Dear Mr. /Ms.:

1. Among the 10 upazilas of Rangamati hill district, the three most remote upazilas are Bilaichari, Jurachhari and Barkal. These upazilas are located in three very remote hilly areas. Rangamati district has no road connection with these three upazilas. At present road construction work is going on from Rajasthali through Farua of Bilaichhari Upazila to Dumdumiya of Jurachhari Upazila under the project titled " Border Road Construction (1st Phase)" under the department of Roads and Highways which is being constructed by the Bangladesh Army. Even if the work on this road is completed, the road from Dumdumia in Jurachhari to Barkal will remain disconnected. It is noted here that these three upazilas have many tourist attractions like Sajek, Chimbuk, Nilgiri Hills which are unable to attract tourists due to lack of communication network. Moreover, the region produces a large amount of agricultural and forest resources which cannot be shipped/transported for sale over long distances due to lack of road connectivity. As a result, the products produced are often spoiled. Moreover, due to the lack of road connectivity, the people of these areas are living a very inhumane life and are struggling to meet many basic needs even in this modern age. At the same time, lack of proper communication system has made it difficult to maintain security in these areas. Therefore, to build a road network in these three remote upazilas, it is necessary to construct roads on an urgent basis and for this it is absolutely necessary to conduct a feasibility study at the beginning.

Draft RFP For Feasibility study (Rangamati) F
