## PRESS RELEASE

### Dhanlaxmi Crop Science Strengthens Presence in Chhattisgarh with Regulator Approval For Selling Seeds of Multiple Hybrid and Varietal Field Crops

Himatnagar, Gujarat | July 2026

Dhanlaxmi Crop Science Limited, one of India's growing research-driven seed companies, is pleased to announce that it has received the requisite **Seed Sale Permission** from the **Department of Agriculture, Chhattisgarh**, enabling the Company to commercially market its approved seeds of different crops within the state in accordance with applicable regulatory requirements.

As company is **diversifying** the product line from **Cotton to other crops like Paddy, Soyabean, Maize** which has **3X-4X more cropping area** compare to cotton so minimize the risk of dependency on single crop that's why identifying new markets which has more potential of other crops.

This regulatory approval represents another significant milestone in the Company's ongoing strategy of expanding its presence across India's key agricultural markets. It strengthens Dhanlaxmi's regulatory footprint while creating new opportunities to serve farmers through scientifically developed, high-quality seed solutions.

#### Expanding Market Presence

In India, commercialization of seed varieties requires **state-specific Seed Sale Permissions** issued by the respective State Departments of Agriculture. Each approval expands the Company's regulatory footprint and supports its long-term growth strategy. The Chhattisgarh approval enables Dhanlaxmi to strengthen its distribution network and improve market access in an important agricultural region.

In several major agricultural states such as **Maharashtra, Andhra Pradesh and Karnataka**, commercialization approvals require **approximately 1 year of field trials and performance evaluations** conducted by **State Agricultural Universities** to establish that the seed variety demonstrates superior performance over existing products. Successfully obtaining such regulatory approvals reflects the Company's scientific capabilities, product quality and regulatory expertise, creating a significant competitive advantage and a strong entry barrier for new market participants.
