will call for industrial action the next day. The strikes are expected to affect ports including those in Mumbai, Kolkata and Tuticorin, according to a notification seen by Bloomberg. The unions have been in negotiations with the government since 2021 to try and increase the port worker's pay, but have so far failed to come to an agreement. The planned strikes will affect container traffic as well as oil and gas tankers.

India's 12 largest ports handled 818 million tonne cargo in the year through March, a 4.4% rise over the prior year, according to the shipping ministry.

As of June 2024, the country's cumulative installed solar capacity stood at 87.2 GW, of which the utility-scale projects accounted for nearly 87%, and rooftop solar accounted for 13%. Solar energy accounted for 19.5% of the country's total installed power capacity and over 44% of the total installed renewable energy capacity.

# SFBs likely to grow advances by 25-27% this fiscal, says report

**FE BUREAU**  
Mumbai, August 26

**SMALL FINANCE BANKS** (SFBs) are expected to grow their advances by 25-27% in the current financial year, a tad lower than the 28% growth in the previous fiscal, according to Crisil Ratings.

Segmental and geographical expansion, underpinned by a strong and increasing presence in semi-urban and rural markets with large unmet demand, will continue to drive the growth.

Amid challenges in mobilising deposits and their higher costs, SFBs are likely to explore alternative, non-deposit avenues to fund the credit growth. However, capital buffers to support growth remain healthy for these lenders.

"Credit growth in new asset classes is seen at 40% this fiscal while that in traditional segments will be 20%. With this, the portfolio mix will continue to shift—the share of new segments would cross 40% by March 2025, twice the March 2020 level," said Ajit Velonie, senior director, Crisil Ratings. "Most of this diversification is towards secured asset classes, resulting in the share of secured lending rising, albeit at a moderate pace."

With the growth drivers in place, the focus should also be on liabilities—both deposits (including other borrowings) and capital.

The deposit growth, at 30% in FY24, outpaced the credit growth, in contrast to the overall banking sector.

Deposits now constitute 90% of borrowings, but their growth comes at a higher cost for two reasons. First: Increase in the share of relatively expensive bulk term deposits to almost 30% of total deposits as of March 2024, from 23% in FY22. The share of CASA deposits dropped to 28% from 35% and that of retail term deposits also fell.

**GROWTH DRIVERS**

- Small finance banks may explore alternative, non-deposit avenues to fund credit growth
- Capital buffers to support growth remain healthy for these lenders
- Deposit growth at 30% in FY24 outpaced credit growth, the report said
- The growth in deposits was in contrast to overall banking sector
