Dish TV India Ltd

Chairman's Message

Dear Shareholders,

I am pleased to present the Annual Report for FY 2024–25, which reflects a year of strategic evolution and operational resilience in a rapidly transforming media and entertainment environment. Dish TV responded proactively to changing consumer expectations, technological disruptions and intensifying industry competition. Our Company undertook targeted initiatives to strengthen our digital capabilities, enhance customer engagement and recalibrate our strategic focus. Dish TV also benefited from favourable policy developments and an improving global economy, which supported efforts to build a stronger, future-ready foundation for long-term growth and value creation.

This momentum was reinforced by the broader macroeconomic environment, as global GDP grew by 3.3% in 2024, with forecasts indicating continued expansion at 2.8% in 2025 and 3.0% in 2026. Advanced economies remained stable, while emerging markets, particularly India with 6.5% growth in 2024, played a key role in sustaining momentum. Structural reforms in the Euro Area and Japan along with China's shift to balanced growth, added resilience. Despite trade uncertainties from new US tariffs, the outlook remains positive, driven by innovation, policy reforms and global collaboration.

Amid this global resilience, India's economic performance stood out, reflecting the country's own strength driven by favourable demographics, strong domestic demand and a sustained reform-oriented approach. While GDP growth moderated to 6.5% in FY 2024–25 from 9.2% in the previous year, the slowdown was largely attributed to weaker manufacturing activity, elevated food inflation, subdued urban consumption, sluggish private investment and limited job creation. Despite these challenges, the Indian economy remained on firm footing, buoyed by robust growth in the services sector, increased infrastructure spending and the rapid advancement of digital initiatives. The Reserve Bank of India's (RBI) proactive policy measures, coupled with a forward-looking Union Budget, further reinforced economic stability. Additionally, the growing adoption of UPI and strategic policy thrusts have laid the groundwork for steady medium-term expansion and long-term development.

Industry Developments

These favourable macroeconomic conditions positively influenced several key sectors of the Indian economy. The Media & Entertainment (M&E) sector, in particular, emerged as a significant contributor in 2024, displaying remarkable agility in adapting to evolving viewer preferences and the rapid pace of digital transformation. According to the FICCI-EY report titled '*Shape the Future: The Revolution in Indian Media and Entertainment*', the industry grew by 3.3% to reach ₹ 2.5 trillion, contributing approximately 0.73% to the national GDP. This growth was primarily driven by digital media, which witnessed a surge in advertising revenues, while traditional segments such as Pay TV and print continued to face structural challenges. Overall advertising spending touched ₹ 1.28 trillion, with digital platforms accounting for a dominant 56% share. Although the animation and VFX segments experienced setbacks due to global disruptions, the industry found support from other areas, including live events, out-of-home media and the increasing popularity of regional content. Looking ahead, the sector is projected to grow to ₹ 3.1 trillion by 2027, driven by the expansion of Over-the-top (OTT) platforms, rising advertising Small and Medium Enterprises (SME) driven, enhanced efficiencies through Artificial Intelligence (AI) and the growing demand for personalised content delivery.

Within the M&E industry, the Indian television industry experienced a pivotal period in FY 2024–25, shaped by evolving consumer preferences, rising digital adoption and shifts in advertising dynamics. Industry revenues declined from ₹ 711 billion in 2023 to ₹ 679 billion in 2024, largely due to reduced Pay TV penetration, changing Fast Moving Consumer Goods (FMCG) advertising allocations and the growing reach of broadband services. Despite these challenges, the television landscape in India remains vast and diverse, comprising over 936 channels and a strong presence in rural and regional markets. Public platforms and emerging formats like Connected TV (CTV) would significantly expand-viewership access. The adoption of regulatory reforms like the New Tariff Order 4.0, along with efforts to revive inactive set-top boxes and broaden regional content offerings, would also reshape industry strategies. With India's television household base projected to reach 196 million by 2027 and CTV rapidly gaining traction, the industry is undergoing a steady transformation towards digital convergence, content innovation and platform-agnostic distribution models.

Performance Overview

At Dish TV, we have firmly established our position in the Direct-to-Home (DTH) landscape by delivering innovative and accessible entertainment solutions across urban, semi-urban and rural markets. Our services are offered through three core brands—Dish TV, D2H and Zing Super—and are complemented by our rapidly growing OTT platform, Watcho. Together, these platforms ensure a full-spectrum entertainment experience that integrates broadcast, Pay TV and digital services. Our comprehensive content portfolio includes over 575 channels, comprising 87 high-definition (HD) and 4 international channels, along with 19 value-added services and 24 OTT platforms. This wide array of offerings allows us to provide entertainment across multiple formats and devices, appealing to a broad and diverse audience.

Our Company has maintained a strong national footprint through an extensive distribution network of over 2,200 distributors and 1,34,000 dealers across 9,500 towns. This reach is further strengthened by our multilingual customer support and partnerships that ensure convenient recharge and servicing options. Our product range, which includes from basic set-top boxes to advanced hybrid devices such as Dish TV Smart+, effectively caters to varying consumer preferences.

In line with our commitment to technological advancement, we have introduced modern smart devices such as the Dish SMRT Hub and DTH Stream, powered by Android TV 9.0. These devices come equipped with features like gaming, Google Assistant and Chromecast, enhancing the user experience. Our hybrid services and smart offerings represent a strategic shift beyond traditional DTH, enabling us to meet evolving consumer expectations.

Watcho continues to play a pivotal role in our digital strategy. With over 10 million paid subscriptions, the platform aggregates premium content from leading providers such as JioHotstar, Z5 and SonyLIV. During FY 2024-25, we launched FLIQS on Watcho—a unique initiative that empowers content creators by granting them intellectual property rights, a feature that has resonated strongly with younger audiences. To support our expanding digital ecosystem, we established Dish Bharat Ventures Private Limited to manage e-commerce and order fulfilment operations. Our strategic focus includes content development, commerce, technological innovation and superior customer service.

Despite regulatory changes, inflationary pressures and intensified competition across the DTH, streaming, telco and cable spaces, our agile operating model, zero-debt balance sheet and strong brand equity position us well for sustainable growth. Our continued emphasis on regional content and presence in smaller towns allow us to capture demand in underserved markets such as southern India, West Bengal, Odisha and Maharashtra.

In FY 2024-25, we achieved steady subscriber growth consistent with industry benchmarks, despite elevated churn levels. During the year, we prioritised optimising subscriber quality, reducing recurring capital expenditure on set-top boxes and improving cash flow to support future growth initiatives internally. Although our Earnings Before Interest, Taxes, Depreciation and Amortisation (EBITDA) was impacted by intensified competition, inflationary pressures and currency volatility, our long-term initiatives are expected to drive sustainable performance. Our balanced approach to managing costs alongside growth has strengthened our operational resilience. Our revenue declined to ₹ 15,676 million from ₹ 18,565 million in FY 24-25 primarily due to a reduction in Pay TV subscriber numbers and stagnant average revenue per user (ARPU). We reported EBITDA of ₹ 5,291 million, with the margin narrowing to 33.75% from 40.6%. Our depreciation decreased by 7%, while finance costs remained stable. We posted a pre-tax loss of ₹ 1,523 million compared to a profit of ₹ 341 million in the prior year. Exceptional items amounted to ₹ 3,354 million. However, our net loss improved significantly to ₹ 4,877 million from ₹ 19,666 million.

Robust Future Outlook

Dish TV recognises that the media consumption landscape is undergoing a transformative shift, as audiences increasingly engage with content across both traditional and digital platforms. In response, our Company has embraced innovation and proactively adapted our strategies to connect with today's discerning viewers. With the growing competition from DTH operators, streaming services, government-backed platforms, telecom companies and cable providers, we are implementing bold and dynamic initiatives to retain our core user base while reaching new audiences.

Zing continues to appeal to viewers seeking a combination of free-to-air and paid content. As regional demand for FTA programming grows, we are strategically expanding our offerings to cater to these high-potential markets.

Our Company's DTH services are evolving through a focus on regional content, thoughtfully curated channel packs and affordable value-added offerings. Watcho remains a cornerstone of our digital engagement strategy, offering multilingual and short-form content that resonates particularly well with younger, tech-savvy audiences.

Operational excellence has always been central to our approach. We are leveraging artificial intelligence and advanced analytics to personalise content experiences and build deeper customer loyalty. Even amid regulatory shifts and inflationary challenges, our agile operating model, trusted brand presence, and wide distribution network provide a resilient foundation for long-term growth.

Looking ahead, we are excited by the possibilities at the intersection of broadcast and digital media. Our focus is on reinforcing our hybrid ecosystem, building stronger consumer relationships and fostering partnerships that enable ongoing innovation. By combining the strengths of broadcast with the adaptability of digital platforms, we aim to deliver secure, immersive, and highly personalised entertainment experiences.

We are grateful for your continued trust and support. As we shape the future of Dish TV, our commitment remains rooted in creating lasting value, maintaining a customer-first approach and staying ahead of evolving industry dynamics.

Warm regards,

Manoj Dobhal

to create heavy toll on the finances of the Company. Recent competition from the emerging platforms and high churn has led to margin pressure and sub-optimal pricing of the product. All of this has resulted in losses to the Company. Moreover, higher depreciation was also a cause for net loss.

- b. Steps taken or proposed to be taken for improvement:** The Company had started universalization of Set Top Boxes to be converted into High-Definition Boxes. The Company had also launched a penetrated High end Android Box for the discerning customers. Recently the OTT Platform has also gained popularity and the combination of traditional DTH offering combined with the OTT platform will provide stability and durability to the revenue stream.

