**Subject: Digikore Studios hires 60 VFX artists as global VFX demand scales up**

---

Sir / Madam,

Digikore Studios Limited (NSE: DIGIKORE) is pleased to inform the Exchange that the Company has hired 60 skilled VFX artists in February 2026, following a focused walk-in recruitment drive conducted on 31 January 2026, during which over 180 candidates were evaluated.

This strategic hiring marks Phase-I of Digikore's planned workforce expansion, aligned with the strong recovery and accelerating demand in the global VFX industry. With production activity resuming at scale across the United States and Europe, the Company anticipates a sustained and busy operating environment through FY 2026–27.

To support increasing multi-show pipelines and long-term client commitments, Digikore plans to scale its team strength to approximately 500 professionals by August / September 2026.

This expansion is underpinned by multiple structural growth drivers, including:

- a strategic partnership with EFD Studios,
- achievement of TPN Gold Star security certification,
- establishment of a dedicated Netflix delivery team, and
- onboarding of several new clients across the US and European markets.

## Strategic relevance for stakeholders

- **Scalable capacity for global demand:** The current hiring represents the first step in building delivery depth required to service parallel international productions with consistent quality and turnaround timelines.
- **Strengthened international pipeline:** The EFD Studios partnership provides structured access to European and Latin American projects, enhancing deal flow visibility across films and episodic content.
- **Trust, compliance, and execution at scale:** TPN Gold Star status places Digikore among a select group of globally trusted studios, accelerating client onboarding and enabling participation in larger, long-tenure mandates.
- **Revenue visibility and margin support:** New client signings across the USA and Europe provide recurring monthly execution visibility, supporting higher utilization and operating leverage as the team scales.

## Forward-Looking Statement

This communication contains forward-looking statements based on current expectations, assumptions and market conditions. Actual results may differ materially due to changes in production schedules, commissioning decisions, market dynamics and other risk factors.

Yours faithfully,  
For Digikore Studios Limited

Abhishek Rameshkumar More  
Managing Director
