# Curbing spike in prices: Govt mulls imposing stock holding limit for wheat

SANDIP DAS  
New Delhi, February 12

THE GOVERNMENT IS exploring options like imposing stock holding limit for wheat and releasing additional quantities of the grain over and above the 3 million tonne (mt) already approved for the open market sale from the Food Corporation of India (FCI) stocks to curb a spike in retail prices.

Besides, the government will continue with the ban on wheat exports imposed last year till the end of the 2023-24 marketing season (April-June). It will also scale up procurement operations to ensure that the grain stocks remain at a comfortable level through the coming summer.

"We will take all possible measures in the next few weeks to prevent any spike in domestic prices of wheat and flour," a food ministry official told FE. The aim is to bring down wheat prices, prior to commencement of Minimum Support Price (MSP) purchase by FCI and state agencies from April 1.

Following the selling of 0.92 mt of wheat in the open market from FCI stocks in the first e-auction held at the beginning of this month, mandi prices of wheat have dropped from a range of ₹2,900-₹3,000/quintal to around ₹2,450-2,500/quintal at the present.

This price is against the Minimum Support Price of ₹2,125/quintal announced for the 2023-24 marketing season.

The government will offer 1.5 mt of wheat through the second e-auction on February 15. As on February 9, the FCI had wheat stock of 14.7 mt

which is above the buffer norm of 13.8 mt for January 1. As per the food ministry's assessment, the wheat stocks held with FCI by April 1, 2023 would be a comfortable 9.7 mt against a buffer of 7.4 mt. "Mandi prices of wheat are still ruling above MSP, once the grain purchased through e-auction enters the market, retail prices of wheat as well as flour are expected to decline," the official said.

According to the department of consumer affairs' price monitoring cell data, the modal retail price of wheat and flour (atta) on Saturday rose to ₹28/kg and ₹35/kg, respectively, from ₹22/kg and ₹28/kg six months ago.

Wheat retail inflation rose by 22.2% in December. On the current wheat crop prospects, Gyanendra Singh, director, Indian Institute of Wheat and Barley Research, a Karnal-based institute affiliated to Indian Council for Agricultural Research, said, "Weather fluctuations are there but so far very good for wheat crop. Last two days were cooler and nights are continuing to be cool."

According to agriculture ministry data, wheat has been sown in 34.3 million hectare this season, which is marginally higher than the previous year.

The agriculture ministry will release the first advance estimate of wheat output for the 2022-23 crop season (October-September) later this month. Pitram Singh, a wheat farmer

from Panipat, Haryana, said that the prevailing day time temperature has been slightly on the higher side, but a drop in night temperature is at present conducive for the crop.

Wheat output in the last crop year (July-June), had declined by around 3% on year to 106.8 mt because of heat waves during the flowering stage of the crop in March.

## New valuation norms for taxing foreign investments in unlisted firms

PRESS TRUST OF INDIA  
New Delhi, February 12

THE INCOMETAX department is likely to come out with modified valuation rules under the I-T Act for ascertaining the fair market value (FMV) of shares of unlisted companies for the purpose of levying tax on non-resident investments, an official said.

The Finance Bill, 2023 has proposed amending Section 56(2)(viib) of the I-T Act, thereby bringing overseas investment in unlisted closely held companies, excepting DPIIT-recognised startups, under the tax net.

The official said that amendments are needed as I-T Act and FEMA provide different methodologies for calculating the FMV of shares of unlisted companies.

"Rule 11UA of I-T rules will be re-prescribed taking into account the concerns expressed by stakeholders to harmonise it with the FEMA regulations," the official told PTI. Rule 11UA deals with determination of FMV of assets, other than immovable property.

Under the existing norms, only investments by domestic investors or residents in closely held companies were taxed over and above the fair market value. This was commonly referred to as angel tax.

The Finance Bill, 2023, has proposed such investments over and above the FMV, will be taxed irrespective of whether the investor is a resident or non-resident. Once approved by Parliament, the provisions would come into effect from April 1. However, no tax would be levied on investments in startups which meet the prescribed norms and are recognised by the department for promotion of industry and internal trade (DPIIT).

Post the amendments proposed in the Finance Bill, concerns have been raised over the methodology of calculation of fair market value under two different laws.