The Company implemented a series of strategic initiatives to overcome losses and drive business expansion. It accelerated its transformation into a comprehensive entertainment and technology platform with the launch of Dish TV Smart+, integrating DTH and OTT services at no additional cost to enhance content accessibility across devices. The OTT platform, has been expanded by introducing intelligent content discovery features, personalised viewing options, and creator-first verticals like FLIQS, evolving it into a super-app. To strengthen its leadership in content, it launched the "Content India" forum in April 2025, aiming to position India as a global content hub. Diversifying into the digital commerce space, the Company established Dish Bharat Ventures Private Limited (wholly owned subsidiary company) and launched ShopZop, marking its entry into both B2B and B2C marketplaces. It expanded reach in rural and semi-urban markets through smart connected devices like Dish SMRT Hub, D2H Stream, and hybrid products like Zing Super, backed by regional content strategies. Shifting focus from high-subsidy subscriber acquisition, the Company adopted a retention-led approach through recharge-based incentives under plans like "Malamal" and "Jackpot." Customer loyalty was reinforced through campaigns such as 'Dish Ki Diwali' and enhanced service quality supported by digital tools including AI-powered chatbots and Adobe Experience Manager. Additionally, the Company revamped its mobile app and website for a seamless digital experience and created a new service vertical to enhance operational accountability and customer satisfaction. Strategic partnerships with broadband providers enabled the bundling of DTH, OTT, and internet services, ensuring competitive advantage in a converging entertainment landscape. Also, there is a constant vigil on variable cost component for its optimization and control. As a result of these efforts, the Company narrowed its net loss to ₹ 4,877 million after accounting for exceptional expenses of ₹ 3,354 million during the financial year 2024-25, reflecting significant improvement over the previous year.

- c. Expected increase in productivity and profits in measurable terms:** Under the leadership of Mr. Dobhal, the Company is expected to expand its operations to a wider section of subscriber due to the availability of both DTH as well as the OTT Platform. The Company is expanding the content distribution through offering new and contemporarily products and choices to the customers.

As there is no debt obligation, the outgo on account of principal and interest as in earlier years will be saved and used for business purposes. The new businesses will galvanise the floating young subscribers and will add to the overall kitty of revenue and profitability. Going forward, the pressure of amortization of intangible assets will ease and will provide relief to the bottom line. The confluence of four brand offerings i.e. DishTV, D2H, Zing Super and Watcho OTT app, will attract wider audience and provide choice to the customers of different price point and genre of content.

3. BUSINESS OVERVIEW

Dish TV India Limited remains a pioneering force in the Direct-to-Home (DTH) broadcasting sector, driving India's digital entertainment evolution by introducing advanced television technologies that seamlessly blend traditional and digital media to enhance the home entertainment experience. The Company's core brands - DishTV, D2H and Zing Super, cater to diverse consumer segments with tailored offerings aligned to varying preferences and price points, thereby strengthening its market reach. During the Financial Year 2024-25, the Company accelerated its transformation into a comprehensive entertainment and technology platform, marked by the launch of Dish TV Smart+, which integrates DTH and Over-the-Top (OTT) services at no additional cost, expanding content accessibility across devices. The OTT platform, Watcho, was further expanded by launching intelligent content discovery tools and personalised viewing features to deepen user engagement and evolved it into a super-app that aggregates leading OTT services while introducing creator-first verticals like FLIQS to promote engaging, accessible and monetizable digital content.

The content ecosystem was further strengthened by introducing Watcho FLIQS, a creator-centric platform empowering independent content producers with monetization opportunities and IP rights retention. The Company reinforced its leadership by launching the "Content India" forum in April 2025, aiming to position India as a global content hub.

Dish TV diversified into e-commerce through the establishment of Dish Bharat Ventures Private Limited (the Company's wholly owned subsidiary) and the launch of ShopZop, marking its entry into both Business to Business (B2B) and Business to Customer (B2C) digital marketplaces. The Company broadened its reach, particularly in rural and semi-urban markets with comprehensive content offerings, smart connected devices such as Dish SMRT Hub and D2H Stream, regional content strategies and hybrid products like the Zing Super device.

Dish TV shifted its growth strategy to focus on retention by replacing high-subsidy subscriber acquisition models with recharge based incentives under plans such as 'Malamal' and 'Jackpot'. The Company supported this shift by adopting a direct-to-consumer approach through digital platforms and a dedicated field sales team, moving away from traditional dealer centric models. The Company reinforced customer loyalty through campaigns like 'Dish Ki Diwali' and enhanced service quality by implementing advanced digital tools including AI-powered chatbots and Adobe Experience Manager. The mobile app and website were revamped, to ensure consistent user experience, while creating a new service vertical to strengthen operational accountability and customer satisfaction.

The company maintained strict financial discipline while investing in digital capabilities and onboarding talent specialized in technology and innovation ecosystems. Dish TV leveraged its extensive distribution network of over 2,000 distributors and 175,000 retailers to launch ShopZop, a B2B e-commerce platform targeting Tier 2 and Tier 3 markets, connecting offline demand with online product access without inventory risk. The company forged strategic partnerships with broadband providers to offer bundled services that combine DTH, OTT and internet ensuring competitive positioning in a converging entertainment landscape.

As per the SEBI LODR, the Board of Directors of the Listed Entity shall be comprised of not less than*

six directors. Accordingly, the composition of the Board of Directors was not as per Regulation 17 of SEBI LODR throughout the audit period. The composition of the Board was not being complied with due to non-approval of the resolutions for the appointment of Directors by the shareholders of the Company, resignation of Director and requirement of having prior approval of the Ministry of Information and Broadcasting before appointing any Director on the Board of the Company, in terms of the Guidelines for Up-linking and Downlinking of Satellite Television Channels in India, 2022.

2. The requirement of having minimum two Independent directors on the Board at all times, as per Section 149 of the Act was not complied with during the period from March 22, 2024 till April 29, 2024 and from May 14, 2024 till May 19, 2024 due to non-approval of the resolutions for the appointment of Directors by the shareholders of the Company, resignation of Independent Director and requirement of having prior approval of the Ministry of Information and Broadcasting before appointing any Director on the Board of the Company, in terms of the Guidelines for Up-linking and Downlinking of Satellite Television Channels in India, 2022.
3. The requirement of having minimum 1 Woman Independent Director on the Board at all times as per Section 149 of the Act and Regulation 17 of SEBI LODR was not complied with during the period May 14, 2024 till June 13, 2024 and from September 14, 2024 till the end of the period under review.
4. There were only two directors on the Board from March 22, 2024 till April 29, 2024 and from May 14, 2024 till May 19, 2024, which is not in compliance with Section 149(1)(a) of the Companies Act, 2013. The said section required that every Public company shall have a Board of Directors consisting of minimum number of three directors. However, at the Board meeting held on May 20, 2024, the Directors only took decisions pertaining to induction of new Director on the Board, in terms of Section 174(2) of the Companies Act, 2013.
5. The Board Meeting held on May 20, 2024, was attended by only two directors, which was in default of Regulation 17(2A) of the SEBI LODR. As per the said regulation, the quorum for every meeting of the board of directors of top 2000 listed entities with effect from April 1, 2020 is one-third of its total strength or three directors, whichever is higher, including at least one independent director. However, pursuant to section 174(2) of the Companies Act, 2013, at the Board meeting held May 20, 2024, the Directors only took decisions pertaining to induction of new Director on the Board.
6. For the entire period under review i.e. from April 01, 2024 till March 31, 2025, the Nomination and Remuneration Committee of the Board of Directors was not duly constituted and had members less than minimum three members as required under Section 178 of the Companies Act, 2013 read with Regulation 19 of the SEBI LODR. The functions of the Committee were discharged by the Board during this period.
7. Consequent to the reduction of strength in total number of Board Members below the minimum required under Section 149 of the Act and / or Regulation 17 of SEBI LODR, the composition of the committees as required to be maintained under Regulations 18, 20 and 21 of the SEBI LODR were not as per the respective regulations from time to time, till new directors were inducted on the Board and the Committees were reconstituted. However, the functions of all the Board committees mandated in Companies Act and / or SEBI LODR, except for the Nomination and Remuneration committee of the Company, were duly discharged at the meetings of the respective Board committees upon their reconstitution. The functions of the Nomination and Remuneration were discharged by the Board whenever the total strength of the committee members went below the statutory minimum or appropriately constituted committee was not in place.
8. During the period under review, BSE and NSE has imposed fines for non-compliance of various regulations of SEBI LODR, 2015 from time to time. The fines were duly paid by the company within time limit.

Dish TV India Ltd

not approved with requisite majority by the shareholders. The company opted for settlement mechanism provided under the SEBI (Settlement Proceedings) Regulations, 2018 for the settlement of show cause notice.

Response

The non-compliance of composition of the Board of Directors or Board Committees or non-compliance in respect of quorum requirements and appointment of Independent Woman Director, primarily arose on account of non-approval of the appointment of Directors by the Shareholders of the Company from time to time and resignation of Director. In addition, the Company was also bound by the Guidelines for Up-linking and Downlinking of Satellite Television Channels in India, 2022, issued by the Ministry of Information and Broadcasting ('MIB') which prescribes for prior approval of the MIB before appointment of any Director on the Board unless the number of Directors on the Board is less than 3 Directors, in which case, the Company has the right to appoint upto 3 Directors and seek subsequent approval of the MIB. The Board/Nomination and Remuneration Committee in its capacity has always taken requisite and timely steps to ensure compliance with respect to the minimum number of Directors required on the Board / Committees of the Company, including appointment of Independent Woman Director and the quorum requirements.

