Press Release

Dr. Reddy's announces the Launch of Divalproex Sodium Extended - Release Tablets, USP

Hyderabad, India, August 22, 2013

Dr. Reddy's Laboratories (NYSE: RDY) announced today that it has launched Divalproex Sodium Extended - Release Tablets, USP (250 mg and 500 mg), a therapeutic equivalent generic version of Depakote® ER (divalproex sodium) Tablet, Extended Release in the US market on August 19, 2013. Dr. Reddy's ANDA for Divalproex Sodium Extended- Release Tablets, USP was approved by the United States Food & Drug Administration (USFDA).

The Depakote® ER brand and generic had combined U.S. sales of approximately \$194 Million MAT for the most recent twelve months ending in June 2013 according to IMS Health*.

Dr. Reddy's Divalproex Sodium Extended - Release Tablets, USP 250 mg are available in bottle count sizes of 100 and 500 mg are available in bottle count sizes of 100 and 500.

WARNING: LIFE THREATENING ADVERSE REACTIONS

See full prescribing information for complete boxed warning.

- Hepatotoxicity, including fatalities, usually during first 6 months of treatment. Children under the age of two years are at considerably higher risk of fatal hepatotoxicity. Monitor patients closely, and perform liver function tests prior to therapy and at frequent intervals thereafter
- Fetal Risk, particularly neural tube defects and other major malformations
- Pancreatitis, including fatal hemorrhagic cases

Disclaimer

This press release includes forward-looking statements, as defined in the U.S. Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements on our current expectations and projections about future events. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially. Such factors include, but are not limited to, changes in local and global economic conditions, our ability to successfully implement our strategy, the market acceptance of and demand for our products, our growth and expansion, technological change and our exposure to market risks. By their nature, these expectations and projections are only estimates and could be materially different from actual results in the future.
