AWS to invest \$8.3 bn in Cloud infra in Maha

Company says this will create more than 81,000 jobs in next five years

BS REPORTER
Mumbai, 23 January

Amazon Web Services (AWS) will invest \$8.3 billion in its Cloud infrastructure in Maharashtra, contributing \$15.3 billion to India's gross domestic product (GDP) by 2030, said the company.

This investment in the AWS Asia-Pacific (Mumbai) Region will support more than 81,300 full-time jobs annually in the local data centre supply chain by 2030. The plan is part of AWS's previously announced \$12.7 billion investment in Cloud infrastructure in India by 2030.

The Maharashtra government and AWS on Wednesday signed a memorandum of understanding (MoU) at the World Economic Forum summit in Davos, Switzerland, to formalise the investment. "I am pleased to announce the signing of a landmark MoU with Amazon Web Services, one of the foremost hyperscalers in the world. AWS's decision to set up its operations in the Mumbai Metropolitan Region is a pivotal moment for

Maharashtra," said Chief Minister Devendra Fadnavis. AWS invested more than \$3.7 billion in its Cloud infrastructure in Maharashtra between 2016 and 2022.

David Zapolsky, senior vice-president of Global Public Policy and general counsel at Amazon, said: "We are pleased to continue to collaborate with the Maharashtra government to advance the state's digital ambitions and democratise access to emerging technology for enterprises, public sector organisations, startups, and small and medium-sized businesses in India. We look forward to working together with the Maharashtra government to realise our investment plans and advance India's digital growth."

Large Indian enterprises that use AWS include Axis Bank, HDFC Bank, Bajaj Allianz General Insurance, HDFC Securities and ICICI Lombard. Startups Fibe and Healthify and public sector companies such as Coal India, Government e-Marketplace and Maharashtra State Electricity Distribution Co. Ltd. use the service, too.

Blackstone to set up ₹4,500 cr data centre in Hyderabad

Blackstone has announced its foray into the data centre ecosystem with the establishment of a cutting-edge 150 Mw data centre facility in Hyderabad with an investment of ₹4,500 crore. A MoU was signed between the Telangana government and Blackstone Lumina (data centre arm of Blackstone) along with JCK Infra, on the

sidelines of WEF in Davos, a government release said. Blackstone Lumina will collaborate with one of the world's leading cloud infrastructure providers, bringing significant foreign investment to the state and positioning Telangana as a preferred destination for global enterprises, the release added.

₹15.7 trn MoUs signed, 1.6mn jobs may be created: Fadnavis

Maharashtra Chief Minister (CM) Devendra Fadnavis (pictured) on Thursday said 61 memorandums of understandings (MoUs) have been signed during his visit to the World Economic Forum in Davos entailing investment of ₹15.70 trillion and having the potential to provide 1.6 million jobs in the state. CM Fadnavis is attending the meeting with a state delegation.

Interacting with reporters via Zoom link from Davos, he said seven of these MoUs were strategic partnerships for knowledge in mobility and education and not investment.

India will clock fastest growth rate: Andhra CM

Andhra Pradesh Chief Minister (CM) N Chandrababu Naidu (pictured) has said that India's golden era has started and the country will clock the fastest growth rate. He made these comments while speaking at the WEF in Davos. Hailing the leadership of Prime Minister Narendra Modi, the CM said the Indian democracy offers stability and everybody is trusting the goal of Viksit Bharat-2047. "India is moving very fast... The world is watching and they are also looking at India now. So many areas, opportunities are also abundant... Golden era for India has started," said Naidu.