The Board and the management have always made conscious efforts to comply with all the applicable laws and regulations, including Listing Regulations, the Act and the Up-linking Guidelines of MIB. It is stated that the non-compliance of certain provisions of Listing Regulations and the Act, which occurred during the period under review occurred due to circumstances which were beyond the control of the Company. It is also mentioned that the Stock Exchanges viz. National Stock Exchange of India Limited and BSE Limited, imposed penalty on the Company on account of the above referred non-compliances in terms of the SOP's of the exchanges. While the Company has paid the penalty in the prescribed timelines, the Board/Nomination and Remuneration Committee in its capacity has always taken requisite and timely steps to ensure compliance with respect to the minimum number of Directors required on the Board / Committees of the Company, including appointment of Independent Woman Director and the quorum requirements. The said non-compliances were beyond the control of the Company, Board and Management and primarily arose on account of non-approval of the appointment of Directors by the Shareholders of Company from time to time and resignation of Director.

As regard the Show Cause Notice received by the Company from SEBI for alleged violation of provision of Regulation 17(1C) of the Listing Regulation in relation to failure to obtain prior approval of shareholders for the continuation of Mr. Jawahar Lal Goel as a Non-Executive Director during the period from June 25, 2022 to September 19, 2022, while the said continuation was basis legal opinions sought in this regard from eminent firms, however the Company opted for settlement mechanism provided under the SEBI (Settlement Proceedings) Regulations, 2018 for the settlement of the said Show Cause Notice.

4. There were only two directors on the Board from March 22, 2024 till April 29, 2024 and from May 14, 2024 till May 19, 2024, which is not in compliance with Section 149(1)(a) of the Companies Act, 2013. However, the functions of all the Board committees mandated in Companies Act and / or SEBI LODR, except for the Nomination and Remuneration committee of the Company, were duly discharged at the meetings of the respective Board committees upon their reconstitution. Expected Dividends The shares issued under stock options shall rank *pari-passu*, including the right to receive dividend. Expected dividend payouts to be paid during the life of the option reduce the value of a call option by creating drop in market price of the stock. Adjustments for known dividend payouts over the life of the option are made to the formulae under Black Scholes method. However, in the present case, as the life of the option is greater than one year, there is considerable difficulty in estimating the amount and time of future dividend payouts with certainty. Hence, future dividend payouts have not been incorporated in the valuation analysis.

(b) the method used and the assumptions made to incorporate the effects of expected early exercise	Not Applicable
(c) how expected volatility was determined, including an explanation of the extent to which expected volatility was based on historical volatility	Volatility is a measure of the amount by which a price has fluctuated or is expected to fluctuate during a period. Each vest has been considered as a separate grant. The volatility for periods corresponding to the respective expected lives of the different vests, prior to the grant date has been considered. The daily volatility of the Company's stock price on National Stock Exchange of India Limited over these years has been considered.
(d) whether and how any other features of the option grant were incorporated into the measurement of fair value, such as a market condition	Not Applicable

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMY OVERVIEW

Global Economy

The global economy is poised for steady progress, supported by technological advancements, targeted policy measures, and a gradual recovery in global trade and supply chains. Global GDP grew at a steady rate, reaching 3.3% in 2024, followed by 2.8% in 2025 and slightly improving to 3.0% in 2026. While growth patterns vary across regions, many economies are on a path of gradual improvement. Advanced economies maintained a stable growth trajectory with growth reaching 1.8% in 2024, 1.4% in 2025 and 1.5% in 2026, supported by resilient consumer demand and continued structural reforms. The United States continued to perform strongly with growth moderating from 2.8% in 2024 to 1.7% by 2026 while maintaining healthy fundamentals. The Euro Area and Japan, though growing at a slower pace, are making efforts to strengthen long-term competitiveness and address structural challenges.

Source: International Monetary Fund Report - April 2025

Emerging Market and Developing Economies (EMDEs) remain the primary engines of global growth, underpinned by strong domestic consumption, investment, and reform momentum. Growth in EMDEs was projected at 4.3% in 2024, easing slightly to 3.7% in 2025, and improving to 3.9% in 2026. India stood out as a key growth leader with its economy expanding by 6.5% in 2024 and expected to grow by 6.2% in 2025 and 6.3% in 2026, supported by robust demand and a strong reform agenda. China continues to transition toward a more balanced and sustainable growth model with steady performance expected. Despite global uncertainties, the outlook remains optimistic with resilience strengthened by policy support, digital innovation and continued global economic cooperation. The US decision to impose tariffs on different countries in March 2025 along with subsequent retaliatory actions has the potential to disrupt global trade, increase inflationary pressures and weigh on economic growth. Higher import cost may translate into increased consumer prices across various regions. Nonetheless, economies are expected to demonstrate resilience by harnessing technological innovations and implementing strategic policy measures to uphold stability and sustain growth momentum.

INDIAN ECONOMY

India remains one of the fastest growing major economies driven by its demographic strengths, robust domestic demand, and a series of ongoing structural reforms. The country has continued to strengthen its position in the global economy supported by

Dish TV India Ltd

strong GST collection and sustained growth across key sectors such as manufacturing, infrastructure and technology. However, India's GDP growth moderated to 6.5% in FY 2024-25 from 9.2% in FY 2023-24, according to the Ministry of Statistics and Programme Implementation (MoSPI) report. This slowdown is largely attributed to a deceleration in manufacturing, persistent food inflation, tepid urban consumption, limited job creation, a widening trade deficit, and muted private sector investment.

Despite these headwinds, India has demonstrated resilience and maintained a steady growth trajectory. The services sector remained a key driver, while increased public investment in infrastructure has helped offset some of the private sector's weakness. Government initiatives aimed at digital transformation, financial inclusion and improving the ease of doing business have further supported the economy's structural strength. As a result, India remains well-positioned to outperform many of its global peers and sustain medium-term growth amid an uncertain global economic environment.

#Reserve Bank of India (RBI) Monetary Policy Committee (MPC) report dated June 6, 2025

RBI has played a proactive role in managing inflation and supporting growth during FY 2024-25. The RBI's Monetary Policy Committee ('MPC') implemented two consecutive repo rate cuts of 25 basis points each, bringing the rate down to 6% by April 2025 and shifting to an accommodative policy stance. In its meeting concluded on June 6, 2025, the MPC further reduced the repo rate by 50 basis points to 5.50%. Consumer Price Index (CPI) inflation was projected to average 3.2% in FY 2024-25, down from 5.4% in FY 2023-24 and was expected to remain moderate at approximately 3.7% in FY 2025-26. The move is expected to stimulate domestic demand, support credit growth and add fresh momentum to overall economic activity.

India stands at a transformative crossroads, where Artificial Intelligence (AI) driven innovation, strong digital infrastructure and a future-ready skilled workforce are propelling it toward becoming a global leader in the digital economy. UPI transactions experienced a substantial increase in recent years, with the total transaction value growing from 21.3 lakh crore in FY 2019-20 to 213.8 lakh crore by January 2025. The Union Budget 2025 transcends traditional fiscal measures, laying out a visionary roadmap for a stronger Digital India with an emphasis on technology-led growth, AI-powered modernization and inclusive economic development.

INDUSTRY OVERVIEW

INDIAN MEDIA AND ENTERTAINMENT (M&E) SECTOR

The Indian Media & Entertainment (M&E) sector continued to be an important pillar of the economy in 2024, reflecting its adaptability to evolving consumer preferences and ongoing digital transformation. As per the FICCI-EY report titled “*Shape the Future: Indian Media and Entertainment is Scripting a New Story*”, the industry grew by 3.3% in 2024, adding ₹ 81 billion to reach ₹ 2.5 trillion (US\$29.4 billion), contributing 0.73% to the national GDP. Digital media emerged as the largest segment, contributing 32% of total industry revenues. This shift was mainly driven by the 8.1% growth in advertising revenues, supported by digital performance ads, e-commerce spending and rising demand for premium out-of-home (OOH) media. In contrast, subscription revenues declined by 1.6%, impacted by a reduction in Pay TV households, weaker box office collections, higher taxes on online gaming and reduced demand for high-cost premium OTT content. The animation and VFX segment also faced pressure due to global demand challenges and a focus on fewer, high-quality productions.

Despite this, the sector recorded robust activity in digital media, live events and OOH advertising, which helped offset declines in traditional segments. Advertising expenditure reached a historic high of ₹ 1.28 trillion with digital accounting for 56% of the total. Traditional platforms, particularly television, witnessed a decline in ad revenues as audiences shifted to Connected TV (CTV).

Together, digital, television and print contributed 92% of the total advertising spend. However, television advertising dropped by 20% due to audience fragmentation. Content creation remained strong during the year, with nearly 200,000 hours of programming produced and over 1,600 films released, including 500 on OTT platforms. While platforms limited investment in high-cost OTT content, they expanded regional content offerings to reach wider audiences. The industry also saw a revival in mergers and acquisitions, driven by large transactions in traditional media and increased involvement from strategic investors. Although India’s advertising-to-GDP ratio stood at 0.38%—below global benchmarks—it closely followed nominal GDP trends and is expected to improve with digital acceleration.

Outlook

India’s M&E sector is expected to reach ₹ 3.1 trillion by 2027, growing at a 7% CAGR, led by new media, which will drive 68% of growth and make up 46% of revenues, while traditional media will contribute 41% of revenue advertising will comprise 52% of total

Dish TV India Ltd

sector revenues in 2027, while the share of subscription revenue will reduce to 35%. The video market, with nearly 900 million mostly mobile screens by 2030, offers strong potential for short-form and real-time content, alongside OTT subscriptions growing from 47 million to over 65 million by 2027. Small and Medium Enterprises (SME) digital advertising, valued at ₹ 258 billion, presents an opportunity to integrate small businesses into television advertising through innovative and affordable solutions. The shift in news consumption to online platforms is driving broadcasters to adopt multi-format content and diversify revenue streams, while customer-focused innovations like unified search and personalized recommendations are enhancing user experience.

