# PRESS RELEASE

## Dynacons Wins Lenovo 360 TruScale DaaS Growth Partner of the Year Award – Asia Pacific

**Mumbai, India, January 23, 2026:** Dynacons Systems & Solutions Ltd., a leading provider of end-to-end IT solutions, is proud to announce that it has been awarded the “**Lenovo 360 TruScale DaaS Growth Partner of the Year FY 2024–25 – Asia Pacific**” at **Lenovo 360 Accelerate 2025**, Lenovo’s flagship Asia-Pacific partner event held in **Bangkok, Thailand**.

This prestigious recognition highlights Dynacons’ strong performance and consistent growth in delivering **Lenovo TruScale Device as a Service (DaaS)** solutions across the Asia-Pacific region. The award underscores Dynacons’ commitment to enabling customers to adopt flexible, scalable, and outcome-based IT consumption models that support digital transformation and business agility.

Lenovo TruScale DaaS provides a comprehensive, pay-as-you-grow device lifecycle solution that enhances user experience, reduces IT complexity, and drives cost efficiency. With a broad portfolio of hardware, software, and services delivered as a subscription, it empowers enterprises to modernize their digital workplace with speed and agility.

**Lenovo 360 Accelerate 2025** brought together technology leaders, channel partners, distributors, and industry visionaries from across the region to discuss the future of AI, digital transformation, and next-generation technologies. The event featured insights from global technology leaders and celebrated partner excellence within Lenovo’s ecosystem. The **Lenovo 360 Partner Awards** recognized selected partners for outstanding achievements, innovation, and customer-centric delivery. Dynacons was selected for its accelerated growth in the TruScale DaaS portfolio, strong execution capabilities, and its ability to help organizations modernize their digital workplaces while optimizing costs and improving user experience.

Dynacons has successfully implemented Device-as-a-Service (DaaS) solutions for customers across diverse industries, enabling predictable IT spending, simplified device lifecycle management, enhanced security, and improved workforce productivity. These successful engagements have further strengthened Dynacons’ position as a trusted partner in the digital workplace and as-a-service landscape. Looking ahead, Dynacons plans to further expand its Digital Workplace offerings by integrating advanced AI-driven solutions, strengthening managed services capabilities, and deepening customer engagements across the Asia-Pacific region.

**On the Occasion, Mr. Dharmesh S. Anjaria, Executive Director, said:** “We are delighted to receive the **Lenovo 360 TruScale DaaS Growth Partner of the Year – Asia Pacific** award. This recognition reflects the strength of our partnership with Lenovo and our consistent execution in delivering flexible, outcome-based digital workplace solutions. We remain committed to expanding our Digital Workplace offerings and

supporting customers across the Asia-Pacific region in their digital transformation journey.”

### **About Lenovo**

Lenovo Group Limited, trading as Lenovo is multinational technology company specializing in designing, manufacturing, and marketing consumer electronics, personal computers, software, business solutions, and related services. Lenovo is incorporated in Hong Kong & has operations in over 60 countries.

### **About Dynacons Systems & Solutions Limited**

Dynacons Systems & Solutions Ltd. is a 30-year-old IT services company headquartered in Mumbai with a strong pan-India footprint, operating across 250+ locations. The company has a large and skilled technical workforce and holds industry-leading certifications such as CMMI Level 5, ISO 9001, ISO 20000, and ISO 27000, reflecting robust process maturity and service quality. Dynacons provides end-to-end IT infrastructure and enterprise technology solutions, including infrastructure design and consulting, turnkey systems integration, large network and data centre deployments, cloud (private and public), hyper-converged infrastructure, SD-WAN, SDS, VDI, and facilities management services. Its offerings span all service models— IaaS, PaaS, and SaaS—and cover a broad range of enterprise services such as managed infrastructure, break-fix, managed print, cloud computing, systems integration, and application development and maintenance, backed by deep domain expertise across industries and emerging technologies.
