product carries intentional identity rather than incremental imitation.

The expanded team includes professionals with prior experience across established EV OEM environments such as OPG Mobility (Okaya EV), Revolt Motors, Blinq Mobility, and other mobility-focused platforms. Their collective expertise spans automotive styling, vehicle architecture development, CMF strategy, user-centered research, and production-grade realization. By combining structured design thinking with disciplined engineering execution from day one, Deltic is building the capability to create differentiated, market-ready products tailored specifically for Indian operating realities.

Importantly, the Design Studio is not being built as a one-product experiment. It represents a permanent structural investment in internal IP creation and architectural ownership. By internalizing core product control, Deltic is transitioning to architecture-led innovation: strengthening its ability to iterate faster, upgrade consistently, and scale design language cohesively across future platforms.

This move marks a clear evolution in the Company's trajectory. Rather than competing on short-term pricing cycles or fragmented differentiation, Deltic is committing to a disciplined, product-first roadmap defined by originality, continuity, and thoughtful premiumization.

The establishment of the Design Studio is therefore more than an operational milestone - it is a strategic declaration. Deltic is building patiently, investing structurally, and creating the foundations required for sustained relevance in India's evolving EV ecosystem. This is not about chasing momentum. It is about building enduring capability.