Traditional media is facing stiff competition from digital media across all formats, and this has created pressure on growth of DTH and other distribution platforms. Future appears to be a combination of old and new age media and Industry is shaping up such challenges gracefully.

Experiential event growth will expand beyond metros into emerging cities and Digital Out-Of-Home (DOOH) media expected to reach 17% market share by 2027, growing at 24% CAGR. The film industry will produce fewer, higher-quality films with wider reach via affordable theatres in smaller cities, while Transactional Video-on-Demand (TVOD) will grow alongside digital access. Print media faces stagnation, pushing publishers to diversify digitally, while audio subscriptions are expected to double by 2027 amid expanding international revenues. Advertising will grow 8% annually to ₹ 1.38 trillion by 2025, driven by SME spends and increasing digital share, requiring stronger data partnerships and unified measurement. Content creators face monetization challenges, but animation and VFX segment is set to grow at 13% CAGR, supported by Artificial Intelligence (AI)-driven efficiencies and necessary talent reskilling.

M&E Industry Trends in India

Event Industry Expansion Beyond Metros

- Growth will be led by the “next 10” large cities beyond the metros.
- India’s top 40 cities, each with over 1 million people, are seeing faster consumption growth, prompting brands to increase event-related outreach in these areas.

Growth in Digital and Premium Out-of-Home (OOH) Advertising

- Digital OOH (DOOH) is expected to account for 17% of total OOH revenues by 2027, growing at a 24% CAGR.
- Transit OOH, including at airports and premium mass transit systems is projected to grow at 16%.
- Traditional OOH will grow at 8%, driven by expanding urbanisation and increased brand focus on Tier II and III cities.

Integration of DOOH with Digital Advertising Ecosystems

- Advertisers are shifting budgets from traditional OOH to DOOH using digital media allocations.
- DOOH buying will increasingly resemble digital ad buying.
- Inventory will become available across digital platforms such as search engines, social media and e-commerce.

Cautious Approach to Film Production

- Rising costs and reduced pre-sales of rights are limiting new film greenlighting, especially for smaller budget productions.
- Fewer films are expected to be produced in 2025, with a focus on quality and theatrical performance.

Evolving Theatrical Infrastructure and Windows

- India has low screen density at around 9,000 screens, among the lowest globally.
- While expansion by major multiplex chains is underway, significant opportunity lies in setting up low-cost theatres in Tier-III and IV cities.
- These affordable theatres can expand theatrical access from fewer than 100 million to around 175 million viewers.
- Innovation in premium digital windows—allowing early access to films near theatrical release—may also emerge.

Rise of Transactional Video on Demand (TVOD)

- Of over 1,600 films produced annually, fewer than 500 receive digital releases, leaving many unmonetized.
- The rise in wired broadband, smartphone penetration, and connected TVs is boosting TVOD, enabling revenue generation from films not picked up by OTT platforms.

INDIAN TELEVISION INDUSTRY

The Indian television industry is undergoing a phase of transition, with evolving viewer habits and digital competition prompting the sector to explore new growth avenues, even as advertising and distribution revenues adjust accordingly. Advertising revenue declined from ₹ 334 billion in 2022 to ₹ 294 billion in 2024, with a slight recovery expected to ₹ 305 billion by 2027. Distribution revenue rose to ₹ 398 billion in 2023 but then decreased to ₹ 385 billion in 2024, with further declines projected to ₹ 362 billion by 2027. Overall, total revenues fell from ₹ 726 billion in 2022 to ₹ 679 billion in 2024 and is estimated to continue decreasing to ₹ 667 billion by 2027.

India had 936 television channels in 2024, while the number of Multi-System Operators (MSOs) decreased to 880 due to consolidation driven by the growing adoption of OTT platforms. Doordarshan Free Direct-to-Home (DD FreeDish) expanded to 179 channels and reached 49 million homes, supported by enhanced content and rural connectivity gaps, although rising mobile and fiber broadband usage may limit its future growth. YouTube's reach in India grew to 476 million users, twice the size of its audience in the United States. Television viewership remained largely stable across socio-economic segments, with slight shifts toward CTV, OTT platforms and DD FreeDish. Over half of TV viewing was in non-Hindi languages, with Hindi content leading at 44% and South Indian languages accounting for 33%. Meanwhile, news viewership rose by 13%, whereas sports viewership declined by 6%.

In 2024, India's television advertising revenue declined by 6%, primarily driven by reduced Fast-Moving Consumer Goods (FMCG) spending on General Entertainment Channels (GEC) and news segments. Distribution revenues also fell by 3%, reflecting a loss of ₹ 6.4 million Pay TV households, despite an increase in Average Revenue Per User (ARPU). Meanwhile, free television services expanded their reach to 49 million homes, highlighting the critical need to reassess pricing models, content strategies and distribution approaches in order to encourage a more balanced and sustainable media ecosystem. Additionally, CTV usage surged to 50 million sets, supported by the expansion of broadband infrastructure and increased adoption in both urban centers and lower-GDP regions.

Outlook

India's television household base is projected to reach 196 million by 2027, propelled mainly by a significant increase in CTV households, which are expected to rise from 30 million to 48 million during this period. This expansion in CTV usage will occur alongside a decline in Pay TV households, which are forecast to decrease from 111 million to 95 million, while Free TV households are expected to experience modest growth from 49 million to 53 million. Linear TV advertising revenues are projected to grow modestly, with a compound annual growth rate (CAGR) of 1.2%. However, Pay TV distribution revenues are anticipated to decline due to increasing adoption of broadband services and a shift in consumer preferences toward more affordable, internet-based entertainment options.

To adapt to the evolving landscape, the industry plans to reactivate over 20 million inactive set-top boxes, utilize flexible pricing models enabled by the New Tariff Order 4.0 (NTO 4.0) and leverage strategies involving market consolidation and FreeDish expansion. Monetization of CTV will progress through innovations such as self-serve advertising platforms tailored for SMEs and interactive features like "scan-to-buy." Broadcasters aim to enhance the viewer experience by offering flexible pricing, smart content bundles and regulated OTT services, while public-private partnerships are expected to broaden TV access in rural areas. News broadcasters will respond to digital and regulatory changes by diversifying their content portfolios, exploring new revenue streams and adjusting distribution strategies. Additionally, family-oriented programming is anticipated to experience a revival, promoting group viewing across both linear and connected TV platforms. By 2030, the television market will be dominated by Pay TV, Free TV and CTV segments, with CTV emerging as the largest content distributor. This shift will require broadcasters to diversify their offerings, implement advanced audience measurement techniques and effectively compete with digital and short-form content platforms to engage viewers.

BUSINESS STRENGTHS

Leader in driving digital media innovation: During FY 2024-25, Dish TV accelerated its transformation journey, evolving from a traditional DTH and Pay TV provider into a comprehensive entertainment platform accessible across multiple screens. The Company strategically streamlined its operations and built a strong competitive edge by integrating leading OTT platforms into the Watcho App, enabling seamless content access on any connected device. Dish TV stands out as the only player offering a unified entertainment experience—combining broadcast channels, Pay TV content and aggregated OTT services within a single app. With its first-mover advantage, wide Delivery Network, technological capabilities, strong channel partnerships and diverse offerings, the Company has firmly established its leadership in the Indian media and entertainment industry.

Extensive footprint in semi-urban and Small-town markets: The Company identifies substantial growth opportunities in semi-urban and rural regions, driven by currently low market penetration. Dish TV aims to capitalize on its broad and entrenched distribution system to accelerate its growth trajectory. Additionally, improving living standards and the rapid pace of infrastructure development in these areas signal strong potential for acquiring new subscribers.

Robust pan-India dealer/distributor footprint: The Company has been steadily expanding its channel network nationwide, with a strategic focus on emerging small towns and villages that offer untapped growth opportunities.

Multi-brand offering with diverse product categories: The Company operates a portfolio of well-established brands—Dish TV, D2H, Watcho and Zing—offering a wide array of services across urban, semi-urban and remote areas in India. Leveraging this diverse brand mix, the Company effectively serves various consumer segments by providing products at multiple price points. Each brand holds a distinct presence in specific regions: Dish TV commands strong brand recall among consumers, while D2H enjoys high loyalty within trade networks. Meanwhile, Watcho and Zing Super continue to engage audiences with their unique offerings, further enhancing overall brand recognition.

Watcho – The Emerging Star Redefining the Industry: The Company's in-house OTT platform consistently gained customer trust and loyalty, reflected in increasing downloads throughout the year. Dish TV focuses Watcho on expanding its portfolio to better serve locale-specific-language audiences and semi-urban markets. Featuring a variety of original content, the app has become especially popular among youth and socially aware, contemporary viewers. Subscribers benefit from access to a vast digital content library and simplified management through a single subscription. Dish TV's Watcho app grew significantly, with downloads increasing from 4 million in April 2020 to over 95 million by the end of FY 2024-25.

Multi-Vertical Growth Portfolio: Dish TV operates as an integrated ecosystem comprising five dynamic startups, each focused on distinct yet interconnected domains—content creation, commerce, technology innovation, customer service excellence and strategic talent acquisition. The Company leverages this multi-venture structure to spread risks across varied business areas while capitalizing on emerging market opportunities. Dish TV supports agility and specialized expertise within each startup to enhance its ability to innovate rapidly, respond to evolving consumer demands and drive sustainable growth across multiple fronts.

