PRESS RELEASE

Drone Destination sends country's First International Drone Soccer Team to the Inaugural World Cup in South Korea

New Delhi, September 2025 – Drone Destination Limited, India's leading drone company and the first to introduce Drone Soccer to the country, proudly announces that it is **sending first-ever International Drone Soccer Team to participate in the inaugural Drone Soccer World Cup**, being held in Jeonju, South Korea from September 25–28, 2025.

The FIDA World Cup Jeonju 2025 is the world's first global championship for Drone Soccer, organized under the **Federation of International Drone soccer Association (FIDA)**, highlight the fusion of sport, science, and innovation. **More than 2,500 athletes from over 32 countries** are expected to take part, with representation from Asia, Europe, the Americas, Africa, and Oceania. Teams will compete in both national and club-level formats across different classes.

Speaking on this milestone, **Alok Sharma**, Chairman of Drone Destination, said:

"Drone Soccer is more than just a sport—it is where innovation, discipline, teamwork, and national pride converge in the air. We believe our team will not only compete but also inspire many back home to see the skies as a field for dreams and advancement."

Drone Destination has been at the forefront of introducing Drone Soccer in India, not only as an engaging sport for youth and STEM education but also as a strategic initiative for **Defense** preparedness. The company is the

first in India to have **developed and deployed Drone Battlefield Maneuvering Arenas**, to train soldiers in drone maneuvering tactics in a controlled environment. These arenas—already established at multiple Army locations—serve as advanced platforms for operational readiness, tactical drills, and aerial coordination exercises, emboldening the vision of “eagle on every shoulder” for our armed forces.

By representing India on the world stage, Drone Destination continues its mission to position the country at the cutting edge of drone innovation, bridging civil, defense, and educational applications.