ALL IN A DAY

Discussed B'desh issue with Rubio, Waltz: Jaishankar

External Affairs Minister S Jaishankar (pictured) on Wednesday said he had brief discussion on the current situation in Bangladesh with newly-appointed US Secretary of State Marco Rubio and National Security Advisor Mike Waltz. "Yes, we had a brief discussion on Bangladesh. I don't think it's appropriate that I get into more details," Jaishankar told a group of Indian reporters at a news conference in Washington. The minister was responding to a query on whether treatment of minorities in Bangladesh came up during his meetings with Rubio and Waltz. However, there was no discussion on the attacks on Indian consulates in the US or the threat to Indian diplomats here, Jaishankar said. He also said India has always been open to legitimate return of undocumented Indians to their country, noting that New Delhi is still in the process of verifying those from the US who can be

deported to India and the number of such individuals cannot be determined yet. There have been no talks with Pakistan on resumption of trade with India, Jaishankar said on Wednesday. India, he said, never stopped trade with Pakistan, and the decision in this regard was taken by the Pakistan government in 2019. "From the very beginning, our interest was that India should get the status of most favoured nation. We used to give MFN status to Pakistan. But they did not grant the same status to us," Jaishankar said.

CBI files charge sheet against Oxfam India over FCRA violations

The Central Bureau of Investigation (CBI) has filed a charge sheet against research and advocacy group Oxfam India and its former CEO Amitabh Behar in connection with alleged violations of rules and regulations related to foreign funds, officials said. The FIR against the Oxfam India was registered in April 2023 based on a complaint from the Ministry of Home Affairs. The complaint, which is now part of the FIR, has alleged that though Oxfam India's Foreign Contribution (Regulation) Act (FCRA). FCRA registration ceased, it planned to circumvent the law by taking other routes to channelise funds. "Email communication found during IT (income tax) survey by the CBDT shows that Oxfam India has been planning to pressure Indian government for renewal of FCRA through foreign governments and foreign institutions," it had alleged.

March supplies may take a hit as oil flow from Russia ebbs: BPCL

The US sanctions on the Russian oil sector have started to dent near-term oil flows to India with state-owned Bharat Petroleum Corporation Ltd (BPCL) saying not enough cargoes are available for March. The US on January 10 issued sweeping sanctions targeting the Russian energy sector. The measures include sanctions on Russian oil producers Gazprom Neft and Surgutneftegas, the blacklisting of 183 vessels involved in Russian energy exports, and curbs on dozens of oil traders, tanker owners and managers, insurance companies and energy officials. The sanctions were announced at a time when Indian refiners had started to negotiate for March cargoes. Russian oil made up for 34-35 per cent of all oil that BPCL processed at the start of the current financial year in April 2024.

CRISIL SME TRACKER

Govt move on exports to boost revenue for sugar SMEs

The sugar industry is set for a revenue growth of 3 per cent this financial year following the government's decision to allow exports of 1 million tonnes (mt) for the ongoing sugar season 2024-25 (SS25, October-September).

The move is likely to boost sugar prices by a moderate 1 per cent.

Earlier, prices were expected to decline 2-3 per cent owing to a higher inventory level of 8.3 mt for the season.

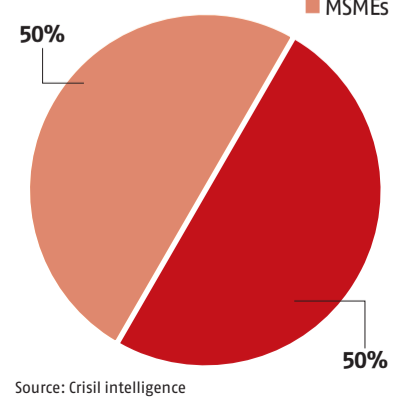

With higher price realisations, small and medium enterprises (SMEs), which primarily operate standalone mills and lack the financial resources to invest in distilleries and power plants, can expect a margin expansion of 50-80 basis points (bps). These units account for nearly half of the

sector's revenue.

Last financial year, the industry witnessed a sharp 10 per cent growth in revenue, driven by an 8 per cent year-on-year (Y-o-Y) increase in sugar prices and a steady 2 per cent rise in consumption. This was despite a ban on sugar exports in the second half as SMEs' margins expanded due to lower domestic sugar production, which lifted prices.

The industry is also seeking an increase in the minimum support price (MSP) for sugar, which has remained unchanged at ₹31 per kilogram since February 2019. If the government agrees, the move will further improve sugar realisations and enhance the profitability of SMEs.

SHARE OF MSMEs IN SUGAR INDUSTRY