Building a stronger financial foundation: The Company continues to strengthen its core operations by effectively managing critical cost elements and maintaining a sustained focus on revenue growth and the development of new business opportunities. This disciplined approach has enabled the Company to remain debt-free for the past two years. Furthermore, robust internal financial controls, the optimum utilization of existing resources and the creation of synergies between new and existing businesses have collectively contributed to building a strong and resilient financial foundation.

BUSINESS STRATEGIES

DTH Provider to comprehensive Entertainment and Retail Platform: Dish TV has evolved from a traditional DTH provider into a full-fledged entertainment platform, adapting to changing consumer preferences and technological advancements. The Company has launched several innovative initiatives to attract and retain customers, offering exclusive benefits with every recharge to enhance subscriber value. Strengthening its B2B footprint through platforms like ShopZop, Dish TV supports retailers with guaranteed quality products at wholesale rates. The Company is also advancing new solutions, including smarter customer engagement tools and watch upgrade options, to create a more tailored user experience. With most recharges occurring online, Dish TV employs a robust digital strategy that combines digital ease with offline retail presence. This approach serves a wide audience by acknowledging the blend of online and offline shopping habits. By improving retail accessibility and experience, Dish TV is well-positioned to expand its product offerings while effectively supporting its distribution network.

Strong Customer Relationship: Dish TV follows a client-centric approach, which is central to its success. The Company remains focused on upgrading its technologically advanced set-top boxes to stay relevant and engage younger audiences. Dish TV continues to attract new customers through its versatile device that offers access to both Free-to-Air (FTA) and Pay TV channels. Dish TV invests continuously in data management and analytics to better understand consumer behaviour across both Dish and non-Dish platforms. The Company leverages popular online channels to actively engage with customers and address their concerns. The Company is redesigning acquisition strategies to emphasize sustained customer loyalty by introducing innovative programs and by forming strategic tie-ups with partners like Samsung Key TV, CloudWalker, RailWire, and others to expand reach and enhance the overall customer experience. Dish TV rewards repeat recharges with cashback incentives, thereby enhancing customer lifetime value.

Dish TV India Ltd

Extending the Distribution Coverage: Dish TV maintains a strong and dedicated retail network for its traditional business. The Company has focused on strengthening this network through various distribution management initiatives. Key markets have been identified to expand its distribution reach, with efforts focused on growing both the D2H and Dish TV segments. Additionally, the Company has introduced new content and value-added services to support its traditional retail business, thereby improving the distribution efficiency of its diverse product and service offerings.

Building a content creator ecosystem: The Company empowers professional content creators through FLIQS, enabling them to showcase their work to a broad Indian audience while retaining full control over their intellectual property. The Company provides a curated, OTT-style platform featuring exclusive, original, award-winning and premium digital content. FLIQS offers content in multiple regional and international languages, including films, web series and short form videos.

Transformation to a Hybrid Entertainment Model: The Company is transitioning from a pure DTH service provider to a comprehensive entertainment brand by integrating OTT content with traditional TV through the launch of Dish TV Smart+. This hybrid model allows customers to access content on any screen, anytime, anywhere, thereby enhancing overall customer value.

Advanced Technological Solutions: Dish TV recognizes the critical role of technology in the media and entertainment industry and strategically invests in the latest advancements to maintain a competitive edge. The Company is enhancing its digital infrastructure through the launch of new websites and mobile apps, the integration of AI-powered chatbots and the implementation of advanced content management systems to provide personalized experiences tailored to each customer's preferences and behaviours. The Company's IT systems are certified with Capability Maturity Model Integration (CMMI), Maturity Level 5(ML5), Version 2(V2) (Development and Services) (DEV & SVC) and International Organization for Standardization Standard (ISO) 20000-2018, placing Dish TV among the few media firms with such credentials. The integration of Quick Response (QR) code-based capture for 'Signal Strength' and 'Signal Quality' into the technician app is designed to boost overall productivity. The Company has also reinforced its cybersecurity measures to safeguard against potential future threats.

OUTLOOK AND OPPORTUNITIES

Dish TV recognizes the rapid transformation in the media and entertainment industry, which now offers consumers a wide range of content choices across linear channels and OTT platforms. The Company has remained aligned with technological advancements to remain relevant and effectively address the evolving needs of its expanding customer base. Dish TV faces intense competition within the DTH industry, as well as from streaming platforms, government-supported distribution services, telcos and cable TV providers. The Company understands this competitive landscape and continually implements new strategies to engage and retain both existing and potential subscribers.

Dish TV continues to strengthen the 'Watcho' brand proposition. The Company enables subscribers to conveniently pay subscription fees by scanning a bank QR code displayed on TV screens. Dish TV's Zing brand remains popular among audiences seeking a blend of Free-to-Air (FTA) and Pay TV subscriptions, providing customers the option to pay for their favourite shows alongside FTA channels and content. The Company remains focused on embracing technology and prioritizing customer satisfaction. Dish TV aims to leverage new technologies to deliver uninterrupted and seamless entertainment experiences. The Company recognizes the demand for FTA channels in provincial India and actively working to tap into this market to expand its reach.

OPERATIONAL PERFORMANCE

The Company's subscriber additions aligned with overall trends in the DTH industry, while churn rates remained elevated but consistent with industry patterns. Dish TV maintained its focus on operational efficiency by improving the quality of new subscriber acquisitions, reducing churn and lowering recurring set-top box capital expenditures to optimize cash flow for investment in new revenue streams. The reduction in set-top box spending strengthened the Company's capacity to fund emerging business ventures like ShopZop and FLIQS through internal accruals, with plans to continue financing future initiatives similarly. Although Dish TV faced pressure on EBITDA due to competitive entertainment options, inflation and currency depreciation, it anticipates that its new initiatives will generate positive results over time. The Company's operating revenues and EBITDA reflect ongoing efforts to balance growth and cost management amid a challenging market environment.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board/Director's report including annexures to Board/Director's report, but does not include the standalone financial statements and our Auditor's Report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard as the said report is expected to be made available to us after the date of our report.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

Dish TV India Ltd

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

Independent Auditor’s report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

(Referred to in paragraph 2(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our Audit Report of even date)

We have audited the internal financial controls with reference to financial statements of Dish TV India Limited (“the Company”) as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The Company’s Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the ‘Guidance Note’) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company’s business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company’s internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and

Dish TV India Ltd

directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of such internal controls stated in the Guidance Note.

2. General information and statement of compliance with Indian Accounting Standards (Ind AS)

These standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standard (Ind AS) as notified by Ministry of Corporate Affairs ('MCA') under section 133 of the Companies Act 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules 2015, as amended and other provisions of the Act and the presentation and disclosure requirement of Division II of Schedule III to the Act and the guidelines issued by the Securities and Exchange Board of India to the extent applicable. The Company has uniformly applied the accounting policies during the periods presented.

The standalone financial statement for the year ended 31 March 2025 were authorised and approved for issue by Board of Directors on 28 May 2025.

3. Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments.

4. Material accounting policy information

a) Overall consideration

These standalone financial statements have been prepared using the significant accounting policies and measurement bases summarised below.

These accounting policies have been used throughout all periods presented in these standalone financial statements.

b) Basis of preparation of financial statements

The standalone financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the standalone financial statements have been prepared on historical cost basis except for certain financial assets, financial liabilities, plan assets related to defined benefit obligation and share based payments which are measured at fair values as explained in relevant accounting policies.

As on 31 March 2025, the accumulated losses from the business exceeded its equity share capital (negative net worth) on account of the matter stated in note 51 and any unfavourable outcome of the such matter may cast significant doubt on the ability to continue as a going concern assumptions. However, the Company continues to be legally advised that the Company's stand has merits. Further management believes that it is appropriate to prepare the standalone financial statements on a going concern basis considering sufficient operational cash flow, no debt in books, positive business outlook, cash generation capability.

These standalone financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency. All amounts have been denominated in lacs, except as stated otherwise. The amounts disclosed as '0' represent amounts below rounding off norms adopted by the Company.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

c) Current versus non-current classification

All assets and liabilities have been classified as current or non-current, wherever applicable as per the operating cycle of the Company and other criteria set out in the Act. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

d) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred by the Company to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred, the equity interests issued and fair value of contingent consideration issued. Acquisition-related costs are expensed as and when incurred.

Assets acquired and liabilities assumed are measured at their acquisition-date fair values.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently re-measured to fair value with changes in fair value recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised either in profit or loss or as a change to Other Comprehensive Income (OCI).

If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured and subsequent settlement is accounted for within equity.

Goodwill is measured as excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the resulting gain on bargain purchase is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

e) Property, plant and equipment and capital work in progress

Property, plant and equipment

Recognition and initial measurement

Property, plant and equipment are recorded at the cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use upto the date when the assets are ready for use. Any trade discount, recoverable taxes and rebates are deducted in arriving at the purchase price. All other repairs and maintenance are recognized in statement of profit and loss as incurred.

Consumer premises equipment (CPE) are treated as part of capital work in progress till the time of activation thereof, post which the same gets depreciated. Capital work in progress is valued at cost.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

Subsequent measurement (Depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less depreciation and impairment loss. Depreciation on property, plant and equipment is provided on straight line method, computed on the basis of useful lives (as set out below) prescribed in Schedule II of the Act. However, Schedule II allows companies to use higher/ lower useful lives and residual values if such useful lives and residual values can be technically supported. The useful life used based on schedule II or technical evaluation are as under.

