Company Overview

- Established in the year 1998, DP Wires is India's one of the leading manufacturers and suppliers of Steel wires, and Plastic films which find its application in industries like Oil & Gas, Power, Environment, Civil, Energy, Automobile, Infrastructure etc.
- Manufacturing facilities with a capacity of ~ 84,000 MT per annum is situated in a single premise in Ratlam, Madhya Pradesh
- ISO certified range of products that cater to marquee clients such as Hindalco, L&T, APCO, Gannon Dunkerley, Simplex Infrastructures, Vascon Engineers and such others

Vision

Our vision is to be the leading player in the wire business by providing a complete solution, adopting cutting-edge technologies, and ensuring long-term, inclusive growth for all the stakeholders.

Mission

Consistent with the vision and values of the founder Shri Kantilalji Kataria, DP Wires strives to Strengthen India's Infrastructure base by providing the best quality products manufactured using the best of technology, thereby creating a value for all the stakeholders.

Core Values

- **Customized economical** solutions
- **High quality products** and services
- **Relationship based Ethos**
- **Economical** use of resources

Mr. Kantilal Kataria, *Non-Executive Director*

- The genius behind the DP wires, currently working as the Non-Executive Director of the company
- Graduated as BE Mechanical from GSITS Indore (M.P.) Gold Medalist in the year 1970.
- Having experience of 50+ Years in steel wires and plastic products
- Huge credit goes to Mr. Kataria for making the company reach this position.

Mr. Praveen Kataria, *Managing Director*

- Holds the degree in B.E.(Production) from Akola
- Having experience of 27+ Years in Production and Quality Control departments
- Actively involved in improving the technology, cost reduction in producing of steel wire and plastic division.

Mr. Arvind Kataria, *Whole-Time Director & CFO*

- Post Graduated as Master in Commerce
- Having experience of 22+ Years in promotion and quality control at organization
- Personal attention to ensure that the company gets worldwide reach for its high-quality manufacturing products

- **Sourcing** – TATA Steel, JSW, Electro steel
- **84,000 MT** capacity of Wires
- **Growth** - Sufficient space to plan future capacity expansion with minimum capex

Integrated Facilities Under One Roof

Sourcing of raw material → Pickling → Wire Drawing → Stranding → Inspection → Packing & Storage

1

Wire Rod

2

Surface Treatment

3

Drawing

4

Stranding

5

Inspection

Strategically Located – Close to all demand centers

Centrally Located Manufacturing Plant that can cater to Northern and Southern Markets

In between India's major metro cities i.e., Mumbai & Delhi

Widespread distribution network in all the key markets in India

Exporting to foreign countries

LRPC Strands

Features

- Low Relaxation Pre-Stressed Concrete Steel Strands which are used in pre-stressing of concrete for different kind of construction works.
- Better build which in turn assures the safety and longevity.

Uses

- To prestress the concrete in different types of construction works
- Use in High Rise Commercial & Residential Complexes
- Used in all the Government Infra projects (Offices, Metros, Bullet Train etc)

Steel Wire

Features

- Heat Resistant + Smooth Surface

Uses

- To make railway sleepers
- To make PCC Poles

Induction Tempered Wire

Features

- Spring wire is a type of wire which is known for its property of offering high wear resistance.

Uses

- Suspension springs for metro trains, shock absorbers of vehicles and even in the emergency brakes of large vehicle

Quality & Reliability

ISI-Certified Products

Pan-India Delivery

Easy Logistics

Better Pricing

Long Standing Relationships with Marquee Clients

**Approved Supplier in
Bullet Train Project**

**Approved Supplier in Metro
Projects of India**

**Supplier of most of the mall
constructions in Mumbai, Delhi**

Business Strength

Well Placed to Continue the Growth Trajectory

Capacity Expansion

Planned capacity expansion by ~16,000 MT to
~100,000 MT by H1FY24

Developing new product vertical like **Steel Spring
Wires & Induction Tempered Wires**

Product Expansion

Market Expansion

Domestic Market – Deepening relations with
Existing clients
Export Market - Foraying into Newer Geographies

Product (LRPC) usage increasing in construction.
Niche product with few players in the industry acts
as an entry barrier

Sector Opportunity

- The government's capital drive contributed in maintaining the capacity utilization rate for the steel sector at a forecast of 80% in FY2024, regardless of assigning of some new expansion projects
- Considering that the Central Government's capital expenses (capex) are anticipated to rise by 37% YoY in FY2024
- Rating Agencies has revamped upwards its steel consumption growth estimate for FY2024 to 8-10%
- The withdrawal of export duties, monthly finished steel exports have doubled to around 0.6 MT in Q4 FY23 from the November 2022 lows of 0.3 MT. While this pick-up is encouraging to see, the near-term growth opportunities in the overseas markets which looks more challenging
- As trade flows are shifted to fast-growing nations, imports of steel have increased during FY2023, that resulted in India becoming a net importer of finished steel for five months in a row between October 2022 and February 2023.
- Because of the local demand's sustained strength and the rising cost of inputs, domestic steel prices are anticipated to follow the global prices in direction and rise.

~10%

Proposed capital spending will grow by 35.4% year on year

STRENGTH

- Strong and proven track record of delivering growth through innovation
- Resilient business model that has withstood multiple business cycles
- Diversified product portfolio catering to wide array of customers
- Niche product in the Industry, with High Entry Barriers
- Long standing relationship with marquee customers

OPPORTUNITIES

- India's burgeoning economy – growth for auto, real estate, Infrastructure, white goods, transportation
- Increase in Demand for LRPC strands across the Globe
- Thrust on Infrastructure – GOI spending increasing YoY to bolster country's infrastructure

WEAKNESS

- Competition from larger established peers
- Players from unorganised sector pose price challenges in the medium term
- Requirement of latest technologies

THREATS

- Evolving regulations in the Industry – especially to combat pollution
- New age materials that could require extensive capital investment

Shareholding Pattern (as on Jun '23)

Mr. Praveen Kataria
Managing Director

“Appreciating for the team's dedication and adaptability, which have been instrumental in driving the company's performance during these challenging times. We are delighted with our strong financial performance in the first quarter of FY 2023-24. Our team's efforts and the increased demand in the infrastructure sector have played a significant role in our success. DP Wires specializes in manufacturing specialized Steel Wires, particularly LRPC Strand, which are vital for reinforcing major structures such as dams, flyovers, metros, bullet trains, nuclear power plants, malls, and high-rise buildings. As an essential infrastructure product, the demand for our offerings typically experiences a surge from H2FY24.”

*“The company is proud to announce that this year marks our 25th year of incorporation, and we are thrilled to celebrate our Silver Jubilee with our valued shareholders. As part of the celebrations, we are excited to share that we will be taking another significant step by getting our company listed on the **Bombay Stock Exchange (BSE)**, further strengthening our commitment to transparency and growth. We look forward to continuing our journey of excellence in the infrastructure industry and creating lasting value for all stakeholders.”*

Mr. Arvind Kataria
