Disclosure of information pursuant to Regulation 30 of the Listing Regulations read with SEBI Master Circular No. HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated January 30, 2026

Acquisition of the entire shareholding of ST Advanced Composites Pvt. Ltd

S.No.	Particulars	Details
1.	Name of the target entity, details in brief such as size, turnover etc.	ST Advanced Composites (STAC) Private Ltd. The Authorized Share Capital of the Company is Rs. 50,00,000 divided into 5,00,000 Equity Shares of Rs. 10/- each. The Turnover as per Provisional Financial Statement as on 31 March 2026 is Rs.416.85 lakhs.
2.	Whether the acquisition would fall within related party transaction(s) and whether the promoter / promoter group / group companies have any interest in the entity being acquired? If yes, nature of interest and details thereof and whether the same is done at "arm's length"	No
3.	Industry to which the entity being acquired belongs	ST Advanced Composites is a Chennai-based advanced composite engineering company specializing in RF-transparent radomes, aerospace-grade structural components, and defence composite solutions.
4.	Objects and impact of acquisition (including but not limited to, disclosure of reasons for acquisition of target entity, if its business is outside the main line of business of the listed entity)	Upon completion of the said transaction, Data Patterns (India) Limited shall hold 100% stake in ST Advanced Composites Pvt Ltd. (STAC), and accordingly, STAC shall become a wholly owned subsidiary of the Data Patterns (India) Limited. The Objects and impact is as follows: Vertical Integration Data Patterns currently designs and manufactures radar electronics but procures radomes and composite structures externally. This results in margin leakage to third-party vendors, schedule dependency, and limited scope when bidding for integrated subsystem programmes. Acquiring STAC brings this capability in-house.

S.No.	Particulars	Details
		Integrated Subsystem Capability DRDO, international radar OEMs, and missile programme customers increasingly require a single vendor for electronics plus RF structures. Post-acquisition, Data Patterns can offer this, expanding the addressable value per programme to an estimated 1.3– 2.0x.