Asset category	Useful life (in years)
Plant and equipment	7.5
Consumer premises equipment	5
Building	30
Office equipments except mobile	5
Mobiles	2.5
Furniture and fixtures	10
Electrical installations	10
Vehicles	8
<i>Computers</i>	
Laptops, desktops and other devices	3
Servers and networks	6

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition (calculated as the difference between the net disposal proceeds and its carrying amount) is included in the statement of profit and loss when the respective asset is derecognised.

f) Other intangible assets

Recognition and initial measurement

Intangible assets are recognised if it is probable that the future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. These assets are valued at cost which comprises the purchase price and any directly attributable expenditure on making the asset ready for its intended use.

Fee paid for acquiring license to operate DTH services, is capitalized as intangible asset.

Customer and distributor relationships are recorded at the fair market value assessed by independent valuer based on projected economic income attributable to the Company taking into account various factors in the business combination.

Brand is recorded at the cost of acquisition. Cost of acquisition has been determined as the fair market value assessed by independent valuer based on projected economic income attributable to the Company taking into account various factors in the business combination.

Cost of computer software includes license fees, cost of implementation and directly attributable system integration expenses. These costs are capitalized as intangible assets in the year in which related software is implemented.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

Subsequent measurement (amortisation)

- i) Fees paid for acquiring licenses to operate DTH services is amortised over the period of license and other license fees are amortized over the management estimate of useful life of five years.
- ii) The economic life of customer and distributor relationship assets are usually determined by estimating future loyalty of customers. Management has assessed that the economic useful life of the customer and distributor relationship to be of ten years.
- iii) The brands have been acquired for a perpetual period. Based on various factors the Company has considered brand to be perpetual in nature. Accordingly, these are tested for impairment.
- iv) Software are amortised over an estimated life ranging from one year to five years as the case may be.

g) Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

h) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive. When estimating the cash flows, the Company is required to consider:

- i) All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- ii) Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

The Company applies simplified approach permitted by Ind AS 109 Financial Instruments, which requires lifetime expected credit losses to be recognised from the date of initial recognition of receivables.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

i) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. The Company applies the revenue recognition criteria to each nature of the sales and services transaction as set out below, pursuant to Indian Accounting Standard -115 "Revenue from contracts with customers" (Ind AS 115) which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised.

i) Revenue from rendering of services

- Revenue from subscription services is recognized over the subscription pack validity period. Revenue is recognised net of taxes collected from the customer, collection charges and any discount given. Consideration received in advance for subscription services is initially deferred and included in other liabilities.
- Revenue from other services (viz performance incentive, marketing and promotional fee, teleport services, advertisement income) are recognized as and when the services are rendered in accordance with the terms of the underlying contract.

ii) Interest income

- Income from deployment of surplus funds is recognised on accrual basis using the effective interest rate (EIR) method.

j) Foreign currency translation

Functional and presentation currency

The financial statements are presented in Indian Rupees (₹) which is also the functional and presentation currency of the Company.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Non-monetary items denominated in a foreign currency are converted in functional currency at the rate prevailing on the date of transactions and the same are carried at historical cost.

Foreign currency monetary items are converted to functional currency using the closing rate.

Exchange differences arising on such conversion and settlement at rates different from those at which they were initially recorded, are recognised in the statement of profit and loss in the year in which they arise.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

k) Borrowing Costs

Borrowing costs include interest and other costs that the Company incurs in connection with the borrowing of funds.

In case of significant long-term loans, other costs incurred in connection with the borrowing of funds are amortised over the period of respective loan.

l) Employee benefits

Employee benefits include provident fund, pension fund, gratuity and compensated absences

Defined contribution plan

The Company deposits the contributions for provident fund and employees' state insurance to the appropriate government authorities and these contributions are recognised in the statement of profit and loss in the financial year to which they relate.

Defined benefit plan

The Company's gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation carried out at the end of the year by an independent actuary, using the projected unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans is based on the market yields on Government Securities for relevant maturity. Actuarial gains and losses are recognised immediately in the statement of other comprehensive income. The Company has done contribution to the Gratuity plan with Life Insurance Corporation of India through Dish TV employees group gratuity trust.

Other long term employee benefits

Benefits under the Company's compensated absences constitute other long-term employee benefits. The liability in respect of compensated absences is provided on the basis of an actuarial valuation done by an independent actuary using the projected unit credit method at the year end. Actuarial gains and losses are recognised immediately in the statement of profit and loss.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus, etc., are recognised in the statement of profit and loss in the period in which the employee renders the related service.

m) Employee stock option scheme

The fair value of options granted under Employee Stock Option Plan of the Company is recognised as an employee benefits expense with a corresponding increase in other equity. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit and loss, with a corresponding adjustment to

(All amounts in ₹ lacs, unless otherwise stated)

other equity. Upon exercise of share options, the proceeds received are allocated to share capital up to the par value of the shares issued with any excess being recorded as share premium.

n) Leases

Company as a lessee

The Company's lease asset classes primarily consist of leases for land. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset, (2) the Company has substantially all of the economic benefits from the use of the asset through the period of the lease, and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a Right of use (ROU) asset and a corresponding lease liability for all lease arrangements under which it is a lessee, except for short-term leases and low value leases. For short-term leases and low value leases, the Company recognizes the lease payments as an expense on a straight-line basis over the term of the lease.

Certain lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the date of commencement of the lease on a straight -line basis over the shorter of the lease term and the useful life of the underlying asset

The lease liability is initially measured at amortized cost at the present value of the future lease payments. For leases under which the rate implicit in the lease is not readily determinable, the Company uses its incremental borrowing rate based on the information available at the date of commencement of the lease in determining the present value of lease payments. Lease liabilities are re measured with a corresponding adjustment to the related ROU asset if the Company changes its assessment as to whether it will exercise an extension or a termination option.

ROU assets has been disclosed under property plant and equipments and corresponding lease liability has been shown under financial liability in the Balance sheet.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. The respective leased assets are included in the balance sheet based on their nature. Rental income is recognized on straight line basis over the lease term.

o) Earnings per share

Basic earning per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

p) Equity, reserves and dividend payment

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Retained earnings include current and prior period retained profits. All transactions with owners of the Company are recorded separately within equity.

q) Taxation

Tax expense recognized in statement of profit and loss comprises the sum of deferred tax and current tax except those recognized in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

Unused tax credit such as (Minimum alternate tax ('MAT') credit entitlement) is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. In the year in which such credit becomes eligible to be recognized as an asset, the said asset is created by way of a credit to the statement of profit and loss and shown as unused tax credit. The Company reviews the same at each balance sheet date and writes down the carrying amount of unused tax credit to the extent it is not reasonably certain that the Company will pay normal income-tax during the specified period.

r) Operating cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realisation in cash and cash equivalents.

s) Operating expenses

Operating expenses are recognised in statement of profit or loss upon utilisation of the service or as incurred.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

t) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Basis the review of operations being done by the CODM, the operations of the Company fall under Direct to Home ('DTH') and teleport services, which is considered to be the only reportable segment.

u) Provisions, contingent liabilities, commitments and contingent assets

The Company recognises a provision when there is a present obligation as a result of a past event and it is more likely than not that there will be an outflow of resources embodying economic benefits to settle such obligations and the amount of such obligation can be reliably estimated. Provisions are discounted to their present value (where time value of money is material) and are determined based on the management's estimation of the outflow required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events, not wholly within the control of the Company. Contingent liabilities are also disclosed for the present obligations that have arisen from past events in respect of which it is not probable that there will be an outflow of resources or a reliable estimate of the amount of obligation cannot be made.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

v) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. However, trade receivables that do not contain a significant financing component are measured at transaction price. Subsequent measurement of financial assets and financial liabilities is described below.

Financial assets

Subsequent measurement

Financial asset at amortised cost – the financial instrument is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest ('SPPI') on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Notes to the Standalone Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

Investments in equity instruments of subsidiaries

Investments in equity instruments of subsidiaries are accounted for at cost in accordance with Ind AS 27 Separate Financial Statements.

Investments in mutual funds

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognized when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Financial liabilities

Subsequent measurement

Subsequent to initial recognition, all financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

w) Fair value measurement

The Company measures financial instruments such as investments, at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

*Impairment

Impairment testing of the other intangible assets and tangible assets allocated to the D2H CGU is being performed at each balance sheet date. The recoverable amount of cash generating unit is determined based on the higher of value-in-use and fair value less cost to sell. Value in use is determined basis cash flow projections which is being prepared taking in to account past experience and represent the management's best estimate about future developments. Cash flow projections based on financial budgets are approved by management. Key assumptions on which the management has based its determination of recoverable amount include estimated long-term growth rates, weighted average cost of capital and estimated operating margins. The impairment loss, determined as a result of the assessment is first applied to the carrying value of Goodwill allocated to D2H CGU and then to the other intangible assets and tangible assets consisting in the CGU in accordance with the manner prescribed in Ind AS 36. Based on above, the Company has assessed the impairment of its Intangible assets acquired from Videocon d2h Limited in 2017-18 due to significant decline in subscriber base and changes in business dynamics and based on a valuation report obtained from an independent valuer, the management has determined the recoverable amount of the cash generating unit ('CGU') acquired in the aforementioned business combination and has recorded an impairment charge amounting to ₹ 3,91,138 lacs (31 March 2024 ₹ 3,91,138 lacs), ₹ 1,02,909 lacs (31 March 2024 ₹ 1,02,909 lacs), ₹ 49,785 lacs (31 March 2024 ₹ 49,785 lacs), ₹ 2,185 lacs (31 March 2024 ₹ 2,185 lacs) and ₹ 614 lacs (31 March 2024 ₹ 614 lacs) in the value of Goodwill, Trademark/Brand, Customer and Distribution Relationships, Plant and Equipment and Consumer Premises Equipment respectively in the books of the Company as at 31 March 2025.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained during our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard as the said report is expected to be made available to us after the date of our report.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act, that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated statement of changes in equity and the consolidated statement of cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian

Dish TV India Ltd

Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the respective companies.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

Independent Auditor’s report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our Audit Report of even date)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of Dish TV India Limited (hereinafter referred to as the “Holding Company”) and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”), which are companies incorporated in India, as of that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiaries, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company’s business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiaries, as aforesaid, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company’s internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and

fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company and its subsidiaries, which are companies incorporated in India, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the respective companies considering the essential components of such internal controls stated in the Guidance Note.

