## **Digikore Studios Signs China Distributor for Kingdom Games at MIFA Annecy; Major Step Towards Global Release of the Film**

*China distribution milestone validates the global potential of Digikore's AI-assisted animated feature film and strengthens the Company's transition into owned IP, global content creation and media-tech monetization.*

**Pune, India – 30 June 2026:** Digikore Studios Limited (NSE: DIGIKORE), a leading technology-driven Visual Effects studio, is pleased to inform stakeholders that its original AI-assisted animated feature film, Kingdom Games, received a fantastic response at MIFA, Annecy, one of the world's most important animation markets. A major highlight was the signing of a China distributor for Kingdom Games — a significant milestone given China's position as one of the world's largest and most influential film markets.

**View Kingdom Games Film Trailer:** <https://vimeo.com/user16751730/kg-mifa-trailer>

The importance of China for animated films has been further highlighted by the historic success of *Ne Zha 2*, which crossed US\$2 billion at the global box office and became the highest-grossing animated film of all time. This demonstrates the extraordinary scale and appetite of the Chinese market for high-quality animated storytelling.

### Key Highlights

- **China distribution secured:** Signing a China distributor is a major strategic win and opens access to one of the world's biggest theatrical and family-entertainment markets.
- **Strong validation at MIFA:** The response from sales agents, distributors and buyers validates the global appeal of *Kingdom Games* and strengthens Digikore's confidence in the film's international potential.
- **Global distribution momentum:** Digikore held several encouraging meetings with distributors and sales agents across multiple territories, creating a strong foundation for wider international distribution.
- **Indian animation on the global stage:** *Kingdom Games* has the potential to become one of the most widely distributed animated feature films produced by an Indian company.
- **AI-assisted animation breakthrough:** Digikore has disrupted traditional animation economics through its proprietary AI-assisted production pipeline, enabling high-quality animated content at nearly one-tenth the cost of conventional production cost.

**Commenting on the Update, Mr. Abhishek More, Founder & CEO, Digikore Studios Limited, said:** *"Signing a China distributor for Kingdom Games at MIFA is a massive milestone for Digikore. China has emerged as one of the most powerful markets for animated films, and this partnership gives Kingdom Games a strong international launchpad. More importantly, it validates Digikore's transition from a pure-play VFX services company to a global media and technology company. Our proprietary AI-assisted animation pipeline allows us to create high-quality content at a fraction of traditional cost, opening the door to long-term revenue growth through owned IP, global distribution and multiple monetization streams. This is an important step in building Digikore's future."*

### About Digikore Studios Limited:

Digikore Studios Limited is a leading technology-driven Visual Effects studio serving global entertainment clients across films, streaming and television. The Company is known for delivering high-quality VFX work for major international productions and continues to expand its capabilities through innovation, execution excellence, and strategic initiatives designed to build long-term scale and resilience.
