Dynacons Achieves SOC 2 Type II Certification, Reinforcing Its Commitment to Security, Reliability and Trust

Mumbai, India- August 19, 2026

Dynacons Systems & Solutions Limited, a leading provider of digital infrastructure, cloud, cybersecurity, and managed services solutions, today announced that it has successfully achieved **SOC 2 Type II Certification**, a globally recognized benchmark for information security, operational excellence, and customer trust.

The certification validates the effectiveness of Dynacons' controls and processes related to Security, Availability and Confidentiality over an extended audit period. SOC 2 Type II is one of the most respected independent assurance standards for service organizations and demonstrates an organization's ability to securely manage customer data and maintain reliable service delivery.

The assessment confirms that Dynacons has established and consistently operated a robust framework of policies, procedures, and controls designed to protect information assets and support the evolving security and compliance requirements of enterprise customers.

Significance of the Achievement

The successful completion of the SOC 2 Type II audit further strengthens Dynacons' position as a trusted technology partner for enterprises, financial institutions, government organizations, and regulated industries that require the highest standards of data protection and operational resilience.

The certification:

- Validates the operational effectiveness of security controls over a sustained period.
- Reinforces customer confidence in Dynacons' cloud, managed services, cybersecurity, and digital transformation offerings.
- Aligns Dynacons with globally recognized best practices for governance, risk management, and information security.
- Supports customers in meeting their own compliance, audit, and regulatory requirements.

Management Commentary

Mr. Shirish Anjaria, Chairman cum Managing Director, Dynacons Systems & Solutions Limited, said:

"Achieving SOC 2 Type II Certification represents a significant milestone in Dynacons' continuous commitment to security, reliability, and operational excellence. As organizations increasingly entrust critical workloads and sensitive data to technology partners, independent validation of our controls becomes even more important. This certification reinforces the trust our customers place in us and reflects the dedication of our teams to maintaining the highest standards of service delivery and data protection."

A Strong Foundation for Digital Transformation

As enterprises accelerate their adoption of cloud, hybrid infrastructure, AI-enabled platforms, managed services, and cybersecurity solutions, security and trust have become fundamental business requirements. The SOC 2 Type II Certification further enhances Dynacons' ability to support customers on their digital transformation journeys with confidence and assurance.

This achievement complements Dynacons' existing quality and operational excellence framework and reflects the company's ongoing investment in processes, governance, technology, and skilled resources to deliver secure and reliable services at scale.

About SOC 2 Type II

SOC 2 (Service Organization Control 2) is an internationally recognized auditing framework developed by the American Institute of Certified Public Accountants (AICPA). A SOC 2 Type II report evaluates both the design and operating effectiveness of controls over a defined review period, providing assurance that security and operational controls are functioning effectively on an ongoing basis.

About Dynacons

Dynacons Systems & Solutions Ltd. is a leading technology solutions and digital transformation company with over 30 years of experience in helping organizations build, modernize, and manage mission-critical technology environments. Headquartered in Mumbai and publicly listed in India, Dynacons serves enterprises, financial institutions, government organizations, and public sector undertakings as an integrated technology lifecycle partner across infrastructure, cloud, cybersecurity, digital workplace, software, managed services, and AI. The Company delivers end-to-end consulting, design, implementation, systems integration, and managed services, with deep expertise in Data Centre & Cloud Infrastructure, Network & Cybersecurity, Private and Public Cloud, Hyperconverged Infrastructure (HCI), Enterprise Applications, Digital Workplace Solutions, and AI-led Digital Transformation. Backed by a strong pan-India delivery network, a highly skilled workforce, and globally recognized certifications including CMMI Level 5 and multiple ISO standards, Dynacons enables customers to build secure, scalable, resilient, and future-ready digital ecosystems.