Other Matter

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to the Financial Statements in so far as it relates to two (2) subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of this matter.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

1. Background

Dish TV India Limited ('Dish TV' or 'the Company' or 'the parent company') and its subsidiaries [refer to note 4(c) below], together referred as 'the Group', is engaged in the business of providing Direct to Home ('DTH') and Teleport services.

2. General information and statement of compliance with Indian Accounting Standards (Ind AS)

These consolidated financial statements of the Group have been prepared in accordance with Ind AS as notified by Ministry of Corporate Affairs ('MCA') under section 133 of the Companies Act 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules 2015, as amended and other provisions of the Act and the presentation and disclosure requirement of Division II of Schedule III to the Act and the guidelines issued by the Securities and Exchange Board of India to the extent applicable. The Group has uniformly applied the accounting policies during the periods presented.

The consolidated financial statement for the year ended 31 March 2025 were authorised and approved for issue by Board of Directors on 28 May 2025.

3. Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments.

4. Material accounting policy information

a) Overall considerations

These consolidated financial statements have been prepared using the material accounting policies and measurement bases summarised below.

These accounting policies have been used throughout all periods presented in these consolidated financial statements.

b) Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the consolidated financial statements have been prepared on historical cost basis except for certain financial assets, financial liabilities, plan assets related to defined benefit obligation and share based payments which are measured at fair values as explained in relevant accounting policies.

As on 31 March 2025, the accumulated losses from the business exceeded its equity share capital (negative net worth) on account of the matter stated in note 52 and any unfavourable outcome of the such matter may cast significant doubt on the ability to continue as a going concern assumptions. However, the Group continues to be legally advised that the Group's stand has merits. Further management believes that it is appropriate to prepare the consolidated financial statements on a going concern basis considering sufficient operational cash flow, no debt in books, positive business outlook, cash generation capability.

These consolidated financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency. All amounts have been denominated in lacs, except as stated otherwise. The amounts disclosed as '0' represent amounts below rounding off norms adopted by the Group.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

c) Principles of consolidation

The consolidated financial statements have been prepared in accordance with Indian Accounting Standard (Ind AS) as notified by Ministry of Corporate Affairs ('MCA') under section 133 of the Companies Act 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules 2015. The consolidated financial statements are prepared on the following basis:

Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. The Group can have power over the investee even if it owns less than majority voting rights i.e. rights arising from other contractual arrangements. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. Statement of profit and loss (including other comprehensive income ('OCI')) of subsidiaries acquired or disposed of during the period are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable.

The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's statement of profit and loss and net assets that is not held by the Group. Statement of profit and loss balance (including other comprehensive income ('OCI')) is attributed to the equity holders of the Holding Company and to the non-controlling interests on the basis the respective ownership interests and such balance is attributed even if this results in controlling interests having a deficit balance.

The companies considered in the consolidated financial statements are:

Name of the company	Nature	Country of incorporation	% shareholding As at 31 March 2025	% shareholding As at 31 March 2024
Dish TV India Limited	Parent Company	India	-	-
Dish Infra Services Private Limited	Subsidiary Company	India	100	100
Dish Bharat Ventures Private Limited (w.e.f.10 October 2024)	Subsidiary Company	India	100	-
C&S Medianet Private Limited	Subsidiary Company	India	51	51

d) Current versus non-current classification

All assets and liabilities have been classified as current or non-current, wherever applicable as per the operating cycle of the Group and other criteria set out in the Act. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

e) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred, the equity interests issued and fair value of contingent consideration issued. Acquisition-related costs are expensed as and when incurred.

Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently re-measured to fair value with changes in fair value recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised either in profit or loss or as a change to OCI. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured and subsequent settlement is accounted for within equity.

If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured and subsequent settlement is accounted for within equity.

Goodwill is measured as excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the resulting gain on bargain purchase is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

f) Property, plant and equipment and capital work-in-progress

Property, plant and equipment

Recognition and initial measurement

Property, plant and equipment are recorded at the cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use upto the date when the assets are ready for use. Any trade discount, recoverable taxes and rebates are deducted in arriving at the purchase price. All other repairs and maintenance are recognized in statement of profit and loss as incurred.

Consumer premises equipment (CPE) including viewing cards (VC) are treated as part of capital work in progress till the time of activation thereof, post which the same gets depreciated. Capital work in progress is valued at cost.

Subsequent measurement (Depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less depreciation and impairment loss. Depreciation on property, plant and equipment is provided on straight line method, computed on the basis of useful lives (as set out below) prescribed in Schedule II of the Act. However, Schedule II allows companies to use higher/ lower useful lives and

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

residual values if such useful lives and residual values can be technically supported. The useful life used based on schedule II or technical evaluation are as under.

Asset category	Useful life (in years)
Plant and equipment	7.5
Consumer premises equipment	5
Building	30
Office equipment except mobile	5
Mobiles	2.5
Furniture and fixtures	10
Electrical installations	10
Vehicles	8
Computers	
Laptops, desktops and other devices	3
Servers and networks	6

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition (calculated as the difference between the net disposal proceeds and its carrying amount) is included in the statement of profit and loss when the respective asset is derecognised.

g) Other intangible assets

Recognition and initial measurement

Intangible assets are recognised if it is probable that the future economic benefits that are attributable to the asset will flow to the Group and the cost of the asset can be measured reliably. These assets are valued at cost which comprises the purchase price and any directly attributable expenditure on making the asset ready for its intended use.

Fee paid for acquiring license to operate DTH services, is capitalized as intangible asset.

Customer and distributor relationships are recorded at the cost of acquisition. Cost of acquisition has been determined as the fair market value assessed by independent valuer based on projected economic income attributable to the Group as per valuation of merger scheme.

Brand is recorded at the cost of acquisition. Cost of acquisition has been determined as the fair market value assessed by independent valuer based on projected economic income attributable to the Group as per valuation of merger scheme.

Cost of computer software includes license fees, cost of implementation and directly attributable system integration expenses. These costs are capitalized as intangible assets in the year in which related software is implemented.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

Subsequent measurement (amortisation)

- i) Fees paid for acquiring licenses to operate DTH services is amortised over the period of license and other license fees are amortized over the management estimate of useful life of five years.
- ii) The economic life of customer and distributor relationship assets are usually determined by estimating future loyalty of customers. Management has assessed that the economic useful life of the customer and distributor relationship to be of ten years.
- iii) The brands have been acquired for a perpetual period. Based on all the factors the Group has considered life of brand till perpetuity.
- iv) Software are amortised over an estimated life of one year to five years.

h) Impairment of non-financial assets

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

i) Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. When estimating the cash flows, the Group is required to consider –

- i) All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- ii) Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

The Group applies simplified approach permitted by Ind AS 109 Financial Instruments, which requires lifetime expected credit losses to be recognised from the date of initial recognition of receivables.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

j) Inventories

i) Inventories of customer premises equipment (CPE) related accessories and spares are valued at the lower of cost and net realisable value. Cost of inventories includes all costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

ii) Digital Content:

Digital content i.e. web series, film rights, music rights (completed (commissioned/acquired) and under production) including content in digital form are stated at lower of cost/unamortised cost or realisable value. Cost comprises acquisition/direct production cost. Where the realisable value of media content is less than its carrying amount, the difference is expensed. Programmes, film rights, music rights are expensed/amortised as under

- a) Web series are amortised over three financial years starting from the year of first telecast/upload, as per management estimate of future revenue potential.
- b) Film rights are amortised on a straight-line basis over the licensed period or sixty months from the commencement of rights, whichever is shorter.
- c) Music rights are amortised over three financial years starting from the year of commencement of rights, as per management estimate of future revenue potential.
- d) Reality shows, chat shows, events, game shows, etc. are fully expensed on telecast/upload.

k) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Group as part of the contract. The Group applies the revenue recognition criteria to each nature of the sales and services transaction as set out below, pursuant to Indian Accounting Standard -115 "Revenue from contracts with customers" (Ind AS 115) which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised.

i) Revenue from rendering of services

- Revenue from subscription services is recognized over the subscription pack validity period. Revenue is recognised net of taxes collected from the customer, collection charges and any discount given. Consideration received in advance for subscription services from customers/dealers is initially deferred and included in other liabilities as revenue received in advance / other advances.
- Lease rental is recognized as revenue as per the terms of the contract over the period of lease contract on a straight line basis.
- Activation fee is recognised on an upfront basis considering the level of services rendered on activation, the corresponding cost incurred and separate consideration charged for the subsequent continuing services.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

- Revenue from other services (viz performance incentive, marketing and promotional fee, teleport services, field repairs of CPE, advertisement income) are recognized as and when the services are rendered in accordance with the terms of the underlying contract.
- Infrastructure support fees is recognised on the basis of fixed rate agreement on the basis of active customers.

ii) Revenue from sale of goods

- Revenue from sale of stock-in-trade is recognised when the products are dispatched against orders to the customers in accordance with the contract terms and the Group has transferred to the buyer the significant risks and rewards.
- Sales are stated net of rebates, trade discounts, sales returns and taxes on sales.

iii) Interest income

- Income from deployment of surplus funds is recognised on accrual basis using the effective interest rate (EIR) method.

l) Foreign currency translation

Functional and presentation currency

The financial statements are presented in Indian Rupees (Rs.) which is also the functional and presentation currency of the Group.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Non-monetary items denominated in a foreign currency are converted in functional currency at the rate prevailing on the date of transactions and the same are carried at historical cost.

