Amid good demand, DLF to hike prices across residential products portfolio

RISHI RANJAN KALA
New Delhi, July 29

SINCE INDEPENDENT FLOORS and luxury housing has seen good demand, DLF is once again planning to increase prices selectively across its residential business. The firm has already raised prices thrice between November last year and March 2021 on independent floors in Gurgaon, besides doing away with some discounts on Camellias.

Although the real estate developer did not offer details on the products that may see a price hike, it has indicated that the increase is likely to be under 5% in the current fiscal. DLF is keen on revamping its premium and mid-income housing, which has been consistently gaining homebuyer's interest in the last 8-12 months.

At its quarterly earnings call

on Tuesday, DLF said it is "looking" at increasing prices "selectively" across the residential product portfolio depending upon market demand. On a weighted average basis, the price increase could translate into "sub 5%", which the firm expects to hold on during FY22. In its Q1 FY22 results presentation also the company said, it is exploring a "judicious price increase in line with market acceptability".

DLF launched independent

floors in Phase-3 (Gurgaon) at ₹11,000 per sq ft in November last year. Later in February 2021, prices were raised to ₹12,500 per sq ft, translating into a growth of 14% on a like-to-like basis between November 2020 and March this year.

In March 2021, the company launched independent floors in Phase-1 at a price of around ₹15,000 per sq ft. However, it emphasised that the rally was largely driven by the project's strategic location. DLF has also slashed discounts on the ultra-luxury housing, Camellias, which is about 4-5% and translates to an improved recovery of ₹1,500-2,000 per sq ft.

The company said it received an encouraging response on independent floors across DLF city and New Gurgaon vindicating product demand and acceptability. New products, which include plot-

ted development in Gurgaon, recorded sales booking of ₹542 crore for 0.5 million sq ft (MSF) in Q1 FY22. So far it has booked 1.3 MSF of space in the project spread over 1.5 MSF.

Camellias witnessed sustained demand. In April-June, it reported a sales booking of ₹330 crore for 0.1 MSF. It has a total area of 3.6 MSF, of which so far 2.4 MSF has been booked. The housing project has posted consistent double-digit sales in the last 4 quarters.

DLF will open sales booking for its flagship premium luxury project, Midtown in central Delhi, in the second half of FY22. At present, the company is busy with RERA approvals for the high-rise condos. The project size is 8 MSF, of which 2.1 MSF will be delivered by H2 FY22 and the remaining 6 MSF after FY24. Midtown's total sales potential is ₹12,000-15,000 crore.

Embassy REIT expects office demand to rebound by March

BLOOMBERG
July 29

BLACKSTONE GROUP-BACKED Embassy Office Parks REIT expects a rebound in office demand by March 2022, driven by hiring at technology companies, chief executive officer (CEO) Michael Holland said in an interview.

"Sentiment from our customers point to very strong rebound," Holland said. "We see strong recovery in leasing in 2022" with discussions about it starting to take place in the final quarter of this year, he said.

As companies globally look to boost their technology spending amid the shift to digital platforms, Indian IT companies and captive centers are looking at strong hiring in the financial year ending March 2022, with some reports pointing at the top-four IT firms taking on 150,000 freshers. Software industry association Nasscom in June projected that the top-five Indian IT companies will add 96,000 employees this fiscal.

Michael Holland

Airtel Africa Q1 PAT zooms to \$142 m

AIRTEL AFRICA ON Thursday said its profit after tax (PAT) more than doubled to \$142 million (over ₹1,051 crore) in June quarter against the year-ago period, amid higher operating profits along with stable net finance costs.

Airtel Africa — which provides telecom and mobile money services, with a presence in 14 countries in Africa — said that strong revenue growth was recorded in all regions and across key services.

During June quarter, reported revenue grew nearly 31% to \$1,112 million (about ₹8,229 crore), with constant currency growth of about 33%. "Revenue growth partially benefited from a weakened quarter in the prior year during the peak of Covid-19 restrictions across the region," the company said in a statement.

Minimalist raises ₹110 crore from Sequoia, others

STARTUP SKINCARE brand Minimalist, on Thursday said it has raised ₹110 crore (\$15 million) in a funding round led by Sequoia Capital India. The Series A funding round, that also saw participation from Unilever Ventures, has been carried out within nine months of its inception, Minimalist said in a statement. The brand plans to utilise the funds to enhance its infrastructure and R&D capabilities and launch in global markets, it added.

