PEERZADA ABRAR
Bengaluru, 16 September

Leading e-commerce firms Flipkart and Amazon will start their annual flagship sale events from September 27, with 24-hour early access for their Prime, VIP and Flipkart Plus members, the two companies said on Monday.

Flipkart's "The Big Billion Days" (TBBD) 2024 will continue till October 6, while the 'Amazon Great Indian Festival' (AGIF) goes on for about a month.

E-commerce firm Meesho said it would start its 'Mega Blockbuster Sale' on September 27. There would be over 2 million sellers and 120 million product listings across 30 categories.

Etailer Myntra said it would start its Big Fashion Festival (BFF) on September 26. The festival would feature about 3.4 million styles, marking a 47 per cent increase from its previous edition. The event will see participation from more than 9,700 leading brands. Myntra insiders said members of Myntra's loyalty programme would get early access to the event 24 hours in advance.

Ahead of the festival season, Flipkart launched 11 new fulfilment centres (FCs) in nine cities in the run up to TBBD, bringing the total number of FCs in India to 83.

Fulfilment centres are warehouse facilities from where goods are packaged and shipped to customers.

This development has directly generated over 100,000 jobs across its supply chain in the country, it said.

"As India's festival season begins, we remain committed to creating value for the entire nation - from customers seeking affordability to sellers and local manufacturers scaling their reach," said Kalyan Krishnamurthy, CEO, Flipkart Group.

Amazon said that customers can get

Jindal Steel charts path for green hydrogen bet

Group units ink pact for 'biggest investment' in the segment

ISHITA AYAN DUTT
Kolkata, 16 September

Naveen Jindal-promoted Jindal Steel & Power Ltd (JSPL) and Jindal Renewable Power Private Ltd (JRPL) have signed a memorandum of understanding (MoU) to invest in green hydrogen production for steelmaking in Angul, Odisha.

The steel producer said on Monday it was to implement India's biggest investment in green hydrogen by any Indian

steelmaker. As part of the MoU, JSPL plans to integrate green hydrogen into its direct reduced iron (DRI) units in Angul.

This collaboration underscores a major commitment by both companies towards decarbonisation and green energy leadership in India's steel industry, a company statement said. In the first phase, Jindal Renewables will develop a green hydrogen generation capacity of up to 4,500 tonnes per annum set to com-

mence by December 2025.

In addition, the project will also entail supply of 36,000 tonnes of oxygen per annum that will be used in the Angul steelworks.

JRPL will also be supplying 3 Gw of renewable energy to JSPL's facilities, reducing the steelmaker's dependence on coal-fired energy by 50 per cent in the next 2-3 years.