Foreign currency monetary items are converted to functional currency using the closing rate.

Exchange differences arising on such conversion and settlement at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise.

m) Borrowing Costs

Borrowing costs include interest and other costs that the Group incurs in connection with the borrowing of funds.

In case of significant long-term loans, other costs incurred in connection with the borrowing of funds are amortised over the period of respective loan.

n) Employee benefits

Employee benefits include provident fund, pension fund, gratuity and compensated absences

Defined contribution plan

The Group deposits the contributions for provident fund and employees' state insurance to the appropriate government authorities and these contributions are recognised in the statement of profit and loss in the financial year to which they relate.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

Defined benefit plan

The Group's gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation carried out at the end of the year by an independent actuary, using the projected unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans is based on the market yields on Government Securities for relevant maturity. Actuarial gains and losses are recognised immediately in the Statement of Other Comprehensive Income. The Group has done contribution to the Gratuity plan with Life Insurance Corporation of India through Dish TV employees group gratuity trust.

Other long term employee benefits

Benefits under the Group's compensated absences constitute other long-term employee benefits. The liability in respect of compensated absences is provided on the basis of an actuarial valuation done by an independent actuary using the projected unit credit method at the year end. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus, etc., are recognised in the statement of profit and loss in the period in which the employee renders the related service.

o) Employee stock option scheme

The fair value of options granted under Employee Stock Option Plan of the Group is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit and loss, with a corresponding adjustment to equity. Upon exercise of share options, the proceeds received are allocated to share capital up to the par value of the shares issued with any excess being recorded as share premium.

p) Leases

Company as a lessee

The Groups's lease asset classes primarily consist of leases for land. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (1) the contract involves the use of an identified asset, (2) the Group has substantially all of the economic benefits from the use of the asset through the period of the lease, and (3) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a Right of use (ROU) asset and a corresponding lease liability for all lease arrangements under which it is a lessee, except for short-term leases and low value leases. For short-term leases and low value leases, the Group recognizes the lease payments as an expense on a straight-line basis over the term of the lease.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

Certain lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the date of commencement of the lease on a straight -line basis over the shorter of the lease term and the useful life of the underlying asset

The lease liability is initially measured at amortized cost at the present value of the future lease payments. For leases under which the rate implicit in the lease is not readily determinable, the Group uses its incremental borrowing rate based on the information available at the date of commencement of the lease in determining the present value of lease payments. Lease liabilities are re measured with a corresponding adjustment to the related ROU asset if the Group changes its assessment as to whether it will exercise an extension or a termination option.

ROU assets has been disclosed under property plant and equipment and corresponding lease liability has been shown under financial liability in the Balance sheet.

Company as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. The respective leased assets are included in the balance sheet based on their nature. Rental income is recognized on straight line basis over the lease term.

q) Earnings per share

Basic earning per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

r) Equity, reserves and dividend payment

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Retained earnings include current and prior period retained profits. All transactions with owners of the Parent Company are recorded separately within equity.

s) Taxation

Tax expense recognized in statement of profit and loss comprises the sum of deferred tax and current tax except the ones recognized in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised

Notes to the Consolidated Financial Statements

(All amounts in ₹ lacs, unless otherwise stated)

tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised either in other comprehensive income or in equity.

Unused tax credit such as (Minimum alternate tax ('MAT') credit entitlement) is recognized as an asset only when and to the extent there is convincing evidence that the Group will pay normal income-tax during the specified period. In the year in which such credit becomes eligible to be recognized as an asset, the said asset is created by way of a credit to the statement of profit and loss and shown as unused tax credit. The Group reviews the same at each balance sheet date and writes down the carrying amount of unused tax credit to the extent it is not reasonably certain that the Group will pay normal income-tax during the specified period.

Taxes recoverable (direct and indirect) considered non-current assets are those wherein the recoverability is expected beyond the normal operating cycle of the Group.

t) Operating cycle

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Group has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realisation in cash and cash equivalents.

u) Operating expenses

Operating expenses are recognised in statement of profit or loss upon utilisation of the service or as incurred.

v) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Basis the review of operations being done by the CODM, the operations of the Group fall under Direct to Home ('DTH') and teleport services, which is considered to be the only reportable segment.

w) Provisions, contingent liabilities, commitments and contingent assets

The Group recognises a provision when there is a present obligation as a result of a past event and it is more likely than not that there will be an outflow of resources embodying economic benefits to settle such obligations and the amount of such obligation can be reliably estimated. Provisions are discounted to their present value (where time value of money is material) and are determined based on the management's estimation of the outflow required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events, not wholly within the control of the

Group. Contingent liabilities are also disclosed for the present obligations that have arisen from past events in respect of which it is not probable that there will be an outflow of resources or a reliable estimate of the amount of obligation cannot be made.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

x) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. However, trade receivables that do not contain a significant financing component are measured at transaction price. Subsequent measurement of financial assets and financial liabilities is described below.

Financial assets

Subsequent measurement

Financial asset at amortised cost – the financial instrument is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest ('SPPI') on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Investments in mutual funds

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognized when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

Financial liabilities

Subsequent measurement

Subsequent to initial recognition, all financial liabilities are measured at amortised cost using the effective interest method.

Notes to the Consolidated Financial Statements

for the year ended 31 March 2025

(All amounts in ₹ lacs, unless otherwise stated)

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

y) Fair value measurement

The Group measures financial instruments such as investments, at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

z) Cash and cash equivalents

Cash and cash equivalents comprises cash at bank and in hand, cheques in hand and short term investments that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

aa) Statement of cash flows

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

*Impairment:

Impairment testing of the other intangible assets and tangible assets allocated to the D2H CGU is being performed at each balance sheet date. The recoverable amount of cash generating unit is determined based on the higher of value-in-use and fair value less cost to sell. Value in use is determined basis cash flow projections which is being prepared taking in to account past experience and represent the management's best estimate about future developments. Cash flow projections based on financial budgets are approved by management. Key assumptions on which the management has based its determination of recoverable amount include estimated long-term growth rates, weighted average cost of capital and estimated operating margins. The impairment loss, determined as a result of the assessment is first applied to the carrying value of Goodwill allocated to D2H CGU and then to the other intangible assets and tangible assets consisting in the CGU in accordance with the manner prescribed in Ind AS 36. Based on above, the Group has assessed the impairment of its Intangible assets acquired from Videocon d2h Limited in 2017-18 due to significant decline in subscriber base and changes in business dynamics and based on a valuation report obtained from an independent valuer, the management has determined the recoverable amount of the cash generating unit ('CGU') acquired in the aforementioned business combination and has recorded an impairment charge amounting to ₹ 6,27,542 lacs (31 March 2024 ₹ 6,27,542 lacs), ₹ 1,02,909 lacs (31 March 2024 ₹ 1,02,909 lacs), ₹ 56,786 lacs (31 March 2024 ₹ 56,786 lacs), ₹ 2,185 lacs (31 March 2024 ₹ 2,185 lacs) and ₹ 40,726 lacs (31 March 2024 ₹ 40,726 lacs) in the value of Goodwill, Trademark/Brand, Customer and Distribution Relationships, Plant and Equipment and Consumer Premises Equipment respectively in the books of the Group as at 31 March 2025.

44 Disclosure pursuant to Indian Accounting Standard 19 on “Employee Benefits”

Defined contribution plans

An amount of ₹ 779 lacs (previous year ₹ 809 lacs) for the year, have been recognized as expenses in respect of the Group’s contributions to Provident Fund and Employee’s State Insurance Fund, deposited with the government authorities and have been included under “Employee benefits expenses”.

Defined benefit plans

The Group provides for gratuity, a defined benefit retirement plan covering eligible employees. As per the plan, the Dish TV employees group gratuity trust, administered and managed by the Trustees and funded primarily with Life Insurance Corporation of India (LICI), make payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment. The Trustees are responsible for the overall governance of the plan and to act in accordance with the provisions of the trust deed and rules in the best interests of the plan participants. Each year an Asset-Liability matching study is performed in which the consequences of the strategic investment policies are analysed in terms of risk and return profiles. Investment and contribution policies are integrated within this study. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation as set out in Note 4(n) in material accounting policy information, based upon which, the Group makes contributions to the Employees’ Gratuity Funds.

Risk exposure

- Salary risk- Actual salary increases will increase the Plan’s liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
- Investment risk – If plan is funded then assets liabilities mismatch and actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.
- Discount rate – Reduction in discount rate in subsequent valuations can increase the plan’s liability.
- Mortality – Actual deaths and disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
- Withdrawals – Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact plan’s liability.

The following table sets forth the status of the gratuity plan of the Group and the amounts recognised in the Balance Sheet and Statement of Profit and Loss:

51A Leases

Group as a lessee

The Group has entered into lease arrangements for land and various offices that are renewable on a periodic basis with approval of both lessor and lessee.

The Group does not have any lease commitments towards variable rent as per the contract.

Each lease generally imposes a restriction that, unless there is a contractual right for the Group to sublet the asset to another party, the right of use asset can only be used by the Group. Leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee. The Group is prohibited from selling or pledging the underlying leased assets as security. For leases over office buildings and premises the Group must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease.