Green hydrogen: JSW Energy partners Fortescue Future

FE BUREAU
New Delhi, July 29

JSW ENERGY SAID on Thursday its subsidiary JSW Future Energy has entered into a framework agreement with Australian Fortescue Future Industries to collaborate on green hydrogen production.

Solar and wind plants can produce green hydrogen with the help of electrolyzers, and JSW Energy's collaboration aligns with its plan to expand the renewable energy share in its portfolio to 85% by 2030 from the current 30%.

The announcement closely

follows the central government unveiling its plans of imposing domestic green hydrogen consumption obligations on user industries. Apart from green hydrogen production, JSW Energy and Fortescue Future will conduct scoping work on utilisation of the fuel for green steel making, hydrogen mobility, green ammonia and other mutually agreed industrial applications in India.

The country currently consumes about around 6 million tonne of hydrogen annually.

The announcement closely follows the govt unveiling its plans of imposing domestic green hydrogen consumption obligations on user industries

The new and renewable energy ministry has already circulated the draft 'National Hydrogen Energy Mission' document for inter-ministerial consultation, aiming to create a hydrogen value-chain in the country and bring down the costs of hydrogen production. "Green hydrogen is going to be a disruption in the

clean energy space and in the near future, we believe it would replace the fossil fuels used for various industrial applications as well as in the transportation and mobility sector," Prashant Jain, CEO, JSW Energy, said.

State-run IOC has recently announced plans of building the nation's first 'green hydrogen' plant at its Mathura refinery. Power generator NTPC also plans to produce green hydrogen on a commercial scale. Setting up a manufacturing unit for electrolyzers was also a part of the ₹75,000-crore green energy investment announcement recently made by RIL.

	Diluted	(0.34)	1.59	5.72

Notes:

1. The above unaudited financial results for the quarter ended 30th June, 2021 were reviewed by the Audit Committee and thereafter approved and taken on record by the Board of Directors at their meeting held on 29th July, 2021. The Statutory Auditors of the Company have carried out a limited review of the above financial results and they have issued an unmodified report.
2. These financial results have been prepared in accordance with the recognition and measurement principles as laid down in the Indian Accounting Standards (referred to as "Ind AS") prescribed under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time.
3. The Company's operations and financial results for the quarter ended June 30, 2021 and corresponding quarter ended June 30, 2020, have been temporarily impacted by the outbreak of Covid-19 Pandemic and consequent lockdowns announced by the central/state Government. The results for the quarter are, therefore, not comparable with those for the previous quarters. The Company has made detailed assessments of its liquidity position and recoverability of carrying value of its assets comprising inventories and other current assets as at the reporting date and on the basis of evaluation, based on the current estimates, the Company has concluded that there is no material adjustments required in the financial results. Given the uncertainties associated with nature, condition and duration of COVID 19, the impact assessment on the Company's financial results will be continuously made and provided for as required.
4. During the current quarter, the Company has decided to terminate a land lease contract before the expiry of the lease period. Accordingly, other income includes net impact of

₹158.98 lakhs related to de-recognition of Right of use asset and Lease liability and lease termination compensation payable to lessor. Consequently, other expenses for the quarter ended June 30, 2021 also includes, related capital work-in-progress written off amounting to ₹160 lakhs.

5. The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the Company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stakeholders. The Company will assess the impact and its valuation and will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are notified.
6. Based on the guiding principles in Ind AS 108 on 'Operating Segments' the Company's business activity falls within a single operating segment, namely Snack Foods.
7. The figures for the preceding quarter ended 31st March, 2021, as reported in these financial results, are the balancing figures between audited results in respect of the full financial year ended 31st March, 2021 and published year to date unaudited figures up to the third quarter of that financial year.
8. The above is an extract of the detailed format of the unaudited Financial Results for the quarter ended 30th June, 2021 filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The Full Format of the unaudited Financial Results for the quarter ended 30th June, 2021 are available on the BSE website at www.bseindia.com, NSE website at www.nseindia.com and on the Company's website at <http://www.dfmfoods.com>.
