Dear Sir/Madam,

Ref: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

This is to inform that certain batches of semaglutide were found to be out of specification due to an issue associated with the active pharmaceutical ingredient (API) used in the product. We are investigating the root cause and taking appropriate measures to ensure product quality. Until the issue is resolved, commercial supplies of the product will be delayed for a certain period of time. There is no impact on patient safety or on the product's existing global regulatory filings. We remain committed to ensuring reliable global supplies of this important metabolic therapy.

The management of the Company will host a conference call to discuss the topic and answer any questions from the participants. Details are as follows:
